Notes on pre-pages may please be seen

This is not a new scheme, but a contract similar to what SBM has done in the Swacch Sarvekshan Survey. We have also completed the empanelment of six agencies and now the RfP has to be issued to them. Moreover, the Liveability standards are largely impact indicators which the Niti Aayog is monitoring through the IFD.

Most important, based on the approval of IFD, the Hon'ble Minister has announced the start of the survey to assess the Liveability of cities and this fact has also been informed to the PMO in several meetings and communications. After going forward so much retreat will cause great embarrassment to the government and loss of face for all of us.

In view of the above JS&FA may kindly concur.

(DIRECTOR(IFD))

Integrated Finance Division

This is regarding concurrence of draft RfP for hiring a consultancy service by NIUA for "assessment of Liveability Index in selected cities".

2. The proposal was last examined in IFD at p.13/N. and it was observed that the proposal is a permanent ongoing yearly exercise, which tantamounts in its structure, ambition and expenditure, as a new scheme, it will necessitate an in-principle approval of Ministry of Finance, consultations with NITI Ayog, etc. followed by an EFC.

3. The Programme Div. has informed that this is not a new scheme, but a contract similar to what SBM has done in the Swachh Sarvekshan Survey. Further, it is in advanced stage and the Hon'ble Minister has already announced the start of the survey to assess the Liveability of cities and this fact has also been informed to the PMO in several meetings and communications.

4. Initially the Programme Division had stated that the World Bank had given their 'in-principle' approval to the REoI. Now it is understood that the World Bank has advised the Division to re-issue the EoI as proper procedure according to the WB guidelines was not followed while issuing /evaluating the EoI.

5. In view of above, there is no need to take any action at present.

Ref. Discussion with JS&FA

This is regarding draft RfP for hiring a consultancy service by NIUA for "assessment of Liveability Index in selected cities".

2. The proposal was last examined in IFD at p.13/N. and it was observed that since the proposal is an ongoing yearly exercise, which tantamounts in its structure, ambition and expenditure, as a new scheme, it will necessitate an in-principle approval of Ministry of Finance, consultations with NITI Ayog, etc. followed by an EFC.

3. The Programme Div. has stated that this is not a new scheme, but a contract similar to what SBM has done in the Swachh Sarvekshan Survey. It may be mentioned that basic structures of SCM and SBM are very different.While a gap analysis and a Service Level Benchmark is already inbuilt in the Smart City Proposals prepared by various empanelled agencies and cities were selected after comprehensive analysis of the proposals, no such exercise was undertaken for SBM. Swachh Sarvekshan was carried out to gauge the progress of the Mission from the baseline.

4. However, the Division has referred to a meeting chaired by Hon'ble PM, wherein it was noted that the municipal administration in India needs major reforms to make the cities sustainable in terms of generating own revenue to run the operations of basic utilities. In this regard, MoUD can think of ranking the cities in terms of performance of key utilities. The Liveability Index is an effort in this direction.

5. In view of para 4 above and preceding notes of Programme Division , we may concur to the proposal for assessing the Livability Standards of proposed 116 cities for one year. This would also give a fairly good idea of the progress of the Scheme. The estimates may be pruned accordingly.

REQUEST FOR EXPRESSIONS OF INTEREST (CONSULTING SERVICES – FIRMS SELECTION)

[*India*]
[***Capacity Building of Urban Development (CBUD)***]
Loan No./Credit No./ Grant No.: 4997-IN

Assignment Title: Shortlisting of Consulting Firms for Assessment of Liveability in Selected Cities
Reference No. (as per Procurement Plan): ____________________

The *Ministry of Urban Development, Government of India has received* financing from the World Bank toward the cost of the Capacity Building for Urban Development, and intends to apply part of the proceeds for consulting services.

The consulting services ("the Services") include Assessment of Liveability in 116 cities. The assignment is for a period of 7 months.
The National Institute of Urban Affairs (NIUA) on behalf of Ministry of Urban Development now invites eligible consulting firms ("Consultants") to indicate their interest in providing the Services. Interested Consultants should provide information demonstrating that they have the required qualifications and relevant experience to perform the Services. The shortlisting criteria are:

S.No.	Parameter	Maximum Marks
1.	General Experience of the Firm	10
2.	Staff having experience of carrying out similar assignments and having performed tasks related to the assignment	10
3	Experience of the firm in implementing assignments related to market research and field surveys in the urban areas	20
4	Specific experience of the Firm in implementing assignments related to surveys and field research in the urban areas through teams consisting of data collectors accredited with or belonging to inspection bodies such as Bureau Vertitas (India) Pvt. Ltd., UV SUD South Asia Pvt. or of equivalent status and repute	30

S.No.	Parameter	Maximum Marks
4	Experience of the firm in implementing assignments for undertaking analysis and assessment of data related to governance, transportation, environment, housing and sanitation.	30
	Total	**100**

The attention of interested Consultants is drawn to paragraph 1.9 of the World Bank's *Guidelines: Selection and Employment of Consultants [under IBRD Loans and IDA Credits & Grants] by World Bank Borrowers* July, 2016 ("Consultant Guidelines"), setting forth the World Bank's policy on conflict of interest.

Consultants may associate with other firms in the form of a consortium and joint venture to enhance their qualifications.

A Consultant will be selected in accordance with the QCBS method set out in the Consultant Guidelines.

Further information can be obtained at the address below during office hours [*Director, National Institute of Urban Affairs, Core 4-B, 1st Floor, India Habitat Centre, Lodhi Road New Delhi 11003.0900 to 1700 hours*].

Expressions of interest must be delivered in a written form to the address below (in person, or by mail, or by fax, or by e-mail) by [____________].

1 INTRODUCTION

1.1 Background

a) The Government of India along with State and Local Governments is implementing several flagship urban missions for improving various aspects of urban development in Indian cities. An underlying goal of these initiatives is to make Indian cities more 'Liveable. This will not only providing good quality core infrastructure and services, but also developing cities with ample opportunities for work, entertainment and cultural activities, improved social infrastructure and economic opportunities.

b) In order to do this through a structured approach it is important to create a common minimum framework, which cities can use to assess their 'Liveability' and measure their progress over time. In this context Ministry of Urban Development has developed a set of 'Liveability Standards of Cities'. These will act as a guiding framework for cities to chart their pathway towards liveability and result in a systematic improvement in the quality of life of citizens in Indian cities. The draft 'Liveability Standards' are available at Smart City website.

c) A total of 79 different standards are proposed across 15 different categories. The Ministry proposes to conduct an 'Annual Assessment of Liveability in the various standards and develop a 'City Liveability Index' of the liveability standards in selected cities.

d) A total of 114 Cities have been selected. Shortlisting process is being undertaken to identify a panel of consultants who will be eligible for selection to do assessment of liveability standards in selected cities.

1.2 Brief Terms of Reference

1.2.1 Scope of work for the Smart City Agencies

The broad tasks to be performed and key activities under the assignment ***(This is indicative and detailed scope of work will be provided in the RFP to be issued to the shortlisted empanelled Firms)*** will include:

a) Conduct a Reconnaissance Study of all cities included in the project. The study shall include City level kick off meetings with key officials from city government and other stakeholders. Study City demography, socio economic stratification and geography. Identification of data sources.
b) Prepare and submit to the NIUA, a City wise Inception Report. The Inception Report shall include Plan of Action, timelines for city field visits. Finalised schedule and Plan of Action in consultation with NIUA.
c) Data Collection and Field Surveys.
d) Maintain and submit raw data and data collection forms to NIUA.

e) Develop and maintain a digital data base of all data sets collected.

f) Conduct analysis of the raw data through Analytics team prepare aggregate data sets for all the standards and submit to NIUA.

g) Submit Draft Assessment reports to the cities and NIUA separate for each City along with aggregate data in the prescribed format, all raw data, sources of data, assumptions if any, record of discussions and other relevant documents.

h) Final City Assessment Report to the NIUA after including agreed recommendations of the NIUA,

The Details Terms of reference including payment schedule and implementation arrangement shall be provided in the Request for Proposal (RfP) to be issued by NIUA to the shortlisted consultants.

1.3 Availability of REOI Document

The document may be downloaded from the following website ___________and __________.

1.4 Validity of Applications

The Application shall be valid for a period of not less than 90 (Ninety) days from the Application Due Date hereinafter called "**Application Validity Period**". NIUA reserves the right to reject any or all the Applications without assigning any reason whatsoever.

1.5 Scope and Description of Shortlisting Process

a) NIUA proposes to adopt a single stage process to evaluate Applications received based on criteria set out in this REOI Document. Based on this evaluation a panel of consultants shall be prepared.

b) NIUA proposes to empanel eligible consultants through this process.

c) **The details of Cities are at Annexure "A".**

d) **The 'Liveability Standards for Cities' and methodology for assessment is available at link__________________.**

e) The purpose of Shortlisting process is to shortlist a panel of consulting firms that can carry out the assignment of assessment of liveability standards. However, by virtue of getting shortlisted with NIUA does not entitle shortlisted consultancy firms to claim their expenses incurred, if any, in the process of shortlisted nor to claim for any assignment, whatsoever, it may be.

f) The NIUA will invite technical and financial proposals from selected shortlisted consultancy firms by issuing RFP which will contain detailed scope of work and other details related to the assignment.

1.6 Schedule of Shortlisting Process

NIUA would endeavour to adhere to the following schedule:

Sr. No.	Event Description	Indicative Dates
1.	Date of Issue of REOI	
2.	Pre Application Conference	
3.	Last Date for receiving queries	
4.	NIUA's response to queries latest by	
5.	**Last Date of Submission of EOI**	

1.7 Pre-Application Conference

The date, time and venue of Pre-Application Conference shall be:

Date:
Time:
Venue: Conference Hall, Nirman Bhawan, New Delhi – 110108

1.8 Communications

All communications excluding the submission of Application shall be addressed to Email:______________________ with copy to _________ and __________. The submission shall be electronically on the portal ____________.

2 Instructions to Applicants

A. General

2.1 Scope of Application

a) NIUA shall receive Applications from eligible entities for the assignment in order to shortlist a panel of consultants.

b) The Applicant shall submit its Application in the form and manner specified in this REOI.

2.2 Eligible Applicants

a) The Applicant eligible for participating in the qualification process shall be any one of the following two categories:

  a. Category 1: Single Business Entity
  b. Category 2: A consortium of Business Entities (hereinafter referred to as "Consortium")

  The term Applicant would hereinafter apply to both the above-mentioned categories.

b) For the purpose of this REOI, a Business Entity shall mean a company incorporated in India under the provisions of the Companies Act, 2013 or under LLP Act or under the equivalent law in case of a foreign Company. Copy of such Registration Certificate should be submitted along with the Application.

c) A Consortium of a maximum of Five (5) members of above such entities including Lead Member shall be allowed and shall hereinafter be referred as "Consortium".

d) The Applicant should submit a Power of Attorney as per the format enclosed at **Appendix 2**, authorising the signatory of the Application to commit the Applicant.

e) Applications submitted by a Consortium should comply with the following additional requirements:

  a. The number of members in the Consortium would be limited to Five(5) including the lead member;
  b. The Application should contain the information required from each member;
  c. The Application should include a description of the roles and responsibilities of all the members;

d. Members of the Consortium shall nominate one member as the Lead Member and that member must be an entity as defined in clause 2.2.(b);

e. An Applicant who has applied for Shortlisting in its individual capacity or as part of a Consortium cannot participate as a member of any other Consortium applying for the Shortlisting;

f. The members of the Consortium shall execute a Power of Attorney for Lead Member of Consortium as per the format enclosed at **Appendix 1**; and

g. The members of the Consortium shall enter into a Memorandum of Understanding (MoU), as per the format provided under **Appendix 8** for the purpose of submission of the Application. The MoU should, inter alia,

   i. Clearly outline the proposed roles and responsibilities of each member of the Consortium; and

   ii. Include a statement to the effect that all members of the Consortium shall be liable jointly and severally for the assignments arising out of the States, Union Territories and million plus cities, as the case may be and in accordance with the terms of the contract agreement therefore;

A copy of the MoU signed by all members should be submitted with the Application. The MoU entered into between the members of the Consortium should contain the above requirements, failing which the Application shall be considered non-responsive.

f) An Applicant or member of Consortium which has earlier been barred by NIUA or blacklisted by any state government or central government / department / agency in India/ from participating in Bidding Process shall not be eligible to submit an Application, either individually or as member of a Consortium, if such bar subsists as on the Application Due Date. The Applicant or the member of Consortium shall be required to furnish an affidavit that there is no such bar imposed and existing as on the Application Due Date as per format provided in **Appendix 7**. In case the Applicant or member of Consortium gets banned by NIUA blacklisted by any state government or central government / department / agency during the Shortlisting Period such Applicant shall cease to be empanelled with NIUA.

g) A firm declared ineligible by the International Bank for Reconstruction and Development (IBRD), Washington, D.C., U.S.A., or the International Development Association, Washington, D.C., U.S.A Bank ("Bank") in accordance with the Bank Guidelines on Preventing and Combating Fraud and Corruption in Projects Financed by IBRD Loans and IDA Credits and Grants or debarred from providing consultancy services by and government agency in India shall be ineligible to submit an Application. In case the Applicant or member of Consortium is declared ineligible by the Bank or any government agency in India during the Shortlisting Period then such Applicant shall cease to be shortlisted with NIUA.

h) An Applicant or member of Consortium should have, during the last three years, neither failed to perform on any agreement, as evidenced by

imposition of a penalty or a judicial pronouncement or arbitration award against the Applicant or member of Consortium, nor been expelled from any project or agreement nor have had any agreement terminated for breach by such Applicant or member of Consortium. In case the Applicant or member of Consortium during period of Shortlisting, fails to perform on any legal agreement, as evidenced by imposition of a penalty or a judicial pronouncement or arbitration award against the Applicant or member of Consortium, or been expelled from any project or agreement or have had any agreement terminated for breach by such Applicant or member of Consortium, such Applicant shall cease to be empanelled with NIUA.

i) While submitting an Application, the Applicant should attach clearly marked and referenced continuation sheets in the event that the space provided in the specified forms in the Appendices is insufficient. Alternatively, Applicants may format the specified forms making due provision for incorporation of the requested information.

2.3 Change in Consortium Composition

Any change in the composition of a Consortium during the term of Shortlisting shall be permitted only with prior written approval from NIUA.. After Shortlisting no change in the consortium will be allowed.

2.4 Number of Applications

Each Applicant shall submit only one (1) Application for the assignment. Any Applicant, who submits or participates in more than one Application for the Shortlisting will be disqualified and will also cause the disqualification of the Consortium of which it is a member.

2.5 Application Preparation Cost

The Applicant shall be responsible and shall bear all costs and expenses associated with the preparation of its Application and its participation in the Shortlisting. It is clarified that NIUA shall be not responsible or in any way liable for such costs, expenses regardless of the conduct or outcome of the Shortlisting.

2.6 Acknowledgement by the Applicant

a) It is desirable that each Applicant submits it's Application after collection of required information and analysis or any other matter considered relevant by it.

b) It would be deemed that by submitting the Application, the Applicant has:

  a. Made a complete and careful examination of the REOI Document; and
  b. Received all relevant information requested from NIUA.

c) NIUA shall not be liable for any mistake or error on the part of the Applicant in respect of the above.

2.7 Right to Accept or Reject any of the Applications

a) Notwithstanding anything contained in this REOI Document, NIUA reserves the right to accept or reject any Application or to annul the Shortlisting Process or reject all Applications at any time, without assigning any reasons thereof and without any liability or any obligation, of any nature whatsoever, for such rejection or annulment.

b) NIUA reserves the right to reject any Application if:
   a. At any time, a material misrepresentation is made or discovered; or
   b. The Applicant does not respond promptly and diligently to requests for additional information or clarification required for evaluation of the Application.

c) Rejection of the Application by NIUA, as aforesaid, would lead to the disqualification of the Applicant. If the Applicant is a part of Consortium, then the entire Consortium would be disqualified.

2.8 Amendment of REOI Document

a) At any time prior to the Application Due Date, NIUA may, for any reason, whether at its own initiative or in response to clarifications requested by an Applicant, modify the REOI Document by the issuance of Addenda posted on the website: _____________.

b) Any Addendum thus issued will also be posted on the website: _______.

c) In order to provide the Applicants a reasonable time to examine the Addendum, or for any other reason, NIUA may, at its own discretion, extend the Application Due Date.

2.9 Clarifications

An Applicant requiring any clarification on the REOI Document may request NIUA online through mail at Email: __________with copy to ______________ and _____________. The Applicants should send in their queries latest by the relevant date and time mentioned in Clause 1.7 'Schedule of Shortlisting Process'. NIUA would endeavour to respond to the queries by the date mentioned in the Schedule of Shortlisting Process. The responses will be uploaded on the website: ________.

B. Preparation and Submission of Application

2.10 Language

The Application and all related correspondence and documents should be furnished by the Applicant with the Application in English or in any other language provided that these are accompanied by appropriate translations of

the pertinent passages in the English language. Supporting material, which are not translated into English, may not be considered. For the purpose of interpretation and evaluation of the Application, the translated in English language shall prevail.

2.11 Submission of Application

a) The Applicant would provide all the information in terms of this REOI Document. Only those Applications shall be evaluated that are received in the required format and complete in all respects. **The Application shall be submitted in maximum 100 pages.**

b) The Applicant shall submit a digitally signed, encrypted and complete Proposal comprising the documents and forms in accordance with Clause 2.12. The submission shall be done electronically on the portal ________. Proposals submitted by any other means will be rejected.

2.12 Sealing and Marking of Applications

a) An authorized representative of the Applicant shall digitally sign the submission letters in the required format. The authorization shall be in the form of a written power of attorney scanned and uploaded together with the Application as per Appendix 2.

b) The Application shall contain the following (check-list):

a.	Letter of Application	Refer Appendix 1
b.	Power of Attorney for signing of the Application (in case of Consortium, this would need to be provided by all the m ember)	Refer Appendix 2
c.	In case of Consortium, Power of Attorney for signing of Application by the Lead Member	Refer Appendix 3
d.	Details of Applicant (in case of Consortium, this would need to be provided by all the members)	Refer Appendix 4
e.	Experience of the Firm in implementing assignments related to market research and surveys.	Refer Appendix 5 and 5A
f.	Specific experience of the Firm in implementing assignments related to surveys and field research in the urban areas through teams consisting of data collectors accredited with or belonging to inspection bodies such as Bureau Vertitas (India) Pvt. Ltd., UV SUD South Asia Pvt. or of equivalent status and repute.	Refer Appendix 6 and 6A
g.	Experience of Applicant in implementing assignments of undertaking analysis and	Refer Appendix 7 and 7A

	assessment of data related to governance, transportation, environment, housing and sanitation.	
h.	Format for Affidavit Certifying that Entity/Directors(s) of Entity not Blacklisted	Refer Appendix 8
i.	Format for Memorandum of Understanding (MOU)	Refer Appendix 9
j.	Proof of registration of the Applicant (in case of Consortium, proof of registration of all the Members)	-

2.13 Application Due Date

a) The Application or its modifications must be uploaded on the portal no later than the deadline mentioned in the Schedule of Shortlisting Process (refer Clause 1.7), or any extension to this deadline. The electronic system will not accept any Proposal or its modification for uploading after the deadline. Applications submitted by either facsimile transmission or telex shall not be accepted.

b) NIUA may, in exceptional circumstances, and at its sole discretion, extend the Application Due Date by issuing an Addendum in accordance with Clause 2.8 (a), uniformly for all Applicants.

2.14 Late Applications

The electronic system will not accept any Application or its modification for uploading after the deadline.

Evaluation Process

2.15 Opening of Applications

The NIUA evaluation committee shall conduct the opening of the Applications online after the Application submission deadline.

2.16 Evaluation of Applications

a) The Applications, so received, would subsequently be examined and evaluated in accordance with the criteria set out in Section 3.

b) NIUA reserve the right to utilise the services of consultant/s or advisor/s, to assist in the examination, evaluation, and comparison of Applications.

c) NIUA reserves the right to reject any or all the Applications, if:
  a. At any time, a material misrepresentation is made or discovered; or

b. The Applicant does not respond promptly and diligently to requests for supplemental information required for the evaluation of the Application.

2.17 Confidentiality

a) Information relating to the examination, clarification, evaluation, and recommendation for the Shortlisted Applicants shall not be disclosed to any person not officially concerned with the Shortlisting Process. NIUA will treat all information submitted as part of Application in confidence and would require all those who have access to such material to treat the same in confidence. At the conclusion of the evaluation process, NIUA shall notify the list of Applicants who have been shortlisted.

b) NIUA shall not divulge any such information unless it is ordered to do so by any authority pursuant to applicable law or order of a competent court or tribunal, which requires its disclosure.

2.18 Tests of Responsiveness

a) Prior to evaluation of Applications, it shall be determined whether each Application is responsive to the requirements of the REOI Document. An Application shall be considered non responsive if the Application:

a. is not received online as indicated at 2.11;

b. is not digitally signed with the submission letters as stipulated in Clause 2.12 (a);

c. does not contains all the information and documents as set out in Clause 2.12 (b) and in the formats set out in this REOI Document; and

d. Does not mentions the Application Validity Period as set out in Clause 1.4.

b) NIUA reserves the right to reject any Application which is non-responsive and no request for alteration, modification, substitution or withdrawal shall be entertained by NIUA in respect of such Applications.

2.19 Clarifications to Facilitate Evaluation

a) To facilitate evaluation of Applications, NIUA, at its sole discretion, seek clarifications in writing from any Applicant regarding its Application. Such clarifications shall be provided within the time specified by NIUA, as the case may be, for this purpose. Any request for clarifications and all clarifications shall be in writing.

b) If an Applicant does not provide clarifications sought under Sub-Clause 2.19 (a) above within the prescribed time, its Application shall be liable to be rejected. In case the Application is not rejected, NIUA may proceed to evaluate the Application by construing the particulars requiring clarification

to the best of its understanding, and the Applicant shall be barred from subsequently questioning such interpretation.

2.20 Conflict of Interest

a) NIUA requires that the Shortlisted Consultants provide professional, objective, and impartial advice and at all times hold paramount the interests of NIUA, strictly avoid conflicts with other assignments or its own interests, and act without any consideration for future work. The Shortlisted Consultants shall not accept or engage in any assignment that would be in conflict with, or that may place it in a position of not being able to carry out the assignment for which it has been engaged.

C. Shortlisting and Notification

2.21 Shortlisting of Consultants

a) After the evaluation of Applications, NIUA shall prepare a list of Applicants who meet the qualification criteria as set out in this REOI Document. Other Applicants may be informed that their Applications have been unsuccessful.

b) The shortlisted Applicants would be duly notified that they have been shortlisted for the assignment.

c) The NIUA reserves the right to make additions in the panel after following due process.

3 Criteria for Evaluation

3.1 Evaluation of Applications

a) This section provides the details of evaluation process. The Applications will be evaluated on the basis of the following parameters:

a. General Experience of the Firm: **Number of years' experience**

b. Staff having experience of carrying out similar assignments and having performed tasked related to the assignment: **Number of such staff.**

c. Experience of the firm in implementing assignments related to market research and field surveys in the urban areas: **Number of assignments.**

d. Specific experience of the Firm in implementing assignments related to surveys and field research in the urban areas through teams consisting of data collectors accredited with or belonging to inspection

bodies such as Bureau Vertitas (India) Pvt. Ltd., UV SUD South Asia Pvt. or of equivalent status and repute: **Number of assignments**

e. Experience of the firm in implementing assignments for undertaking analysis and assessment of data related to governance, transportation, environment, housing and sanitation; **Number of assignments.**

b) The Applications will be evaluated on the basis of the following parameters for each of the three respective areas:

S.No.	Parameter	Maximum Marks
1.	General Experience of the Firm	**10**
2.	Staff having experience of carrying out similar assignments and having performed tasks related to the assignment	**10**
3	Experience of the firm in implementing assignments related to market research and field surveys in the urban areas	**20**
4	Specific experience of the Firm in implementing assignments related to surveys and field research in the urban areas through teams consisting of data collectors accredited with or belonging to inspection bodies such as Bureau Vertitas (India) Pvt. Ltd., UV SUD South Asia Pvt. or of equivalent status and repute	**30**
4	Experience of the firm in implementing assignments for undertaking analysis and assessment of data related to governance, transportation, environment, housing and sanitation.	**30**
	Total	**100**

a) The Applicants (firm) who secure a score of 75 marks or more out of 100 shall be considered for shortlisting.

b) After evaluation of the Applications and scoring of the same, the Applicants, with at least 75marks shall be ranked in descending order of the scores secured and based on that shortlisted panel will be prepared.

c) RFP will be issued to the shortlisted firms for selection on QCBS.

4 Fraud and Corrupt Practices

4.1 The Applicants and their respective officers, employees, agents and advisers shall observe the highest standard of ethics during the Shortlisting Process. Notwithstanding anything to the contrary contained in this REOI, NIUA shall reject a proposal without being liable in any manner whatsoever to the Applicant, if it determines that the Applicant has, directly or indirectly or through an agent, engaged in corrupt practice, fraudulent practice, coercive practice, undesirable practice or restrictive practice (collectively the "**Prohibited Practices**") in the Shortlisting Process.

4.2 Without prejudice to the rights of NIUA under Clause 4.1 hereinabove, if an Applicant or Consultant, as the case may be, is found by the NIUA to have directly or indirectly or through an agent, engaged or indulged in any corrupt, fraudulent, coercive, undesirable or restrictive practice during the Shortlisting Process, or after the issue of the notification of Shortlisting, such Applicant or Consultant shall not be eligible to participate in any tender or RFP issued by NIUA during a period of 2 (two) years from the date as the case may be.

4.3 For the purposes of this Section, the following terms shall have the meaning hereinafter respectively assigned to them:

a. "**corrupt practice**" means (i) the offering, giving, receiving, or soliciting, directly or indirectly, of anything of value to influence the action of any person connected with the Shortlisting Process; or (ii) save as provided herein, engaging in any manner whatsoever, whether during the Shortlisting Process or after the issue of the Notification of Shortlisting as the case may be, any person in respect of any matter relating to the Shortlisting or Notification of Shortlisting, who at any time has been or is a legal, financial or technical consultant/ adviser of NIUA in relation to any matter concerning the Project;

b. "**fraudulent practice**" means a misrepresentation or omission of facts or disclosure of incomplete facts, in order to influence the Shortlisting Process;

c. "**coercive practice**" means impairing or harming or threatening to impair or harm, directly or indirectly, any persons or property to influence any person's participation or action in the Shortlisting Process;

d. "**undesirable practice**" means (i) establishing contact with any person connected with or employed or engaged by the NIUA with the objective of canvassing, lobbying or in any manner influencing or attempting to influence the Shortlisting Process; or (ii) having a Conflict of Interest; and

e. "**Restrictive practice**" means forming a cartel or arriving at any understanding or arrangement among Applicants with the objective of

restricting or manipulating a full and fair competition in the Shortlisting Process.

5 Pre-Application Conference

5.1 Pre-Application Conference of the Applicants shall be convened at the designated date, time and place. A maximum of two representatives of each Applicant shall be allowed to participate on production of an authority letter from the Applicant.

5.2 During the course of Pre-Application Conference, the Applicants will be free to seek clarifications and make suggestions for consideration of NIUA. NIUA shall endeavour to provide clarifications and such further information as it may, in its sole discretion, consider appropriate for facilitating a fair, transparent and competitive Shortlisting Process.

6 Miscellaneous

6.1 The Shortlisting Process shall be governed by, and construed in accordance with, the laws of India and the Courts at New Delhi shall have exclusive jurisdiction over all disputes arising under, pursuant to and/or in connection with the Shortlisting Process.

6.2 NIUA, in its sole discretion and without incurring any obligation or liability, reserves the right, at any time, to:

a. Suspend and/or cancel the Shortlisting Process and/or amend and/or supplement the Shortlisting Process or modify the dates or other terms and conditions relating thereto;
b. Consult with any Applicant in order to receive clarification or further information;
c. Retain any information and/or evidence submitted to NIUA by, on behalf of and/or in relation to any Applicant; and/or
d. Independently verify, disqualify, reject and/or accept any and all submissions or other information and/or evidence submitted by or on behalf of any Applicant.

6.3 It shall be deemed that by submitting the Application, the Applicant agrees and releases NIUA, its employees, agents and advisers, irrevocably, unconditionally, fully and finally from any and all liability for claims, losses, damages, costs, expenses or liabilities in any way related to or arising from the exercise of any rights and/or performance of any obligations hereunder, pursuant hereto and/or in connection herewith and waives any and all rights and/or claims it may have in this respect, whether actual or contingent, whether present or future.

6.4 All documents and other information supplied by NIUA or submitted by an Applicant shall remain or become, as the case may be, the property of NIUA. NIUA will not return any submissions made hereunder. Applicants are required to treat all such documents and information as strictly confidential.

6.5 NIUA reserves the right to make inquiries with any of the clients listed by the Applicants in their previous experience record.

Annexure A- List of Cities 34

1 INTRODUCTION

1.1 Background

a) The Government of India along with State and Local Governments is implementing several flagship urban missions for improving various aspects of urban development in Indian cities. An underlying goal of these initiatives is to make Indian cities more 'Liveable. This will not only providing good quality core infrastructure and services, but also developing cities with ample opportunities for work, entertainment and cultural activities, improved social infrastructure and economic opportunities.

b) In order to do this through a structured approach it is important to create a common minimum framework, which cities can use to assess their 'Liveability' and measure their progress over time. In this context Ministry of Urban Development has developed a set of 'Liveability Standards of Cities'. These will act as a guiding framework for cities to chart their pathway towards liveability and result in a systematic improvement in the quality of life of citizens in Indian cities. The draft 'Liveability Standards' are available at Smart City website.

c) A total of 79 different standards are proposed across 15 different categories. The Ministry proposes to conduct an 'Annual Assessment of Liveability in the various standards and develop a 'City Liveability Index' of the liveability standards in selected cities.

d) A total of 114 Cities have been selected. Shortlisting process is being undertaken to identify a panel of consultants who will be eligible for selection to do assessment of liveability standards in selected cities.

1.2 Brief Terms of Reference

1.2.1 Scope of work for the Smart City Agencies

The broad tasks to be performed and key activities under the assignment ***(This is indicative and detailed scope of work will be provided in the RFP to be issued to the shortlisted empanelled Firms)*** will include:

a) Conduct a Reconnaissance Study of all cities included in the project. The study shall include City level kick off meetings with key officials from city government and other stakeholders. Study City demography, socio economic stratification and geography. Identification of data sources.
b) Prepare and submit to the NIUA, a City wise Inception Report. The Inception Report shall include Plan of Action, timelines for city field visits. Finalised schedule and Plan of Action in consultation with NIUA.
c) Data Collection and Field Surveys.
d) Maintain and submit raw data and data collection forms to NIUA.

e) Develop and maintain a digital data base of all data sets collected.

f) Conduct analysis of the raw data through Analytics team prepare aggregate data sets for all the standards and submit to NIUA.

g) Submit Draft Assessment reports to the cities and NIUA separate for each City along with aggregate data in the prescribed format, all raw data, sources of data, assumptions if any, record of discussions and other relevant documents.

h) Final City Assessment Report to the NIUA after including agreed recommendations of the NIUA,

The Details Terms of reference including payment schedule and implementation arrangement shall be provided in the Request for Proposal (RfP) to be issued by NIUA to the shortlisted consultants.

1.3 Availability of REOI Document

The document may be downloaded from the following website ___________and __________.

1.4 Validity of Applications

The Application shall be valid for a period of not less than 90 (Ninety) days from the Application Due Date hereinafter called "**Application Validity Period**". NIUA reserves the right to reject any or all the Applications without assigning any reason whatsoever.

1.5 Scope and Description of Shortlisting Process

a) NIUA proposes to adopt a single stage process to evaluate Applications received based on criteria set out in this REOI Document. Based on this evaluation a panel of consultants shall be prepared.

b) NIUA proposes to empanel eligible consultants through this process.

c) **The details of Cities are at Annexure "A".**

d) **The 'Liveability Standards for Cities' and methodology for assessment is available at link_________________.**

e) The purpose of Shortlisting process is to shortlist a panel of consulting firms that can carry out the assignment of assessment of liveability standards. However, by virtue of getting shortlisted with NIUA does not entitle shortlisted consultancy firms to claim their expenses incurred, if any, in the process of shortlisted nor to claim for any assignment, whatsoever, it may be.

f) The NIUA will invite technical and financial proposals from selected shortlisted consultancy firms by issuing RFP which will contain detailed scope of work and other details related to the assignment.

1.6 Schedule of Shortlisting Process

NIUA would endeavour to adhere to the following schedule:

Sr. No.	Event Description	Indicative Dates
1.	Date of Issue of REOI	
2.	Pre Application Conference	
3.	Last Date for receiving queries	
4.	NIUA's response to queries latest by	
5.	**Last Date of Submission of EOI**	

1.7 Pre-Application Conference

The date, time and venue of Pre-Application Conference shall be:

Date:
Time:
Venue: Conference Hall, Nirman Bhawan, New Delhi – 110108

1.8 Communications

All communications excluding the submission of Application shall be addressed to Email:_______________________ with copy to _________ and __________. The submission shall be electronically on the portal _____________.

2 Instructions to Applicants

A. General

2.1 Scope of Application

a) NIUA shall receive Applications from eligible entities for the assignment in order to shortlist a panel of consultants.

b) The Applicant shall submit its Application in the form and manner specified in this REOI.

2.2 Eligible Applicants

a) The Applicant eligible for participating in the qualification process shall be any one of the following two categories:

   a. Category 1: Single Business Entity
   b. Category 2: A consortium of Business Entities (hereinafter referred to as “Consortium”)

   The term Applicant would hereinafter apply to both the above-mentioned categories.

b) For the purpose of this REOI, a Business Entity shall mean a company incorporated in India under the provisions of the Companies Act, 2013 or under LLP Act or under the equivalent law in case of a foreign Company. Copy of such Registration Certificate should be submitted along with the Application.

c) A Consortium of a maximum of Five (5) members of above such entities including Lead Member shall be allowed and shall hereinafter be referred as "Consortium".

d) The Applicant should submit a Power of Attorney as per the format enclosed at **Appendix 2**, authorising the signatory of the Application to commit the Applicant.

e) Applications submitted by a Consortium should comply with the following additional requirements:

   a. The number of members in the Consortium would be limited to Five(5) including the lead member;
   b. The Application should contain the information required from each member;
   c. The Application should include a description of the roles and responsibilities of all the members;

d. Members of the Consortium shall nominate one member as the Lead Member and that member must be an entity as defined in clause 2.2.(b);

e. An Applicant who has applied for Shortlisting in its individual capacity or as part of a Consortium cannot participate as a member of any other Consortium applying for the Shortlisting;

f. The members of the Consortium shall execute a Power of Attorney for Lead Member of Consortium as per the format enclosed at **Appendix 1**; and

g. The members of the Consortium shall enter into a Memorandum of Understanding (MoU), as per the format provided under **Appendix 8** for the purpose of submission of the Application. The MoU should, inter alia,

   i. Clearly outline the proposed roles and responsibilities of each member of the Consortium; and

   ii. Include a statement to the effect that all members of the Consortium shall be liable jointly and severally for the assignments arising out of the States, Union Territories and million plus cities, as the case may be and in accordance with the terms of the contract agreement therefore;

A copy of the MoU signed by all members should be submitted with the Application. The MoU entered into between the members of the Consortium should contain the above requirements, failing which the Application shall be considered non-responsive.

f) An Applicant or member of Consortium which has earlier been barred by NIUA or blacklisted by any state government or central government / department / agency in India/ from participating in Bidding Process shall not be eligible to submit an Application, either individually or as member of a Consortium, if such bar subsists as on the Application Due Date. The Applicant or the member of Consortium shall be required to furnish an affidavit that there is no such bar imposed and existing as on the Application Due Date as per format provided in **Appendix 7**. In case the Applicant or member of Consortium gets banned by NIUA blacklisted by any state government or central government / department / agency during the Shortlisting Period such Applicant shall cease to be empanelled with NIUA.

g) A firm declared ineligible by the International Bank for Reconstruction and Development (IBRD), Washington, D.C., U.S.A., or the International Development Association, Washington, D.C., U.S.A Bank ("Bank") in accordance with the Bank Guidelines on Preventing and Combating Fraud and Corruption in Projects Financed by IBRD Loans and IDA Credits and Grants or debarred from providing consultancy services by and government agency in India shall be ineligible to submit an Application. In case the Applicant or member of Consortium is declared ineligible by the Bank or any government agency in India during the Shortlisting Period then such Applicant shall cease to be shortlisted with NIUA.

h) An Applicant or member of Consortium should have, during the last three years, neither failed to perform on any agreement, as evidenced by

imposition of a penalty or a judicial pronouncement or arbitration award against the Applicant or member of Consortium, nor been expelled from any project or agreement nor have had any agreement terminated for breach by such Applicant or member of Consortium. In case the Applicant or member of Consortium during period of Shortlisting, fails to perform on any legal agreement, as evidenced by imposition of a penalty or a judicial pronouncement or arbitration award against the Applicant or member of Consortium, or been expelled from any project or agreement or have had any agreement terminated for breach by such Applicant or member of Consortium, such Applicant shall cease to be empanelled with NIUA.

i) While submitting an Application, the Applicant should attach clearly marked and referenced continuation sheets in the event that the space provided in the specified forms in the Appendices is insufficient. Alternatively, Applicants may format the specified forms making due provision for incorporation of the requested information.

2.3 Change in Consortium Composition

Any change in the composition of a Consortium during the term of Shortlisting shall be permitted only with prior written approval from NIUA.. After Shortlisting no change in the consortium will be allowed.

2.4 Number of Applications

Each Applicant shall submit only one (1) Application for the assignment. Any Applicant, who submits or participates in more than one Application for the Shortlisting will be disqualified and will also cause the disqualification of the Consortium of which it is a member.

2.5 Application Preparation Cost

The Applicant shall be responsible and shall bear all costs and expenses associated with the preparation of its Application and its participation in the Shortlisting. It is clarified that NIUA shall be not responsible or in any way liable for such costs, expenses regardless of the conduct or outcome of the Shortlisting.

2.6 Acknowledgement by the Applicant

a) It is desirable that each Applicant submits it's Application after collection of required information and analysis or any other matter considered relevant by it.

b) It would be deemed that by submitting the Application, the Applicant has:

  a. Made a complete and careful examination of the REOI Document; and
  b. Received all relevant information requested from NIUA.

c) NIUA shall not be liable for any mistake or error on the part of the Applicant in respect of the above.

2.7 Right to Accept or Reject any of the Applications

a) Notwithstanding anything contained in this REOI Document, NIUA reserves the right to accept or reject any Application or to annul the Shortlisting Process or reject all Applications at any time, without assigning any reasons thereof and without any liability or any obligation, of any nature whatsoever, for such rejection or annulment.

b) NIUA reserves the right to reject any Application if:
   a. At any time, a material misrepresentation is made or discovered; or
   b. The Applicant does not respond promptly and diligently to requests for additional information or clarification required for evaluation of the Application.

c) Rejection of the Application by NIUA, as aforesaid, would lead to the disqualification of the Applicant. If the Applicant is a part of Consortium, then the entire Consortium would be disqualified.

2.8 Amendment of REOI Document

a) At any time prior to the Application Due Date, NIUA may, for any reason, whether at its own initiative or in response to clarifications requested by an Applicant, modify the REOI Document by the issuance of Addenda posted on the website: _____________.

b) Any Addendum thus issued will also be posted on the website: _______.

c) In order to provide the Applicants a reasonable time to examine the Addendum, or for any other reason, NIUA may, at its own discretion, extend the Application Due Date.

2.9 Clarifications

An Applicant requiring any clarification on the REOI Document may request NIUA online through mail at Email: __________with copy to ______________ and ______________. The Applicants should send in their queries latest by the relevant date and time mentioned in Clause 1.7 'Schedule of Shortlisting Process'. NIUA would endeavour to respond to the queries by the date mentioned in the Schedule of Shortlisting Process. The responses will be uploaded on the website: ________.

B. Preparation and Submission of Application

2.10 Language

The Application and all related correspondence and documents should be furnished by the Applicant with the Application in English or in any other language provided that these are accompanied by appropriate translations of

the pertinent passages in the English language. Supporting material, which are not translated into English, may not be considered. For the purpose of interpretation and evaluation of the Application, the translated in English language shall prevail.

2.11 Submission of Application

a) The Applicant would provide all the information in terms of this REOI Document. Only those Applications shall be evaluated that are received in the required format and complete in all respects. **The Application shall be submitted in maximum 100 pages.**

b) The Applicant shall submit a digitally signed, encrypted and complete Proposal comprising the documents and forms in accordance with Clause 2.12. The submission shall be done electronically on the portal ________. Proposals submitted by any other means will be rejected.

2.12 Sealing and Marking of Applications

a) An authorized representative of the Applicant shall digitally sign the submission letters in the required format. The authorization shall be in the form of a written power of attorney scanned and uploaded together with the Application as per Appendix 2.

b) The Application shall contain the following (check-list):

a.	Letter of Application	Refer Appendix 1
b.	Power of Attorney for signing of the Application (in case of Consortium, this would need to be provided by all the m ember)	Refer Appendix 2
c.	In case of Consortium, Power of Attorney for signing of Application by the Lead Member	Refer Appendix 3
d.	Details of Applicant including financial strength (in case of Consortium, this would need to be provided by all the members)	Refer Appendix 4
e.	Experience of the Firm in implementing assignments related to market research and surveys.	Refer Appendix 5 and 5A
f.	Specific experience of the Firm in implementing assignments related to surveys and field research in the urban areas through teams consisting of data collectors accredited with or belonging to inspection bodies such as Bureau Veritas (India) Pvt. Ltd., UV SUD South Asia Pvt. or of equivalent status and repute.	Refer Appendix 6 and 6A
g.	Experience of Applicant in implementing assignments of undertaking analysis and	Refer Appendix 7

	assessment of data related to governance, transportation, environment, housing and sanitation.	and 7A
h.	Format for Affidavit Certifying that Entity/Directors(s) of Entity not Blacklisted	Refer Appendix 8
i.	Format for Memorandum of Understanding (MOU)	Refer Appendix 9
j.	Proof of registration of the Applicant (in case of Consortium, proof of registration of all the Members)	-

2.13 Application Due Date

a) The Application or its modifications must be uploaded on the portal no later than the deadline mentioned in the Schedule of Shortlisting Process (refer Clause 1.7), or any extension to this deadline. The electronic system will not accept any Proposal or its modification for uploading after the deadline. Applications submitted by either facsimile transmission or telex shall not be accepted.

b) NIUA may, in exceptional circumstances, and at its sole discretion, extend the Application Due Date by issuing an Addendum in accordance with Clause 2.8 (a), uniformly for all Applicants.

2.14 Late Applications

The electronic system will not accept any Application or its modification for uploading after the deadline.

Evaluation Process

2.15 Opening of Applications

The NIUA evaluation committee shall conduct the opening of the Applications online after the Application submission deadline.

2.16 Evaluation of Applications

a) The Applications, so received, would subsequently be examined and evaluated in accordance with the criteria set out in Section 3.

b) NIUA reserve the right to utilise the services of consultant/s or advisor/s, to assist in the examination, evaluation, and comparison of Applications.

c) NIUA reserves the right to reject any or all the Applications, if:
   a. At any time, a material misrepresentation is made or discovered; or

b. The Applicant does not respond promptly and diligently to requests for supplemental information required for the evaluation of the Application.

2.17 Confidentiality

a) Information relating to the examination, clarification, evaluation, and recommendation for the Shortlisted Applicants shall not be disclosed to any person not officially concerned with the Shortlisting Process. NIUA will treat all information submitted as part of Application in confidence and would require all those who have access to such material to treat the same in confidence. At the conclusion of the evaluation process, NIUA shall notify the list of Applicants who have been shortlisted.

b) NIUA shall not divulge any such information unless it is ordered to do so by any authority pursuant to applicable law or order of a competent court or tribunal, which requires its disclosure.

2.18 Tests of Responsiveness

a) Prior to evaluation of Applications, it shall be determined whether each Application is responsive to the requirements of the REOI Document. An Application shall be considered non responsive if the Application:
   a. is not received online as indicated at 2.11;
   b. is not digitally signed with the submission letters as stipulated in Clause 2.12 (a);
   c. does not contains all the information and documents as set out in Clause 2.12 (b) and in the formats set out in this REOI Document; and
   d. Does not mentions the Application Validity Period as set out in Clause 1.4.

b) NIUA reserves the right to reject any Application which is non-responsive and no request for alteration, modification, substitution or withdrawal shall be entertained by NIUA in respect of such Applications.

2.19 Clarifications to Facilitate Evaluation

a) To facilitate evaluation of Applications, NIUA, at its sole discretion, seek clarifications in writing from any Applicant regarding its Application. Such clarifications shall be provided within the time specified by NIUA, as the case may be, for this purpose. Any request for clarifications and all clarifications shall be in writing.

b) If an Applicant does not provide clarifications sought under Sub-Clause 2.19 (a) above within the prescribed time, its Application shall be liable to be rejected. In case the Application is not rejected, NIUA may proceed to evaluate the Application by construing the particulars requiring clarification

to the best of its understanding, and the Applicant shall be barred from subsequently questioning such interpretation.

2.20 Conflict of Interest

a) NIUA requires that the Shortlisted Consultants provide professional, objective, and impartial advice and at all times hold paramount the interests of NIUA, strictly avoid conflicts with other assignments or its own interests, and act without any consideration for future work. The Shortlisted Consultants shall not accept or engage in any assignment that would be in conflict with, or that may place it in a position of not being able to carry out the assignment for which it has been engaged.

C. Shortlisting and Notification

2.21 Shortlisting of Consultants

a) After the evaluation of Applications, NIUA shall prepare a list of Applicants who meet the qualification criteria as set out in this REOI Document. Other Applicants may be informed that their Applications have been unsuccessful.

b) The shortlisted Applicants would be duly notified that they have been shortlisted for the assignment.

c) The NIUA reserves the right to make additions in the panel after following due process.

3 Criteria for Evaluation

3.1 Evaluation of Applications

a) This section provides the details of evaluation process. The Applications will be evaluated on the basis of the following parameters:

a. General Experience of the Firm: **Number of years' experience**
b. Financial Strength of the Firm
c. Staff having experience of carrying out similar assignments and having performed tasked related to the assignment: **Number of such staff.**
d. Experience of the firm in implementing assignments related to market research and field surveys in the urban areas: **Number of assignments.**
e. Specific experience of the Firm in implementing assignments related to surveys and field research in the urban areas through teams

consisting of data collectors accredited with or belonging to inspection bodies such as Bureau Vertitas (India) Pvt. Ltd., UV SUD South Asia Pvt. or of equivalent status and repute: **Number of assignments**

f. Experience of the firm in implementing assignments for undertaking analysis and assessment of data related to governance, transportation, environment, housing and sanitation; **Number of assignments.**

.

b) The Applications will be evaluated on the basis of the following parameters for each of the three respective areas:

S.No.	Parameter	Maximum Marks
1.	General Experience of the Firm	**5**
2.	Financial Strength of the Firm	**15**
3.	Staff having experience of carrying out similar assignments and having performed tasks related to the assignment	**25**
3	Experience of the firm in implementing assignments related to market research and field surveys in the urban areas	**10**
4	Specific experience of the Firm in implementing assignments related to surveys and field research in the urban areas through teams consisting of data collectors accredited with or belonging to inspection bodies such as Bureau Vertitas (India) Pvt. Ltd., UV SUD South Asia Pvt. or of equivalent status and repute	**30**
4	Experience of the firm in implementing assignments for undertaking analysis and assessment of data related to governance, transportation, environment, housing and sanitation.	**15**
	Total	**100**

a) The Applicants (firm) who secure a score of 75 marks or more out of 100 shall be considered for shortlisting.

b) After evaluation of the Applications and scoring of the same, the Applicants, with at least 75marks shall be ranked in descending order of the scores secured and based on that shortlisted panel will be prepared.

c) RFP will be issued to the shortlisted firms for selection on QCBS.

4 Fraud and Corrupt Practices

4.1 The Applicants and their respective officers, employees, agents and advisers shall observe the highest standard of ethics during the Shortlisting Process. Notwithstanding anything to the contrary contained in this REOI, NIUA shall reject a proposal without being liable in any manner whatsoever to the Applicant, if it determines that the Applicant has, directly or indirectly or through an agent, engaged in corrupt practice, fraudulent practice, coercive practice, undesirable practice or restrictive practice (collectively the "**Prohibited Practices**") in the Shortlisting Process.

4.2 Without prejudice to the rights of NIUA under Clause 4.1 hereinabove, if an Applicant or Consultant, as the case may be, is found by the NIUA to have directly or indirectly or through an agent, engaged or indulged in any corrupt, fraudulent, coercive, undesirable or restrictive practice during the Shortlisting Process, or after the issue of the notification of Shortlisting, such Applicant or Consultant shall not be eligible to participate in any tender or RFP issued by NIUA during a period of 2 (two) years from the date as the case may be.

4.3 For the purposes of this Section, the following terms shall have the meaning hereinafter respectively assigned to them:

a. "**corrupt practice**" means (i) the offering, giving, receiving, or soliciting, directly or indirectly, of anything of value to influence the action of any person connected with the Shortlisting Process; or (ii) save as provided herein, engaging in any manner whatsoever, whether during the Shortlisting Process or after the issue of the Notification of Shortlisting as the case may be, any person in respect of any matter relating to the Shortlisting or Notification of Shortlisting, who at any time has been or is a legal, financial or technical consultant/ adviser of NIUA in relation to any matter concerning the Project;

b. "**fraudulent practice**" means a misrepresentation or omission of facts or disclosure of incomplete facts, in order to influence the Shortlisting Process;

c. "**coercive practice**" means impairing or harming or threatening to impair or harm, directly or indirectly, any persons or property to influence any person's participation or action in the Shortlisting Process;

d. "**undesirable practice**" means (i) establishing contact with any person connected with or employed or engaged by the NIUA with the objective of canvassing, lobbying or in any manner influencing or attempting to influence the Shortlisting Process; or (ii) having a Conflict of Interest; and

e. "**Restrictive practice**" means forming a cartel or arriving at any understanding or arrangement among Applicants with the objective of

restricting or manipulating a full and fair competition in the Shortlisting Process.

5 Pre-Application Conference

5.1 Pre-Application Conference of the Applicants shall be convened at the designated date, time and place. A maximum of two representatives of each Applicant shall be allowed to participate on production of an authority letter from the Applicant.

5.2 During the course of Pre-Application Conference, the Applicants will be free to seek clarifications and make suggestions for consideration of NIUA. NIUA shall endeavour to provide clarifications and such further information as it may, in its sole discretion, consider appropriate for facilitating a fair, transparent and competitive Shortlisting Process.

6 Miscellaneous

6.1 The Shortlisting Process shall be governed by, and construed in accordance with, the laws of India and the Courts at New Delhi shall have exclusive jurisdiction over all disputes arising under, pursuant to and/or in connection with the Shortlisting Process.

6.2 NIUA, in its sole discretion and without incurring any obligation or liability, reserves the right, at any time, to:

a. Suspend and/or cancel the Shortlisting Process and/or amend and/or supplement the Shortlisting Process or modify the dates or other terms and conditions relating thereto;
b. Consult with any Applicant in order to receive clarification or further information;
c. Retain any information and/or evidence submitted to NIUA by, on behalf of and/or in relation to any Applicant; and/or
d. Independently verify, disqualify, reject and/or accept any and all submissions or other information and/or evidence submitted by or on behalf of any Applicant.

6.3 It shall be deemed that by submitting the Application, the Applicant agrees and releases NIUA, its employees, agents and advisers, irrevocably, unconditionally, fully and finally from any and all liability for claims, losses, damages, costs, expenses or liabilities in any way related to or arising from the exercise of any rights and/or performance of any obligations hereunder, pursuant hereto and/or in connection herewith and waives any and all rights and/or claims it may have in this respect, whether actual or contingent, whether present or future.

6.4 All documents and other information supplied by NIUA or submitted by an Applicant shall remain or become, as the case may be, the property of NIUA. NIUA will not return any submissions made hereunder. Applicants are required to treat all such documents and information as strictly confidential.

6.5 NIUA reserves the right to make inquiries with any of the clients listed by the Applicants in their previous experience record.

PART I

Section 1. Letter of Invitation

RFP No. CBUD/FIN/34 **Credit No**.4997-IN

New Delhi ____/ March/2017

Dear Mr. /Ms.:

1. The Government of India (hereinafter called "Borrower") has received financing from the International Development Association (IDA) (the "Bank") in the form of a credit (hereinafter called "credit") toward the cost of Capacity Building for Urban Development (CBUD) Project. The Ministry of Urban Development (MoUD), Government of India, an implementing agency of the Client, intends to apply a portion of the proceeds of this credit to eligible payments under the contract for which this Request for Proposals is issued. Payments by the Bank will be made only at the request of the *Ministry of Urban Development* (client) and upon approval by the Bank, and will be subject, in all respects, to the terms and conditions of the financing agreement. The financing agreement prohibits a withdrawal from the credit account for the purpose of any payment to persons or entities, or for any import of goods, if such payment or import, to the knowledge of the Bank, is prohibited by a decision of the United Nations Security council taken under Chapter VII of the Charter of the United Nations. No party other than the Borrower shall derive any rights from the financing agreement or have any claims to the proceeds of the credit.

   The Client now invites proposals to provide the following consulting services (hereinafter called "Services"): "Selection of Consulting Firms for Conducting Surveys for Assessment of Liveability Indices for 116 cities in India". More details on the Services are provided in the Terms of Reference (Section 7).

2. This Request for Proposals (RFP) has been addressed to all eligible Consultants:

3. Deleted.

4. A firm will be selected under Quality and Cost Based Selection method (QCBS) **(Lump Sum)** and in a Proposal format as described in this RFP, in accordance with the policies of the Bank detailed in the Consultants' Guidelines which can be found at the following website: www.worldbank.org/procure.

5. The RFP includes the following documents:

   Section 1 - Letter of Invitation
   Section 2 - Instructions to Consultants and Data Sheet
   Section 3 - Technical Proposal - Standard Forms
   Section 4 - Financial Proposal - Standard Forms

Section 5 – Eligible Countries
Section 6 – Bank's Policy – Corrupt and Fraudulent Practices
Section 7 - Terms of Reference
Section 8 - Standard Forms of Contract (Time Based)

6. Please inform us by *[insert date]*,in writing by E-mail *[insert e-mail address]*:

   (a) That you have received the Letter of Invitation; and
   (b) Whether you intend to submit a proposal alone or intend to enhance your experience by requesting permission to associate with other firm(s) (if permissible under Section 2, Instructions to Consultants (ITC), Data Sheet 14.1.1).

7. Details on the proposal's submission date, time and address are provided in Clauses 17.7 and 17.9 of the ITC.

Yours sincerely,

Section 2. Instructions to Consultants and Data Sheet

A. General Provisions

1. Definitions	(a) "Affiliate(s)" means an individual or an entity that directly or indirectly controls, is controlled by, or is under common control with the Consultant. (b) "Applicable Guidelines" means the policies of the Bank governing the selection and Contract award process as set forth in this RFP. (c) "Applicable Law" means the laws and any other instruments having the force of law in the Client's country, or in such other country as may be specified in the **Data Sheet**, as they may be issued and in force from time to time. (d) "Bank" means the International Bank for Reconstruction and Development (IBRD) or the International Development Association (IDA). (e) "Borrower" means the Government, Government agency or other entity that signs the *[loan/financing/grant[1]]* agreement with the Bank. (f) "CBUD" means Capacity Building for Urban Development

---

[1] *["loan agreement" term is used for IBRD loans; "financing agreement" is used for IDA credits; and "grant agreement" is used for Recipient-Executed Trust Funds administered by IBRD or IDA]*

(g) "Client" means the implementing agency that signs the Contract for the Services with the selected Consultant.

(h) "Consultant" means a legally-established professional consulting firm or an entity that may provide or provides the Services to the Client under the Contract.

(i) "Contract" means a legally binding written agreement signed between the Client and the Consultant and includes all the attached documents listed in its Clause 1 (the General Conditions of Contract (GCC), the Special Conditions of Contract (SCC), and the Appendices).

(j) "Data Sheet" means an integral part of the Instructions to Consultants (ITC) Section 2 that is used to reflect specific country and assignment conditions to supplement, but not to over-write, the provisions of the ITC.

(k) "Day" means a calendar day.

(l) "Experts" means, collectively, Key Experts, Non-Key Experts, or any other personnel of the Consultant, Sub-consultant or Joint Venture member(s).

(m) "Government" means Government of India.

(n) "Joint Venture (JV)" means an association with or without a legal personality distinct from that of its members, of more than one Consultant where one member has the authority to conduct all business for and on behalf of any and all the members of the JV, and where the members of the JV are jointly and severally liable to the Client for the performance of the Contract.

(o) "Key Expert(s)" means an individual professional whose skills, qualifications, knowledge and experience are critical to the performance of the Services under the Contract and whose CV is taken into account in the technical evaluation of the Consultant's proposal.

(p) "ITC" (this Section 2 of the RFP) means the Instructions to Consultants that provide~~s~~ the shortlisted Consultants with all information needed to prepare their Proposals.

(q) "LOI" (this Section 1 of the RFP) means the Letter of Invitation being sent by the Client to the shortlisted Consultants.

(r) "MoUD" means Ministry of Urban Development

	(s) “Non-Key Expert(s)” means an individual professional provided by the Consultant or its Sub-consultant and who is assigned to perform the Services or any part thereof under the Contract and whose CVs are not evaluated individually. (t) “Proposal” means the Technical Proposal and the Financial Proposal of the Consultant. (u) “RFP” means the Request for Proposals to be prepared by the Client for the selection of Consultants, based on the SRFP. (v) “SRFP” means the Standard Request for Proposals, which must be used by the Client as the basis for the preparation of the RFP. (w) “Services” means the work to be performed by the Consultant pursuant to the Contract. (x) “Sub-consultant” means an entity to whom the Consultant intends to subcontract any part of the Services while remaining responsible to the Client during the performance of the Contract. (y) “TORs” (this Section 7 of the RFP) means the Terms of Reference that explain the objectives, scope of work, activities, and tasks to be performed, respective responsibilities of the Client and the Consultant, and expected results and deliverables of the assignment.
2. Introduction	2.1 The Client named in the **Data Sheet** intends to select a Consultant from those listed in the Letter of Invitation, in accordance with the method of selection specified in the **Data Sheet**. 2.2 The shortlisted Consultants are invited to submit a Technical Proposal and a Financial Proposal, or a Technical Proposal only, as specified in the **Data Sheet**, for consulting services required for the assignment named in the **Data Sheet**. The Proposal will be the basis for negotiating and ultimately signing the Contract with the selected Consultant. 2.3 The Consultants should familiarize themselves with the local conditions and take them into account in preparing their Proposals, including attending a pre-proposal conference if one is specified in the **Data Sheet**. Attending any such pre-proposal conference is optional and is at the Consultants’ expense.

	2.4 The Client will timely provide, at no cost to the Consultants, the inputs, relevant project data, and reports required for the preparation of the Consultant's Proposal as specified in the **Data Sheet**.
3. Conflict of Interest	3.1 The Consultant is required to provide professional, objective, and impartial advice, at all times holding the Client's interests paramount, strictly avoiding conflicts with other assignments or its own corporate interests, and acting without any consideration for future work. 3.2 The Consultant has an obligation to disclose to the Client any situation of actual or potential conflict that impacts its capacity to serve the best interest of its Client. Failure to disclose such situations may lead to the disqualification of the Consultant or the termination of its Contract and/or sanctions by the Bank. 3.2.1 Without limitation on the generality of the foregoing, the Consultant shall not be hired under the circumstances set forth below:
a. Conflicting activities	(i) Conflict between consulting activities and procurement of goods, works or non-consulting services: a firm that has been engaged by the Client to provide goods, works, or non-consulting services for a project, or any of its Affiliates, shall be disqualified from providing consulting services resulting from or directly related to those goods, works, or non-consulting services. Conversely, a firm hired to provide consulting services for the preparation or implementation of a project, or any of its Affiliates, shall be disqualified from subsequently providing goods or works or non-consulting services resulting from or directly related to the consulting services for such preparation or implementation.
b. Conflicting assignments	(ii) Conflict among consulting assignments: a Consultant (including its Experts and Sub-consultants) or any of its Affiliates shall not be hired for any assignment that, by its nature, may be in conflict with another assignment of the Consultant for the same or for another Client.
c. Conflicting relationships	(iii) Relationship with the Client's staff: a Consultant (including its Experts and Sub-consultants) that has a close business or family relationship with a professional staff of the Borrower (or of the Client, or of implementing agency, or of a recipient of a part of the Bank's financing) who are directly or indirectly involved in any part of (i) the preparation of the Terms of Reference for the assignment, (ii) the selection process for the Contract, or (iii) the supervision of the Contract, may not be awarded a Contract, unless the conflict

	stemming from this relationship has been resolved in a manner acceptable to the Bank throughout the selection process and the execution of the Contract.
4. Unfair Competitive Advantage	4.1 Fairness and transparency in the selection process require that the Consultants or their Affiliates competing for a specific assignment do not derive a competitive advantage from having provided consulting services related to the assignment in question. To that end, the Client shall indicate in the **Data Sheet** and make available to all shortlisted Consultants together with this RFP all information that would in that respect give such Consultant any unfair competitive advantage over competing Consultants.
5. Corrupt and Fraudulent Practices	5.1 The Bank requires compliance with its policy in regard to corrupt and fraudulent practices as set forth in Section 6. 5.2 In further pursuance of this policy, Consultant shall permit and shall cause its agents, Experts, Sub-consultants, sub-contractors, services providers, or suppliers to permit the Bank to inspect all accounts, records, and other documents relating to the submission of the Proposal and contract performance (in case of an award), and to have them audited by auditors appointed by the Bank.
6. Eligibility	6.1 The Bank permits consultants (individuals and firms, including Joint Ventures and their individual members) from all countries to offer consulting services for Bank-financed projects. 6.2 Furthermore, it is the Consultant’s responsibility to ensure that its Experts, joint venture members, Sub-consultants, agents (declared or not), sub-contractors, service providers, suppliers and/or their employees meet the eligibility requirements as established by the Bank in the Applicable Guidelines. 6.3 As an exception to the foregoing Clauses 6.1 and 6.2 above:
a. Sanctions	6.3.1 A firm or an individual sanctioned by the Bank in accordance with the above Clause 5.1 or in accordance with “Anti-Corruption Guidelines” shall be ineligible to be awarded a Bank-financed contract, or to benefit from a Bank-financed contract, financially or otherwise, during such period of time as the Bank shall determine. The list of debarred firms and individuals is available at the electronic address specified in the **Data Sheet**.
b. Prohibitions	6.3.2 Firms and individuals of a country or goods manufactured in a country may be ineligible if so indicated in Section 5 (Eligible Countries) and:

	(a) as a matter of law or official regulations, the Borrower's country prohibits commercial relations with that country, provided that the Bank is satisfied that such exclusion does not preclude effective competition for the provision of Services required; or (b) by an act of compliance with a decision of the United Nations Security Council taken under Chapter VII of the Charter of the United Nations, the Borrower's Country prohibits any import of goods from that country or any payments to any country, person, or entity in that country.
c. Restrictions for Government-owned Enterprises	6.3.3 Government-owned enterprises or institutions in the Borrower's country shall be eligible only if they can establish that they (i) are legally and financially autonomous, (ii) operate under commercial law, and (iii) that they are not dependent agencies of the Client To establish eligibility, the government-owned enterprise or institution should provide all relevant documents (including its charter) sufficient to demonstrate that it is a legal entity separate from the government; it does not currently receive any substantial subsidies or budget support; it is not obligated to pass on its surplus to the government; it can acquire rights and liabilities, borrow funds, and can be liable for repayment of debts and be declared bankrupt; and it is not competing for a contract to be awarded by the government department or agency which, under the applicable laws or regulations, is its reporting or supervisory authority or has the ability to exercise influence or control over it.
d. Restrictions for public employees	6.3.4 Government officials and civil servants of the Borrower's country are not eligible to be included as Experts in the Consultant's Proposal unless such engagement does not conflict with any employment or other laws, regulations, or policies of the Borrower's country, and they (i) are on leave of absence without pay, or have resigned or retired; (ii) are not being hired by the same agency they were working for before going on leave of absence without pay, resigning, or retiring (in case of resignation or retirement, for a period of at least 6 (six) months, or the period established by statutory provisions applying to civil servants or government employees in the Borrower's country,

	whichever is longer. Experts who are employed by the government-owned universities, educational or research institutions are not eligible unless they have been full time employees of their institutions for a year or more prior to being included in Consultant's Proposal.; and (iii) their hiring would not create a conflict of interest.

B. Preparation of Proposals

7. General Considerations	**7.1.** In preparing the Proposal, the Consultant is expected to examine the RFP in detail. Material deficiencies in providing the information requested in the RFP may result in rejection of the Proposal.
8. Cost of Preparation of Proposal	**8.1.** The Consultant shall bear all costs associated with the preparation and submission of its Proposal, and the Client shall not be responsible or liable for those costs, regardless of the conduct or outcome of the selection process. The Client is not bound to accept any proposal, and reserves the right to annul the selection process at any time prior to Contract award, without thereby incurring any liability to the Consultant.
9. Language	**9.1.** The Proposal, as well as all correspondence and documents relating to the Proposal exchanged between the Consultant and the Client, shall be written in the language(s) specified in the **Data Sheet**.
10. Documents Comprising the Proposal	**10.1.** The Proposal shall comprise the documents and forms listed in the **Data Sheet**. **10.2.** If specified in the **Data Sheet**, the Consultant shall include a statement of an undertaking of the Consultant to observe, in competing for and executing a contract, the Client country's laws against fraud and corruption (including bribery). **10.3.** The Consultant shall furnish information on commissions, gratuities, and fees, if any, paid or to be paid to agents or any other party relating to this Proposal and, if awarded, Contract execution, as requested in the Financial Proposal submission form (Section 4).
11. Only One Proposal	**11.1.** The Consultant (including the individual members of any Joint Venture) shall submit only one Proposal, either in its own name or as part of a Joint Venture in another Proposal. If a Consultant, including any Joint Venture member, submits or participates in more than one proposal, all such proposals shall be disqualified and rejected. This does not, however, preclude a Sub-consultant, or the Consultant's staff from participating as Key Experts and Non-Key Experts in more than one Proposal when circumstances justify and if stated in the **Data Sheet**.

12. Proposal Validity	**12.1. The Data Sheet** indicates the period during which the Consultant's Proposal must remain valid after the Proposal submission deadline. **12.2.** During this period, the Consultant shall maintain its original Proposal without any change, including the availability of the Key Experts, the proposed rates and the total price. **12.3.** If it is established that any Key Expert nominated in the Consultant's Proposal was not available at the time of Proposal submission or was included in the Proposal without his/her confirmation, such Proposal shall be disqualified and rejected for further evaluation, and may be subject to sanctions in accordance with Clause 5 of this ITC.
a. Extension of Validity Period	**12.4.** The Client will make its best effort to complete the negotiations within the proposal's validity period. However, should the need arise, the Client may request, in writing, all Consultants who submitted Proposals prior to the submission deadline to extend the Proposals' validity. **12.5.** If the Consultant agrees to extend the validity of its Proposal, it shall be done without any change in the original Proposal and with the confirmation of the availability of the Key Experts. **12.6.** The Consultant has the right to refuse to extend the validity of its Proposal in which case such Proposal will not be further evaluated.
b. Substitution of Key Experts at Validity Extension	**12.7.** If any of the Key Experts become unavailable for the extended validity period, the Consultant shall provide a written adequate justification and evidence satisfactory to the Client together with the substitution request. In such case, a replacement Key Expert shall have equal or better qualifications and experience than those of the originally proposed Key Expert. The technical evaluation score, however, will remain to be based on the evaluation of the CV of the original Key Expert. **12.8.** If the Consultant fails to provide a replacement Key Expert with equal or better qualifications, or if the provided reasons for the replacement or justification are unacceptable to the Client, such Proposal will be rejected with the prior Bank's no objection.
c. Sub-Contracting	**12.9.** The Consultant shall not subcontract the whole of the Services.
13. Clarification and	**13.1.** The Consultant may request a clarification of any part of the RFP during the period indicated in the **Data Sheet** before the Proposals' submission deadline. Any request for clarification must be sent in

Amendment of RFP	writing, or by standard electronic means, to the Client's address indicated in the **Data Sheet**. The Client will respond in writing, or by standard electronic means, and will send written copies of the response (including an explanation of the query but without identifying its source) to all shortlisted Consultants. Should the Client deem it necessary to amend the RFP as a result of a clarification, it shall do so following the procedure described below: 13.1.1. At any time before the proposal submission deadline, the Client may amend the RFP by issuing an amendment in writing or by standard electronic means. The amendment shall be sent to all shortlisted Consultants and will be binding on them. The shortlisted Consultants shall acknowledge receipt of all amendments in writing. 13.1.2. If the amendment is substantial, the Client may extend the proposal submission deadline to give the shortlisted Consultants reasonable time to take an amendment into account in their Proposals. **13.2.** The Consultant may submit a modified Proposal or a modification to any part of it at any time prior to the proposal submission deadline. No modifications to the Technical or Financial Proposal shall be accepted after the deadline.
14. Preparation of Proposals – Specific Considerations	**14.1.** While preparing the Proposal, the Consultant must give particular attention to the following: 14.1.1. If a shortlisted Consultant considers that it may enhance its expertise for the assignment by associating with other consultants in the form of a Joint Venture or as Sub-consultants, it may do so with either (a) non-shortlisted Consultant(s), or (b) shortlisted Consultants if permitted in the **Data Sheet**. In all such cases a shortlisted Consultant must obtain the written approval of the Client prior to the submission of the Proposal. When associating with non-shortlisted firms in the form of a joint venture or a sub-consultancy, the shortlisted Consultant shall be a lead member. If shortlisted Consultants associate with each other, any of them can be a lead member. 14.1.2. The Client may indicate in the **Data Sheet** the estimated Key Experts' time input (expressed in person-month) or the Client's estimated total cost of the assignment, but not both. This estimate is indicative and the Proposal shall be based on the Consultant's own estimates for the same. 14.1.3. If stated in the **Data Sheet**, the Consultant shall include in its Proposal at least the same time input (in the same unit as

	indicated in the **Data Sheet**) of Key Experts, failing which the Financial Proposal will be adjusted for the purpose of comparison of proposals and decision for award in accordance with the procedure in the **Data Sheet**. 14.1.4. For assignments under the Fixed-Budget selection method, the estimated Key Experts' time input is not disclosed. Total available budget, with an indication whether it is inclusive or exclusive of taxes, is given in the **Data Sheet**, and the Financial Proposal shall not exceed this budget.
15. Technical Proposal Format and Content	**15.1.** The Technical Proposal shall not include any financial information. A Technical Proposal containing material financial information shall be declared non-responsive. 15.1.1 Consultant shall not propose alternative Key Experts. Only one CV shall be submitted for each Key Expert position. Failure to comply with this requirement will make the Proposal non-responsive. **15.2.** Depending on the nature of the assignment, the Consultant is required to submit a Full Technical Proposal (FTP), or a Simplified Technical Proposal (STP) as indicated in the **Data Sheet** and using the Standard Forms provided in Section 3 of the RFP.
16. Financial Proposal	**16.1.** The Financial Proposal shall be prepared using the Standard Forms provided in Section 4 of the RFP. It shall list all costs associated with the assignment, including (a) remuneration for Key Experts and Non-Key Experts, (b) reimbursable expenses indicated in the **Data Sheet**.
a. Price Adjustment	**16.2.** For assignments with a duration exceeding 18 months, a price adjustment provision for foreign and/or local inflation for remuneration rates applies if so stated in the **Data Sheet**.
b. Taxes	**16.3.** The Consultant and its Sub-consultants and Experts are responsible for meeting all tax liabilities arising out of the Contract unless stated otherwise in the **Data Sheet**. Information on taxes in the Client's country is provided in the **Data Sheet**.
c. Currency of Proposal	**16.4.** The Consultant may express the price for its Services in the currency or currencies as stated in the **Data Sheet**. If indicated in the **Data Sheet**, the portion of the price representing local cost shall be stated in the national currency.
d. Currency of Payment	**16.5.** Payment under the Contract shall be made in the currency or currencies in which the payment is requested in the Proposal.

C. Submission, Opening and Evaluation

17. Submission, Sealing, and Marking of Proposals	17.1 The Consultant shall submit a signed and complete Proposal comprising the documents and forms in accordance with Clause 10 (Documents Comprising Proposal). The submission can be done by mail or by hand. If specified in the **Data Sheet**, the Consultant has the option of submitting its Proposals electronically. 17.2 An authorized representative of the Consultant shall sign the original submission letters in the required format for both the Technical Proposal and, if applicable, the Financial Proposal and shall initial all pages of both. The authorization shall be in the form of a written power of attorney attached to the Technical Proposal. 17.2.1 A Proposal submitted by a Joint Venture shall be signed by all members so as to be legally binding on all members, or by an authorized representative who has a written power of attorney signed by each member's authorized representative. 17.3 Any modifications, revisions, interlineations, erasures, or overwriting shall be valid only if they are signed or initialed by the person signing the Proposal. 17.4 The signed Proposal shall be marked "ORIGINAL", and its copies marked "COPY" as appropriate. The number of copies is indicated in the **Data Sheet**. All copies shall be made from the signed original. If there are discrepancies between the original and the copies, the original shall prevail. 17.5 The original and all the copies of the Technical Proposal shall be placed inside of a sealed envelope clearly marked "**TECHNICAL PROPOSAL**", "[Name of the Assignment]", reference number, name and address of the Consultant, and with a warning "**DO NOT OPEN UNTIL [INSERT THE DATE AND THE TIME OF THE TECHNICAL PROPOSAL SUBMISSION DEADLINE]**." 17.6 Similarly, the original Financial Proposal (if required for the applicable selection method) shall be placed inside of a sealed envelope clearly marked "**FINANCIAL PROPOSAL**" followed by the name of the assignment, reference number, name and address of the Consultant, and with a warning "**DO NOT OPEN WITH THE TECHNICAL PROPOSAL**." 17.7 The sealed envelopes containing the Technical and Financial Proposals shall be placed into one outer envelope and sealed. This outer envelope shall bear the submission address, RFP reference

	number, the name of the assignment, Consultant's name and the address, and shall be clearly marked "**DO NOT OPEN BEFORE** [insert the time and date of the submission deadline indicated in the Data Sheet]". 17.8 If the envelopes and packages with the Proposal are not sealed and marked as required, the Client will assume no responsibility for the misplacement, loss, or premature opening of the Proposal. 17.9 The Proposal or its modifications must be sent to the address indicated in the **Data Sheet** and received by the Client no later than the deadline indicated in the **Data Sheet**, or any extension to this deadline. Any Proposal or its modification received by the Client after the deadline shall be declared late and rejected, and promptly returned unopened.
18. Confidentiality	18.1 From the time the Proposals are opened to the time the Contract is awarded, the Consultant should not contact the Client on any matter related to its Technical and/or Financial Proposal. Information relating to the evaluation of Proposals and award recommendations shall not be disclosed to the Consultants who submitted the Proposals or to any other party not officially concerned with the process, until the publication of the Contract award information. 18.2 Any attempt by shortlisted Consultants or anyone on behalf of the Consultant to influence improperly the Client in the evaluation of the Proposals or Contract award decisions may result in the rejection of its Proposal, and may be subject to the application of prevailing Bank's sanctions procedures. 18.3 Notwithstanding the above provisions, from the time of the Proposals' opening to the time of Contract award publication, if a Consultant wishes to contact the Client or the Bank on any matter related to the selection process, it should do so only in writing.
19. Opening of Technical Proposals	19.1 The Client's evaluation committee shall conduct the opening of the Technical Proposals in the presence of the shortlisted Consultants' authorized representatives who choose to attend (in person, or online if this option is offered in the **Data Sheet**). The opening date, time and the address are stated in the **Data Sheet**. The envelopes with the Financial Proposal shall remain sealed and shall be securely stored with a reputable public auditor or independent authority until they are opened in accordance with Clause 23 of the ITC.

	19.2 At the opening of the Technical Proposals the following shall be read out: (i) the name and the country of the Consultant or, in case of a Joint Venture, the name of the Joint Venture, the name of the lead member and the names and the countries of all members; (ii) the presence or absence of a duly sealed envelope with the Financial Proposal; (iii) any modifications to the Proposal submitted prior to proposal submission deadline; and (iv) any other information deemed appropriate or as indicated in the **Data Sheet**.
20. Proposals Evaluation	20.1 Subject to provision of Clause 15.1 of the ITC, the evaluators of the Technical Proposals shall have no access to the Financial Proposals until the technical evaluation is concluded and the Bank issues its “no objection”, if applicable. 20.2 The Consultant is not permitted to alter or modify its Proposal in any way after the proposal submission deadline except as permitted under Clause 12.7 of this ITC. While evaluating the Proposals, the Client will conduct the evaluation solely on the basis of the submitted Technical and Financial Proposals.
21. Evaluation of Technical Proposals	21.1 The Client’s evaluation committee shall evaluate the Technical Proposals on the basis of their responsiveness to the Terms of Reference and the RFP, applying the evaluation criteria, sub-criteria, and point system specified in the **Data Sheet**. Each responsive Proposal will be given a technical score. A Proposal shall be rejected at this stage if it does not respond to important aspects of the RFP or if it fails to achieve the minimum technical score indicated in the **Data Sheet**.
22. Financial Proposals for QBS	22.1 Following the ranking of the Technical Proposals, when the selection is based on quality only (QBS), the top-ranked Consultant is invited to negotiate the Contract. 22.2 If Financial Proposals were invited together with the Technical Proposals, only the Financial Proposal of the technically top-ranked Consultant is opened by the Client’s evaluation committee. All other Financial Proposals are returned unopened after the Contract negotiations are successfully concluded and the Contract is signed.
23. Public Opening of Financial Proposals (for QCBS, FBS, and LCS methods)	23.1 After the technical evaluation is completed and the Bank has issued its no objection (if applicable), the Client shall notify those Consultants whose Proposals were considered non-responsive to the RFP and TOR or did not meet the minimum qualifying technical score (and shall provide information relating to the Consultant’s overall technical score, as well as scores obtained for each criterion and sub-criterion) that their Financial Proposals will be returned unopened after completing the selection process and Contract signing. The Client shall simultaneously notify in writing those

	Consultants that have achieved the minimum overall technical score and inform them of the date, time and location for the opening of the Financial Proposals. The opening date should allow the Consultants sufficient time to make arrangements for attending the opening. The Consultant's attendance at the opening of the Financial Proposals (in person, or online if such option is indicated in the **Data Sheet**) is optional and is at the Consultant's choice. 23.2 The Financial Proposals shall be opened by the Client's evaluation committee in the presence of the representatives of those Consultants whose proposals have passed the minimum technical score. At the opening, the names of the Consultants, and the overall technical scores, including the break-down by criterion, shall be read aloud. The Financial Proposals will then be inspected to confirm that they have remained sealed and unopened. These Financial Proposals shall be then opened, and the total prices read aloud and recorded. Copies of the record shall be sent to all Consultants who submitted Proposals and to the Bank.
24. Correction of Errors	24.1 Activities and items described in the Technical Proposal but not priced in the Financial Proposal, shall be assumed to be included in the prices of other activities or items, and no corrections are made to the Financial Proposal.
a. Time-Based Contracts	24.1.1 If a Time-Based contract form is included in the RFP, the Client's evaluation committee will (a) correct any computational or arithmetical errors, and (b) adjust the prices if they fail to reflect all inputs included for the respective activities or items in the Technical Proposal. In case of discrepancy between (i) a partial amount (sub-total) and the total amount, or (ii) between the amount derived by multiplication of unit price with quantity and the total price, or (iii) between words and figures, the former will prevail. In case of discrepancy between the Technical and Financial Proposals in indicating quantities of input, the Technical Proposal prevails and the Client's evaluation committee shall correct the quantification indicated in the Financial Proposal so as to make it consistent with that indicated in the Technical Proposal, apply the relevant unit price included in the Financial Proposal to the corrected quantity, and correct the total Proposal cost.
b. Lump-Sum Contracts	24.2 If a Lump-Sum contract form is included in the RFP, the Consultant is deemed to have included all prices in the Financial Proposal, so neither arithmetical corrections nor price adjustments shall be made. The total price, net of taxes understood as per Clause

	ITC 25 below, specified in the Financial Proposal (Form FIN-1) shall be considered as the offered price.
25. Taxes	25.1 The Client's evaluation of the Consultant's Financial Proposal shall exclude taxes and duties in the Client's country in accordance with the instructions in the **Data Sheet**.
26. Conversion to Single Currency	26.1 For the evaluation purposes, prices shall be converted to a single currency using the selling rates of exchange, source and date indicated in the **Data Sheet**.
27. Combined Quality and Cost Evaluation	
a. Quality- and Cost-Based Selection (QCBS)	27.1 In the case of QCBS, the total score is calculated by weighting the technical and financial scores and adding them as per the formula and instructions in the **Data Sheet**. The Consultant achieving the highest combined technical and financial score will be invited for negotiations.
b. Fixed-Budget Selection (FBS)	27.2 In the case of FBS, those Proposals that exceed the budget indicated in Clause 14.1.4 of the **Data Sheet** shall be rejected. 27.3 The Client will select the Consultant that submitted the highest-ranked Technical Proposal that does not exceed the budget indicated in the RFP, and invite such Consultant to negotiate the Contract.

c. Least-Cost Selection	27.4 In the case of Least-Cost Selection (LCS), the Client will select the Consultant with the lowest evaluated total price among those consultants that achieved the minimum technical score, and invite such Consultant to negotiate the Contract.
D. Negotiations and Award	
28. Negotiations	28.1 The negotiations will be held at the date and address indicated in the **Data Sheet** with the Consultant's representative(s) who must have written power of attorney to negotiate and sign a Contract on behalf of the Consultant. 28.2 The Client shall prepare minutes of negotiations that are signed by the Client and the Consultant's authorized representative.
a. Availability of Key Experts	28.3 The invited Consultant shall confirm the availability of all Key Experts included in the Proposal as a pre-requisite to the negotiations, or, if applicable, a replacement in accordance with Clause 12 of the ITC. Failure to confirm the Key Experts' availability may result in the rejection of the Consultant's Proposal and the Client proceeding to negotiate the Contract with the next-ranked Consultant. 28.4 Notwithstanding the above, the substitution of Key Experts at the negotiations may be considered if due solely to circumstances outside the reasonable control of and not foreseeable by the Consultant, including but not limited to death or medical incapacity. In such case, the Consultant shall offer a substitute Key Expert within the period of time specified in the letter of invitation to negotiate the Contract, who shall have equivalent or better qualifications and experience than the original candidate.
b. Technical negotiations	28.5 The negotiations include discussions of the Terms of Reference (TORs), the proposed methodology, the Client's inputs, the special conditions of the Contract, and finalizing the "Description of Services" part of the Contract. These discussions shall not substantially alter the original scope of services under the TOR or the terms of the contract, lest the quality of the final product, its price, or the relevance of the initial evaluation be affected.
c. Financial negotiations	28.6 The negotiations include the clarification of the Consultant's tax liability in the Client's country and how it should be reflected in the Contract. 28.7 If the selection method included cost as a factor in the evaluation, the total price stated in the Financial Proposal for a Lump-Sum contract shall not be negotiated.

	28.8 In the case of a Time-Based contract, unit rates negotiations shall not take place, except when the offered Key Experts and Non-Key Experts' remuneration rates are much higher than the typically charged rates by consultants in similar contracts. In such case, the Client may ask for clarifications and, if the fees are very high, ask to change the rates after consultation with the Bank. The format for (i) providing information on remuneration rates in the case of Quality Based Selection; and (ii) clarifying remuneration rates' structure under Clause 28.8 above, is provided in Appendix A to the Financial Form FIN-3: Financial Negotiations – Breakdown of Remuneration Rates.
29. Conclusion of Negotiations	29.1 The negotiations are concluded with a review of the finalized draft Contract, which then shall be initialed by the Client and the Consultant's authorized representative. 29.2 If the negotiations fail, the Client shall inform the Consultant in writing of all pending issues and disagreements and provide a final opportunity to the Consultant to respond. If disagreement persists, the Client shall terminate the negotiations informing the Consultant of the reasons for doing so. After having obtained the Bank's no objection, the Client will invite the next-ranked Consultant to negotiate a Contract. Once the Client commences negotiations with the next-ranked Consultant, the Client shall not reopen the earlier negotiations.
30. Award of Contract	30.1 After completing the negotiations the Client shall obtain the Bank's no objection to the negotiated draft Contract, if applicable; sign the Contract; publish the award information as per the instructions in the **Data Sheet**; and promptly notify the other shortlisted Consultants. 30.2 The Consultant is expected to commence the assignment on the date and at the location specified in the **Data Sheet**.

Instructions to Consultants

E. Data Sheet

[“Notes to Client” shown in brackets throughout the text are provided for guidance to prepare the Data Sheet; they should be deleted from the final RFP to be sent to the shortlisted Consultants]

FORM TECH-1

TECHNICAL PROPOSAL SUBMISSION FORM

{Location, Date}

To:

[Name and address of Client]

Dear Sirs:

We, the undersigned, offer to provide the consulting services for Providing Technical Assistance to Ministry of Urban Development, Govt. of India in Carrying out surveys in 116 cities of India in order to assess a Liveability Index for each of them in accordance with your Request for Proposals dated *[Insert Date]* and our Proposal. *on the QCBS selection method stated in the RFP:* "We are hereby submitting our Proposal, which includes this Technical Proposal and a Financial Proposal sealed in a separate envelope"

{If the Consultant is a joint venture, insert the following*:* We are submitting our Proposal a joint venture with: {Insert a list with full name and the legal address of each member, and indicate the lead member}. We have attached a copy {insert: "of our letter of intent to form a joint venture" or, if a JV is already formed, "of the JV agreement"} signed by every participating member, which details the likely legal structure of and the confirmation of joint and severable liability of the members of the said joint venture.

{OR

If the Consultant's Proposal includes Sub-consultants, insert the following: We are submitting our Proposal with the following firms as Sub-consultants: {Insert a list with full name and address of each Sub-consultant.}

We hereby declare that:

(a) All the information and statements made in this Proposal are true and we accept that any misinterpretation or misrepresentation contained in this Proposal may lead to our disqualification by the Client and/or may be sanctioned by the Bank.

(b) Our Proposal shall be valid and remain binding upon us for the period of time specified in the Data Sheet, Clause 12.1.

(c) We have no conflict of interest in accordance with ITC 3.

(d) We meet the eligibility requirements as stated in ITC 6, and we confirm our understanding of our obligation to abide by the Bank's policy in regard to corrupt and fraudulent practices as per ITC 5.

(e) We, along with any of our sub-consultants, subcontractors, suppliers, or service providers for any part of the contract, are not subject to, and not controlled by any entity or individual that is subject to, a temporary suspension or a debarment imposed by a member of the World Bank Group or a debarment imposed by the World Bank Group in accordance with the Agreement for Mutual Enforcement of Debarment Decisions between the World Bank and other development banks. Further, we are not ineligible under the Employer's country laws or official regulations or pursuant to a decision of the United Nations Security Council;

(f) In competing for (and, if the award is made to us, in executing) the Contract, we undertake to observe the laws against fraud and corruption, including bribery, in force in the country of the Client.

(g) Except as stated in the Data Sheet, Clause 12.1, we undertake to negotiate a Contract on the basis of the proposed Key Experts. We accept that the substitution of Key Experts for reasons other than those stated in ITC Clause 12 and ITC Clause 28.4 may lead to the termination of Contract negotiations.

(h) Our Proposal is binding upon us and subject to any modifications resulting from the Contract negotiations.

We undertake, if our Proposal is accepted and the Contract is signed, to initiate the Services related to the assignment no later than the date indicated in Clause 30.2 of the Data Sheet.

We understand that the Client is not bound to accept any Proposal that the Client receives.

We remain,

Yours sincerely,

Authorized Signature {In full and initials}: ______________________________
Name and Title of Signatory: ______________________________
Name of Consultant (company's name or JV's name):
In the capacity of: ______________________________

Address: ______________________________
Contact information (phone and e-mail): ______________________________

{For a joint venture, either all members shall sign or only the lead member, in which case the power of attorney to sign on behalf of all members shall be attached}

FORM TECH-2
CONSULTANT'S ORGANIZATION AND EXPERIENCE

Form TECH-2: a brief description of the Consultant's organization and an outline of the recent experience of the Consultant that is most relevant to the assignment. In the case of a joint venture, information on similar assignments shall be provided for each partner. For each assignment, the outline should indicate the names of the Consultant's Key Experts and Sub-consultants who participated, the duration of the assignment, the contract amount (total and, if it was done in a form of a joint venture or a sub-consultancy, the amount paid to the Consultant), and the Consultant's role/involvement.

A - Consultant's Organization

1. Provide here a brief description of the background and organization of your company, and – in case of a joint venture – of each member for this assignment.

2. Include organizational chart, a list of Board of Directors, and beneficial ownership

B - Consultant's Experience

1**. List only previous similar assignments successfully completed[2] in the last *10 (ten)* years.**

2. List only those assignments for which the Consultant was legally contracted by the Client as a company or was one of the joint venture partners. Assignments completed by the Consultant's individual experts working privately or through other consulting firms cannot be claimed as the relevant experience of the Consultant, or that of the Consultant's partners or sub-consultants, but can be claimed by the Experts themselves in their CVs. The Consultant should be prepared to substantiate the claimed experience by presenting copies of relevant documents and references if so requested by the Client.

---

[2] The Claims of completion shall be self-certified. A copy of agreement along with or showing the scope of the work is required to be submitted. Substantially completed assignments shall be considered in case the Applicant has completed and submitted Draft Final Report. The client may seek clarifications, if required

Duration	Assignment name/& brief description of main deliverables/outputs	Name of Client & Country of Assignment	Approx. Contract value (in US$ equivalent)/ Amount paid to your firm	Role on the Assignment
{e.g., Jan.2009–Apr.2010}	{e.g., "Improvement quality of...............": designed master plan for rationalization of ....; }	{e.g., Ministry of ......, country}	{e.g., US$1 mill/US$0.5 mill}	{e.g., Lead partner in a JV A&B&C}
{e.g., Jan-May 2008}	{e.g., "Support to sub-national government....." : drafted secondary level regulations on..............}	{e.g., municipality of........., country}	{e.g., US$0.2 mil/US$0.2 mil}	{e.g., sole Consultant}

FORM TECH-3
COMMENTS AND SUGGESTIONS ON THE TERMS OF REFERENCE, COUNTERPART STAFF, AND FACILITIES TO BE PROVIDED BY THE CLIENT

Form TECH-3: comments and suggestions on the Terms of Reference that could improve the quality/effectiveness of the assignment; and on requirements for counterpart staff and facilities, which are provided by the Client, including: administrative support, office space, local transportation, equipment, data, etc.

A - On the Terms of Reference

{Improvements to the Terms of Reference, if any}

B - On Counterpart Staff and Facilities

{Comments on counterpart staff and facilities to be provided by the Client. For example, administrative support, office space, local transportation, equipment, data, background reports, etc., if any}

FORM TECH-4
DESCRIPTION OF APPROACH, METHODOLOGY, AND WORK PLAN IN RESPONDING TO THE TERMS OF REFERENCE

Form TECH-4: a description of the approach, methodology and work plan for performing the assignment, including a detailed description of the proposed methodology and staffing for training, if the Terms of Reference specify training as a specific component of the assignment.

{Suggested structure of your Technical Proposal (in FTP format):

a) Technical Approach and Methodology
b) Work Plan
c) Organization and Staffing}

a) ***Technical Approach and Methodology.*** {Please explain your understanding of the objectives of the assignment as outlined in the Terms of Reference (TORs), the technical approach, and the methodology you would adopt for implementing the tasks to deliver the expected output(s), and the degree of detail of such output. **Please do not repeat/copy the TORs in here.}**

b) ***Work Plan.*** {Please outline the plan for the implementation of the main activities/tasks of the assignment, their content and duration, phasing and interrelations, milestones (including interim approvals by the Client), and tentative delivery dates of the reports. The proposed work plan should be consistent with the technical approach and methodology, showing your understanding of the TOR and ability to translate them into a feasible working plan. A list of the final documents (including reports) to be delivered as final output(s) should be included here. The work plan should be consistent with the Work Schedule Form.}

c) ***Organization and Staffing.*** {Please describe the structure and composition of your team, including the list of the Key Experts, Non-Key Experts and relevant technical and administrative support staff.}

FORM TECH-5
WORK SCHEDULE AND PLANNING FOR DELIVERABLES

Section 5. Eligible Countries

In reference to ITC6.3.2, for the information of shortlisted Consultants, at the present time firms, goods and services from the following countries are excluded from this selection:

Under the ITC 6.3.2 (a): None

Under the ITC 6.3.2 (b): None

Section 6. Bank Policy – Corrupt and Fraudulent Practices

Guidelines for Selection and Employment of Consultants under IBRD Loans and IDA Credits & Grants by World Bank Borrowers, dated January 2011:

“**Fraud and Corruption**

1.23 It is the Bank’s policy to require that Borrowers (including beneficiaries of Bank loans), consultants, and their agents (whether declared or not), sub-contractors, sub-consultants, service providers, or suppliers, and any personnel thereof, observe the highest standard of ethics during the selection and execution of Bank-financed contracts [footnote: In this context, any action taken by a consultant or any of its personnel, or its agents, or its sub-consultants, sub-contractors, services providers, suppliers, and/or their employees, to influence the selection process or contract execution for undue advantage is improper.]. In pursuance of this policy, the Bank:

(a) defines, for the purposes of this provision, the terms set forth below as follows:

- (i) “corrupt practice” is the offering, giving, receiving, or soliciting, directly or indirectly, of anything of value to influence improperly the actions of another party[4];
- (ii) “fraudulent practice” is any act or omission, including misrepresentation, that knowingly or recklessly misleads, or attempts to mislead, a party to obtain financial or other benefit or to avoid an obligation[5];
- (iii) “collusive practices” is an arrangement between two or more parties designed to achieve an improper purpose, including to influence improperly the actions of another party[6];
- (iv) “coercive practices” is impairing or harming, or threatening to impair or harm, directly or indirectly, any party or the property of the party to influence improperly the actions of a party[7];

---

[4] For the purpose of this sub-paragraph, “another party” refers to a public official acting in relation to the selection process or contract execution. In this context “public official” includes World Bank staff and employees of other organizations taking or reviewing selection decisions.

[5] For the purpose of this sub-paragraph, “party” refers to a public official; the terms “benefit” and “obligation” relate to the selection process or contract execution; and the “act or omission” is intended to influence the selection process or contract execution.

[6] For the purpose of this sub-paragraph, “parties” refers to participants in the procurement or selection process (including public officials) attempting either themselves, or through another person or entity not participating in the procurement or selection process, to simulate competition or to establish prices at artificial, non-competitive levels, or are privy to each other’s bid prices or other conditions.

[7] For the purpose of this sub-paragraph, “party” refers to a participant in the selection process or contract execution.

(v) "obstructive practice" is

(aa) deliberately destroying, falsifying, altering, or concealing of evidence material to the investigation or making false statements to investigators in order to materially impede a Bank investigation into allegations of a corrupt, fraudulent, coercive, or collusive practice; and/or threatening, harassing, or intimidating any party to prevent it from disclosing its knowledge of matters relevant to the investigation or from pursuing the investigation, or

(bb) acts intended to materially impede the exercise of the Bank's inspection and audit rights;

(b) will reject a proposal for award if it determines that the consultant recommended for award or any of its personnel, or its agents, or its sub-consultants, sub-contractors, services providers, suppliers, and/or their employees, has, directly or indirectly, engaged in corrupt, fraudulent, collusive, coercive, or obstructive practices in competing for the contract in question;

(c) will declare misprocurement and cancel the portion of the Loan allocated to a contract if it determines at any time that representatives of the Borrower or of a recipient of any part of the proceeds of the Loan were engaged in corrupt, fraudulent, collusive, coercive, or obstructive practices during the selection process or the implementation of the contract in question, without the Borrower having taken timely and appropriate action satisfactory to the Bank to address such practices when they occur, including by failing to inform the Bank in a timely manner they knew of the practices;

(d) will sanction a firm or an individual at any time, in accordance with prevailing Bank's sanctions procedures[8], including by publicly declaring such firm or an ineligible, either indefinitely or for a stated period of time: (i) to be awarded a Bank-financed contract, and (ii) to be a nominated[9] sub-consultant, supplier, or service provider of an otherwise eligible firm being awarded a Bank-financed contract.

---

[8] A firm or an individual may be declared ineligible to be awarded a Bank-financed contract upon (i) completion of the Bank's sanctions proceedings as per its sanctions procedures, including inter alia: cross-debarment as agreed with other International Financial Institutions, including Multilateral Development Banks, and through the application of the World Bank Group corporate administrative procurement sanctions procedures for fraud and corruption; and (ii) as a result of temporary suspension or early temporary suspension in connection with an ongoing sanctions proceedings. See footnote 12 and paragraph 8 of Appendix 1 of these Guidelines.

[9] A nominated sub-consultant, supplier, or service provider is one which has been either (i) included by the consultant in its proposal because it brings specific and critical experience and know-how that are accounted for in the technical evaluation of the consultant's proposal for the particular services; or (ii) appointed by the Borrower.

Section 7. Terms of Reference

7.1 Background

i. The Government of India along with State and Local Governments is implementing several flagship Urban Missions for improving various aspects of urban development in Indian cities. An underlying goal of these initiatives is to make Indian cities more 'Liveable'. This will mean not only providing good quality core infrastructure and services, but also developing cities with ample opportunities for work, entertainment and cultural activities, improved social infrastructure and economic opportunity;

ii. In order to do this through a structured approach it is important to create a common minimum framework, which cities can use to assess their 'Liveability' and measure their progress over time. In this context, the Ministry of Urban Development has developed a set of 'Liveability Standards in Cities'. These will act as a guiding framework for cities to chart their pathway towards liveability and result in a systematic improvement in the quality of life of citizens in Indian cities. The draft 'Liveability Standards in Cities' are attached at Annexure X;

iii. A total of 79 different Liveability Standards are proposed across 15 different categories. The Ministry proposes to conduct an 'Annual Assessment of Liveability in Cities' across the various standards and develop a 'City Liveability Index' – an annual index of the liveability standards in Indian cities. This is an ambitious national project requiring yearly compilation of a large number of datasets across the various Liveability Standards;

iv. A total of 116 cities will be covered in Year 1 (list of cities for Year 1 is provided at Annexure XX), and the coverage of cities may be extended in subsequent years. The following classification of cities will be used for the purpose of the study

Classification*		Population range
1	Small Towns	Less than 50,000 population
2	Medium Towns	Population ≥ 50,000 < 5 lakh
3	Large Towns	Population ≥ 5 lakh < 1 million
4	Metropolitan Cities	Population ≥ 1 million < 5 million
5	Megapolis	Population ≥ 5 million

* *Based on the Classification given in the URDPFI guidelines, 2014*

v. Given the magnitude of data collection and field surveys required, the MoUD wishes to engage the services of a reputed national/international agency/institution for **Conducting a study and field survey of Liveability Standards** (the **'Assignment'**) across all cities included in the study. This will cover all relevant data required by the MoUD for computing the 79 Liveability

Standards. The data generated from the assignment will be used by the MoUD for calculating the City Liveability Index of cities on an annual basis;

vi. The contract will be valid for activities in Year 1 (as defined in Clause 7.5) only.

7.2 Objective of the Assignment

i. Compile reliable and high quality data for all cities included in the study, as required by the MoUD for the computation of Liveability Indexes and as prescribed in the 'Liveability Standards in Cities' document;

ii. Develop a robust electronic database of datasets that can be used to assess the progress of cities on an annual basis.

7.3 Description of Tasks

The Tasks to be performed and key activities under the assignment will include:

Initiation Activities

i. Conduct State-level workshops (1-day each) on behalf of MoUD. Cost for such workshops must be included in the proposal. The workshops shall achieve the following:

    a. Familiarise States and City governments regarding the overall programme, process that will be followed for data collection, and likely timelines;
    b. Provide State and City governments with a detailed list of data points needed, likely areas of support and information on how the cities should prepare for the surveys;
    c. Help in preparing a preliminary time-line for city meetings and field visits based on preferences indicated by states and cities;

ii. Conduct a Reconnaissance Study of all cities included in the project (as per Annexure X). The study shall inter-alia include:

    a. City-level kick-off meetings with key officials from City governments, Smart City SPVs, various departments and utilities, DISCOMs etc. for assessing data availability and sources, preferred timelines, key nodal officers etc.;
    b. Study of city demography, socio-economic stratification and geography that has a bearing on sample size and distribution;
    c. Study of existing reports, studies, alternative data sources etc.;

iii. Prepare and submit to the MoUD, an Inception Report (separate for all cities included in the study), including inter-alia the following:

    a. Detailed Plan of Action including likely sources of data, proposed field surveys, sample size and distribution, nodal officers etc.;

  b. Proposed timelines for city field visits as discussed and finalized with MoUD and State/City governments;
  c. Specific survey and raw data collection formats for the 79 standards as finalized in discussion with MoUD;

iv. Convey the finalized schedule and Plan of Action to cities allowing them to mobilise support for the activities. A Minimum of 15 days of preparation period must be given to cities before data collection and surveys;

Data Collection and Field Surveys

v. Mobilize Field Teams (with adequate and qualified manpower as indicated in Clause 7.6) for obtaining data required for all 79 Standards;

vi. Conduct field surveys for a statistically relevant sample as per nationally/internationally accepted standards for sampling size and distribution. The method for determining sample size and distribution should be as proposed in the bid during RfP stage and finalized in consultation with the MoUD as part of the Inception Report;

vii. Maintain and submit all raw data and data collection forms to MoUD without any editing and/or masking (including particulars such as names of respondents, exact address and contact details, date and time of survey, and GPS coordinates in case of samples taken for pollution etc.);

viii. Conduct analysis of the raw data through the Analytics Team ((with adequate and qualified manpower as indicated in Clause 7.6) and prepare aggregate data sets for all 79 standards for each of the cities;

ix. Submit Draft City Assessment Report to the MoUD (separate for each city), including inter-alia the following:
  a. Database of aggregate data in the format attached at Annexure X;
  b. All raw data and data sheets;
  c. Sources of data, assumptions (if any), record of discussions with key stakeholders, minutes of city kickoff meeting and other relevant documentation;

x. Submit Draft City Assessment Report to respective city and state governments for inviting comments and suggestions (if any). A period of 15 days shall be given to cities to submit their responses, after which the data will be deemed to be accepted by the city;

xi. Submit Final City Assessment Report to the MoUD after including any recommendations of the MoUD and after suitably incorporating any valid feedback received from cities/states with the approval of the MoUD;

xii. Develop and maintain a digital database of all data sets collected every year for each city. The format should be finalized in consultation with the MoUD and enable examination of raw data as well as aggregated numbers on a year-on-year basis;

Other support activities

xiii. Provide all necessary support to the NIUA or other reputed third-party agency(ies) appointed by the MoUD for undertaking verification of the data submitted by the Consultant;

xiv. Provide any technical support as required by the MoUD or its assigned team during the development of scoring sheets and city indexes for the various Standards;

xv. Conduct a National workshop (1-day) on behalf of MoUD for disseminating the findings of the Ministry. Costs for the workshop must be included in the proposal.

7.4 Results to be achieved

The Assignment will result in the creation of a robust database (updated annually) of critical datasets across 79 different Liveability parameters in Indian Cities. This will form the basis for the Ministry to compute an annual City Liveability Index of cities. This can also act as a repository of critical data for encouraging research on cities in India.

7.5 Timelines and Deliverables for Year 1*

Report	Time line	Documents	Deliverables and Contents
Inception Report	8 weeks from start date as per contract	Hard copies, and Electronic version	Separate for each city, including: a. Detailed Plan of Action including likely sources of data, proposed field surveys, sample size and distribution, nodal officers etc.; b. Proposed timelines for city field visits as discussed and finalized with MoUD and State/City governments; c. Specific survey and raw data collection formats for the 79 standards as finalized in discussion with MoUD;

Report	Time line	Documents	Deliverables and Contents
Draft City Assessment Report	12 weeks from start date as per contract	Hard Copies, and Electronic version	Separate for each city, including: a. Database of aggregate data in the format attached at Annexure X; b. All raw data and data sheets; c. Sources of data, assumptions (if any), record of discussions with key stakeholders, minutes of city kickoff meeting and other relevant documentation;
Final City Assessment Report	20 weeks from start date as per contract	Hard Copies, and Electronic version	Separate report for each city. The Reports should include all recommendations of the MoUD on the Draft Reports. The Report should also incorporate any valid suggestions/feedback received from cities/states with the approval of the MoUD.

***** Timelines for subsequent years will be as decided by MoUD

7.6 Team Composition and Qualification Requirement for key Experts

The assignment is to be undertaken by a full-time Team Leader supported by a Core team of experts and an Analytics Team. Actual data collection and field surveys will be done through city-level Field Teams.

i. **Core Team (full-time):** Given that the assignment requires a deep understanding of the urban sector, as well as of economics, statistics and field studies, the Team Leader and the Core Team of experts must have suitable skills for undertaking the assignment and successfully completing the tasks enumerated. The Team Leader should bring to the table a strong mix of academic accomplishments, urban sector experience and experience of leading similar national/international assignments.

ii. **Analytics Team (full-time):** should be manned with experts capable of analysing large data sets, checking and correcting for errors and inconsistencies, development and management of digital databases and preparation of reports. The team should therefore include adequate number of IT specialist(s), database management/ MIS expert(s), urban economics/planning specialists for data analysis and verification.

iii. **Field Teams per city:** should be manned with adequate number of persons (depending upon city size, stratification and geography) capable of conducting field surveys and extracting credible secondary data from various city/state departments and utilities. Each team should therefore include adequate number of qualified urban professionals for extracting secondary data from various sources, persons with market/field research experience and data processors/ data entry operators. Each team should be led by a suitably experienced Urban Specialist (Urban Planner/ Urban Economist) with at least 10 years of experience in the urban sector and at least 5 years of experience in secondary and primary data collection and analysis

The Core Team proposed should be able to demonstrate the qualifications and experience as prescribed in table below:

7.6.1 Core Team (CV to be evaluated)

Position	**Minimum Qualifications & skills**	**Minimum Experience**
Team Leader	Qualification - Bachelor's Degree in Engineering/Architecture/Planning/Economics/Management with post-graduate degree in Planning/Management or equivalent from a recognized University In-depth knowledge of all aspects of urban sector, including governance-related, socio-economic, environmental and engineering aspects Proven academic credibility in terms of published papers, articles etc. Experience of leading national level urban research assignments Experience of leading national/international ranking assignments	At least 20 years of which at least last 10 years must have been for the Urban Sector
Urban Management Specialist/ Planning Expert	Bachelor's Degree in Engineering/Architecture/Planning with post-graduate degree in Management or equivalent from a recognized University Good knowledge of urban sector Experience of playing a core role in similar national/international data collection and ranking assignments	At least 15 years of experience in the Urban Sector
Market Research Specialist	Master's Degree in Management from a recognized University Good knowledge of mobilization and organization for market research Experience of leading national/international field research assignments	At least 15 years of which at least last 7 years must have been in the field of Market Research
Statistician	Master's Degree in Statistics from a recognized University Good knowledge of urban data sources and urban data analysis Experience of statistically designing and managing sample surveys	At least 15 years of which at least last 5 years must have been for the Urban Sector

7.7 TA management and counterpart staff

The assignment will be contracted by the MoUD for carrying out the assignment.

7.7.1 Items to be provided by the MoUD

a. The MoUD will set up a Coordinating Team at the national level for providing guidance and support to the Core Team for executing the assignment;
b. Provide support for organizing various State and city level workshops and meetings;.
c. Provide feedback from time to time for finalizing deliverables;
d. Set up a monitoring system for timely validation of data and finalization of aggregate data.

7.7.2 Items to be provided by the agency

In addition to the results and deliverables listed above, the Consultant will:

a. Provide for all manpower, materials and equipment necessary for carrying out the assignment;
b. Provide all resources for report production and necessary translations;
c. Provide all Computers and software required by the teams for carrying out the tasks;
d. Arrange for all transportation and travelling required for the teams including Investigations.

Section 8. Conditions of Contract and Contract Forms

1/3151890

Record of Discussions of the Meeting chaired by Hon. PM to discuss the progress of 'Clean Ganga Mission', 18th May 2017, 7 pm, South Block

Prime Minister chaired a meeting to discuss the progress of 'Clean Ganga Mission'. The list of the participants is attached.

2. Secretary, M/o Water Resources, River Development and Ganga Rejuvenation made a brief presentation on the concept. Following decisions were taken after detailed deliberations:

i. The voluntary organizations like that of Mata Amritanandmayee, who have made huge donations towards the cause of cleaning of Ganga, may be appropriately involved in the community awareness programmes.

(Action: NMCG)

ii. A system should be put in place to regularly cross-verify the performance of the Real Time Water Quality Monitoring Stations.

(Action: CPCB)

iii. Amongst the Grossly Polluting Industries (GPIs), those which are complying with the pollution control norms should be publicly felicitated, while names of those which are not complying with the pollution control norms may be prominently displayed at public places.

(Action: NMCG, CPCB)

iv. An effort be made to explore whether different eco-friendly technology could be used for the process of tanning by the tanneries, so as to reduce the pollution load in the Ganga.

(Action:MoWR, NMCG)

v. The big temple trusts in the country could be appealed to participate in the process of cleaning of ghats and banks of Ganga. An appropriate plan be made to allocate defined stretches of Ganga, across its length, to these temple trusts for cleaning.

(Action: NMCG)

vi. The possibility deploying of solar operated trash skimmers for river surface cleaning may be explored.

(Action: NMCG)

vii. The possibility of banning usage of plastic within certain zone from the banks of Ganga may be explored.

(Action:MoEF, NMCG)

viii. The works of construction of ghats and crematoria as well as that of cleaning of ghats etc. should be left to the local municipal / village administration and the State Governments. The NMCG should mainly focus on controlling and reducing the pollution of the river Ganga due to sewage and industrial effluents.

(Action: NMCG)

ix. An attempt be made to organize competition in the 5 States on the parameter of Swachhata in the villages located on the banks of the Ganga.

(Action: MoDWS)

x. Regarding the upcoming turtle sanctuary at Varanasi, a holistic view be taken about the location.

(Action: MoEF, NMCG)

xi. For increasing awareness amongst the citizens visiting Ganga, hoardings containing appropriate messages be put up at suitable places near the banks of the river.

(Action: NMCG)

xii. The administrative capacity of local self-governments along the banks of Ganga needs to be augmented. The Ministry should prepare a proposal on comprehensive reforms in UP Jal Nigam with technical assistance of experts.

(Action:MoWR, NMCG)

xiii. The mission should ensure dissemination of information about the works done and about the ongoing activities.

(Action: NMCG)

xiv. M/o Railways may be appealed to buy the treated and recycled water from the STPs.

(Action:M/oRailways, NMCG)

xv. The municipal administration in India needs major reforms to make the cities sustainable in terms of generating own revenue to run the operations of basic utilities. In this regard, MoUD can think of ranking the cities in terms of own revenue generated and performance of key utilities.

(Action: MoUD)

Annexure

LIST OF PARTICIPANTS

1. Shri. Amitabh Kant, CEO, NITI Aayog
2. Dr. Amarjit Singh, Secretary, Water Resources, RD & GR
3. Shri. Parameswaran Iyer, Secretary, Drinking Water & Sanitation
4. Shri. U.P. Singh, Addl. Secretary and DG, NMCG
5. Shri. S.P. Singh Parihar, Chairman, CPCB

Prime Minister's Office

1. Shri. Nripendra Misra, Principal Secretary to PM
2. Dr. P.K. Mishra, Addl. Principal Secretary to PM
3. Shri. A.K. Sharma, Joint Secretary to PM
4. Ms. Debashree Mukherjee, Joint Secretary to PM
5. Dr. Shrikar Pardeshi, Director

Subject: RE: REOI_Liveability

Dear Mr. Kumar:

Technically, the package meets our principal approval. However, to begin procurement please:

- Send the REOI in Bank format, attached for reference
- Please include cost estimate
- Please update activity in STEP as all no objections will be online through STEP and not email

Please check the above parameters for the innovations package also.

Thanks and Best

Vasudha Thawakar

Senior Urban Specialist

Subject: Fwd: REOI_Liveability

Dear Madam,

Please find enclosed herewith a REOI for shortlisting of firms for assessment of livability of selected cities out of 79 indicators (may be varied). At present, 114 cities have been identified and the same may be varied.

The procurement will be done by NIUA, which is an Institute under Ministry of Urban Development (MoUD), Government of India, on behalf of the MoUD. The payment for the assignment for the first round will be made by the Ministry directly to the selected agency on successful completion of assignment and duly certified by NIUA out of CBUD funds.

You are requested to convey no objection/comments of World bank at the earliest.

--

Regards,

G Vijay Kumar

Under Secretary the Government of India,

Ministry of Urban Development,

Smart Cities Division, Nirman Bhavan, New Delhi.

Justification for the Liveability Index Assessment Proposal

The Government of India along with State and Local Governments is implementing several flagship urban missions for improving various aspects of urban development in Indian cities. An underlying goal of these initiatives is to make Indian cities more 'Liveable. In this context, the Ministry of Urban Development has developed a set of 'Liveability Standards of Cities'. These will act as a guiding framework for cities to chart their pathway towards liveability and result in a systematic improvement in the quality of life of citizens in Indian cities. About 79 standards are proposed across 15 different categories. Based on this framework, the Ministry proposes to conduct an 'Annual Assessment of Liveability and develop a 'City Liveability Index' as well as sub-indices across 15 categories. To start with, only 116 cities will be assessed on liveability during 2017-18.

The National Institute of Urban Affairs (NIUA) has been asked to undertake the overall assignment through a professional firm. NIUA will be overall responsible for releasing the Liveability Index every year during 2017 to 2020. The index will be made public on the first day of January starting from 2018. Accordingly, NIUA has prepared an action plan to procure agency/agencies for data collection and other activities connected to the assessment. NIUA will follow GFR in all their procurement processes and payments, operations and CBUD (World Bank Funds) norms during 2017-18. Below are given the details of implementing the framework.

An agency will be hired by NIUA to provide professionals at the National level (to be located at NIUA) and Regional team to do the assessments of cities. City level assessments including surveys, collection of samples, etc. will be done by data collectors having expertise in different domains (e.g. solid waste management, transport) and accredited with or belonging to inspection bodies (such as **Bureau Vertitas** (India) Pvt. Ltd., **TUV SUD South Asia** Pvt. Ltd. etc.) having extensive experience in doing such kind of surveys and assessments.

Regional breakup of 116 cities is given as Annexure below – where it emerges that 9 Regional clusters having 13 cities each are formed, based on which city assessment costs are derived. Suggested indicators that require surveys are also described in Table 2. About 15 indicators are assumed to need surveys and/or laboratory tests which are costed tentatively, as survey sample size and need would vary as per indicator and the city. The agency estimates are based on charge-out rates (manpower + expenses + profits) as have been deployed in Project Management Unit (PMU) teams hired by the Ministry till date. Travel and other cost estimates are based on similar costs in other current projects, market trends and contracts given by the Ministry.

NIUA will deploy a team of 5 professionals to monitor the overall project, maintain quality & integrity of data & standards across cities, and capture lessons from the assessment exercise. This will include development of a standard methodology and software to be used by all the teams, so that the assessment is uniform and indexation is possible. The NIUA team is considered for 9 months (May 2017 to January 2018, inclusive) with the first 3 months given for internal team setup, agency procurement process and a universal software development for the Assessment. The next 6 months will be working in tandem with the different teams. The last month is kept for wrapping up the process for 2017 after the results are announced.

The NIUA team will consist of human resources as given in Table 1 below.

Table 1

Position	Minimum Qualifications & skills	Minimum Experience
Team Leader	Post Graduate degree in Engineering/Planning/Architecture/Economics/ Management/Mathematics/Statistics from a recognised University/Institution. Experience of working in Urban Sector. Experience of leading national/international level Urban Research assignments related to indexing of cities. Managed at least 1 projects of similar nature.	At least 20 years' experience in urban/management/research/ sector
Data Analytics and Indexing Specialist	Post graduate level qualification in Statistics from a recognised University/institution. Experience of data analysis developing composite indexes at national level.	15 years professional experience. Managed/worked in at least 2 assignments of similar nature
Urban Specialist (cross sectoral)	Post Graduate degree in Planning from a recognised university/institution. Experience of planning projects or city development aspects across planning sectors of transport, environment, services, etc.	15 years professional experience. Managed/worked in at least 2 assignments of similar nature
IT Specialist/Software Developer	Post Graduate in Software development from a recognized university/institution. Experience in developing software for Database Management System and data analysis	10 years' experience in the field. Developed at least 2 software for similar nature.

NIUA team will also have an Administrative Officer / Office Manager (qualifications and experience to suit the requirement) to manage the above project and its related matters.

Professionals deployed by Agency at the National level

The National level team to be located at NIUA is considered for 7 months (July 2017 to January 2018, inclusive), of which 6 months are common with the regional teams who will do the assessment of the cities. There are 12 workshops planned overall to be attended by the qualified members of the national level team: 1 each at National level for pre-bid, launch with selected agencies and at closing; and 1 each at each of the 9 Regional Centres midway to ascertain progress. The national team will consist of human resources as given in Table 2 below.

Table 2

Position	Minimum Qualifications & skills	Minimum Experience

Team Leader	Post Graduate degree in Engineering/Planning/Architecture/Economics/ Management/Mathematics/Statistics from a recognised University/Institution. Experience of working in Urban Sector. Experience of leading national/international level Urban Research assignments related to indexing of cities. Managed at least 1 projects of similar nature.	At least 20 years' experience in urban/management/research/ sector
Survey and Sampling Specialist	Post graduate level qualification in Statistics/Management (Marketing) from a recognised University/institution. Experience of designing and managing surveys and market research assignments.	15 years professional experience. Managed/worked in at least 2 assignments of similar nature
Data Analytics and Indexing Specialist	Post graduate level qualification in Statistics from a recognised University/institution. Experience of data analysis developing composite indexes at national level.	15 years professional experience. Managed/worked in at least 2 assignments of similar nature
Urban Transport Specialist	Post Graduate degree in Transport Planning from a recognised university/institution. Experience of designing and managing transport surveys, transport planning.	15 years professional experience. Managed/worked in at least 2 assignments of similar nature
Environment Specialist	Post Graduate degree in Planning (Environment Focus)/ Environmental Sciences from a recognised university/institution. Experience in Environmental Impact Assessment and Environmental Management Plan	15 years professional experience. Managed/worked in at least 2 assignments of similar nature
GIS Specialist	Post Graduate degree in Geography/Urban Planning / Engineering from a recognized university/institution Experience of undertaking GIS mapping and analytics for urban local bodies	15 years professional experience. Managed/worked in at least 2 assignments of similar nature

The national team will also have Data Entry Operators (4 Nos.).

The national level team will be responsible for aggregating data received from the teams, etc . An important function of the National level team will be quality control to ensure the authenticity of the data collected through surveys. The authenticity of data shall be ensured through visual backup like photographs etc. and using geo-tagging technology through hand held devices. A useful precedence is the *Swacch Sarvekshan*.

Teams for City level assessment aggregated at Regional Cluster levels

The data collection and ground surveys of all the cities will be carried out by teams deployed by the Agency at Regional levels and travelling to the cities in the cluster. Each City team will carry out the assessment of indicators across in 15 categories through verification of secondary data and deployment of necessary surveyors for each city, and the laboratory tests as required in some

indicators. About 15 indicators are assumed to need surveys and/or laboratory tests. Table 2 gives the details.

Table 2

1 INTRODUCTION

1.1 Background

a) The Government of India along with State and Local Governments is implementing several flagship urban missions for improving various aspects of urban development in Indian cities. An underlying goal of these initiatives is to make Indian cities more ‘Liveable. This will not only providing good quality core infrastructure and services, but also developing cities with ample opportunities for work, entertainment and cultural activities, improved social infrastructure and economic opportunities.

b) In order to do this through a structured approach it is important to create a common minimum framework, which cities can use to assess their ‘Liveability’ and measure their progress over time. In this context Ministry of Urban Development has developed a set of ‘Liveability Standards of Cities’. These will act as a guiding framework for cities to chart their pathway towards liveability and result in a systematic improvement in the quality of life of citizens in Indian cities. The draft ‘Liveability Standards’ are available at Smart City website.

c) A total of 79 different standards are proposed across 15 different categories. The Ministry proposes to conduct an ‘Annual Assessment of Liveability in the various standards and develop a ‘City Liveability Index’ of the liveability standards in selected cities.

d) A total of 114 Cities have been selected. Shortlisting process is being undertaken to identify a panel of consultants who will be eligible for selection to do assessment of liveability standards in selected cities.

1.2 Brief Terms of Reference

1.2.1 Scope of work for the Smart City Agencies

The broad tasks to be performed and key activities under the assignment ***(This is indicative and detailed scope of work will be provided in the RFP to be issued to the shortlisted empanelled Firms)*** will include:

a) Conduct a Reconnaissance Study of all cities included in the project. The study shall include City level kick off meetings with key officials from city government and other stakeholders. Study City demography, socio economic stratification and geography. Identification of data sources.

b) Prepare and submit to the NIUA, a City wise Inception Report. The Inception Report shall include Plan of Action, timelines for city field visits. Finalised schedule and Plan of Action in consultation with NIUA.

c) Data Collection and Field Surveys.

d) Maintain and submit raw data and data collection forms to NIUA.

e) Develop and maintain a digital data base of all data sets collected.

f) Conduct analysis of the raw data through Analytics team prepare aggregate data sets for all the standards and submit to NIUA.

g) Submit Draft Assessment reports to the cities and NIUA separate for each City along with aggregate data in the prescribed format, all raw data, sources of data, assumptions if any, record of discussions and other relevant documents.

h) Final City Assessment Report to the NIUA after including agreed recommendations of the NIUA,

The Details Terms of reference including payment schedule and implementation arrangement shall be provided in the Request for Proposal (RfP) to be issued by NIUA to the shortlisted consultants.

1.3 Availability of REOI Document

The document may be downloaded from the following website
https://eprocure.gov.in/cppp,
http://moud.gov.in/cms/tendersandcorrigendum.php and
http://smartcities.gov.in/content/innerpage/rfps.php

1.4 Validity of Applications

The Application shall be valid for a period of not less than 90 (Ninety) days from the Application Due Date hereinafter called "**Application Validity Period**". NIUA reserves the right to reject any or all the Applications without assigning any reason whatsoever.

1.5 Scope and Description of Shortlisting Process

a) NIUA proposes to adopt a single stage process to evaluate Applications received based on criteria set out in this REOI Document. Based on this evaluation a panel of consultants shall be prepared.

b) NIUA proposes to empanel eligible consultants through this process.

c) **The details of Cities are at Annexure "A".**

d) **The 'Liveability Standards for Cities' and methodology for assessment is available at link http://smartcities.gov.in/content/innerpage/others.php**

e) The purpose of Shortlisting process is to shortlist a panel of consulting firms that can carry out the assignment of assessment of liveability standards. However, by virtue of getting shortlisted with NIUA does not entitle shortlisted consultancy firms to claim their expenses incurred, if any, in the process of shortlisted nor to claim for any assignment, whatsoever, it may be.

f) The NIUA will invite technical and financial proposals from selected shortlisted consultancy firms by issuing RFP which will contain detailed scope of work and other details related to the assignment.

1.6 Schedule of Shortlisting Process

NIUA would endeavour to adhere to the following schedule:

Sr. No.	Event Description	Indicative Dates
1.	Date of Issue of REOI	9th May 2017
2.	Pre Application Conference	16th May, 2017 2.00 PM
3.	Last Date for receiving queries	19nd May 2017
4.	NIUA's response to queries latest by	23th May 2017
5.	**Last Date of Submission of EOI**	**30th May 2017 3.00PM**

1.7 Pre-Application Conference

The date, time and venue of Pre-Application Conference shall be:

Date: 16th May, 2017
Time: 2.00 PM
Venue: Conference Hall, National Institute of Urban Affairs, Core 4- B, Ist Floor, India Habitat Centre, Lodhi Road, New Delhi 110003

1.8 Communications

All communications excluding the submission of Application shall be addressed to Email:niua@niua.org Telephone No.01124643284.

2 Instructions to Applicants

A. General

2.1 Scope of Application

a) NIUA shall receive Applications from eligible entities for the assignment in order to shortlist a panel of consultants.

b) The Applicant shall submit its Application in the form and manner specified in this REOI.

2.2 Eligible Applicants

a) The Applicant eligible for participating in the qualification process shall be any one of the following two categories:

  a. Category 1: Single Business Entity
  b. Category 2: A consortium of Business Entities (hereinafter referred to as “Consortium”)

  The term Applicant would hereinafter apply to both the above-mentioned categories.

b) For the purpose of this REOI, a Business Entity shall mean a company incorporated in India under the provisions of the Companies Act, 2013 or under LLP Act or under the equivalent law in case of a foreign Company. Copy of such Registration Certificate should be submitted along with the Application.

c) A Consortium of a maximum of Five (5) members of above such entities including Lead Member shall be allowed and shall hereinafter be referred as "Consortium".

d) The Applicant should submit a Power of Attorney as per the format enclosed at **Appendix 2**, authorising the signatory of the Application to commit the Applicant.

e) Applications submitted by a Consortium should comply with the following additional requirements:

  a. The number of members in the Consortium would be limited to Five(5) including the lead member;
  b. The Application should contain the information required from each member;
  c. The Application should include a description of the roles and responsibilities of all the members;

d. Members of the Consortium shall nominate one member as the Lead Member and that member must be an entity as defined in clause 2.2.(b);

e. An Applicant who has applied for Shortlisting in its individual capacity or as part of a Consortium cannot participate as a member of any other Consortium applying for the Shortlisting;

f. The members of the Consortium shall execute a Power of Attorney for Lead Member of Consortium as per the format enclosed at **Appendix 1**; and

g. The members of the Consortium shall enter into a Memorandum of Understanding (MoU), as per the format provided under **Appendix 8** for the purpose of submission of the Application. The MoU should, inter alia,

  i. Clearly outline the proposed roles and responsibilities of each member of the Consortium; and
  ii. Include a statement to the effect that all members of the Consortium shall be liable jointly and severally for the assignments arising out of the States, Union Territories and million plus cities, as the case may be and in accordance with the terms of the contract agreement therefore;

A copy of the MoU signed by all members should be submitted with the Application. The MoU entered into between the members of the Consortium should contain the above requirements, failing which the Application shall be considered non-responsive.

f) An Applicant or member of Consortium which has earlier been barred by NIUA or blacklisted by any state government or central government / department / agency in India/ from participating in Bidding Process shall not be eligible to submit an Application, either individually or as member of a Consortium, if such bar subsists as on the Application Due Date. The Applicant or the member of Consortium shall be required to furnish an affidavit that there is no such bar imposed and existing as on the Application Due Date as per format provided in **Appendix 7**. In case the Applicant or member of Consortium gets banned by NIUA blacklisted by any state government or central government / department / agency during the Shortlisting Period such Applicant shall cease to be empanelled with NIUA.

g) A firm declared ineligible by the International Bank for Reconstruction and Development (IBRD), Washington, D.C., U.S.A., or the International Development Association, Washington, D.C., U.S.A Bank ("Bank") in accordance with the Bank Guidelines on Preventing and Combating Fraud and Corruption in Projects Financed by IBRD Loans and IDA Credits and Grants or debarred from providing consultancy services by and government agency in India shall be ineligible to submit an Application. In case the Applicant or member of Consortium is declared ineligible by the Bank or any government agency in India during the Shortlisting Period then such Applicant shall cease to be shortlisted with NIUA.

h) An Applicant or member of Consortium should have, during the last three years, neither failed to perform on any agreement, as evidenced by

imposition of a penalty or a judicial pronouncement or arbitration award against the Applicant or member of Consortium, nor been expelled from any project or agreement nor have had any agreement terminated for breach by such Applicant or member of Consortium. In case the Applicant or member of Consortium during period of Shortlisting, fails to perform on any legal agreement, as evidenced by imposition of a penalty or a judicial pronouncement or arbitration award against the Applicant or member of Consortium, or been expelled from any project or agreement or have had any agreement terminated for breach by such Applicant or member of Consortium, such Applicant shall cease to be empanelled with NIUA.

i) While submitting an Application, the Applicant should attach clearly marked and referenced continuation sheets in the event that the space provided in the specified forms in the Appendices is insufficient. Alternatively, Applicants may format the specified forms making due provision for incorporation of the requested information.

2.3 Change in Consortium Composition

Any change in the composition of a Consortium during the term of Shortlisting shall be permitted only with prior written approval from NIUA.. After Shortlisting no change in the consortium will be allowed.

2.4 Number of Applications

Each Applicant shall submit only one (1) Application for the assignment. Any Applicant, who submits or participates in more than one Application for the Shortlisting will be disqualified and will also cause the disqualification of the Consortium of which it is a member.

2.5 Application Preparation Cost

The Applicant shall be responsible and shall bear all costs and expenses associated with the preparation of its Application and its participation in the Shortlisting. It is clarified that NIUA shall be not responsible or in any way liable for such costs, expenses regardless of the conduct or outcome of the Shortlisting.

2.6 Acknowledgement by the Applicant

a) It is desirable that each Applicant submits it’s Application after collection of required information and analysis or any other matter considered relevant by it.

b) It would be deemed that by submitting the Application, the Applicant has:

   a. Made a complete and careful examination of the REOI Document; and
   b. Received all relevant information requested from NIUA.

c) NIUA shall not be liable for any mistake or error on the part of the Applicant in respect of the above.

2.7 Right to Accept or Reject any of the Applications

a) Notwithstanding anything contained in this REOI Document, NIUA reserves the right to accept or reject any Application or to annul the Shortlisting Process or reject all Applications at any time, without assigning any reasons thereof and without any liability or any obligation, of any nature whatsoever, for such rejection or annulment.

b) NIUA reserves the right to reject any Application if:
   a. At any time, a material misrepresentation is made or discovered; or
   b. The Applicant does not respond promptly and diligently to requests for additional information or clarification required for evaluation of the Application.

c) Rejection of the Application by NIUA, as aforesaid, would lead to the disqualification of the Applicant. If the Applicant is a part of Consortium, then the entire Consortium would be disqualified.

2.8 Amendment of REOI Document

At any time prior to the Application Due Date, NIUA may, for any reason, whether at its own initiative or in response to clarifications requested by an Applicant, modify the REOI Document by the issuance of Addenda posted on the website: https://eprocure.gov.in/cppp, Any Addendum thus issued will also be posted on the website:
http://moud.gov.in/cms/tendersandcorrigendum.php and
http://smartcities.gov.in/content/innerpage/rfps.php

a) In order to provide the Applicants a reasonable time to examine the Addendum, or for any other reason, NIUA may, at its own discretion, extend the Application Due Date.

2.9 Clarifications

An Applicant requiring any clarification on the REOI Document may request NIUA online through mail at Email:niua@niua.org Telephone No.01124643284.
The Applicants should send in their queries latest by the relevant date and time mentioned in Clause 1.7 ‘Schedule of Shortlisting Process’. NIUA would endeavour to respond to the queries by the date mentioned in the Schedule of Shortlisting Process. The responses will be uploaded on the website: https://eprocure.gov.in/cppp,

B. Preparation and Submission of Application

2.10 Language

The Application and all related correspondence and documents should be furnished by the Applicant with the Application in English or in any other language provided that these are accompanied by appropriate translations of the pertinent passages in the English language. Supporting material, which are not translated into English, may not be considered. For the purpose of interpretation and evaluation of the Application, the translated in English language shall prevail.

2.11 Submission of Application

a) The Applicant would provide all the information in terms of this REOI Document. Only those Applications shall be evaluated that are received in the required format and complete in all respects. **The Application shall be submitted in maximum 100 pages.**

b) The Applicant shall submit a digitally signed, encrypted and complete Proposal comprising the documents and forms in accordance with Clause 2.12. The submission shall be done electronically on the portal https://eprocure.gov.in/cppp, Proposals submitted by any other means will be rejected.

2.12 Sealing and Marking of Applications

a) An authorized representative of the Applicant shall digitally sign the submission letters in the required format. The authorization shall be in the form of a written power of attorney scanned and uploaded together with the Application as per Appendix 2.

b) The Application shall contain the following (check-list):

a.	Letter of Application	Refer Appendix 1
b.	Power of Attorney for signing of the Application (in case of Consortium, this would need to be provided by all the m ember)	Refer Appendix 2
c.	In case of Consortium, Power of Attorney for signing of Application by the Lead Member	Refer Appendix 3
d.	Details of Applicant including financial strength (in case of Consortium, this would need to be provided by all the members)	Refer Appendix 4
e.	Experience of the Firm in implementing assignments related to market research and surveys.	Refer Appendix 5 and 5A
f.	Specific experience of the Firm in implementing assignments related to surveys and field research in the urban areas through teams consisting of data collectors accredited with or belonging to inspection bodies such as Bureau Veritas (India)	Refer Appendix 6 and 6A

	Pvt. Ltd., UV SUD South Asia Pvt. or of equivalent status and repute.	
g.	Experience of Applicant in implementing assignments of undertaking analysis and assessment of data related to governance, transportation, environment, housing and sanitation.	Refer Appendix 7 and 7A
h.	Format for Affidavit Certifying that Entity/Directors(s) of Entity not Blacklisted	Refer Appendix 8
i.	Format for Memorandum of Understanding (MOU)	Refer Appendix 9
j.	Proof of registration of the Applicant (in case of Consortium, proof of registration of all the Members)	-

2.13 Application Due Date

a) The Application or its modifications must be uploaded on the portal no later than the deadline mentioned in the Schedule of Shortlisting Process (refer Clause 1.7), or any extension to this deadline. The electronic system will not accept any Proposal or its modification for uploading after the deadline. Applications submitted by either facsimile transmission or telex shall not be accepted.

b) NIUA may, in exceptional circumstances, and at its sole discretion, extend the Application Due Date by issuing an Addendum in accordance with Clause 2.8 (a), uniformly for all Applicants.

2.14 Late Applications

The electronic system will not accept any Application or its modification for uploading after the deadline.

Evaluation Process

2.15 Opening of Applications

The NIUA evaluation committee shall conduct the opening of the Applications online after the Application submission deadline.

2.16 Evaluation of Applications

a) The Applications, so received, would subsequently be examined and evaluated in accordance with the criteria set out in Section 3.

b) NIUA reserve the right to utilise the services of consultant/s or advisor/s, to assist in the examination, evaluation, and comparison of Applications.

c) NIUA reserves the right to reject any or all the Applications, if:
  a. At any time, a material misrepresentation is made or discovered; or
  b. The Applicant does not respond promptly and diligently to requests for supplemental information required for the evaluation of the Application.

2.17 Confidentiality

a) Information relating to the examination, clarification, evaluation, and recommendation for the Shortlisted Applicants shall not be disclosed to any person not officially concerned with the Shortlisting Process. NIUA will treat all information submitted as part of Application in confidence and would require all those who have access to such material to treat the same in confidence. At the conclusion of the evaluation process, NIUA shall notify the list of Applicants who have been shortlisted.

b) NIUA shall not divulge any such information unless it is ordered to do so by any authority pursuant to applicable law or order of a competent court or tribunal, which requires its disclosure.

2.18 Tests of Responsiveness

a) Prior to evaluation of Applications, it shall be determined whether each Application is responsive to the requirements of the REOI Document. An Application shall be considered non responsive if the Application:
  a. is not received online as indicated at 2.11;
  b. is not digitally signed with the submission letters as stipulated in Clause 2.12 (a);
  c. does not contains all the information and documents as set out in Clause 2.12 (b) and in the formats set out in this REOI Document; and
  d. Does not mentions the Application Validity Period as set out in Clause 1.4.

b) NIUA reserves the right to reject any Application which is non-responsive and no request for alteration, modification, substitution or withdrawal shall be entertained by NIUA in respect of such Applications.

2.19 Clarifications to Facilitate Evaluation

a) To facilitate evaluation of Applications, NIUA, at its sole discretion, seek clarifications in writing from any Applicant regarding its Application. Such clarifications shall be provided within the time specified by NIUA, as the case may be, for this purpose. Any request for clarifications and all clarifications shall be in writing.

b) If an Applicant does not provide clarifications sought under Sub-Clause 2.19 (a) above within the prescribed time, its Application shall be liable to be rejected. In case the Application is not rejected, NIUA may proceed to evaluate the Application by construing the particulars requiring clarification to the best of its understanding, and the Applicant shall be barred from subsequently questioning such interpretation.

2.20 Conflict of Interest

a) NIUA requires that the Shortlisted Consultants provide professional, objective, and impartial advice and at all times hold paramount the interests of NIUA, strictly avoid conflicts with other assignments or its own interests, and act without any consideration for future work. The Shortlisted Consultants shall not accept or engage in any assignment that would be in conflict with, or that may place it in a position of not being able to carry out the assignment for which it has been engaged.

C. Shortlisting and Notification

2.21 Shortlisting of Consultants

a) After the evaluation of Applications, NIUA shall prepare a list of Applicants who meet the qualification criteria as set out in this REOI Document. Other Applicants may be informed that their Applications have been unsuccessful.

b) The shortlisted Applicants would be duly notified that they have been shortlisted for the assignment.

c) The NIUA reserves the right to make additions in the panel after following due process.

3 Criteria for Evaluation

3.1 Evaluation of Applications

a) This section provides the details of evaluation process. The Applications will be evaluated on the basis of the following parameters:

a. General Experience of the Firm: **Number of years' experience**
b. Financial Strength of the Firm
c. Staff having experience of carrying out similar assignments and having performed tasked related to the assignment: **Number of such staff.**

d. Experience of the firm in implementing assignments related to market research and field surveys in the urban areas: **Number of assignments.**

e. Specific experience of the Firm in implementing assignments related to surveys and field research in the urban areas through teams consisting of data collectors accredited with or belonging to inspection bodies such as Bureau Vertitas (India) Pvt. Ltd., UV SUD South Asia Pvt. or of equivalent status and repute: **Number of assignments**

f. Experience of the firm in implementing assignments for undertaking analysis and assessment of data related to governance, transportation, environment, housing and sanitation; **Number of assignments.**
.

b) The Applications will be evaluated on the basis of the following parameters for each of the three respective areas:

S.No.	Parameter	Maximum Marks
1.	General Experience of the Firm	**5**
2.	Financial Strength of the Firm	**15**
3.	Staff having experience of carrying out similar assignments and having performed tasks related to the assignment	**25**
3	Experience of the firm in implementing assignments related to market research and field surveys in the urban areas	**10**
4	Specific experience of the Firm in implementing assignments related to surveys and field research in the urban areas through teams consisting of data collectors accredited with or belonging to inspection bodies such as Bureau Vertitas (India) Pvt. Ltd., UV SUD South Asia Pvt. or of equivalent status and repute	**30**
4	Experience of the firm in implementing assignments for undertaking analysis and assessment of data related to governance, transportation, environment, housing and sanitation.	**15**
	Total	**100**

a) The Applicants (firm) who secure a score of 75 marks or more out of 100 shall be considered for shortlisting.

b) After evaluation of the Applications and scoring of the same, the Applicants, with at least 75marks shall be ranked in descending order of the scores secured and based on that shortlisted panel will be prepared.

c) RFP will be issued to the shortlisted firms for selection on QCBS.

4 Fraud and Corrupt Practices

4.1 The Applicants and their respective officers, employees, agents and advisers shall observe the highest standard of ethics during the Shortlisting Process. Notwithstanding anything to the contrary contained in this REOI, NIUA shall reject a proposal without being liable in any manner whatsoever to the Applicant, if it determines that the Applicant has, directly or indirectly or through an agent, engaged in corrupt practice, fraudulent practice, coercive practice, undesirable practice or restrictive practice (collectively the "**Prohibited Practices**") in the Shortlisting Process.

4.2 Without prejudice to the rights of NIUA under Clause 4.1 hereinabove, if an Applicant or Consultant, as the case may be, is found by the NIUA to have directly or indirectly or through an agent, engaged or indulged in any corrupt, fraudulent, coercive, undesirable or restrictive practice during the Shortlisting Process, or after the issue of the notification of Shortlisting, such Applicant or Consultant shall not be eligible to participate in any tender or RFP issued by NIUA during a period of 2 (two) years from the date as the case may be.

4.3 For the purposes of this Section, the following terms shall have the meaning hereinafter respectively assigned to them:

a. "**corrupt practice**" means (i) the offering, giving, receiving, or soliciting, directly or indirectly, of anything of value to influence the action of any person connected with the Shortlisting Process; or (ii) save as provided herein, engaging in any manner whatsoever, whether during the Shortlisting Process or after the issue of the Notification of Shortlisting as the case may be, any person in respect of any matter relating to the Shortlisting or Notification of Shortlisting, who at any time has been or is a legal, financial or technical consultant/ adviser of NIUA in relation to any matter concerning the Project;

b. "**fraudulent practice**" means a misrepresentation or omission of facts or disclosure of incomplete facts, in order to influence the Shortlisting Process;

c. "**coercive practice**" means impairing or harming or threatening to impair or harm, directly or indirectly, any persons or property to influence any person's participation or action in the Shortlisting Process;

d. "**undesirable practice**" means (i) establishing contact with any person connected with or employed or engaged by the NIUA with the objective of canvassing, lobbying or in any manner influencing or attempting to influence the Shortlisting Process; or (ii) having a Conflict of Interest; and

e. "**Restrictive practice**" means forming a cartel or arriving at any understanding or arrangement among Applicants with the objective of

restricting or manipulating a full and fair competition in the Shortlisting Process.

5 Pre-Application Conference

5.1 Pre-Application Conference of the Applicants shall be convened at the designated date, time and place. A maximum of two representatives of each Applicant shall be allowed to participate on production of an authority letter from the Applicant.

5.2 During the course of Pre-Application Conference, the Applicants will be free to seek clarifications and make suggestions for consideration of NIUA. NIUA shall endeavour to provide clarifications and such further information as it may, in its sole discretion, consider appropriate for facilitating a fair, transparent and competitive Shortlisting Process.

6 Miscellaneous

6.1 The Shortlisting Process shall be governed by, and construed in accordance with, the laws of India and the Courts at New Delhi shall have exclusive jurisdiction over all disputes arising under, pursuant to and/or in connection with the Shortlisting Process.

6.2 NIUA, in its sole discretion and without incurring any obligation or liability, reserves the right, at any time, to:

a. Suspend and/or cancel the Shortlisting Process and/or amend and/or supplement the Shortlisting Process or modify the dates or other terms and conditions relating thereto;
b. Consult with any Applicant in order to receive clarification or further information;
c. Retain any information and/or evidence submitted to NIUA by, on behalf of and/or in relation to any Applicant; and/or
d. Independently verify, disqualify, reject and/or accept any and all submissions or other information and/or evidence submitted by or on behalf of any Applicant.

6.3 It shall be deemed that by submitting the Application, the Applicant agrees and releases NIUA, its employees, agents and advisers, irrevocably, unconditionally, fully and finally from any and all liability for claims, losses, damages, costs, expenses or liabilities in any way related to or arising from the exercise of any rights and/or performance of any obligations hereunder, pursuant hereto and/or in connection herewith and waives any and all rights and/or claims it may have in this respect, whether actual or contingent, whether present or future.

6.4 All documents and other information supplied by NIUA or submitted by an Applicant shall remain or become, as the case may be, the property of NIUA. NIUA will not return any submissions made hereunder. Applicants are required to treat all such documents and information as strictly confidential.

6.5 NIUA reserves the right to make inquiries with any of the clients listed by the Applicants in their previous experience record.

REOI FOR SHORTLISTING OF CONSULTING FIRMS FOR ASSESSMENT OF LIVEABILITY IN SELECTED CITIES

RESPONSE TO PRE-BID QUERIES

S.NO	QUERY	RESPONSE
	REGARDING ELIGIBILITY	
	'A business entity' - Government entities, formed by cabinet decisions are not incorporated in companies Act/LLP Act. There should be a provision for such entities.	Explained in Clause 2.2 (b) page 7. As per procurement guidelines, State-owned enterprises are eligible to compete if they are: i. Legally and financially autonomous ii. Operate under commercial law iii. Are not under supervision by the agency contracting them In any case, such entities can participate as a consortium partner
	EMD processing fee required in EOI phase or not?	No
	REGARDING FINANCIAL QUALIFICATION CRITERIA	
	How do you define 'financial strength of the organization'? (What secures full marks?)	Information needs to be provided as per Annexure 4 of the REOI. The Procurement Committee will decide the same.
	Financial strength of the firm (Pg. no. 15, 3.1 b) Vague statement: Is there any lower limit?	
	Elucidation required for 'Financial strength evaluation'.	
	Is there any limit of turnover to apply for this bid?	No
	Valuation of consortium to be for 'lead partner' or consortium as a whole?	Technical criteria valuation will be for all consortium partners. For financial strength Lead partner shall only be evaluated.

	REGARDING SCOPE	
	You give assignment in a single company for PAN India. (Can someone apply for few cities only?)	Single selected agency has to carry out the entire assignment for 116 cities.
	There are 116 cities given in Annexure - 1, whether NIUA is going to split this assignment among many organizations or will it be given to one agency?	
	Would single or multiple agencies be deployed to conduct the research? If multiple, what would be min/max size of deliverables(state wise/zone wise)?	
	Please clarify if this is a single project or how would the cities be packaged if multiple projects.	
	Will you select one agency for 116 cities or there will be multiple agencies?	
	Will the complete assignment be taken by a single firm?	
	In case the number of firms are to be engaged, how would the lot be divided?	
	How many bidders will be considered for contract award for all 130 cities/towns.	
	How many firms are to be selected?	
	Can a consultant bid for few states or it has to bid for all the 116 cities?	
	In the background, 114 cities is mentioned whereas Annexure A has names of 116 cities in the list. So what is the exact number?	116 cities

	Standard of Liveability is defined or it has to be redefined by the consultant?	Please refer to the "Liveability Standards in Cities" along with "Methodology for Collection and Computation of Liveability Standards in Cities " which may be downloaded at http://smartcities.gov.in/content/innerpage/otherstoolkit.php
	Is the methodology and related indices confirmed or are under development?	
	Do you expect us to contribute to development of indices and calculations?	No
	Once the data is submitted, does the research agency gets a role in policy defining?	No
	What all does city inspection report contains?	In case this refers to 'Inception Reports': Refer 1.2.1.b for details on City wise Inception Report
	What is the definition of a city - Municipality area or UA?	Municipal area
	Will there be separate reports for each city?	Yes
	REGARDING TECHNICAL QUALIFICATION CRITERIA	
	What is the type of expertise required for the assignment?	Refer Clause 3.1 of REOI
	Why is accreditation with B.V. or UV SUD or equivalent necessary?	To ensure quality
	Can 'equivalent' in the above query be elucidated?	Please follow the terms of reference.
	Why specific certification required when we have more experiences of Market Research/Field surveys urban slums surveys/socio- economic surveys?	
	Teams consisting of data collectors accredited with or belonging to inspection bodies such as Bureau Veritas (india) pvt. Ltd., UV SUD South Asia pvt. or of equivalent status and	

	repute (Pg. no. 15, 3.1b) Which all bodies do include under this head? However, it is very difficult to get investigators/team for such a huge assignment	
	Section 3.1(e): Will ISO certifications quality? If yes, please specify how many projects or people to get 30 marks. If no, please specify the kind of accreditation.	
	Consideration of 30 marks in evaluation criteria for accreditation with Bureau veritas / UV SUD is too high. This criterion needs to be dropped to allow wider participation by industry in the project.	No change
	With respect to section 3 (b) of REOI on evaluation parameters, We have significant experience in undertaking field surveys and research and analysis in urban areas including household surveys, property survey and mapping etc. We have well laid out processes for data collection and quality assurance and are ISO 9001-2015 certified. As we mostly use in house survey designers, supervisors and data collectors, we have not worked with external terms specifically accredited by the specific organizations listed in REOI. The specific reference to inspection bodies may be removed in favour of generic quality assurance processes or certification or process demonstration.	
	From 3.1 Evaluation: Within each evaluation parameter, how will the marking be done? Is there any breakup of marks based on no. of assignments?	This will be decided by the Procurement Committee

	From 3.1 - Experience of staff- 25 marks: For how many similar assignments, maximum 25 marks will be awarded?	
	Point 3: Criteria for evaluation 3.1: Evaluation of applications a. What is the min number of experience for general experience? b. What is the minimum of staff having experience for similar assignment c. What is the minimum number of assignments related to market research and field survey in urban areas? d. What is the minimum number of assignments for experience of the firm in implementing assignments for analysis and assessment of data related to governance, transportation etc.	
	What is the score given to each assignment	
	The query is for the 'criteria for evaluation' marked at section 3. Under section 3.1 sub-point b, 4 parameters are grouped in 2 and marked as (3) and (4). The parameters include experience of the firm and the related assignments. The collective staff experience defines the firm's experience thus in that view the pointers are same except the expectations raised for the data collectors to be accredited with inspection bodies. Suggestion: In order to get more reliable data, one pointer should be added or weightage should be given to the consultants who are conducting the field work digitally.	

	Geotag information gives you more accuracy in terms of relying on data collected from that city itself.	
	On evaluation criteria what would be treated as Gold standard for each parameter i.e. what credential will make one eligible for full marks under each? What financial strength criteria will ensure 15 marks? How many projects as reference/experience?	
	Is the surveys held as large scale urban planning assignments will be counted or not?	Eligibility based on project details to be evaluated by the Procurement Committee
	Can we obtain global experience?	Yes
	Can study conducted in domain like governance, transportation, environment, conducted globally be shown in the experience?	Yes
	Is our global experience in similar studies relevant here?	Yes
	Reference Appendix 6 - Pg 28 ; Specific experience of the firm in implementing……….lead firm. Please clarify why pvt. Companies are mentioned and what kind of affiliation/equivalent status needed.	Self-Explanatory
	Reference Appendix 5,7 - Pg 26 and 30; A copy of the work order/agreement.........as per clause 2.19 Work order may not mention the survey work in most of the cases. But projects like PMAY are totally based on ground level survey as per the SOW mentioned by MOHUPA. Please consider these projects as under survey related work.	Project details to be submitted as per REOI

	REGARDING METHODOLOGY	
	Is primary data collection expected or the data needs to be collected from the ULB officials?	Both
	From 1.2 Brief TOR: What should be the methodology for data collection? Is this fixed or we have flexibility to opt for digital or other solutions?	This will be part of the detailed Terms of Reference as part of the Request for Proposal
	Research mode : physical surveys, government data, online research about the city. These need to be defined (for accuracy) and how to submit data (pre defined formats)	
	Please elaborate on secondary data availability from different line departments and primary data collection requirements in the project.	
	Data collection and field survey- What would be the universe/TG selection process?	
	REOI refers to a detailed methodology already developed for this experience. Will the selected consultant be allowed to improvise it?	
	Will usage of 'lateral' or 'proxy' data sources such as satellite imagery to access traffic patterns, built density, green cover, water bodies, open spaces etc, telephone data on mobility patterns etc be supported or encouraged?	
	What does identification of data resources and submission of resources of data mean?	This will be part of the detailed Terms of Reference as part of the Request for Proposal

	Has there been a baseline study conducted on the availability of administrative data across all the indicators mentioned in REOI? If so, will that be made available to the consultants at RFP stage?	No.
	Will data collected previously under other mission and programs viz. Swachh Survekshan etc. be made available for Liveability Index? (Can be very useful and avoid duplication of efforts)	This will be part of the detailed Terms of Reference as part of the Request for Proposal
	Will the government agencies provide support? To what extent? How?	
	Can data collection be a 'computer assisted personal interview' using CAPI devices (hand handled). REOI does mention that 'maintain and submit raw data and data collection forms to NIUA'.	
	Are you okay with digital form of data collection as you mentioned to submit raw data and data collection forms?	
	How is data to be submitted? Digitally or manually?	
	REGARDING DURATION OF ASSIGNMENT	
	What is the duration of this assignment?	This will be part of the detailed Terms of Reference as part of the Request for Proposal
	What would be the expected duration of the project(s)?	
	Once the purpose is defined then the research will make more sense. Also regarding the research - What is the time frame?	
	How much time is available for the actual execution of the project?	

	OTHER QUERIES	
	Define the purpose of research.	Please refer to the "Liveability Standards in Cities" and the "Methodology for Collection and Computation of Liveability Standards in Cities " documents, which can be downloaded from http://smartcities.gov.in/content/innerpage/otherstoolkit.php
	Assuming [that] in data collection for the government, [it is necessary] to identify the core areas which need to be addressed in the city, then the research need to be divided into three main parts - a. Physical structure - infrastructure b. social structure - occupation/education c. governance structure - how are things managed for a common man's life	
	Existing city infrastructure is required? Mapping the existing infrastructure in terms of connectivity, utilities, garbage management, education, employment opportunities and air quality.	
	Social structure : Liveability? What is the basic parameter which needs to be defined?	
	Governance structure : How is a common man's basic life and need governed? Who is accountable and answerable? Does the existing structure meets a common man's need?	
	Please provide the link for accessing liveability standards. Current link redirects to a page where it asks for EOI for Kakinada KMPs.

PART I

Section 1. Letter of Invitation

RFP No. CBUD/FIN/34 **Credit No**.4997-IN

New Delhi ____/ March/2017

Dear Mr. /Ms.:

1. The Government of India (hereinafter called "Borrower") has received financing from the International Development Association (IDA) (the "Bank") in the form of a credit (hereinafter called "credit") toward the cost of Capacity Building for Urban Development (CBUD) Project. The National Institute of Urban affairs, (an autonomous body under Ministry of Urban Development), the implementing agency of the Client, intends to apply a portion of the proceeds of this credit to eligible payments under the contract for which this Request for Proposals is issued. Payments by the Bank will be made only at the request of the *Ministry of Urban Development* (client) and upon approval by the Bank, and will be subject, in all respects, to the terms and conditions of the financing agreement. The financing agreement prohibits a withdrawal from the credit account for the purpose of any payment to persons or entities, or for any import of goods, if such payment or import, to the knowledge of the Bank, is prohibited by a decision of the United Nations Security council taken under Chapter VII of the Charter of the United Nations. No party other than the Borrower shall derive any rights from the financing agreement or have any claims to the proceeds of the credit.

   The Client now invites proposals to provide the following consulting services (hereinafter called "Services"): "Selection of Consulting Firms for Assessment of Liveability in 116 Cities cities in India". More details on the Services are provided in the Terms of Reference (Section 7).

2. This Request for Proposal (RFP) has been addressed to all eligible Consultants:

3. Deleted.

4. A firm will be selected under Quality and Cost Based Selection method (QCBS) **(Lump Sum)** and in a Proposal format as described in this RFP, in accordance with the policies of the Bank detailed in the Consultants' Guidelines which can be found at the following website: *www.worldbank.org/procure*.

5. The RFP includes the following documents:

   Section 1 - Letter of Invitation
   Section 2 - Instructions to Consultants and Data Sheet
   Section 3 - Technical Proposal - Standard Forms
   Section 4 - Financial Proposal - Standard Forms

Section 5 – Eligible Countries
Section 6 – Bank’s Policy – Corrupt and Fraudulent Practices
Section 7 - Terms of Reference
Section 8 - Standard Form of Contract (Time Based)

6. Please inform us by *[insert date]*, in writing by E-mail *[insert e-mail address]*:

   (a) That you have received the Letter of Invitation; and
   (b) Whether you intend to submit a proposal alone or intend to enhance your experience by requesting permission to associate with other firm(s) (if permissible under Section 2, Instructions to Consultants (ITC), Data Sheet 14.1.1).

7. Details on the proposal’s submission date, time and address are provided in Clauses 17.7 and 17.9 of the ITC.

Yours sincerely,

Section 2. Instructions to Consultants and Data Sheet

A. General Provisions

1. Definitions	(a) "Affiliate(s)" means an individual or an entity that directly or indirectly controls, is controlled by, or is under common control with the Consultant. (b) "Applicable Guidelines" means the policies of the Bank governing the selection and Contract award process as set forth in this RFP. (c) "Applicable Law" means the laws and any other instruments having the force of law in the Client's country, or in such other country as may be specified in the **Data Sheet**, as they may be issued and in force from time to time. (d) "Bank" means the International Bank for Reconstruction and Development (IBRD) or the International Development Association (IDA). (e) "Borrower" means the Government, Government agency or other entity that signs the *[loan/financing/grant[1]]* agreement with the Bank. (f) "CBUD" means Capacity Building for Urban Development (g) "Client" means the implementing agency that signs the Contract for the Services with the selected Consultant. (h) "Consultant" means a legally-established professional consulting firm or an entity that may provide or provides the Services to the Client under the Contract. (i) "Contract" means a legally binding written agreement signed between the Client and the Consultant and includes all the attached documents listed in its Clause 1 (the General Conditions of Contract (GCC), the Special Conditions of Contract (SCC), and the Appendices). (j) "Data Sheet" means an integral part of the Instructions to Consultants (ITC) Section 2 that is used to reflect specific country and assignment conditions to supplement, but not to

---

[1] *["loan agreement" term is used for IBRD loans; "financing agreement" is used for IDA credits; and "grant agreement" is used for Recipient-Executed Trust Funds administered by IBRD or IDA]*

over-write, the provisions of the ITC.

(k) “Day” means a calendar day.

(l) “Experts” means, collectively, Key Experts, Non-Key Experts, or any other personnel of the Consultant, Sub-consultant or Joint Venture member(s).

(m) “Government” means Government of India.

(n) “Joint Venture (JV)” means an association with or without a legal personality distinct from that of its members, of more than one Consultant where one member has the authority to conduct all business for and on behalf of any and all the members of the JV, and where the members of the JV are jointly and severally liable to the Client for the performance of the Contract.

(o) “Key Expert(s)” means an individual professional whose skills, qualifications, knowledge and experience are critical to the performance of the Services under the Contract and whose CV is taken into account in the technical evaluation of the Consultant’s proposal.

(p) “ITC” (this Section 2 of the RFP) means the Instructions to Consultants that provide~~s~~ the shortlisted Consultants with all information needed to prepare their Proposals.

(q) “LOI” (this Section 1 of the RFP) means the Letter of Invitation being sent by the Client to the shortlisted Consultants.

(r) “MoUD” means Ministry of Urban Development

(s) “Non-Key Expert(s)” means an individual professional provided by the Consultant or its Sub-consultant and who is assigned to perform the Services or any part thereof under the Contract and whose CVs are not evaluated individually.

(t) “Proposal” means the Technical Proposal and the Financial Proposal of the Consultant.

(u) “RFP” means the Request for Proposals to be prepared by the Client for the selection of Consultants, based on the SRFP.

(v) “SRFP” means the Standard Request for Proposals, which must be used by the Client as the basis for the preparation of the RFP.

(w) “Services” means the work to be performed by the Consultant

	pursuant to the Contract. (x) "Sub-consultant" means an entity to whom the Consultant intends to subcontract any part of the Services while remaining responsible to the Client during the performance of the Contract. (y) "TORs" (this Section 7 of the RFP) means the Terms of Reference that explain the objectives, scope of work, activities, and tasks to be performed, respective responsibilities of the Client and the Consultant, and expected results and deliverables of the assignment.
2. Introduction	2.1 The Client named in the **Data Sheet** intends to select a Consultant from those listed in the Letter of Invitation, in accordance with the method of selection specified in the **Data Sheet**. 2.2 The shortlisted Consultants are invited to submit a Technical Proposal and a Financial Proposal, or a Technical Proposal only, as specified in the **Data Sheet**, for consulting services required for the assignment named in the **Data Sheet**. The Proposal will be the basis for negotiating and ultimately signing the Contract with the selected Consultant. 2.3 The Consultants should familiarize themselves with the local conditions and take them into account in preparing their Proposals, including attending a pre-proposal conference if one is specified in the **Data Sheet**. Attending any such pre-proposal conference is optional and is at the Consultants' expense. 2.4 The Client will timely provide, at no cost to the Consultants, the inputs, relevant project data, and reports required for the preparation of the Consultant's Proposal as specified in the **Data Sheet**.
3. Conflict of Interest	3.1 The Consultant is required to provide professional, objective, and impartial advice, at all times holding the Client's interests paramount, strictly avoiding conflicts with other assignments or its own corporate interests, and acting without any consideration for future work. 3.2 The Consultant has an obligation to disclose to the Client any situation of actual or potential conflict that impacts its capacity to serve the best interest of its Client. Failure to disclose such situations may lead to the disqualification of the Consultant or the termination of its Contract and/or sanctions by the Bank. 3.2.1 Without limitation on the generality of the foregoing, the Consultant shall not be hired under the circumstances set forth

	below:
a. Conflicting activities	(i) Conflict between consulting activities and procurement of goods, works or non-consulting services: a firm that has been engaged by the Client to provide goods, works, or non-consulting services for a project, or any of its Affiliates, shall be disqualified from providing consulting services resulting from or directly related to those goods, works, or non-consulting services. Conversely, a firm hired to provide consulting services for the preparation or implementation of a project, or any of its Affiliates, shall be disqualified from subsequently providing goods or works or non-consulting services resulting from or directly related to the consulting services for such preparation or implementation.
b. Conflicting assignments	(ii) Conflict among consulting assignments: a Consultant (including its Experts and Sub-consultants) or any of its Affiliates shall not be hired for any assignment that, by its nature, may be in conflict with another assignment of the Consultant for the same or for another Client.
c. Conflicting relationships	(iii) Relationship with the Client's staff: a Consultant (including its Experts and Sub-consultants) that has a close business or family relationship with a professional staff of the Borrower (or of the Client, or of implementing agency, or of a recipient of a part of the Bank's financing) who are directly or indirectly involved in any part of (i) the preparation of the Terms of Reference for the assignment, (ii) the selection process for the Contract, or (iii) the supervision of the Contract, may not be awarded a Contract, unless the conflict stemming from this relationship has been resolved in a manner acceptable to the Bank throughout the selection process and the execution of the Contract.
4. Unfair Competitive Advantage	4.1 Fairness and transparency in the selection process require that the Consultants or their Affiliates competing for a specific assignment do not derive a competitive advantage from having provided consulting services related to the assignment in question. To that end, the Client shall indicate in the **Data Sheet** and make available to all shortlisted Consultants together with this RFP all information that would in that respect give such Consultant any unfair competitive advantage over competing Consultants.
5. Corrupt and Fraudulent Practices	5.1 The Bank requires compliance with its policy in regard to corrupt and fraudulent practices as set forth in Section 6. 5.2 In further pursuance of this policy, Consultant shall permit and shall cause its agents, Experts, Sub-consultants, sub-contractors,

	services providers, or suppliers to permit the Bank to inspect all accounts, records, and other documents relating to the submission of the Proposal and contract performance (in case of an award), and to have them audited by auditors appointed by the Bank.
6. Eligibility	6.1 The Bank permits consultants (individuals and firms, including Joint Ventures and their individual members) from all countries to offer consulting services for Bank-financed projects. 6.2 Furthermore, it is the Consultant's responsibility to ensure that its Experts, joint venture members, Sub-consultants, agents (declared or not), sub-contractors, service providers, suppliers and/or their employees meet the eligibility requirements as established by the Bank in the Applicable Guidelines. 6.3 As an exception to the foregoing Clauses 6.1 and 6.2 above:
a. Sanctions	6.3.1 A firm or an individual sanctioned by the Bank in accordance with the above Clause 5.1 or in accordance with "Anti-Corruption Guidelines" shall be ineligible to be awarded a Bank-financed contract, or to benefit from a Bank-financed contract, financially or otherwise, during such period of time as the Bank shall determine. The list of debarred firms and individuals is available at the electronic address specified in the **Data Sheet**.
b. Prohibitions	6.3.2 Firms and individuals of a country or goods manufactured in a country may be ineligible if so indicated in Section 5 (Eligible Countries) and: (a) as a matter of law or official regulations, the Borrower's country prohibits commercial relations with that country, provided that the Bank is satisfied that such exclusion does not preclude effective competition for the provision of Services required; or (b) by an act of compliance with a decision of the United Nations Security Council taken under Chapter VII of the Charter of the United Nations, the Borrower's Country prohibits any import of goods from that country or any payments to any country, person, or entity in that country.
c. Restrictions for Government-owned Enterprises	6.3.3 Government-owned enterprises or institutions in the Borrower's country shall be eligible only if they can establish that they (i) are legally and financially autonomous, (ii) operate under commercial law, and (iii) that they are not dependent agencies of the Client

	To establish eligibility, the government-owned enterprise or institution should provide all relevant documents (including its charter) sufficient to demonstrate that it is a legal entity separate from the government; it does not currently receive any substantial subsidies or budget support; it is not obligated to pass on its surplus to the government; it can acquire rights and liabilities, borrow funds, and can be liable for repayment of debts and be declared bankrupt; and it is not competing for a contract to be awarded by the government department or agency which, under the applicable laws or regulations, is its reporting or supervisory authority or has the ability to exercise influence or control over it.
d. Restrictions for public employees	6.3.4 Government officials and civil servants of the Borrower's country are not eligible to be included as Experts in the Consultant's Proposal unless such engagement does not conflict with any employment or other laws, regulations, or policies of the Borrower's country, and they (i) are on leave of absence without pay, or have resigned or retired; (ii) are not being hired by the same agency they were working for before going on leave of absence without pay, resigning, or retiring (in case of resignation or retirement, for a period of at least 6 (six) months, or the period established by statutory provisions applying to civil servants or government employees in the Borrower's country, whichever is longer. Experts who are employed by the government-owned universities, educational or research institutions are not eligible unless they have been full time employees of their institutions for a year or more prior to being included in Consultant's Proposal.; and (iii) their hiring would not create a conflict of interest.
B. Preparation of Proposals	
7. General Considerations	**7.1.** In preparing the Proposal, the Consultant is expected to examine the RFP in detail. Material deficiencies in providing the information requested in the RFP may result in rejection of the Proposal.
8. Cost of	**8.1.** The Consultant shall bear all costs associated with the

Preparation of Proposal	preparation and submission of its Proposal, and the Client shall not be responsible or liable for those costs, regardless of the conduct or outcome of the selection process. The Client is not bound to accept any proposal, and reserves the right to annul the selection process at any time prior to Contract award, without thereby incurring any liability to the Consultant.
9. Language	**9.1.** The Proposal, as well as all correspondence and documents relating to the Proposal exchanged between the Consultant and the Client, shall be written in the language(s) specified in the **Data Sheet**.
10. Documents Comprising the Proposal	**10.1.** The Proposal shall comprise the documents and forms listed in the **Data Sheet**. **10.2.** If specified in the **Data Sheet**, the Consultant shall include a statement of an undertaking of the Consultant to observe, in competing for and executing a contract, the Client country's laws against fraud and corruption (including bribery). **10.3.** The Consultant shall furnish information on commissions, gratuities, and fees, if any, paid or to be paid to agents or any other party relating to this Proposal and, if awarded, Contract execution, as requested in the Financial Proposal submission form (Section 4).
11. Only One Proposal	**11.1.** The Consultant (including the individual members of any Joint Venture) shall submit only one Proposal, either in its own name or as part of a Joint Venture in another Proposal. If a Consultant, including any Joint Venture member, submits or participates in more than one proposal, all such proposals shall be disqualified and rejected. This does not, however, preclude a Sub-consultant, or the Consultant's staff from participating as Key Experts and Non-Key Experts in more than one Proposal when circumstances justify and if stated in the **Data Sheet**.
12. Proposal Validity	**12.1. The Data Sheet** indicates the period during which the Consultant's Proposal must remain valid after the Proposal submission deadline. **12.2.** During this period, the Consultant shall maintain its original Proposal without any change, including the availability of the Key Experts, the proposed rates and the total price. **12.3.** If it is established that any Key Expert nominated in the Consultant's Proposal was not available at the time of Proposal submission or was included in the Proposal without his/her confirmation, such Proposal shall be disqualified and rejected for further evaluation, and may be subject to sanctions in accordance with

	Clause 5 of this ITC.
a. Extension of Validity Period	**12.4.** The Client will make its best effort to complete the negotiations within the proposal's validity period. However, should the need arise, the Client may request, in writing, all Consultants who submitted Proposals prior to the submission deadline to extend the Proposals' validity. **12.5.** If the Consultant agrees to extend the validity of its Proposal, it shall be done without any change in the original Proposal and with the confirmation of the availability of the Key Experts. **12.6.** The Consultant has the right to refuse to extend the validity of its Proposal in which case such Proposal will not be further evaluated.
b. Substitution of Key Experts at Validity Extension	**12.7.** If any of the Key Experts become unavailable for the extended validity period, the Consultant shall provide a written adequate justification and evidence satisfactory to the Client together with the substitution request. In such case, a replacement Key Expert shall have equal or better qualifications and experience than those of the originally proposed Key Expert. The technical evaluation score, however, will remain to be based on the evaluation of the CV of the original Key Expert. **12.8.** If the Consultant fails to provide a replacement Key Expert with equal or better qualifications, or if the provided reasons for the replacement or justification are unacceptable to the Client, such Proposal will be rejected with the prior Bank's no objection.
c. Sub-Contracting	**12.9.** The Consultant shall not subcontract the whole of the Services.
13. Clarification and Amendment of RFP	**13.1.** The Consultant may request a clarification of any part of the RFP during the period indicated in the **Data Sheet** before the Proposals' submission deadline. Any request for clarification must be sent in writing, or by standard electronic means, to the Client's address indicated in the **Data Sheet**. The Client will respond in writing, or by standard electronic means, and will send written copies of the response (including an explanation of the query but without identifying its source) to all shortlisted Consultants. Should the Client deem it necessary to amend the RFP as a result of a clarification, it shall do so following the procedure described below: 13.1.1. At any time before the proposal submission deadline, the Client may amend the RFP by issuing an amendment in writing or by standard electronic means. The amendment shall be sent to all shortlisted Consultants and will be binding on them. The shortlisted Consultants shall acknowledge receipt of

	all amendments in writing. 13.1.2. If the amendment is substantial, the Client may extend the proposal submission deadline to give the shortlisted Consultants reasonable time to take an amendment into account in their Proposals. **13.2.** The Consultant may submit a modified Proposal or a modification to any part of it at any time prior to the proposal submission deadline. No modifications to the Technical or Financial Proposal shall be accepted after the deadline.
14. Preparation of Proposals – Specific Considerations	**14.1.** While preparing the Proposal, the Consultant must give particular attention to the following: 14.1.1. If a shortlisted Consultant considers that it may enhance its expertise for the assignment by associating with other consultants in the form of a Joint Venture or as Sub-consultants, it may do so with either (a) non-shortlisted Consultant(s), or (b) shortlisted Consultants if permitted in the **Data Sheet**. In all such cases a shortlisted Consultant must obtain the written approval of the Client prior to the submission of the Proposal. When associating with non-shortlisted firms in the form of a joint venture or a sub-consultancy, the shortlisted Consultant shall be a lead member. If shortlisted Consultants associate with each other, any of them can be a lead member. 14.1.2. The Client may indicate in the **Data Sheet** the estimated Key Experts' time input (expressed in person-month) or the Client's estimated total cost of the assignment, but not both. This estimate is indicative and the Proposal shall be based on the Consultant's own estimates for the same. 14.1.3. If stated in the **Data Sheet**, the Consultant shall include in its Proposal at least the same time input (in the same unit as indicated in the **Data Sheet**) of Key Experts, failing which the Financial Proposal will be adjusted for the purpose of comparison of proposals and decision for award in accordance with the procedure in the **Data Sheet**. 14.1.4. For assignments under the Fixed-Budget selection method, the estimated Key Experts' time input is not disclosed. Total available budget, with an indication whether it is inclusive or exclusive of taxes, is given in the **Data Sheet**, and the Financial Proposal shall not exceed this budget.
15. Technical Proposal Format and	**15.1.** The Technical Proposal shall not include any financial information. A Technical Proposal containing material financial

Content	information shall be declared non-responsive. 15.1.1 Consultant shall not propose alternative Key Experts. Only one CV shall be submitted for each Key Expert position. Failure to comply with this requirement will make the Proposal non-responsive. **15.2.** Depending on the nature of the assignment, the Consultant is required to submit a Full Technical Proposal (FTP), or a Simplified Technical Proposal (STP) as indicated in the **Data Sheet** and using the Standard Forms provided in Section 3 of the RFP.
16. Financial Proposal	**16.1.** The Financial Proposal shall be prepared using the Standard Forms provided in Section 4 of the RFP. It shall list all costs associated with the assignment, including (a) remuneration for Key Experts and Non-Key Experts, (b) reimbursable expenses indicated in the **Data Sheet**.
a. Price Adjustment	**16.2.** For assignments with a duration exceeding 18 months, a price adjustment provision for foreign and/or local inflation for remuneration rates applies if so stated in the **Data Sheet**.
b. Taxes	**16.3.** The Consultant and its Sub-consultants and Experts are responsible for meeting all tax liabilities arising out of the Contract unless stated otherwise in the **Data Sheet**. Information on taxes in the Client's country is provided in the **Data Sheet**.
c. Currency of Proposal	**16.4.** The Consultant may express the price for its Services in the currency or currencies as stated in the **Data Sheet**. If indicated in the **Data Sheet**, the portion of the price representing local cost shall be stated in the national currency.
d. Currency of Payment	**16.5.** Payment under the Contract shall be made in the currency or currencies in which the payment is requested in the Proposal.

C. Submission, Opening and Evaluation

17. Submission, Sealing, and Marking of Proposals	17.1 The Consultant shall submit a signed and complete Proposal comprising the documents and forms in accordance with Clause 10 (Documents Comprising Proposal). The submission can be done by mail or by hand. If specified in the **Data Sheet**, the Consultant has the option of submitting its Proposals electronically. 17.2 An authorized representative of the Consultant shall sign the original submission letters in the required format for both the Technical Proposal and, if applicable, the Financial Proposal and shall initial all pages of both. The authorization shall be in the form

of a written power of attorney attached to the Technical Proposal.

17.2.1 A Proposal submitted by a Joint Venture shall be signed by all members so as to be legally binding on all members, or by an authorized representative who has a written power of attorney signed by each member's authorized representative.

17.3 Any modifications, revisions, interlineations, erasures, or overwriting shall be valid only if they are signed or initialed by the person signing the Proposal.

17.4 The signed Proposal shall be marked "ORIGINAL", and its copies marked "COPY" as appropriate. The number of copies is indicated in the **Data Sheet**. All copies shall be made from the signed original. If there are discrepancies between the original and the copies, the original shall prevail.

17.5 The original and all the copies of the Technical Proposal shall be placed inside of a sealed envelope clearly marked "**TECHNICAL PROPOSAL**", "[Name of the Assignment]", reference number, name and address of the Consultant, and with a warning "**DO NOT OPEN UNTIL [INSERT THE DATE AND THE TIME OF THE TECHNICAL PROPOSAL SUBMISSION DEADLINE]**."

17.6 Similarly, the original Financial Proposal (if required for the applicable selection method) shall be placed inside of a sealed envelope clearly marked "**FINANCIAL PROPOSAL**" followed by the name of the assignment, reference number, name and address of the Consultant, and with a warning "**DO NOT OPEN WITH THE TECHNICAL PROPOSAL**."

17.7 The sealed envelopes containing the Technical and Financial Proposals shall be placed into one outer envelope and sealed. This outer envelope shall bear the submission address, RFP reference number, the name of the assignment, Consultant's name and the address, and shall be clearly marked "**DO NOT OPEN BEFORE** [insert the time and date of the submission deadline indicated in the Data Sheet]".

17.8 If the envelopes and packages with the Proposal are not sealed and marked as required, the Client will assume no responsibility for the misplacement, loss, or premature opening of the Proposal.

17.9 The Proposal or its modifications must be sent to the address indicated in the **Data Sheet** and received by the Client no later than the deadline indicated in the **Data Sheet**, or any

	extension to this deadline. Any Proposal or its modification received by the Client after the deadline shall be declared late and rejected, and promptly returned unopened.
18. Confidentiality	18.1 From the time the Proposals are opened to the time the Contract is awarded, the Consultant should not contact the Client on any matter related to its Technical and/or Financial Proposal. Information relating to the evaluation of Proposals and award recommendations shall not be disclosed to the Consultants who submitted the Proposals or to any other party not officially concerned with the process, until the publication of the Contract award information. 18.2 Any attempt by shortlisted Consultants or anyone on behalf of the Consultant to influence improperly the Client in the evaluation of the Proposals or Contract award decisions may result in the rejection of its Proposal, and may be subject to the application of prevailing Bank's sanctions procedures. 18.3 Notwithstanding the above provisions, from the time of the Proposals' opening to the time of Contract award publication, if a Consultant wishes to contact the Client or the Bank on any matter related to the selection process, it should do so only in writing.
19. Opening of Technical Proposals	19.1 The Client's evaluation committee shall conduct the opening of the Technical Proposals in the presence of the shortlisted Consultants' authorized representatives who choose to attend (in person, or online if this option is offered in the **Data Sheet**). The opening date, time and the address are stated in the **Data Sheet**. The envelopes with the Financial Proposal shall remain sealed and shall be securely stored with a reputable public auditor or independent authority until they are opened in accordance with Clause 23 of the ITC. 19.2 At the opening of the Technical Proposals the following shall be read out: (i) the name and the country of the Consultant or, in case of a Joint Venture, the name of the Joint Venture, the name of the lead member and the names and the countries of all members; (ii) the presence or absence of a duly sealed envelope with the Financial Proposal; (iii) any modifications to the Proposal submitted prior to proposal submission deadline; and (iv) any other information deemed appropriate or as indicated in the **Data Sheet**.
20. Proposals Evaluation	20.1 Subject to provision of Clause 15.1 of the ITC, the evaluators of the Technical Proposals shall have no access to the Financial Proposals until the technical evaluation is concluded and the Bank issues its "no objection", if applicable.

	20.2 The Consultant is not permitted to alter or modify its Proposal in any way after the proposal submission deadline except as permitted under Clause 12.7 of this ITC. While evaluating the Proposals, the Client will conduct the evaluation solely on the basis of the submitted Technical and Financial Proposals.
21. Evaluation of Technical Proposals	21.1 The Client's evaluation committee shall evaluate the Technical Proposals on the basis of their responsiveness to the Terms of Reference and the RFP, applying the evaluation criteria, sub-criteria, and point system specified in the **Data Sheet**. Each responsive Proposal will be given a technical score. A Proposal shall be rejected at this stage if it does not respond to important aspects of the RFP or if it fails to achieve the minimum technical score indicated in the **Data Sheet**.
22. Financial Proposals for QBS	22.1 Following the ranking of the Technical Proposals, when the selection is based on quality only (QBS), the top-ranked Consultant is invited to negotiate the Contract. 22.2 If Financial Proposals were invited together with the Technical Proposals, only the Financial Proposal of the technically top-ranked Consultant is opened by the Client's evaluation committee. All other Financial Proposals are returned unopened after the Contract negotiations are successfully concluded and the Contract is signed.
23. Public Opening of Financial Proposals (for QCBS, FBS, and LCS methods)	23.1 After the technical evaluation is completed and the Bank has issued its no objection (if applicable), the Client shall notify those Consultants whose Proposals were considered non-responsive to the RFP and TOR or did not meet the minimum qualifying technical score (and shall provide information relating to the Consultant's overall technical score, as well as scores obtained for each criterion and sub-criterion) that their Financial Proposals will be returned unopened after completing the selection process and Contract signing. The Client shall simultaneously notify in writing those Consultants that have achieved the minimum overall technical score and inform them of the date, time and location for the opening of the Financial Proposals. The opening date should allow the Consultants sufficient time to make arrangements for attending the opening. The Consultant's attendance at the opening of the Financial Proposals (in person, or online if such option is indicated in the **Data Sheet**) is optional and is at the Consultant's choice. 23.2 The Financial Proposals shall be opened by the Client's evaluation committee in the presence of the representatives of those Consultants whose proposals have passed the minimum technical score. At the opening, the names of the Consultants, and the overall

	technical scores, including the break-down by criterion, shall be read aloud. The Financial Proposals will then be inspected to confirm that they have remained sealed and unopened. These Financial Proposals shall be then opened, and the total prices read aloud and recorded. Copies of the record shall be sent to all Consultants who submitted Proposals and to the Bank.
24. Correction of Errors	24.1 Activities and items described in the Technical Proposal but not priced in the Financial Proposal, shall be assumed to be included in the prices of other activities or items, and no corrections are made to the Financial Proposal.
a. Time-Based Contracts	24.1.1 If a Time-Based contract form is included in the RFP, the Client's evaluation committee will (a) correct any computational or arithmetical errors, and (b) adjust the prices if they fail to reflect all inputs included for the respective activities or items in the Technical Proposal. In case of discrepancy between (i) a partial amount (sub-total) and the total amount, or (ii) between the amount derived by multiplication of unit price with quantity and the total price, or (iii) between words and figures, the former will prevail. In case of discrepancy between the Technical and Financial Proposals in indicating quantities of input, the Technical Proposal prevails and the Client's evaluation committee shall correct the quantification indicated in the Financial Proposal so as to make it consistent with that indicated in the Technical Proposal, apply the relevant unit price included in the Financial Proposal to the corrected quantity, and correct the total Proposal cost.
b. Lump-Sum Contracts	24.2 If a Lump-Sum contract form is included in the RFP, the Consultant is deemed to have included all prices in the Financial Proposal, so neither arithmetical corrections nor price adjustments shall be made. The total price, net of taxes understood as per Clause ITC 25 below, specified in the Financial Proposal (Form FIN-1) shall be considered as the offered price.
25. Taxes	25.1 The Client's evaluation of the Consultant's Financial Proposal shall exclude taxes and duties in the Client's country in accordance with the instructions in the **Data Sheet**.
26. Conversion to Single Currency	26.1 For the evaluation purposes, prices shall be converted to a single currency using the selling rates of exchange, source and date indicated in the **Data Sheet**.
27. Combined Quality and Cost Evaluation	

a. Quality- and Cost-Based Selection (QCBS)	27.1 In the case of QCBS, the total score is calculated by weighting the technical and financial scores and adding them as per the formula and instructions in the **Data Sheet**. The Consultant achieving the highest combined technical and financial score will be invited for negotiations.
b. Fixed-Budget Selection (FBS)	27.2 In the case of FBS, those Proposals that exceed the budget indicated in Clause 14.1.4 of the **Data Sheet** shall be rejected. 27.3 The Client will select the Consultant that submitted the highest-ranked Technical Proposal that does not exceed the budget indicated in the RFP, and invite such Consultant to negotiate the Contract.

c. Least-Cost Selection	27.4 In the case of Least-Cost Selection (LCS), the Client will select the Consultant with the lowest evaluated total price among those consultants that achieved the minimum technical score, and invite such Consultant to negotiate the Contract.

D. Negotiations and Award

28. Negotiations	28.1 The negotiations will be held at the date and address indicated in the **Data Sheet** with the Consultant's representative(s) who must have written power of attorney to negotiate and sign a Contract on behalf of the Consultant. 28.2 The Client shall prepare minutes of negotiations that are signed by the Client and the Consultant's authorized representative.
a. Availability of Key Experts	28.3 The invited Consultant shall confirm the availability of all Key Experts included in the Proposal as a pre-requisite to the negotiations, or, if applicable, a replacement in accordance with Clause 12 of the ITC. Failure to confirm the Key Experts' availability may result in the rejection of the Consultant's Proposal and the Client proceeding to negotiate the Contract with the next-ranked Consultant. 28.4 Notwithstanding the above, the substitution of Key Experts at the negotiations may be considered if due solely to circumstances outside the reasonable control of and not foreseeable by the Consultant, including but not limited to death or medical incapacity. In such case, the Consultant shall offer a substitute Key Expert within the period of time specified in the letter of invitation to negotiate the Contract, who shall have equivalent or better qualifications and experience than the original candidate.
b. Technical negotiations	28.5 The negotiations include discussions of the Terms of Reference (TORs), the proposed methodology, the Client's inputs, the special conditions of the Contract, and finalizing the "Description of Services" part of the Contract. These discussions shall not substantially alter the original scope of services under the TOR or the terms of the contract, lest the quality of the final product, its price, or the relevance of the initial evaluation be affected.
c. Financial negotiations	28.6 The negotiations include the clarification of the Consultant's tax liability in the Client's country and how it should be reflected in the Contract. 28.7 If the selection method included cost as a factor in the evaluation, the total price stated in the Financial Proposal for a

	Lump-Sum contract shall not be negotiated. 28.8 In the case of a Time-Based contract, unit rates negotiations shall not take place, except when the offered Key Experts and Non-Key Experts' remuneration rates are much higher than the typically charged rates by consultants in similar contracts. In such case, the Client may ask for clarifications and, if the fees are very high, ask to change the rates after consultation with the Bank. The format for (i) providing information on remuneration rates in the case of Quality Based Selection; and (ii) clarifying remuneration rates' structure under Clause 28.8 above, is provided in Appendix A to the Financial Form FIN-3: Financial Negotiations – Breakdown of Remuneration Rates.
29. Conclusion of Negotiations	29.1 The negotiations are concluded with a review of the finalized draft Contract, which then shall be initialed by the Client and the Consultant's authorized representative. 29.2 If the negotiations fail, the Client shall inform the Consultant in writing of all pending issues and disagreements and provide a final opportunity to the Consultant to respond. If disagreement persists, the Client shall terminate the negotiations informing the Consultant of the reasons for doing so. After having obtained the Bank's no objection, the Client will invite the next-ranked Consultant to negotiate a Contract. Once the Client commences negotiations with the next-ranked Consultant, the Client shall not reopen the earlier negotiations.
30. Award of Contract	30.1 After completing the negotiations the Client shall obtain the Bank's no objection to the negotiated draft Contract, if applicable; sign the Contract; publish the award information as per the instructions in the **Data Sheet**; and promptly notify the other shortlisted Consultants. 30.2 The Consultant is expected to commence the assignment on the date and at the location specified in the **Data Sheet**.

Instructions to Consultants

E. Data Sheet

FORM TECH-1

TECHNICAL PROPOSAL SUBMISSION FORM

{Location, Date}

To:

[Name and address of Client]

Dear Sirs:

We, the undersigned, offer to provide the consulting services for Providing Technical Assistance to National Institute of Urban Affairs in Carrying out surveys in 116 cities of India in order to assess Liveability Standards for each of them in accordance with your Request for Proposals dated *[Insert Date]* and our Proposal. *on the QCBS selection method stated in the RFP:* "We are hereby submitting our Proposal, which includes this Technical Proposal and a Financial Proposal sealed in a separate envelope"

{If the Consultant is a joint venture, insert the following*:* We are submitting our Proposal a joint venture with: {Insert a list with full name and the legal address of each member, and indicate the lead member}. We have attached a copy {insert: "of our letter of intent to form a joint venture" or, if a JV is already formed, "of the JV agreement"} signed by every participating member, which details the likely legal structure of and the confirmation of joint and severable liability of the members of the said joint venture.

{OR

If the Consultant's Proposal includes Sub-consultants, insert the following: We are submitting our Proposal with the following firms as Sub-consultants: {Insert a list with full name and address of each Sub-consultant.}

We hereby declare that:

(a) All the information and statements made in this Proposal are true and we accept that any misinterpretation or misrepresentation contained in this Proposal may lead to our disqualification by the Client and/or may be sanctioned by the Bank.

(b) Our Proposal shall be valid and remain binding upon us for the period of time specified in the Data Sheet, Clause 12.1.

(c) We have no conflict of interest in accordance with ITC 3.

(d) We meet the eligibility requirements as stated in ITC 6, and we confirm our understanding of our obligation to abide by the Bank's policy in regard to corrupt and fraudulent practices as per ITC 5.

(e) We, along with any of our sub-consultants, subcontractors, suppliers, or service providers for any part of the contract, are not subject to, and not controlled by any entity or individual that is subject to, a temporary suspension or a debarment imposed by a member of the World Bank Group or a debarment imposed by the World Bank Group in accordance with the Agreement for Mutual Enforcement of Debarment Decisions between the World Bank and other development banks. Further, we are not ineligible under the Employer's country laws or official regulations or pursuant to a decision of the United Nations Security Council;

(f) In competing for (and, if the award is made to us, in executing) the Contract, we undertake to observe the laws against fraud and corruption, including bribery, in force in the country of the Client.

(g) Except as stated in the Data Sheet, Clause 12.1, we undertake to negotiate a Contract on the basis of the proposed Key Experts. We accept that the substitution of Key Experts for reasons other than those stated in ITC Clause 12 and ITC Clause 28.4 may lead to the termination of Contract negotiations.

(h) Our Proposal is binding upon us and subject to any modifications resulting from the Contract negotiations.

We undertake, if our Proposal is accepted and the Contract is signed, to initiate the Services related to the assignment no later than the date indicated in Clause 30.2 of the Data Sheet.

We understand that the Client is not bound to accept any Proposal that the Client receives.

We remain,

Yours sincerely,

Authorized Signature {In full and initials}: ______________________________
Name and Title of Signatory: ____
Name of Consultant (company's name or JV's name):
In the capacity of: ____

Address: ____
Contact information (phone and e-mail): ________________________________

{For a joint venture, either all members shall sign or only the lead member, in which case the power of attorney to sign on behalf of all members shall be attached}

FORM TECH-2
CONSULTANT'S ORGANIZATION AND EXPERIENCE

Form TECH-2: a brief description of the Consultant's organization and an outline of the recent experience of the Consultant that is most relevant to the assignment. In the case of a joint venture, information on similar assignments shall be provided for each partner. For each assignment, the outline should indicate the names of the Consultant's Key Experts and Sub-consultants who participated, the duration of the assignment, the contract amount (total and, if it was done in a form of a joint venture or a sub-consultancy, the amount paid to the Consultant), and the Consultant's role/involvement.

A - Consultant's Organization

1. Provide here a brief description of the background and organization of your company, and – in case of a joint venture – of each member for this assignment.

2. Include organizational chart, a list of Board of Directors, and beneficial ownership

B - Consultant's Experience

1**. List only previous similar assignments successfully completed[2] in the last *10 (ten)* years. (Please give details of not more than 10 assignments)**

2. List only those assignments for which the Consultant was legally contracted by the Client as a company or was one of the joint venture partners. Assignments completed by the Consultant's individual experts working privately or through other consulting firms cannot be claimed as the relevant experience of the Consultant, or that of the Consultant's partners or sub-consultants, but can be claimed by the Experts themselves in their CVs. The Consultant should be prepared to substantiate the claimed experience by presenting copies of relevant documents and references if so requested by the Client.

---

[2] The Claims of completion shall be self-certified. A copy of agreement along with or showing the scope of the work is required to be submitted. Substantially completed assignments shall be considered in case the Applicant has completed and submitted Draft Final Report or equivalent deliverable. The client may seek clarifications, if required

Duration	**Assignment name/& brief description of main deliverables/outputs**	**Name of Client & Country of Assignment**	**Approx. Contract value (in US$ equivalent)/ Amount paid to your firm**	**Role on the Assignment**
{e.g., Jan.2009–Apr.2010}	{e.g., “Improvement quality of...............”: designed master plan for rationalization of ....; }	{e.g., Ministry of ......, country}	{e.g., US$1 mill/US$0.5 mill}	{e.g., Lead partner in a JV A&B&C}
{e.g., Jan-May 2008}	{e.g., “Support to sub-national government.....” : drafted secondary level regulations on..............}	{e.g., municipality of........., country}	{e.g., US$0.2 mil/US$0.2 mil}	{e.g., sole Consultant}

FORM TECH-3

COMMENTS AND SUGGESTIONS ON THE TERMS OF REFERENCE, COUNTERPART STAFF, AND FACILITIES TO BE PROVIDED BY THE CLIENT

Form TECH-3: comments and suggestions on the Terms of Reference that could improve the quality/effectiveness of the assignment; and on requirements for counterpart staff and facilities, which are provided by the Client, including: administrative support, office space, local transportation, equipment, data, etc.

A - On the Terms of Reference

{Improvements to the Terms of Reference, if any}

B - On Counterpart Staff and Facilities

{Comments on counterpart staff and facilities to be provided by the Client. For example, administrative support, office space, local transportation, equipment, data, background reports, etc., if any}

FORM TECH-4
DESCRIPTION OF APPROACH, METHODOLOGY, AND WORK PLAN IN RESPONDING TO THE TERMS OF REFERENCE

Form TECH-4: a description of the approach, methodology and work plan for performing the assignment, including a detailed description of the proposed methodology and staffing for training, if the Terms of Reference specify training as a specific component of the assignment.

{Suggested structure of your Technical Proposal (in FTP format):

a) Technical Approach and Methodology
b) Work Plan
c) Organization and Staffing}

a) ***Technical Approach and Methodology.*** {Please explain your understanding of the objectives of the assignment as outlined in the Terms of Reference (TORs), the technical approach, and the methodology you would adopt for implementing the tasks to deliver the expected output(s), and the degree of detail of such output. **Please do not repeat/copy the TORs in here.**}

b) ***Work Plan.*** {Please outline the plan for the implementation of the main activities/tasks of the assignment, their content and duration, phasing and interrelations, milestones (including interim approvals by the Client), and tentative delivery dates of the reports. The proposed work plan should be consistent with the technical approach and methodology, showing your understanding of the TOR and ability to translate them into a feasible working plan. A list of the final documents (including reports) to be delivered as final output(s) should be included here. The work plan should be consistent with the Work Schedule Form.

Broad guidance (indicator-wise) on data collection methods, likely sources of secondary data, and standards for sampling size and regimen to be followed for physical surveys is given in "Methodology for Collection and Computation of Liveability Standards in Cities", which may be downloaded from http://smartcities.gov.in/content/innerpage/otherstoolkit.php.

As part of their methodology, Consultants should indicate
○ A complete list of data proposed to be collected in a tabular format, based on the documents on Liveability Index as stated above, indicating source for each dataset as well as an approximate timeline and format for the same
○ The proposed strategies that will be employed in cases where data is not available from the sources indicated in the document.
○ The Methodology should also indicate the technology to be used for data collection and ensuring data veracity
The final methodology to be adopted will be finalized in discussion with NIUA at the time of preparation of city inception reports.}

d) ***Organization and Staffing.*** {Please describe the structure and composition of your team, including the list of the Key Experts, Non-Key Experts and relevant technical and administrative support staff

Three levels of teams will be mobilized for the assignment as provided in 7.6 (Section 7 Terms of Reference).

Details of members of the Core Team will be evaluated as part of (iii) Key Experts' qualifications and competence for the Assignment.

The composition of the Analytics Team and Field Teams with names, qualification and name of institution with which they are accredited must also be provided.

Submission of such data for the Analytics and Field Teams is mandatory but will not receive any marks for purposes of technical evaluation.}

FORM TECH-5
WORK SCHEDULE AND PLANNING FOR DELIVERABLES

N°	Deliverables [1] (D-..)	Months

Section 5. Eligible Countries

In reference to ITC6.3.2, for the information of shortlisted Consultants, at the present time firms, goods and services from the following countries are excluded from this selection:

Under the ITC 6.3.2 (a): None

Under the ITC 6.3.2 (b): None

Section 6. Bank Policy – Corrupt and Fraudulent Practices

Guidelines for Selection and Employment of Consultants under IBRD Loans and IDA Credits & Grants by World Bank Borrowers, dated January 2011:

“**Fraud and Corruption**

1.23 It is the Bank’s policy to require that Borrowers (including beneficiaries of Bank loans), consultants, and their agents (whether declared or not), sub-contractors, sub-consultants, service providers, or suppliers, and any personnel thereof, observe the highest standard of ethics during the selection and execution of Bank-financed contracts [footnote: In this context, any action taken by a consultant or any of its personnel, or its agents, or its sub-consultants, sub-contractors, services providers, suppliers, and/or their employees, to influence the selection process or contract execution for undue advantage is improper.]. In pursuance of this policy, the Bank:

(a) defines, for the purposes of this provision, the terms set forth below as follows:

- (i) “corrupt practice” is the offering, giving, receiving, or soliciting, directly or indirectly, of anything of value to influence improperly the actions of another party[4];
- (ii) “fraudulent practice” is any act or omission, including misrepresentation, that knowingly or recklessly misleads, or attempts to mislead, a party to obtain financial or other benefit or to avoid an obligation[5];
- (iii) “collusive practices” is an arrangement between two or more parties designed to achieve an improper purpose, including to influence improperly the actions of another party[6];
- (iv) “coercive practices” is impairing or harming, or threatening to impair or harm, directly or indirectly, any party or the property of the party to influence improperly the actions of a party[7];

---

[4] For the purpose of this sub-paragraph, “another party” refers to a public official acting in relation to the selection process or contract execution. In this context “public official” includes World Bank staff and employees of other organizations taking or reviewing selection decisions.

[5] For the purpose of this sub-paragraph, “party” refers to a public official; the terms “benefit” and “obligation” relate to the selection process or contract execution; and the “act or omission” is intended to influence the selection process or contract execution.

[6] For the purpose of this sub-paragraph, “parties” refers to participants in the procurement or selection process (including public officials) attempting either themselves, or through another person or entity not participating in the procurement or selection process, to simulate competition or to establish prices at artificial, non-competitive levels, or are privy to each other’s bid prices or other conditions.

[7] For the purpose of this sub-paragraph, “party” refers to a participant in the selection process or contract execution.

(v) "obstructive practice" is

(aa) deliberately destroying, falsifying, altering, or concealing of evidence material to the investigation or making false statements to investigators in order to materially impede a Bank investigation into allegations of a corrupt, fraudulent, coercive, or collusive practice; and/or threatening, harassing, or intimidating any party to prevent it from disclosing its knowledge of matters relevant to the investigation or from pursuing the investigation, or

(bb) acts intended to materially impede the exercise of the Bank's inspection and audit rights;

(b) will reject a proposal for award if it determines that the consultant recommended for award or any of its personnel, or its agents, or its sub-consultants, sub-contractors, services providers, suppliers, and/or their employees, has, directly or indirectly, engaged in corrupt, fraudulent, collusive, coercive, or obstructive practices in competing for the contract in question;

(c) will declare mis-procurement and cancel the portion of the Loan allocated to a contract if it determines at any time that representatives of the Borrower or of a recipient of any part of the proceeds of the Loan were engaged in corrupt, fraudulent, collusive, coercive, or obstructive practices during the selection process or the implementation of the contract in question, without the Borrower having taken timely and appropriate action satisfactory to the Bank to address such practices when they occur, including by failing to inform the Bank in a timely manner they knew of the practices;

(d) will sanction a firm or an individual at any time, in accordance with prevailing Bank's sanctions procedures[8], including by publicly declaring such firm or an ineligible, either indefinitely or for a stated period of time: (i) to be awarded a Bank-financed contract, and (ii) to be a nominated[9] sub-consultant, supplier, or service provider of an otherwise eligible firm being awarded a Bank-financed contract.

---

[8] A firm or an individual may be declared ineligible to be awarded a Bank-financed contract upon (i) completion of the Bank's sanctions proceedings as per its sanctions procedures, including inter alia: cross-debarment as agreed with other International Financial Institutions, including Multilateral Development Banks, and through the application of the World Bank Group corporate administrative procurement sanctions procedures for fraud and corruption; and (ii) as a result of temporary suspension or early temporary suspension in connection with an ongoing sanctions proceedings. See footnote 12 and paragraph 8 of Appendix 1 of these Guidelines.

[9] A nominated sub-consultant, supplier, or service provider is one which has been either (i) included by the consultant in its proposal because it brings specific and critical experience and know-how that are accounted for in the technical evaluation of the consultant's proposal for the particular services; or (ii) appointed by the Borrower.

Section 7. Terms of Reference

7.1 Background

i. The Government of India along with State and Local Governments is implementing several flagship Urban Missions for improving various aspects of urban development in Indian cities. An underlying goal of these initiatives is to make Indian cities more ‘Liveable’. This will mean not only providing good quality core infrastructure and services, but also developing cities with ample opportunities for work, entertainment and cultural activities, improved social infrastructure and economic opportunity;

ii. In order to do this through a structured approach it is important to create a common minimum framework, which cities can use to assess their ‘Liveability’ and measure their progress over time. In this context, the Ministry of Urban Development has developed a set of ‘Liveability Standards in Cities’. These will act as a guiding framework for cities to chart their pathway towards liveability and result in a systematic improvement in the quality of life of citizens in Indian cities. The ‘Liveability Standards in Cities’ document can be downloaded from http://smartcities.gov.in/content/innerpage/otherstoolkit.php;

iii. A total of 79 Liveability Standards are proposed across 15 different categories. The Ministry proposes to conduct an ‘Annual Assessment of Liveability Standards in Cities’ and develop a ‘City Liveability Index’. This is an ambitious national project requiring yearly compilation of a large number of datasets across the various Liveability Standards;

iv. A total of 116 cities will be covered in Year 1 (list of cities for Year 1 is provided at Annexure XX), and the coverage of cities may be extended in subsequent years. The following classification of cities will be used for the purpose of the study

Classification*		**Population range**
1	Small Towns	Less than 50,000 population
2	Medium Towns	Population ≥ 50,000 < 5 lakh
3	Large Towns	Population ≥ 5 lakh < 1 million
4	Metropolitan Cities	Population ≥ 1 million < 5 million
5	Megapolis	Population ≥ 5 million

* *Based on the Classification given in the URDPFI guidelines, 2014*

v. Given the magnitude of data collection and field surveys required, the National Institute of Urban Affairs (an autonomous body under Ministry of Urban Development) wishes to engage the services of a reputed national/international agency/institution for **Assessment of Liveability Standards** (the **'Assignment'**) across all cities included in the study. This will cover all relevant data required by the NIUA for computing the 79 Liveability Standards. The data generated from the assignment will be used by the NIUA for calculating the City Liveability Index of cities on an annual basis;

vi. The contract will initially be valid for activities in Year 1 (as defined in Clause 7.5), and may be extended for a further period of 2 years upon successful completion of activities in Year 1, at the discretion of the NIUA;

vii. Remuneration paid in local currency pursuant to the rates submitted in Form Fin-2 shall be adjusted every 12 months (and, for the first time, with effect for the remuneration earned in the 13th calendar month after the date of the Contract) by applying the following formula:

$$R_i = R_0 \ x \ (I_i / I_0)$$

Where R_i is the adjusted remuneration, R_0 is the remuneration payable on the basis of the rates set forth in Form Fin-2 for remuneration payable in local currency in the first year. Similarly, R_0 and will be considered as the remuneration for the second year for calculation of the adjusted remuneration for the third year. I_i is the CPI (Urban) for Delhi as published by the Director General / Central Statistical Office, Ministry of Statistics and Programme Implementation, Government of India, for the month in which the adjustment is to have effect and I_0 is the CPI (Urban) for Delhi as published by the authority named above for the month of the date of the contract.

7.2 Objective of the Assignment

i. Compile reliable and high quality data for all cities included in the study, as required by the NIUA for the computation of Liveability Indexes and as prescribed in the 'Liveability Standards in Cities' document;

ii. Develop a robust electronic database of datasets that can be used to assess the progress of cities on an annual basis.

7.3 Description of Tasks

The Tasks to be performed and key activities under the assignment will include:

Initiation Activities

i. Conduct a Reconnaissance Study of all cities included in the project (as per Annexure X). The study shall inter-alia include:

   a. City-level kick-off meetings with key officials from City governments, Smart City SPVs, various departments and utilities, DISCOMs etc. for assessing data availability and alternate sources, preferred timelines, key nodal officers etc.;

   b. Study of city demography, socio-economic stratification and geography that has a bearing on sample size and distribution;

   c. Study of existing reports, studies, alternative data sources etc.;

ii. Prepare and submit to the NIUA, an Inception Report, including inter-alia the following:

   a. Detailed Plan of Action including likely sources of data, proposed field surveys, sample size and distribution, nodal officers etc. for each city as discussed and finalized with NIUA;

   b. Proposed timelines for city field visits as discussed and finalized with NIUA and State/City governments;

   c. Specific survey and raw data collection formats for the 79 standards as finalized in discussion with NIUA;

iii. Convey the finalized schedule and Plan of Action to cities allowing them to mobilise support for the activities. A Minimum of 15 days of preparation period must be given to cities before data collection and surveys;

Data Collection and Field Surveys

iv. Mobilize Field Teams (with adequate and qualified manpower as indicated in Clause 7.6) for obtaining data required for all 79 Standards;

v. Collect data for all indicators based on the methodology finalized in discussion with the NIUA. It may be noted that broad guidance (indicator-wise) on data collection methods, likely sources of secondary data, and standards for sampling size and regimen to be followed for physical surveys is given in "Methodology for Collection and Computation of Liveability Standards in Cities", which may be downloaded from http://smartcities.gov.in/content/innerpage/otherstoolkit.php. Where data is not

available from the sources indicated in the document, alternate methodology will be suggested by the agency and finalized in discussion with NIUA at the time of preparation of city inception reports.

vi. Maintain and submit all raw data and data collection forms to NIUA without any editing and/or masking (including particulars such as names of respondents, exact address and contact details, date and time of survey, and GPS coordinates in case of samples taken for pollution etc.);

vii. Conduct analysis of the raw data through the Analytics Team (with adequate and qualified manpower as indicated in Clause 7.6) and prepare aggregate data sets for all 79 standards for each of the cities;

viii. The authenticity of data shall be ensured through visual backup like photographs etc and using geo-tagging technology through hand held devices.

ix. The team at the National level will also conduct audit of the results.

x. Submit Draft City Assessment Report to the NIUA (separate for each city), including inter-alia the following:

  a. Database of aggregate data in the format discussed and finalized with NIUA;
  b. All raw data and data sheets (digital format);
  c. Sources of data, assumptions (if any), record of discussions with key stakeholders, minutes of city kickoff meeting and other relevant documentation;

xi. Submit Final City Assessment Report to the NIUA after including any recommendations of the NIUA and after suitably incorporating any valid feedback received from cities/states with the approval of the NIUA;

xii. Develop and maintain a digital database of all data sets collected every year for each city. The format should be finalized in consultation with the NIUA and enable examination of raw data as well as aggregated numbers on a year-on-year basis;

Other support activities

xiii. Provide support in organizing national/regional workshops that maybe organized as part of this exercise by MoUD/NIUA.

xiv. Provide all necessary support to the NIUA or other reputed third-party agency(ies) appointed by the NIUA for undertaking verification of the data;

xv. Provide any technical support as required by the NIUA or its assigned team during the development of scoring sheets and city indexes for the various Standards;

xvi. Conduct a National workshop (1-day) on behalf of NIUA for disseminating the findings of the Ministry. Costs for the workshop must be included in the proposal.

7.4 Results to be achieved

The Assignment will result in the creation of a robust database (updated annually) of critical datasets across 79 different Liveability parameters in Indian Cities. This will form the basis for the NIUA to compute an annual City Liveability Index of cities. This can also act as a repository of critical data for encouraging research on cities in India.

7.5 Timelines and Deliverables for Year 1*

Report	Time line	Documents	Deliverables and Contents
Inception Report	1 months from start date as per contract	Hard copies, and Electronic version	Including: a. Detailed Plan of Action including likely sources of data, proposed field surveys, sample size and distribution, nodal officers etc. for each city as discussed and finalized with NIUA; b. Proposed timelines for city field visits as discussed and finalized with NIUA and State/City governments; c. Specific survey and raw data collection formats for the 78 standards as finalized in discussion with NIUA; d. Details of technology to be used for data collection

Report	Time line	Documents	Deliverables and Contents
			geo-tagging through hand-held devices etc. The inception report must clearly describe data sets targeted to be geo tagged along with a Standard Operating procedure to be used by Surveyors to geo-tag data using Mobile apps e.g., Bhuvan-PMAY app (used in MGNREGA)
Draft City Assessment Report	4 Months from start date as per contract	Hard Copies, and Electronic version	Separate for each city, including: a. Database of aggregate data and calculation for all 79 indicators in a format as discussed and finalized with NIUA; b. All raw data and data sheets (digital format); c. Sources of data, assumptions (if any), record of discussions with key stakeholders, minutes of city kick-off meeting and other relevant documentation;
Final City Assessment Report	5 months from start date as per contract	Hard Copies, and Electronic version	Separate report for each city. The Reports should include all recommendations of the NIUA on the Draft Reports. The Report should also incorporate any valid suggestions/feedback received from cities/states with the approval of the NIUA.

***** Timelines for subsequent years will be as decided by NIUA.

7.6 Team Composition and Qualification Requirement for key Experts

The assignment is to be undertaken by a full-time Team Leader supported by a Core team of experts and an Analytics Team. Actual data collection and field surveys will be done through city-level Field Teams.

i. **Core Team (full-time):** Given that the assignment requires a deep understanding of the urban sector, as well as of economics, statistics and field studies, the Team Leader and the Core Team of experts must have suitable skills for undertaking the assignment and successfully completing the tasks enumerated. The Team Leader should bring to the table a strong mix of academic accomplishments, urban sector experience and experience of leading similar national/international assignments.

ii. **Analytics Team (full-time):** should be manned with experts capable of analysing large data sets, checking and correcting for errors and inconsistencies, development

and management of digital databases and preparation of reports. The team should therefore include adequate number of IT specialist(s), database management/ MIS expert(s), urban economics/planning specialists for data analysis and verification.

iii. **Field Teams per city:** should be manned with adequate number of persons (depending upon city size, stratification and geography) capable of conducting field surveys and extracting credible secondary data from various city/state departments and utilities. Each team should therefore include adequate number of qualified urban professionals having expertise in different domains as indicated in this TOR and accredited with or belonging to inspection bodies (such Bureau Vertitas (India) Pvt. Ltd., TUV SUD South Asia Pvt. Ltd . or equivalent in status and repute) having extensive experience in doing such king of surveys and assessments.

7.6.1 Core Team (CV to be evaluated)

Position	**Minimum Qualifications & skills**	**Minimum Experience**
Team Leader	Post Graduate degree in Engineering/Planning/Architecture/Economics/ Management/Mathematics/Statistics from a recognised University/Institution. Experience of working in Urban Sector. Experience of leading national/international level Urban Research assignments related to indexing of cities. Managed at least 1 projects of similar nature.	At least 20 years' experience in urban/management/research/ sector
Survey and Sampling Specialist	Post graduate level qualification in Statistics/Management (Marketing) from a recognised University/institution. Experience of designing and managing surveys and market research assignments.	15 years professional experience. Managed/worked in at least 2 assignments of similar nature
Data Analytics and Indexing Specialist	Post graduate level qualification in Statistics from a recognised University/institution. Experience of data analysis developing composite indexes at national level.	15 years professional experience. Managed/worked in at least 2 assignments of similar nature
Urban Transport Specialist	Post Graduate degree in Transport Planning from a recognised university/institution. Experience of designing and managing transport surveys, transport planning.	15 years professional experience. Managed/worked in at least 2 assignments of similar nature

Environment Specialist	Post Graduate degree in Planning (Environment Focus)/ Environmental Sciences from a recognised university/institution. Experience in Environmental Impact Assessment and Environmental Management Plan	15 years professional experience. Managed/worked in at least 2 assignments of similar nature
GIS Specialist	Post Graduate degree in Geography/Urban Planning / Engineering from a recognized university/institution Experience of undertaking GIS mapping and analytics for urban local bodies	15 years professional experience. Managed/worked in at least 2 assignments of similar nature

7.7 TA management and counterpart staff

The assignment will be contracted by the NIUA for carrying out the assignment.

7.7.1 Items to be provided by the NIUA

a. The NIUA will set up a Coordinating Team at the national level for providing guidance and support to the Core Team for executing the assignment;
b. Provide support for organizing various State and city level workshops and meetings;.
c. Provide feedback from time to time for finalizing deliverables;
d. Set up a monitoring system for timely validation of data and finalization of aggregate data.

7.7.2 Items to be provided by the agency

In addition to the results and deliverables listed above, the Consultant will:

a. Provide for all manpower, materials and equipment necessary for carrying out the assignment;
b. Provide all resources for report production and necessary translations;
c. Provide all Computers and software required by the teams for carrying out the tasks;
d. Arrange for all transportation and travelling required for the teams including Investigations.

CONTRACT FOR CONSULTANT'S SERVICES

Lump-Sum

Project Name: Capacity Building for Urban Development

Name of Assignment: Selection of Consulting Firms for Assessment of Liveability in 116 Cities in India

[Credit #: 4997-IN

Contract No. CBUD/SD/17
between

National Institute of Urban Development, New Delhi

[Name of the Client]

and

[Name of the Consultant]

Dated: ______________________

I. Form of Contract

LUMP-SUM

(Text in brackets [ ] is optional; all notes should be deleted in the final text)

This CONTRACT (hereinafter called the “Contract”) is made the *[number]* day of the month of *[month]*, *[year]*, between, on the one hand, **National Institute of Urban Affairs (NIUA)**(hereinafter called the “Client”) and, on the other hand, *[name of Consultant]* (hereinafter called the “Consultant”).

[If the Consultant consist of more than one entity, the above should be partially amended to read as follows: “…(hereinafter called the “Client”) and, on the other hand, a Joint Venture (name of the JV) consisting of the following entities, each member of which will be jointly and severally liable to the Client for all the Consultant’s obligations under this Contract, namely, *[name of member]* and *[name of member]* (hereinafter called the “Consultant”).]

WHEREAS

(a) the Client has requested the Consultant to provide certain consulting services as defined in this Contract (hereinafter called the “Services”);

(b) the Consultant, having represented to the Client that it has the required professional skills, expertise and technical resources, has agreed to provide the Services on the terms and conditions set forth in this Contract;

(c) The client is an autonomous body established by the Ministry of Urban Development, New Delhi (MoUD). MoUD hi has received a credit from the *International Bank for Reconstruction and Development (IBRD) or International Development Association (IDA)]:* toward the cost of the Services and intends to apply a portion of the proceeds of this credit to eligible payments under this Contract, it being understood that (i) payments by the Bank will be made only at the request of the Client and upon approval by the Bank; (ii) such payments will be subject, in all respects, to the terms and conditions of the [loan/financing/grant] agreement, including prohibitions of withdrawal from the [loan/credit/grant] account for the purpose of any payment to persons or entities, or for any import of goods, if such payment or import, to the knowledge of the Bank, is prohibited by the decision of the United Nations Security council taken under Chapter VII of the Charter of the United Nations; and (iii) no party other than the Client shall derive any rights from the [loan/financing/grant] agreement or have any claim to the [loan/credit/grant] proceeds;

NOW THEREFORE the parties hereto hereby agree as follows:

1. The following documents attached hereto shall be deemed to form an integral part of this Contract:

    (a) The General Conditions of Contract (including Attachment 1 "Bank Policy – Corrupt and Fraudulent Practices);
    (b) The Special Conditions of Contract;
    (c) Appendices:

    Appendix A: Terms of Reference
    Appendix B: Key Experts
    Appendix C: Breakdown of Contract Price

    In the event of any inconsistency between the documents, the following order of precedence shall prevail: the Special Conditions of Contract; the General Conditions of Contract, including Attachment 1; Appendix A; Appendix B; Appendix C; Appendix D. Any reference to this Contract shall include, where the context permits, a reference to its Appendices.

2. The mutual rights and obligations of the Client and the Consultant shall be as set forth in the Contract, in particular:

    (a) the Consultant shall carry out the Services in accordance with the provisions of the Contract; and
    (b) the Client shall make payments to the Consultant in accordance with the provisions of the Contract.

IN WITNESS WHEREOF, the Parties hereto have caused this Contract to be signed in their respective names as of the day and year first above written.

For and on behalf of *[Name of Client]*

____

[Authorized Representative of the Client – name, title and signature]

For and on behalf of *[Name of Consultant or Name of a Joint Venture]*

____

[Authorized Representative of the Consultant – name and signature]

[For a joint venture, either all members shall sign or only the lead member, in which case the power of attorney to sign on behalf of all members shall be attached.

For and on behalf of each of the members of the Consultant *[insert the Name of the Joint Venture]*

[Name of the lead member]

____

[Authorized Representative on behalf of a Joint Venture]

[add signature blocks for each member if all are signing]

II. General Conditions of Contract

A. GENERAL PROVISIONS

1. Definitions	1.1. Unless the context otherwise requires, the following terms whenever used in this Contract have the following meanings: (a) "Applicable Guidelines" means Guidelines for Selection and Employment of Consultants under IBRD Loans and IDA Credits & Grants by World Bank Borrowers, dated July 2016. (b) "Applicable Law" means the laws and any other instruments having the force of law in the Client's country, or in such other country as may be specified in the **Special Conditions of Contract (SCC)**, as they may be issued and in force from time to time. (c) "Bank" means the International Bank for Reconstruction and Development (IBRD) or the International Development Association (IDA). (d) "Borrower" means the Government, Government agency or other entity that signs the financing agreement with the Bank. (e) "CBUD" Means Capacity Building for Urban Development (f) "Client" means the implementing agency that signs the Contract for the Services with the Selected Consultant. (g) "Consultant" means a legally-established professional consulting firm or entity selected by the Client to provide the Services under the signed Contract. (h) "Contract" means the legally binding written agreement signed between the Client and the Consultant and which includes all the attached documents listed in its paragraph 1 of the Form of Contract (the General Conditions (GCC), the Special Conditions (SCC), and the Appendices). (i) "Day" means a working day unless indicated otherwise. (j) "Effective Date" means the date on which this Contract comes into force and effect pursuant to Clause GCC 11. (k) "Experts" means, collectively, Key Experts, Non-Key Experts, or any other personnel of the Consultant, Sub-consultant or JV member(s) assigned by the Consultant to perform the Services or any part thereof under the Contract.

	(l) “Foreign Currency” means any currency other than the currency of the Client’s country. (m) “GCC” means these General Conditions of Contract. (n) “Government” means the government of India. (o) “Joint Venture (JV)” means an association with or without a legal personality distinct from that of its members, of more than one entity where one member has the authority to conduct all businesses for and on behalf of any and all the members of the JV, and where the members of the JV are jointly and severally liable to the Client for the performance of the Contract. (p) “Key Expert(s)” means an individual professional whose skills, qualifications, knowledge and experience are critical to the performance of the Services under the Contract and whose Curricula Vitae (CV) was taken into account in the technical evaluation of the Consultant’s proposal. (q) “Local Currency” means the currency of the Client’s country. (r) “MoUD” means ministry of Urban development (s) “Non-Key Expert(s)” means an individual professional provided by the Consultant or its Sub-consultant to perform the Services or any part thereof under the Contract. (t) “Party” means the Client or the Consultant, as the case may be, and “Parties” means both of them. (u) “SCC” means the Special Conditions of Contract by which the GCC may be amended or supplemented but not over-written. (v) “Services” means the work to be performed by the Consultant pursuant to this Contract, as described in Appendix A hereto. (w) “Sub-consultants” means an entity to whom/which the Consultant subcontracts any part of the Services while remaining solely liable for the execution of the Contract. (x) “Third Party” means any person or entity other than the Government, the Client, the Consultant or a Sub-consultant.
2. Relationship between the Parties	2.1. Nothing contained herein shall be construed as establishing a relationship of master and servant or of principal and agent as between the Client and the Consultant. The Consultant, subject to this Contract, has complete charge of the Experts and Sub-consultants, if any, performing the Services and shall be fully responsible for the Services performed by them or on their behalf

	hereunder.
3. Law Governing Contract	3.1. This Contract, its meaning and interpretation, and the relation between the Parties shall be governed by the Applicable Law.
4. Language	4.1. This Contract has been executed in the language specified in the **SCC**, which shall be the binding and controlling language for all matters relating to the meaning or interpretation of this Contract.
5. Headings	5.1. The headings shall not limit, alter or affect the meaning of this Contract.
6. Communications	6.1. Any communication required or permitted to be given or made pursuant to this Contract shall be in writing in the language specified in Clause GCC 4. Any such notice, request or consent shall be deemed to have been given or made when delivered in person to an authorized representative of the Party to whom the communication is addressed, or when sent to such Party at the address specified in the **SCC**. 6.2. A Party may change its address for notice hereunder by giving the other Party any communication of such change to the address specified in the **SCC**.
7. Location	7.1. The Services shall be performed at such locations as are specified in **Appendix A** hereto and, where the location of a particular task is not so specified, at such locations, whether in the Government's country or elsewhere, as the Client may approve.
8. Authority of Member in Charge	8.1. In case the Consultant is a Joint Venture, the members hereby authorize the member specified in the **SCC** to act on their behalf in exercising all the Consultant's rights and obligations towards the Client under this Contract, including without limitation the receiving of instructions and payments from the Client.
9. Authorized Representatives	9.1. Any action required or permitted to be taken, and any document required or permitted to be executed under this Contract by the Client or the Consultant may be taken or executed by the officials specified in the **SCC.**
10. Corrupt and Fraudulent Practices	10.1. The Bank requires compliance with its policy in regard to corrupt and fraudulent practices as set forth in **Attachment 1** to the GCC.
a. Commissions and Fees	10.2. The Client requires the Consultant to disclose any commissions, gratuities or fees that may have been paid or are to be paid to agents or any other party with respect to the selection process or execution of the Contract. The information disclosed must

	include at least the name and address of the agent or other party, the amount and currency, and the purpose of the commission, gratuity or fee. Failure to disclose such commissions, gratuities or fees may result in termination of the Contract and/or sanctions by the Bank.

B. COMMENCEMENT, COMPLETION, MODIFICATION AND TERMINATION OF CONTRACT

11. Effectiveness of Contract	11.1. This Contract shall come into force and effect on the date (the "Effective Date") of the Client's notice to the Consultant instructing the Consultant to begin carrying out the Services. This notice shall confirm that the effectiveness conditions, if any, listed in the **SCC** have been met.
12. Termination of Contract for Failure to Become Effective	12.1. If this Contract has not become effective within such time period after the date of Contract signature as specified in the **SCC**, either Party may, by not less than twenty two (22) days written notice to the other Party, declare this Contract to be null and void, and in the event of such a declaration by either Party, neither Party shall have any claim against the other Party with respect hereto.
13. Commencement of Services	13.1. The Consultant shall confirm availability of Key Experts and begin carrying out the Services not later than the number of days after the Effective Date specified in the **SCC**.
14. Expiration of Contract	14.1. Unless terminated earlier pursuant to Clause GCC 19 hereof, this Contract shall expire at the end of such time period after the Effective Date as specified in the **SCC**.
15. Entire Agreement	15.1. This Contract contains all covenants, stipulations and provisions agreed by the Parties. No agent or representative of either Party has authority to make, and the Parties shall not be bound by or be liable for, any statement, representation, promise or agreement not set forth herein.
16. Modifications or Variations	16.1. Any modification or variation of the terms and conditions of this Contract, including any modification or variation of the scope of the Services, may only be made by written agreement between the Parties. However, each Party shall give due consideration to any proposals for modification or variation made by the other Party. 16.2. In cases of substantial modifications or variations, the prior written consent of the Bank is required.
17. Force Majeure	
a. Definition	17.1. For the purposes of this Contract, "Force Majeure" means an event which is beyond the reasonable control of a Party, is not

	foreseeable, is unavoidable, and makes a Party's performance of its obligations hereunder impossible or so impractical as reasonably to be considered impossible under the circumstances, and subject to those requirements, includes, but is not limited to, war, riots, civil disorder, earthquake, fire, explosion, storm, flood or other adverse weather conditions, strikes, lockouts or other industrial action confiscation or any other action by Government agencies. 17.2. Force Majeure shall not include (i) any event which is caused by the negligence or intentional action of a Party or such Party's Experts, Sub-consultants or agents or employees, nor (ii) any event which a diligent Party could reasonably have been expected to both take into account at the time of the conclusion of this Contract, and avoid or overcome in the carrying out of its obligations hereunder. 17.3. Force Majeure shall not include insufficiency of funds or failure to make any payment required hereunder.
b. No Breach of Contract	17.4. The failure of a Party to fulfill any of its obligations hereunder shall not be considered to be a breach of, or default under, this Contract insofar as such inability arises from an event of Force Majeure, provided that the Party affected by such an event has taken all reasonable precautions, due care and reasonable alternative measures, all with the objective of carrying out the terms and conditions of this Contract.
c. Measures to be Taken	17.5. A Party affected by an event of Force Majeure shall continue to perform its obligations under the Contract as far as is reasonably practical, and shall take all reasonable measures to minimize the consequences of any event of Force Majeure. 17.6. A Party affected by an event of Force Majeure shall notify the other Party of such event as soon as possible, and in any case not later than fourteen (14) calendar days following the occurrence of such event, providing evidence of the nature and cause of such event, and shall similarly give written notice of the restoration of normal conditions as soon as possible. 17.7. Any period within which a Party shall, pursuant to this Contract, complete any action or task, shall be extended for a period equal to the time during which such Party was unable to perform such action as a result of Force Majeure. 17.8. During the period of their inability to perform the Services as a result of an event of Force Majeure, the Consultant, upon instructions by the Client, shall either:

	(a) demobilize, in which case the Consultant shall be reimbursed for additional costs they reasonably and necessarily incurred, and, if required by the Client, in reactivating the Services; or (b) continue with the Services to the extent reasonably possible, in which case the Consultant shall continue to be paid under the terms of this Contract and be reimbursed for additional costs reasonably and necessarily incurred. 17.9. In the case of disagreement between the Parties as to the existence or extent of Force Majeure, the matter shall be settled according to Clauses GCC 44 & 45.
18. Suspension	18.1. The Client may, by written notice of suspension to the Consultant, suspend all payments to the Consultant hereunder if the Consultant fails to perform any of its obligations under this Contract, including the carrying out of the Services, provided that such notice of suspension (i) shall specify the nature of the failure, and (ii) shall request the Consultant to remedy such failure within a period not exceeding thirty (30) calendar days after receipt by the Consultant of such notice of suspension.
19. Termination	19.1. This Contract may be terminated by either Party as per provisions set up below:
a. By the Client	19.1.1. The Client may terminate this Contract in case of the occurrence of any of the events specified in paragraphs (a) through (f) of this Clause. In such an occurrence the Client shall give at least thirty (30) calendar days' written notice of termination to the Consultant in case of the events referred to in (a) through (d); at least sixty (60) calendar days' written notice in case of the event referred to in (e); and at least five (5) calendar days' written notice in case of the event referred to in (f): (a) If the Consultant fails to remedy a failure in the performance of its obligations hereunder, as specified in a notice of suspension pursuant to Clause GCC 18; (b) If the Consultant becomes (or, if the Consultant consists of more than one entity, if any of its members becomes) insolvent or bankrupt or enter into any agreements with their creditors for relief of debt or take advantage of any law for the benefit of debtors or go into liquidation or receivership whether compulsory or voluntary; (c) If the Consultant fails to comply with any final decision reached as a result of arbitration proceedings pursuant to

	Clause GCC 45.1; (d) If, as the result of Force Majeure, the Consultant is unable to perform a material portion of the Services for a period of not less than sixty (60) calendar days; (e) If the Client, in its sole discretion and for any reason whatsoever, decides to terminate this Contract; (f) If the Consultant fails to confirm availability of Key Experts as required in Clause GCC 13. 19.1.2. Furthermore, if the Client determines that the Consultant has engaged in corrupt, fraudulent, collusive, coercive or obstructive practices, in competing for or in executing the Contract, then the Client may, after giving fourteen (14) calendar days written notice to the Consultant, terminate the Consultant's employment under the Contract.
b. By the Consultant	19.1.3. The Consultant may terminate this Contract, by not less than thirty (30) calendar days' written notice to the Client, in case of the occurrence of any of the events specified in paragraphs (a) through (d) of this Clause. (a) If the Client fails to pay any money due to the Consultant pursuant to this Contract and not subject to dispute pursuant to Clause GCC 45.1 within forty-five (45) calendar days after receiving written notice from the Consultant that such payment is overdue. (b) If, as the result of Force Majeure, the Consultant is unable to perform a material portion of the Services for a period of not less than sixty (60) calendar days. (c) If the Client fails to comply with any final decision reached as a result of arbitration pursuant to Clause GCC 45.1. (d) If the Client is in material breach of its obligations pursuant to this Contract and has not remedied the same within forty-five (45) days (or such longer period as the Consultant may have subsequently approved in writing) following the receipt by the Client of the Consultant's notice specifying such breach.
c. Cessation of Rights and Obligations	19.1.4. Upon termination of this Contract pursuant to Clauses GCC 12 or GCC 19 hereof, or upon expiration of this Contract pursuant to Clause GCC 14, all rights and obligations of the Parties hereunder shall cease, except (i) such rights and

	obligations as may have accrued on the date of termination or expiration, (ii) the obligation of confidentiality set forth in Clause GCC 22, (iii) the Consultant's obligation to permit inspection, copying and auditing of their accounts and records set forth in Clause GCC 25, and (iv) any right which a Party may have under the Applicable Law.
d. Cessation of Services	19.1.5. Upon termination of this Contract by notice of either Party to the other pursuant to Clauses GCC 19a or GCC 19b, the Consultant shall, immediately upon dispatch or receipt of such notice, take all necessary steps to bring the Services to a close in a prompt and orderly manner and shall make every reasonable effort to keep expenditures for this purpose to a minimum. With respect to documents prepared by the Consultant and equipment and materials furnished by the Client, the Consultant shall proceed as provided, respectively, by Clauses GCC 27 or GCC 28.
e. Payment upon Termination	19.1.6. Upon termination of this Contract, the Client shall make the following payments to the Consultant: (a) payment for Services satisfactorily performed prior to the effective date of termination; and (b) in the case of termination pursuant to paragraphs (d) and (e) of Clause GCC 19.1.1, reimbursement of any reasonable cost incidental to the prompt and orderly termination of this Contract, including the cost of the return travel of the Experts.

C. OBLIGATIONS OF THE CONSULTANT

20. General	
a. Standard of Performance	20.1 The Consultant shall perform the Services and carry out the Services with all due diligence, efficiency and economy, in accordance with generally accepted professional standards and practices, and shall observe sound management practices, and employ appropriate technology and safe and effective equipment, machinery, materials and methods. The Consultant shall always act, in respect of any matter relating to this Contract or to the Services, as a faithful adviser to the Client, and shall at all times support and safeguard the Client's legitimate interests in any dealings with the third parties. 20.2. The Consultant shall employ and provide such qualified and experienced Experts and Sub-consultants as are required to carry out the Services.

	20.3. The Consultant may subcontract part of the Services to an extent and with such Key Experts and Sub-consultants as may be approved in advance by the Client. Notwithstanding such approval, the Consultant shall retain full responsibility for the Services.
b. Law Applicable to Services	20.4. The Consultant shall perform the Services in accordance with the Contract and the Applicable Law and shall take all practicable steps to ensure that any of its Experts and Sub-consultants, comply with the Applicable Law. 20.5. Throughout the execution of the Contract, the Consultant shall comply with the import of goods and services prohibitions in the Client's country when (a) as a matter of law or official regulations, the Borrower's country prohibits commercial relations with that country; or (b) by an act of compliance with a decision of the United Nations Security Council taken under Chapter VII of the Charter of the United Nations, the Borrower's Country prohibits any import of goods from that country or any payments to any country, person, or entity in that country. 20.6. The Client shall notify the Consultant in writing of relevant local customs, and the Consultant shall, after such notification, respect such customs.
21. Conflict of Interests	21.1. The Consultant shall hold the Client's interests paramount, without any consideration for future work, and strictly avoid conflict with other assignments or their own corporate interests.
a. Consultant Not to Benefit from Commissions, Discounts, etc.	21.1.1 The payment of the Consultant pursuant to GCC F (Clauses GCC 38 through 42) shall constitute the Consultant's only payment in connection with this Contract and, subject to Clause GCC 21.1.3, the Consultant shall not accept for its own benefit any trade commission, discount or similar payment in connection with activities pursuant to this Contract or in the discharge of its obligations hereunder, and the Consultant shall use its best efforts to ensure that any Sub-consultants, as well as the Experts and agents of either of them, similarly shall not receive any such additional payment. 21.1.2 Furthermore, if the Consultant, as part of the Services, has the responsibility of advising the Client on the procurement of goods, works or services, the Consultant shall comply with the Bank's Applicable Guidelines, and shall at all times exercise such responsibility in the best interest of the Client. Any

	discounts or commissions obtained by the Consultant in the exercise of such procurement responsibility shall be for the account of the Client.
b. Consultant and Affiliates Not to Engage in Certain Activities	21.1.3 The Consultant agrees that, during the term of this Contract and after its termination, the Consultant and any entity affiliated with the Consultant, as well as any Sub-consultants and any entity affiliated with such Sub-consultants, shall be disqualified from providing goods, works or non-consulting services resulting from or directly related to the Consultant's Services for the preparation or implementation of the project, unless otherwise indicated in the **SCC**.
c. Prohibition of Conflicting Activities	21.1.4 The Consultant shall not engage, and shall cause its Experts as well as its Sub-consultants not to engage, either directly or indirectly, in any business or professional activities that would conflict with the activities assigned to them under this Contract.
d. Strict Duty to Disclose Conflicting Activities	21.1.5 The Consultant has an obligation and shall ensure that its Experts and Sub-consultants shall have an obligation to disclose any situation of actual or potential conflict that impacts their capacity to serve the best interest of their Client, or that may reasonably be perceived as having this effect. Failure to disclose said situations may lead to the disqualification of the Consultant or the termination of its Contract.
22. Confidentiality	22.1 Except with the prior written consent of the Client, the Consultant and the Experts shall not at any time communicate to any person or entity any confidential information acquired in the course of the Services, nor shall the Consultant and the Experts make public the recommendations formulated in the course of, or as a result of, the Services.
23. Liability of the Consultant	23.1 Subject to additional provisions, if any, set forth in the **SCC**, the Consultant's liability under this Contract shall be provided by the Applicable Law.
24. Insurance to be Taken out by the Consultant	24.1 The Consultant (i) shall take out and maintain, and shall cause any Sub-consultants to take out and maintain, at its (or the Sub-consultants', as the case may be) own cost but on terms and conditions approved by the Client, insurance against the risks, and for the coverage specified in the **SCC,** and (ii) at the Client's request, shall provide evidence to the Client showing that such insurance has been taken out and maintained and that the current premiums therefore have been paid. The Consultant shall ensure that such insurance is in place prior to commencing the Services as stated in

	Clause GCC 13.
25. Accounting, Inspection and Auditing	25.1 The Consultant shall keep, and shall make all reasonable efforts to cause its Sub-consultants to keep, accurate and systematic accounts and records in respect of the Services and in such form and detail as will clearly identify relevant time changes and costs. 25.2 The Consultant shall permit and shall cause its Sub-consultants to permit, the Bank and/or persons appointed by the Bank to inspect the Site and/or all accounts and records relating to the performance of the Contract and the submission of the Proposal to provide the Services, and to have such accounts and records audited by auditors appointed by the Bank if requested by the Bank. The Consultant's attention is drawn to Clause GCC 10 which provides, inter alia, that acts intended to materially impede the exercise of the Bank's inspection and audit rights provided for under this Clause GCC25.2 constitute a prohibited practice subject to contract termination (as well as to a determination of ineligibility under the Bank's prevailing sanctions procedures.)
26. Reporting Obligations	26.1 The Consultant shall submit to the Client the reports and documents specified in **Appendix A**, in the form, in the numbers and within the time periods set forth in the said Appendix.
27. Proprietary Rights of the Client in Reports and Records	27.1 Unless otherwise indicated in the **SCC**, all reports and relevant data and information such as maps, diagrams, plans, databases, other documents and software, supporting records or material compiled or prepared by the Consultant for the Client in the course of the Services shall be confidential and become and remain the absolute property of the Client. The Consultant shall, not later than upon termination or expiration of this Contract, deliver all such documents to the Client, together with a detailed inventory thereof. The Consultant may retain a copy of such documents, data and/or software but shall not use the same for purposes unrelated to this Contract without prior written approval of the Client. 27.2 If license agreements are necessary or appropriate between the Consultant and third parties for purposes of development of the plans, drawings, specifications, designs, databases, other documents and software, the Consultant shall obtain the Client's prior written approval to such agreements, and the Client shall be entitled at its discretion to require recovering the expenses related to the development of the program(s) concerned. Other restrictions about the future use of these documents and software, if any, shall be specified in the **SCC**.
28. Equipment, Vehicles and	28.1 Equipment, vehicles and materials made available to the Consultant by the Client, or purchased by the Consultant wholly or partly with funds provided by the Client, shall be the property of the

Materials	Client and shall be marked accordingly. Upon termination or expiration of this Contract, the Consultant shall make available to the Client an inventory of such equipment, vehicles and materials and shall dispose of such equipment, vehicles and materials in accordance with the Client's instructions. While in possession of such equipment, vehicles and materials, the Consultant, unless otherwise instructed by the Client in writing, shall insure them at the expense of the Client in an amount equal to their full replacement value. 28.2 Any equipment or materials brought by the Consultant or its Experts into the Client's country for the use either for the project or personal use shall remain the property of the Consultant or the Experts concerned, as applicable.

D. CONSULTANT'S EXPERTS AND SUB-CONSULTANTS

29. Description of Key Experts	29.1 The title, agreed job description, minimum qualification and estimated period of engagement to carry out the Services of each of the Consultant's Key Experts are described in **Appendix B.**
30. Replacement of Key Experts	30.1 Except as the Client may otherwise agree in writing, no changes shall be made in the Key Experts. 30.2 Notwithstanding the above, the substitution of Key Experts during Contract execution may be considered only based on the Consultant's written request and due to circumstances outside the reasonable control of the Consultant, including but not limited to death or medical incapacity. In such case, the Consultant shall forthwith provide as a replacement, a person of equivalent or better qualifications and experience, and at the same rate of remuneration.
31. Removal of Experts or Sub-consultants	31.1 If the Client finds that any of the Experts or Sub-consultant has committed serious misconduct or has been charged with having committed a criminal action, or shall the Client determine that Consultant's Expert of Sub-consultant have engaged in corrupt, fraudulent, collusive, coercive or obstructive practice while performing the Services, the Consultant shall, at the Client's written request, provide a replacement. 31.2 In the event that any of Key Experts, Non-Key Experts or Sub-consultants is found by the Client to be incompetent or incapable in discharging assigned duties, the Client, specifying the grounds therefore, may request the Consultant to provide a replacement. 31.3 Any replacement of the removed Experts or Sub-consultants shall possess better qualifications and experience and shall be acceptable to the Client.

	31.4 The Consultant shall bear all costs arising out of or incidental to any removal and/or replacement of such Experts.

E. OBLIGATIONS OF THE CLIENT

32. Assistance and Exemptions	32.1 Unless otherwise specified in the **SCC**, the Client shall use its best efforts to: (a) Assist the Consultant with obtaining work permits and such other documents as shall be necessary to enable the Consultant to perform the Services. (b) Assist the Consultant with promptly obtaining, for the Experts and, if appropriate, their eligible dependents, all necessary entry and exit visas, residence permits, exchange permits and any other documents required for their stay in the Client's country while carrying out the Services under the Contract. (c) Facilitate prompt clearance through customs of any property required for the Services and of the personal effects of the Experts and their eligible dependents. (c) Issue to officials, agents and representatives of the Government all such instructions and information as may be necessary or appropriate for the prompt and effective implementation of the Services. (d) Assist the Consultant and the Experts and any Sub-consultants employed by the Consultant for the Services with obtaining exemption from any requirement to register or obtain any permit to practice their profession or to establish themselves either individually or as a corporate entity in the Client's country according to the applicable law in the Client's country. (e) Assist the Consultant, any Sub-consultants and the Experts of either of them with obtaining the privilege, pursuant to the applicable law in the Client's country, of bringing into the Client's country reasonable amounts of foreign currency for the purposes of the Services or for the personal use of the Experts and of withdrawing any such amounts as may be earned therein by the Experts in the execution of the Services. (f) Provide to the Consultant any such other assistance as may be specified in the **SCC**.
33. Access to Project Site	33.1 The Client warrants that the Consultant shall have, free of charge, unimpeded access to the project site in respect of which access is required for the performance of the Services. The Client

	will be responsible for any damage to the project site or any property thereon resulting from such access and will indemnify the Consultant and each of the experts in respect of liability for any such damage, unless such damage is caused by the willful default or negligence of the Consultant or any Sub-consultants or the Experts of either of them.
34. Change in the Applicable Law Related to Taxes and Duties	34.1 If, after the date of this Contract, there is any change in the applicable law in the Client's country with respect to taxes and duties which increases or decreases the cost incurred by the Consultant in performing the Services, then the remuneration and reimbursable expenses otherwise payable to the Consultant under this Contract shall be increased or decreased accordingly by agreement between the Parties hereto, and corresponding adjustments shall be made to the Contract price amount specified in Clause GCC 38.1
35. Services, Facilities and Property of the Client	35.1 The Client shall make available to the Consultant and the Experts, for the purposes of the Services and free of any charge, the services, facilities and property described in the Terms of Reference (**Appendix A)** at the times and in the manner specified in said **Appendix A.**
36. Counterpart Personnel	36.1 The Client shall make available to the Consultant free of charge such professional and support counterpart personnel, to be nominated by the Client with the Consultant's advice, if specified in **Appendix A**. 36.2 Professional and support counterpart personnel, excluding Client's liaison personnel, shall work under the exclusive direction of the Consultant. If any member of the counterpart personnel fails to perform adequately any work assigned to such member by the Consultant that is consistent with the position occupied by such member, the Consultant may request the replacement of such member, and the Client shall not unreasonably refuse to act upon such request.
37. Payment Obligation	37.1 In consideration of the Services performed by the Consultant under this Contract, the Client shall make such payments to the Consultant for the deliverables specified in **Appendix A** and in such manner as is provided by GCC F below.

F. PAYMENTS TO THE CONSULTANT

38. Contract Price	38.1 The Contract price is fixed and is set forth in the **SCC.** The Contract price breakdown is provided in **Appendix C**. 38.2 Any change to the Contract price specified in Clause 38.1 can

	be made only if the Parties have agreed to the revised scope of Services pursuant to Clause GCC 16 and have amended in writing the Terms of Reference in **Appendix A**.
39. Taxes and Duties	39.1 The Consultant, Sub-consultants and Experts are responsible for meeting any and all tax liabilities arising out of the Contract unless it is stated otherwise in the **SCC**. 39.2 As an exception to the above and as stated in the **SCC**, all local identifiable indirect taxes (itemized and finalized at Contract negotiations) are reimbursed to the Consultant or are paid by the Client on behalf of the Consultant.
40. Currency of Payment	40.1 Any payment under this Contract shall be made in the currency(ies) of the Contract.
41. Mode of Billing and Payment	41.1 The total payments under this Contract shall not exceed the Contract price set forth in Clause GCC 38.1. 41.2 The payments under this Contract shall be made in lump-sum installments against deliverables specified in **Appendix A**. The payments will be made according to the payment schedule stated in the **SCC**. 41.2.1 *Advance payment:* No advance payment would be made to the consultant. 41.2.2 *The Lump-Sum Installment Payments.* The Client shall pay the Consultant within sixty (60) days after the receipt by the Client of the deliverable(s) and the cover invoice for the related lump-sum installment payment. The payment can be withheld if the Client does not approve the submitted deliverable(s) as satisfactory in which case the Client shall provide comments to the Consultant within the same sixty (60) days period. The Consultant shall thereupon promptly make any necessary corrections, and thereafter the foregoing process shall be repeated. 41.2.3 *The Final Payment* .The final payment under this Clause shall be made only after the final report l have been submitted by the Consultant and approved as satisfactory by the Client. The Services shall then be deemed completed and finally accepted by the Client. The last lump-sum installment shall be deemed approved for payment by the Client within ninety (90) calendar days after receipt of the final report by the Client unless the Client, within such ninety (90) calendar day period, gives written notice to the Consultant specifying in detail deficiencies in the Services, the final report. The Consultant shall thereupon

	promptly make any necessary corrections, and thereafter the foregoing process shall be repeated. 41.2.4 All payments under this Contract shall be made to the accounts of the Consultant specified in the **SCC**. 41.2.4 With the exception of the final payment under 41.2.3 above, payments do not constitute acceptance of the whole Services nor relieve the Consultant of any obligations hereunder.
42. Interest on Delayed Payments	42.1 If the Client had delayed payments beyond fifteen (15) days after the due date stated in Clause GCC 41.2.2 , interest shall be paid to the Consultant on any amount due by, not paid on, such due date for each day of delay at the annual rate stated in the **SCC.**

G. FAIRNESS AND GOOD FAITH

43. Good Faith	43.1 The Parties undertake to act in good faith with respect to each other's rights under this Contract and to adopt all reasonable measures to ensure the realization of the objectives of this Contract.

H. SETTLEMENT OF DISPUTES

44. Amicable Settlement	44.1 The Parties shall seek to resolve any dispute amicably by mutual consultation. 44.2 If either Party objects to any action or inaction of the other Party, the objecting Party may file a written Notice of Dispute to the other Party providing in detail the basis of the dispute. The Party receiving the Notice of Dispute will consider it and respond in writing within fourteen (14) days after receipt. If that Party fails to respond within fourteen (14) days, or the dispute cannot be amicably settled within fourteen (14) days following the response of that Party, Clause GCC 45.1 shall apply.
45. Dispute Resolution	45.1 Any dispute between the Parties arising under or related to this Contract that cannot be settled amicably may be referred to by either Party to the adjudication/arbitration in accordance with the provisions specified in the **SCC**.

II. General Conditions

Attachment 1: Bank's Policy – Corrupt and Fraudulent Practices

Guidelines for Selection and Employment of Consultants under IBRD Loans and IDA Credits & Grants by World Bank Borrowers, dated January 2011:

"**Fraud and Corruption**

1.23 It is the Bank's policy to require that Borrowers (including beneficiaries of Bank loans), consultants, and their agents (whether declared or not), sub-contractors, sub-consultants, service providers, or suppliers, and any personnel thereof, observe the highest standard of ethics during the selection and execution of Bank-financed contracts [footnote: In this context, any action taken by a consultant or any of its personnel, or its agents, or its sub-consultants, sub-contractors, services providers, suppliers, and/or their employees, to influence the selection process or contract execution for undue advantage is improper.]. In pursuance of this policy, the Bank:

(a) defines, for the purposes of this provision, the terms set forth below as follows:

- (i) "corrupt practice" is the offering, giving, receiving, or soliciting, directly or indirectly, of anything of value to influence improperly the actions of another party[1];
- (ii) "fraudulent practice" is any act or omission, including misrepresentation, that knowingly or recklessly misleads, or attempts to mislead, a party to obtain financial or other benefit or to avoid an obligation[2];
- (iii) "collusive practices" is an arrangement between two or more parties designed to achieve an improper purpose, including to influence improperly the actions of another party[3];
- (iv) "coercive practices" is impairing or harming, or threatening to impair or harm, directly or indirectly, any party or the property of the party to influence improperly the actions of a party[4];

---

[1] For the purpose of this sub-paragraph, "another party" refers to a public official acting in relation to the selection process or contract execution. In this context "public official" includes World Bank staff and employees of other organizations taking or reviewing selection decisions.

[2] For the purpose of this sub-paragraph, "party" refers to a public official; the terms "benefit" and "obligation" relate to the selection process or contract execution; and the "act or omission" is intended to influence the selection process or contract execution.

[3] For the purpose of this sub-paragraph, "parties" refers to participants in the procurement or selection process (including public officials) attempting either themselves, or through another person or entity not participating in the procurement or selection process, to simulate competition or to establish prices at artificial, non-competitive levels, or are privy to each other's bid prices or other conditions.

(v) “obstructive practice” is

(aa) deliberately destroying, falsifying, altering, or concealing of evidence material to the investigation or making false statements to investigators in order to materially impede a Bank investigation into allegations of a corrupt, fraudulent, coercive, or collusive practice; and/or threatening, harassing, or intimidating any party to prevent it from disclosing its knowledge of matters relevant to the investigation or from pursuing the investigation, or

(bb) acts intended to materially impede the exercise of the Bank’s inspection and audit rights;

(b) will reject a proposal for award if it determines that the consultant recommended for award or any of its personnel, or its agents, or its sub-consultants, sub-contractors, services providers, suppliers, and/or their employees, has, directly or indirectly, engaged in corrupt, fraudulent, collusive, coercive, or obstructive practices in competing for the contract in question;

(c) will declare misprocurement and cancel the portion of the Loan allocated to a contract if it determines at any time that representatives of the Borrower or of a recipient of any part of the proceeds of the Loan were engaged in corrupt, fraudulent, collusive, coercive, or obstructive practices during the selection process or the implementation of the contract in question, without the Borrower having taken timely and appropriate action satisfactory to the Bank to address such practices when they occur, including by failing to inform the Bank in a timely manner they knew of the practices;

(d) will sanction a firm or an individual at any time, in accordance with prevailing Bank’s sanctions procedures[5], including by publicly declaring such firm or an ineligible, either indefinitely or for a stated period of time: (i) to be awarded a Bank-financed contract, and (ii) to be a nominated[6] sub-consultant, supplier, or service provider of an otherwise eligible firm being awarded a Bank-financed contract.

---

[4] For the purpose of this sub-paragraph, “party” refers to a participant in the selection process or contract execution.

[5] A firm or an individual may be declared ineligible to be awarded a Bank-financed contract upon (i) completion of the Bank’s sanctions proceedings as per its sanctions procedures, including inter alia: cross-debarment as agreed with other International Financial Institutions, including Multilateral Development Banks, and through the application of the World Bank Group corporate administrative procurement sanctions procedures for fraud and corruption; and (ii) as a result of temporary suspension or early temporary suspension in connection with an ongoing sanctions proceedings. See footnote 12 and paragraph 8 of Appendix 1 of these Guidelines.

[6] A nominated sub-consultant, supplier, or service provider is one which has been either (i) included by the consultant in its proposal because it brings specific and critical experience and know-how that are accounted for in the technical evaluation of the consultant’s proposal for the particular services; or (ii) appointed by the Borrower.

arbitration shall be heard by a sole arbitrator or an arbitration panel composed of three (3) arbitrators, in accordance with the following provisions:

(a) Where the Parties agree that the dispute concerns a technical matter, they may agree to appoint a sole arbitrator or, failing agreement on the identity of such sole arbitrator within thirty (30) days after receipt by the other Party of the proposal of a name for such an appointment by the Party who initiated the proceedings, either Party may apply to the Council of Arbitrators, New Delhi, for a list of not fewer than five nominees and, on receipt of such list, the Parties shall alternately strike names there from, and the last remaining nominee on the list shall be the sole arbitrator for the matter in dispute. If the last remaining nominee has not been determined in this manner within sixty (60) days of the date of the list, the President, Institution of Engineers India New Delhi, shall appoint, upon the request of either Party and from such list or otherwise, a sole arbitrator for the matter in dispute.

(b) Where the Parties do not agree that the dispute concerns a technical matter, the Client and the Consultant shall each appoint one (1) arbitrator, and these two arbitrators shall jointly appoint a third arbitrator, who shall chair the arbitration panel. If the arbitrators named by the Parties do not succeed in appointing a third arbitrator within thirty (30) days after the latter of the two (2) arbitrators named by the Parties has been appointed, the third arbitrator shall, at the request of either Party, be appointed by Secretary, the Indian Council of Arbitration, New Delhi

(b) If, in a dispute subject to paragraph (b) above, one Party fails to appoint its arbitrator within thirty (30) days after the other Party has appointed its arbitrator, the Party which has named an arbitrator may apply to the Secretary, Indian Council of Arbitration, New Delhi, to appoint a sole arbitrator for the matter in dispute, and the arbitrator appointed pursuant to such application shall be the sole arbitrator for that dispute.

2. Rules of Procedure. Arbitration proceedings shall be conducted in accordance with procedure of the Arbitration & Conciliation Act 1996, of India.

3. Substitute Arbitrators. If for any reason an arbitrator is unable to perform his/her function, a substitute shall be appointed in the same manner as the original arbitrator.

	4. Nationality and Qualifications of Arbitrators. The sole arbitrator or the third arbitrator appointed pursuant to paragraphs 1(a) through 1(c) above shall be an internationally recognized legal or technical expert with extensive experience in relation to the matter in dispute.
	5. Miscellaneous. In any arbitration proceeding hereunder: (a) proceedings shall, unless otherwise agreed by the Parties, be held in New Delhi; (b) the *English* language shall be the official language for all purposes; and (c) the decision of the sole arbitrator or of a majority of the arbitrators (or of the third arbitrator if there is no such majority) shall be final and binding and shall be enforceable in any court of competent jurisdiction, and the Parties hereby waive any objections to or claims of immunity in respect of such enforcement.

IV. Appendices

APPENDIX A – TERMS OF REFERENCE

1. Background

i. The Government of India along with State and Local Governments is implementing several flagship Urban Missions for improving various aspects of urban development in Indian cities. An underlying goal of these initiatives is to make Indian cities more 'Liveable'. This will mean not only providing good quality core infrastructure and services, but also developing cities with ample opportunities for work, entertainment and cultural activities, improved social infrastructure and economic opportunity;

ii. In order to do this through a structured approach it is important to create a common minimum framework, which cities can use to assess their 'Liveability' and measure their progress over time. In this context, the Ministry of Urban Development has developed a set of 'Liveability Standards in Cities'. These will act as a guiding framework for cities to chart their pathway towards liveability and result in a systematic improvement in the quality of life of citizens in Indian cities. The 'Liveability Standards in Cities' document can be downloaded from http://smartcities.gov.in/content/innerpage/otherstoolkit.php;

iii. A total of 79 Liveability Standards are proposed across 15 different categories. The Ministry proposes to conduct an 'Annual Assessment of Liveability Standards in Cities' and develop a 'City Liveability Index'. This is an ambitious national project requiring yearly compilation of a large number of datasets across the various Liveability Standards;

iv. A total of 116 cities will be covered in Year 1 (list of cities for Year 1 is provided at Appendix D), and the coverage of cities may be extended in subsequent years. The following classification of cities will be used for the purpose of the study

Classification*		Population range
1	Small Towns	Less than 50,000 population
2	Medium Towns	Population ≥ 50,000 < 5 lakh
3	Large Towns	Population ≥ 5 lakh < 1 million

4	Metropolitan Cities	Population ≥ 1 million < 5 million
5	Megapolis	Population ≥ 5 million

** Based on the Classification given in the URDPFI guidelines, 2014*

v. Given the magnitude of data collection and field surveys required, the National Institute of Urban Affairs (an autonomous body under Ministry of Urban Development) wishes to engage the services of a reputed national/international agency/institution for **Assessment of Liveability Standards** (the **'Assignment'**) across all cities included in the study. This will cover all relevant data required by the NIUA for computing the 79 Liveability Standards. The data generated from the assignment will be used by the NIUA for calculating the City Liveability Index of cities on an annual basis;

vi. The contract will initially be valid for activities in Year 1 (as defined in Clause 7.5), and may be extended for a further period of 2 years upon successful completion of activities in Year 1, at the discretion of the NIUA;

vii. Remuneration paid in local currency pursuant to the rates submitted in Form Fin-2 shall be adjusted every 12 months (and, for the first time, with effect for the remuneration earned in the 13th calendar month after the date of the Contract) by applying the following formula:

$R_i=R_0 \ x \ (I_i/I_0)$

Where R_i is the adjusted remuneration, R_0 is the remuneration payable on the basis of the rates set forth in Form Fin-2 for remuneration payable in local currency in the first year. Similarly, R_0 and will be considered as the remuneration for the second year for calculation of the adjusted remuneration for the third year. I_i is the CPI (Urban) for Delhi as published by the Director General / Central Statistical Office, Ministry of Statistics and Programme Implementation, Government of India, for the month in which the adjustment is to have effect and I_0 is the CPI (Urban) for Delhi as published by the authority named above for the month of the date of the contract.

2. Objective of the Assignment

i. Compile reliable and high quality data for all cities included in the study, as required by the NIUA for the computation of Liveability Indexes and as prescribed in the 'Liveability Standards in Cities' document;

ii. Develop a robust electronic database of datasets that can be used to assess the progress of cities on an annual basis.

3. Description of Tasks

The Tasks to be performed and key activities under the assignment will include:

Initiation Activities

i. Conduct a Reconnaissance Study of all cities included in the project (as per Appendix D). The study shall inter-alia include:

  a. City-level kick-off meetings with key officials from City governments, Smart City SPVs, various departments and utilities, DISCOMs etc. for assessing data availability and alternate sources, preferred timelines, key nodal officers etc.;

  b. Study of city demography, socio-economic stratification and geography that has a bearing on sample size and distribution;

  c. Study of existing reports, studies, alternative data sources etc.;

ii. Prepare and submit to the NIUA, an Inception Report, including inter-alia the following:

  a. Detailed Plan of Action including likely sources of data, proposed field surveys, sample size and distribution, nodal officers etc. for each city as discussed and finalized with NIUA;

  b. Proposed timelines for city field visits as discussed and finalized with NIUA and State/City governments;

  c. Specific survey and raw data collection formats for the 79 standards as finalized in discussion with NIUA;

iii. Convey the finalized schedule and Plan of Action to cities allowing them to mobilise support for the activities. A Minimum of 15 days of preparation period must be given to cities before data collection and surveys;

Data Collection and Field Surveys

iv. Mobilize Field Teams (with adequate and qualified manpower as indicated in Clause 7.6) for obtaining data required for all 79 Standards;

v. Collect data for all indicators based on the methodology finalized in discussion with the NIUA. It may be noted that broad guidance (indicator-wise) on data collection

methods, likely sources of secondary data, and standards for sampling size and regimen to be followed for physical surveys is given in "Methodology for Collection and Computation of Liveability Standards in Cities", which may be downloaded from http://smartcities.gov.in/content/innerpage/otherstoolkit.php. Where data is not available from the sources indicated in the document, alternate methodology will be suggested by the agency and finalized in discussion with NIUA at the time of preparation of city inception reports.

vi. Maintain and submit all raw data and data collection forms to NIUA without any editing and/or masking (including particulars such as names of respondents, exact address and contact details, date and time of survey, and GPS coordinates in case of samples taken for pollution etc.);

vii. Conduct analysis of the raw data through the Analytics Team (with adequate and qualified manpower as indicated in Clause 7.6) and prepare aggregate data sets for all 79 standards for each of the cities;

viii. The authenticity of data shall be ensured through visual backup like photographs etc and using geo-tagging technology through hand held devices.

ix. The team at the National level will also conduct audit of the results.

x. Submit Draft City Assessment Report to the NIUA (separate for each city), including inter-alia the following:

  a. Database of aggregate data in the format discussed and finalized with NIUA;
  b. All raw data and data sheets (digital format);
  c. Sources of data, assumptions (if any), record of discussions with key stakeholders, minutes of city kickoff meeting and other relevant documentation;

xi. Submit Final City Assessment Report to the NIUA after including any recommendations of the NIUA and after suitably incorporating any valid feedback received from cities/states with the approval of the NIUA;

xii. Develop and maintain a digital database of all data sets collected every year for each city. The format should be finalized in consultation with the NIUA and enable examination of raw data as well as aggregated numbers on a year-on-year basis;

Other support activities

xiii. Provide support in organizing national/regional workshops that maybe organized as part of this exercise by MoUD/NIUA.

xiv. Provide all necessary support to the NIUA or other reputed third-party agency(ies) appointed by the NIUA for undertaking verification of the data;

xv. Provide any technical support as required by the NIUA or its assigned team during the development of scoring sheets and city indexes for the various Standards;

xvi. Conduct a National workshop (1-day) on behalf of NIUA for disseminating the findings of the Ministry. Costs for the workshop must be included in the proposal.

4. Results to be achieved

The Assignment will result in the creation of a robust database (updated annually) of critical datasets across 79 different Liveability parameters in Indian Cities. This will form the basis for the NIUA to compute an annual City Liveability Index of cities. This can also act as a repository of critical data for encouraging research on cities in India.

5. Timelines and Deliverables for Year 1*

Report	Time line	Documents	Deliverables and Contents
Inception Report	1 months from start date as per contract	Hard copies, and Electronic version	Including: a. Detailed Plan of Action including likely sources of data, proposed field surveys, sample size and distribution, nodal officers etc. for each city as discussed and finalized with NIUA; b. Proposed timelines for city field visits as discussed

Report	Time line	Documents	Deliverables and Contents
			and finalized with NIUA and State/City governments; c. Specific survey and raw data collection formats for the 78 standards as finalized in discussion with NIUA; d. Details of technology to be used for data collection geo-tagging through hand-held devices etc. The inception report must clearly describe data sets targeted to be geo tagged along with a Standard Operating procedure to be used by Surveyors to geo-tag data using Mobile apps e.g., Bhuvan-PMAY app (used in MGNREGA)
Draft City Assessment Report	4 Months from start date as per contract	Hard Copies, and Electronic version	Separate for each city, including: a. Database of aggregate data and calculation for all 79 indicators in a format as discussed and finalized with NIUA; b. All raw data and data sheets (digital format); c. Sources of data, assumptions (if any), record of discussions with key stakeholders, minutes of city kick-off meeting and other relevant documentation;
Final City Assessment Report	5 months from start date as per contract	Hard Copies, and Electronic version	Separate report for each city. The Reports should include all recommendations of the NIUA on the Draft Reports. The Report should also incorporate any valid suggestions/feedback received from cities/states with the approval of the NIUA.

6. ***** Timelines for subsequent years will be as decided by NIUA.

7. Team Composition and Qualification Requirement for key Experts

The assignment is to be undertaken by a full-time Team Leader supported by a Core team of experts and an Analytics Team. Actual data collection and field surveys will be done through city-level Field Teams.

i. **Core Team (full-time):** Given that the assignment requires a deep understanding of the urban sector, as well as of economics, statistics and field studies, the Team Leader and the Core Team of experts must have suitable skills for undertaking the assignment and successfully completing the tasks enumerated. The Team Leader should bring to the table a strong mix of academic accomplishments, urban sector experience and experience of leading similar national/international assignments.

ii. **Analytics Team (full-time):** should be manned with experts capable of analysing large data sets, checking and correcting for errors and inconsistencies, development and management of digital databases and preparation of reports. The team should therefore include adequate number of IT specialist(s), database management/ MIS expert(s), urban economics/planning specialists for data analysis and verification.

iii. **Field Teams per city:** should be manned with adequate number of persons (depending upon city size, stratification and geography) capable of conducting field surveys and extracting credible secondary data from various city/state departments and utilities. Each team should therefore include adequate number of qualified urban professionals having expertise in different domains as indicated in this TOR and accredited with or belonging to inspection bodies (such Bureau Vertitas (India) Pvt. Ltd., TUV SUD South Asia Pvt. Ltd . or equivalent in status and repute) having extensive experience in doing such king of surveys and assessments.

Core Team (CV to be evaluated)

Position	Minimum Qualifications & skills	Minimum Experience

Team Leader	Post Graduate degree in Engineering/Planning/Architecture/Economics/ Management/Mathematics/Statistics from a recognised University/Institution. Experience of working in Urban Sector. Experience of leading national/international level Urban Research assignments related to indexing of cities. Managed at least 1 projects of similar nature.	At least 20 years' experience in urban/management/research/ sector
Survey and Sampling Specialist	Post graduate level qualification in Statistics/Management (Marketing) from a recognised University/institution. Experience of designing and managing surveys and market research assignments.	15 years professional experience. Managed/worked in at least 2 assignments of similar nature
Data Analytics and Indexing Specialist	Post graduate level qualification in Statistics from a recognised University/institution. Experience of data analysis developing composite indexes at national level.	15 years professional experience. Managed/worked in at least 2 assignments of similar nature
Urban Transport Specialist	Post Graduate degree in Transport Planning from a recognised university/institution. Experience of designing and managing transport surveys, transport planning.	15 years professional experience. Managed/worked in at least 2 assignments of similar nature
Environment Specialist	Post Graduate degree in Planning (Environment Focus)/ Environmental Sciences from a recognised university/institution. Experience in Environmental Impact Assessment and Environmental Management Plan	15 years professional experience. Managed/worked in at least 2 assignments of similar nature
GIS Specialist	Post Graduate degree in Geography/Urban Planning / Engineering from a recognized university/institution Experience of undertaking GIS mapping and analytics for urban local bodies	15 years professional experience. Managed/worked in at least 2 assignments of similar nature

8. TA management and counterpart staff

The assignment will be contracted by the NIUA for carrying out the assignment.

8.1 Items to be provided by the NIUA

a. The NIUA will set up a Coordinating Team at the national level for providing guidance and support to the Core Team for executing the assignment;
b. Provide support for organizing various State and city level workshops and meetings;.

c. Provide feedback from time to time for finalizing deliverables;
d. Set up a monitoring system for timely validation of data and finalization of aggregate data.

8.2 Items to be provided by the agency

In addition to the results and deliverables listed above, the Consultant will:

a. Provide for all manpower, materials and equipment necessary for carrying out the assignment;
b. Provide all resources for report production and necessary translations;
c. Provide all Computers and software required by the teams for carrying out the tasks;
d. Arrange for all transportation and travelling required for the teams including Investigations.

……………………………………………………………………………………………

APPENDIX B - KEY EXPERTS

[Insert a table based on Form TECH-6 of the Consultant's Technical Proposal and finalized at the Contract's negotiations. Attach the CVs (updated and signed by the respective Key Experts) demonstrating the qualifications of Key Experts.]

APPENDIX C – BREAKDOWN OF CONTRACT PRICE

[Insert the table with the unit rates to arrive at the breakdown of the lump-sum price. The table shall be based on [Form FIN-3 and FIN-4] of the Consultant's Proposal and reflect any changes agreed at the Contract negotiations, if any. The footnote shall list such changes made to [Form FIN-3 and FIN-4] at the negotiations or state that none has been made.]

When the Consultant has been selected under Quality-Based Selection method, also add the following:

> *"*The agreed remuneration rates shall be stated in the attached Model Form I. This form shall be prepared on the basis of Appendix A to Form FIN-3 of the RFP "Consultants' Representations regarding Costs and Charges" submitted by the Consultant to the Client prior to the Contract's negotiations.
>
> Should these representations be found by the Client (either through inspections or audits pursuant to Clause GCC 25.2 or through other means) to be materially incomplete or inaccurate, the Client shall be entitled to introduce appropriate modifications in the remuneration rates affected by such materially incomplete or inaccurate representations. Any such modification shall have retroactive effect and, in case remuneration has already been paid by the Client before any such modification, (i) the Client shall be entitled to offset any excess payment against the next monthly payment to the Consultants, or (ii) if there are no further payments to be made by the Client to the Consultants, the Consultants shall reimburse to the Client any excess payment within thirty (30) days of receipt of a written claim of the Client. Any such claim by the Client for reimbursement must be made within twelve (12) calendar months after receipt by the Client of a final report and a final statement approved by the Client in accordance with Clause GCC 45.1(d) of this Contract.*"]*

Model Form I
Breakdown of Agreed Fixed Rates in Consultant’s Contract

We hereby confirm that we have agreed to pay to the Experts listed, who will be involved in performing the Services, the basic fees and away from the home office allowances (if applicable) indicated below:

(Expressed in [insert name of currency])*

Experts		1	2	3	4	5	6	7	8
Name	Position	Basic Remuneration rate per Working Month/Day/Year	Social Charges[1]	Overhead[1]	Subtotal	Profit[2]	Away from Home Office Allowance	Agreed Fixed Rate per Working Month/Day/Hour	Agreed Fixed Rate per Working Month/Day/Hour[1]

RFP on Liveability Index

2 messages

Vijay Kumar <g.vijaykumar.moud@gmail.com> Thu, May 25, 2017 at 4:49 PM
To: Vasudha Thawakar <vsarda@worldbank.org>, Raja Dawn <Raja@meghrajindia.com>, sajeesh.kr@gov.in, Utpal Deka <utpal.deka@gmail.com>, nrajadhyaksha@ipeglobal.com

Dear Madam,

Please find enclosed herewith a RFP for shortlisting of firms for assessment of livability of selected cities out of 79 indicators. At present, 116 cities have been identified and the same may be varied.

As communicated earlier, the procurement will be done by NIUA, which is an Institute under Ministry of Urban Development (MoUD), Government of India, on behalf of the MoUD. The REOI was already issued by NIUA. The RFP will be issued to the shortlisted firms. The payment for the assignment for the first round will be made by the Ministry directly to the selected agency on successful completion of assignment and duly certified by NIUA out of CBUD funds.

You are requested to convey no objection/comments of World bank at the earliest.

Regards,

G Vijay Kumar

Under Secretary the Government of India,

Ministry of Urban Development,
Smart Cities Division, Nirman Bhavan, New Delhi.

Dear Mr. Kumar:

Thank you for the below attached email for the selection of Consultant for Assessment of livability index, to be procured by NIUA (on behalf of MoUD), subject to following :

(i) The PMU provides hand holding support to NIUA for the procurement process

(ii) Bank's Guidelines for Selection of Consultants – January 2011, updated July 2014 is followed

(iii) Bank's standard format for REoI, RFP, TER and Contract Agreement is used

(iv) Use of STEP for the procurement process

From the below email, we observe that the REoI has already been advertised. Since this is a prior review contract, the REoI and subsequent steps, needs to be cleared by Bank (through STEP). You may kindly advise the Client to send the documents through STEP for Bank's review.

Section 1. Letter of Invitation

RFP No. CBUD/FIN/34 **Credit No**.4997-IN

New Delhi ____/ March/2017

Dear Mr. /Ms.:

1. The Government of India (hereinafter called "Borrower") has received financing from the International Development Association (IDA) (the "Bank") in the form of a credit (hereinafter called "credit") toward the cost of Capacity Building for Urban Development (CBUD) Project. The Ministry of Urban Development (MoUD), Government of India, an implementing agency of the Client, intends to apply a portion of the proceeds of this credit to eligible payments under the contract for which this Request for Proposals is issued. Payments by the Bank will be made only at the request of the *Ministry of Urban Development* (client) and upon approval by the Bank, and will be subject, in all respects, to the terms and conditions of the financing agreement. The financing agreement prohibits a withdrawal from the credit account for the purpose of any payment to persons or entities, or for any import of goods, if such payment or import, to the knowledge of the Bank, is prohibited by a decision of the United Nations Security council taken under Chapter VII of the Charter of the United Nations. No party other than the Borrower shall derive any rights from the financing agreement or have any claims to the proceeds of the credit.

   The Client now invites proposals to provide the following consulting services (hereinafter called "Services"): "Selection of Consulting Firms for Conducting Surveys for Assessment of Liveability Indices for 116 cities in India". More details on the Services are provided in the Terms of Reference (Section 7).

2. This Request for Proposals (RFP) has been addressed to all eligible Consultants:

3. Deleted.

4. A firm will be selected under Quality and Cost Based Selection method (QCBS) **(Lump Sum)** and in a Proposal format as described in this RFP, in accordance with the policies of the Bank detailed in the Consultants' Guidelines which can be found at the following website: *www.worldbank.org/procure*.

5. The RFP includes the following documents:

   Section 1 - Letter of Invitation
   Section 2 - Instructions to Consultants and Data Sheet
   Section 3 - Technical Proposal - Standard Forms
   Section 4 - Financial Proposal - Standard Forms

Section 5 – Eligible Countries
Section 6 – Bank's Policy – Corrupt and Fraudulent Practices
Section 7 - Terms of Reference
Section 8 - Standard Forms of Contract (Time Based)

6. Please inform us by *[insert date]*,in writing by E-mail *[insert e-mail address]*:

   (a) That you have received the Letter of Invitation; and
   (b) Whether you intend to submit a proposal alone or intend to enhance your experience by requesting permission to associate with other firm(s) (if permissible under Section 2, Instructions to Consultants (ITC), Data Sheet 14.1.1).

7. Details on the proposal's submission date, time and address are provided in Clauses 17.7 and 17.9 of the ITC.

Yours sincerely,

Section 2. Instructions to Consultants and Data Sheet

A. General Provisions

1. Definitions	(a) "Affiliate(s)" means an individual or an entity that directly or indirectly controls, is controlled by, or is under common control with the Consultant. (b) "Applicable Guidelines" means the policies of the Bank governing the selection and Contract award process as set forth in this RFP. (c) "Applicable Law" means the laws and any other instruments having the force of law in the Client's country, or in such other country as may be specified in the **Data Sheet**, as they may be issued and in force from time to time. (d) "Bank" means the International Bank for Reconstruction and Development (IBRD) or the International Development Association (IDA). (e) "Borrower" means the Government, Government agency or other entity that signs the *[loan/financing/grant[1]]* agreement with the Bank. (f)"CBUD" means Capacity Building for Urban Development

---

[1] *["loan agreement" term is used for IBRD loans; "financing agreement" is used for IDA credits; and "grant agreement" is used for Recipient-Executed Trust Funds administered by IBRD or IDA]*

(g) “Client” means the implementing agency that signs the Contract for the Services with the selected Consultant.

(h) “Consultant” means a legally-established professional consulting firm or an entity that may provide or provides the Services to the Client under the Contract.

(i) “Contract” means a legally binding written agreement signed between the Client and the Consultant and includes all the attached documents listed in its Clause 1 (the General Conditions of Contract (GCC), the Special Conditions of Contract (SCC), and the Appendices).

(j) “Data Sheet” means an integral part of the Instructions to Consultants (ITC) Section 2 that is used to reflect specific country and assignment conditions to supplement, but not to over-write, the provisions of the ITC.

(k) “Day” means a calendar day.

(l) “Experts” means, collectively, Key Experts, Non-Key Experts, or any other personnel of the Consultant, Sub-consultant or Joint Venture member(s).

(m) “Government” means Government of India.

(n) “Joint Venture (JV)” means an association with or without a legal personality distinct from that of its members, of more than one Consultant where one member has the authority to conduct all business for and on behalf of any and all the members of the JV, and where the members of the JV are jointly and severally liable to the Client for the performance of the Contract.

(o) “Key Expert(s)” means an individual professional whose skills, qualifications, knowledge and experience are critical to the performance of the Services under the Contract and whose CV is taken into account in the technical evaluation of the Consultant’s proposal.

(p) “ITC” (this Section 2 of the RFP) means the Instructions to Consultants that provides the shortlisted Consultants with all information needed to prepare their Proposals.

(q) “LOI” (this Section 1 of the RFP) means the Letter of Invitation being sent by the Client to the shortlisted Consultants.

(r) “MoUD” means Ministry of Urban Development

	(s) "Non-Key Expert(s)" means an individual professional provided by the Consultant or its Sub-consultant and who is assigned to perform the Services or any part thereof under the Contract and whose CVs are not evaluated individually. (t) "Proposal" means the Technical Proposal and the Financial Proposal of the Consultant. (u) "RFP" means the Request for Proposals to be prepared by the Client for the selection of Consultants, based on the SRFP. (v) "SRFP" means the Standard Request for Proposals, which must be used by the Client as the basis for the preparation of the RFP. (w) "Services" means the work to be performed by the Consultant pursuant to the Contract. (x) "Sub-consultant" means an entity to whom the Consultant intends to subcontract any part of the Services while remaining responsible to the Client during the performance of the Contract. (y) "TORs" (this Section 7 of the RFP) means the Terms of Reference that explain the objectives, scope of work, activities, and tasks to be performed, respective responsibilities of the Client and the Consultant, and expected results and deliverables of the assignment.
2. Introduction	2.1 The Client named in the **Data Sheet** intends to select a Consultant from those listed in the Letter of Invitation, in accordance with the method of selection specified in the **Data Sheet**. 2.2 The shortlisted Consultants are invited to submit a Technical Proposal and a Financial Proposal, or a Technical Proposal only, as specified in the **Data Sheet**, for consulting services required for the assignment named in the **Data Sheet**. The Proposal will be the basis for negotiating and ultimately signing the Contract with the selected Consultant. 2.3 The Consultants should familiarize themselves with the local conditions and take them into account in preparing their Proposals, including attending a pre-proposal conference if one is specified in the **Data Sheet**. Attending any such pre-proposal conference is optional and is at the Consultants' expense.

	2.4 The Client will timely provide, at no cost to the Consultants, the inputs, relevant project data, and reports required for the preparation of the Consultant's Proposal as specified in the **Data Sheet**.
3. Conflict of Interest	3.1 The Consultant is required to provide professional, objective, and impartial advice, at all times holding the Client's interests paramount, strictly avoiding conflicts with other assignments or its own corporate interests, and acting without any consideration for future work. 3.2 The Consultant has an obligation to disclose to the Client any situation of actual or potential conflict that impacts its capacity to serve the best interest of its Client. Failure to disclose such situations may lead to the disqualification of the Consultant or the termination of its Contract and/or sanctions by the Bank. 3.2.1 Without limitation on the generality of the foregoing, the Consultant shall not be hired under the circumstances set forth below:
a. Conflicting activities	(i) Conflict between consulting activities and procurement of goods, works or non-consulting services: a firm that has been engaged by the Client to provide goods, works, or non-consulting services for a project, or any of its Affiliates, shall be disqualified from providing consulting services resulting from or directly related to those goods, works, or non-consulting services. Conversely, a firm hired to provide consulting services for the preparation or implementation of a project, or any of its Affiliates, shall be disqualified from subsequently providing goods or works or non-consulting services resulting from or directly related to the consulting services for such preparation or implementation.
b. Conflicting assignments	(ii) Conflict among consulting assignments: a Consultant (including its Experts and Sub-consultants) or any of its Affiliates shall not be hired for any assignment that, by its nature, may be in conflict with another assignment of the Consultant for the same or for another Client.
c. Conflicting relationships	(iii) Relationship with the Client's staff: a Consultant (including its Experts and Sub-consultants) that has a close business or family relationship with a professional staff of the Borrower (or of the Client, or of implementing agency, or of a recipient of a part of the Bank's financing) who are directly or indirectly involved in any part of (i) the preparation of the Terms of Reference for the assignment, (ii) the selection process for the Contract, or (iii) the supervision of the Contract, may not be awarded a Contract, unless the conflict

	stemming from this relationship has been resolved in a manner acceptable to the Bank throughout the selection process and the execution of the Contract.
4. Unfair Competitive Advantage	4.1 Fairness and transparency in the selection process require that the Consultants or their Affiliates competing for a specific assignment do not derive a competitive advantage from having provided consulting services related to the assignment in question. To that end, the Client shall indicate in the **Data Sheet** and make available to all shortlisted Consultants together with this RFP all information that would in that respect give such Consultant any unfair competitive advantage over competing Consultants.
5. Corrupt and Fraudulent Practices	5.1 The Bank requires compliance with its policy in regard to corrupt and fraudulent practices as set forth in Section 6. 5.2 In further pursuance of this policy, Consultant shall permit and shall cause its agents, Experts, Sub-consultants, sub-contractors, services providers, or suppliers to permit the Bank to inspect all accounts, records, and other documents relating to the submission of the Proposal and contract performance (in case of an award), and to have them audited by auditors appointed by the Bank.
6. Eligibility	6.1 The Bank permits consultants (individuals and firms, including Joint Ventures and their individual members) from all countries to offer consulting services for Bank-financed projects. 6.2 Furthermore, it is the Consultant's responsibility to ensure that its Experts, joint venture members, Sub-consultants, agents (declared or not), sub-contractors, service providers, suppliers and/or their employees meet the eligibility requirements as established by the Bank in the Applicable Guidelines. 6.3 As an exception to the foregoing Clauses 6.1 and 6.2 above:
a. Sanctions	6.3.1 A firm or an individual sanctioned by the Bank in accordance with the above Clause 5.1 or in accordance with "Anti-Corruption Guidelines" shall be ineligible to be awarded a Bank-financed contract, or to benefit from a Bank-financed contract, financially or otherwise, during such period of time as the Bank shall determine. The list of debarred firms and individuals is available at the electronic address specified in the **Data Sheet**.
b. Prohibitions	6.3.2 Firms and individuals of a country or goods manufactured in a country may be ineligible if so indicated in Section 5 (Eligible Countries) and:

	(a) as a matter of law or official regulations, the Borrower's country prohibits commercial relations with that country, provided that the Bank is satisfied that such exclusion does not preclude effective competition for the provision of Services required; or (b) by an act of compliance with a decision of the United Nations Security Council taken under Chapter VII of the Charter of the United Nations, the Borrower's Country prohibits any import of goods from that country or any payments to any country, person, or entity in that country.
c. Restrictions for Government-owned Enterprises	6.3.3 Government-owned enterprises or institutions in the Borrower's country shall be eligible only if they can establish that they (i) are legally and financially autonomous, (ii) operate under commercial law, and (iii) that they are not dependent agencies of the Client To establish eligibility, the government-owned enterprise or institution should provide all relevant documents (including its charter) sufficient to demonstrate that it is a legal entity separate from the government; it does not currently receive any substantial subsidies or budget support; it is not obligated to pass on its surplus to the government; it can acquire rights and liabilities, borrow funds, and can be liable for repayment of debts and be declared bankrupt; and it is not competing for a contract to be awarded by the government department or agency which, under the applicable laws or regulations, is its reporting or supervisory authority or has the ability to exercise influence or control over it.
d. Restrictions for public employees	6.3.4 Government officials and civil servants of the Borrower's country are not eligible to be included as Experts in the Consultant's Proposal unless such engagement does not conflict with any employment or other laws, regulations, or policies of the Borrower's country, and they (i) are on leave of absence without pay, or have resigned or retired; (ii) are not being hired by the same agency they were working for before going on leave of absence without pay, resigning, or retiring (in case of resignation or retirement, for a period of at least 6 (six) months, or the period established by statutory provisions applying to civil servants or government employees in the Borrower's country,

	whichever is longer. Experts who are employed by the government-owned universities, educational or research institutions are not eligible unless they have been full time employees of their institutions for a year or more prior to being included in Consultant's Proposal.; and (iii) their hiring would not create a conflict of interest.
B. Preparation of Proposals	
7. General Considerations	**7.1.** In preparing the Proposal, the Consultant is expected to examine the RFP in detail. Material deficiencies in providing the information requested in the RFP may result in rejection of the Proposal.
8. Cost of Preparation of Proposal	**8.1.** The Consultant shall bear all costs associated with the preparation and submission of its Proposal, and the Client shall not be responsible or liable for those costs, regardless of the conduct or outcome of the selection process. The Client is not bound to accept any proposal, and reserves the right to annul the selection process at any time prior to Contract award, without thereby incurring any liability to the Consultant.
9. Language	**9.1.** The Proposal, as well as all correspondence and documents relating to the Proposal exchanged between the Consultant and the Client, shall be written in the language(s) specified in the **Data Sheet**.
10. Documents Comprising the Proposal	**10.1.** The Proposal shall comprise the documents and forms listed in the **Data Sheet**. **10.2.** If specified in the **Data Sheet**, the Consultant shall include a statement of an undertaking of the Consultant to observe, in competing for and executing a contract, the Client country's laws against fraud and corruption (including bribery). **10.3.** The Consultant shall furnish information on commissions, gratuities, and fees, if any, paid or to be paid to agents or any other party relating to this Proposal and, if awarded, Contract execution, as requested in the Financial Proposal submission form (Section 4).
11. Only One Proposal	**11.1.** The Consultant (including the individual members of any Joint Venture) shall submit only one Proposal, either in its own name or as part of a Joint Venture in another Proposal. If a Consultant, including any Joint Venture member, submits or participates in more than one proposal, all such proposals shall be disqualified and rejected. This does not, however, preclude a Sub-consultant, or the Consultant's staff from participating as Key Experts and Non-Key Experts in more than one Proposal when circumstances justify and if stated in the **Data Sheet**.

12. Proposal Validity	**12.1. The Data Sheet** indicates the period during which the Consultant's Proposal must remain valid after the Proposal submission deadline. **12.2.** During this period, the Consultant shall maintain its original Proposal without any change, including the availability of the Key Experts, the proposed rates and the total price. **12.3.** If it is established that any Key Expert nominated in the Consultant's Proposal was not available at the time of Proposal submission or was included in the Proposal without his/her confirmation, such Proposal shall be disqualified and rejected for further evaluation, and may be subject to sanctions in accordance with Clause 5 of this ITC.
a. Extension of Validity Period	**12.4.** The Client will make its best effort to complete the negotiations within the proposal's validity period. However, should the need arise, the Client may request, in writing, all Consultants who submitted Proposals prior to the submission deadline to extend the Proposals' validity. **12.5.** If the Consultant agrees to extend the validity of its Proposal, it shall be done without any change in the original Proposal and with the confirmation of the availability of the Key Experts. **12.6.** The Consultant has the right to refuse to extend the validity of its Proposal in which case such Proposal will not be further evaluated.
b. Substitution of Key Experts at Validity Extension	**12.7.** If any of the Key Experts become unavailable for the extended validity period, the Consultant shall provide a written adequate justification and evidence satisfactory to the Client together with the substitution request. In such case, a replacement Key Expert shall have equal or better qualifications and experience than those of the originally proposed Key Expert. The technical evaluation score, however, will remain to be based on the evaluation of the CV of the original Key Expert. **12.8.** If the Consultant fails to provide a replacement Key Expert with equal or better qualifications, or if the provided reasons for the replacement or justification are unacceptable to the Client, such Proposal will be rejected with the prior Bank's no objection.
c. Sub-Contracting	**12.9.** The Consultant shall not subcontract the whole of the Services.
13. Clarification and	**13.1.** The Consultant may request a clarification of any part of the RFP during the period indicated in the **Data Sheet** before the Proposals' submission deadline. Any request for clarification must be sent in

Amendment of RFP	writing, or by standard electronic means, to the Client's address indicated in the **Data Sheet**. The Client will respond in writing, or by standard electronic means, and will send written copies of the response (including an explanation of the query but without identifying its source) to all shortlisted Consultants. Should the Client deem it necessary to amend the RFP as a result of a clarification, it shall do so following the procedure described below: 13.1.1. At any time before the proposal submission deadline, the Client may amend the RFP by issuing an amendment in writing or by standard electronic means. The amendment shall be sent to all shortlisted Consultants and will be binding on them. The shortlisted Consultants shall acknowledge receipt of all amendments in writing. 13.1.2. If the amendment is substantial, the Client may extend the proposal submission deadline to give the shortlisted Consultants reasonable time to take an amendment into account in their Proposals. **13.2.** The Consultant may submit a modified Proposal or a modification to any part of it at any time prior to the proposal submission deadline. No modifications to the Technical or Financial Proposal shall be accepted after the deadline.
14. Preparation of Proposals – Specific Considerations	**14.1.** While preparing the Proposal, the Consultant must give particular attention to the following: 14.1.1. If a shortlisted Consultant considers that it may enhance its expertise for the assignment by associating with other consultants in the form of a Joint Venture or as Sub-consultants, it may do so with either (a) non-shortlisted Consultant(s), or (b) shortlisted Consultants if permitted in the **Data Sheet**. In all such cases a shortlisted Consultant must obtain the written approval of the Client prior to the submission of the Proposal. When associating with non-shortlisted firms in the form of a joint venture or a sub-consultancy, the shortlisted Consultant shall be a lead member. If shortlisted Consultants associate with each other, any of them can be a lead member. 14.1.2. The Client may indicate in the **Data Sheet** the estimated Key Experts' time input (expressed in person-month) or the Client's estimated total cost of the assignment, but not both. This estimate is indicative and the Proposal shall be based on the Consultant's own estimates for the same. 14.1.3. If stated in the **Data Sheet**, the Consultant shall include in its Proposal at least the same time input (in the same unit as

	indicated in the **Data Sheet**) of Key Experts, failing which the Financial Proposal will be adjusted for the purpose of comparison of proposals and decision for award in accordance with the procedure in the **Data Sheet**. 14.1.4. For assignments under the Fixed-Budget selection method, the estimated Key Experts' time input is not disclosed. Total available budget, with an indication whether it is inclusive or exclusive of taxes, is given in the **Data Sheet**, and the Financial Proposal shall not exceed this budget.
15. Technical Proposal Format and Content	**15.1.** The Technical Proposal shall not include any financial information. A Technical Proposal containing material financial information shall be declared non-responsive. 15.1.1 Consultant shall not propose alternative Key Experts. Only one CV shall be submitted for each Key Expert position. Failure to comply with this requirement will make the Proposal non-responsive. **15.2.** Depending on the nature of the assignment, the Consultant is required to submit a Full Technical Proposal (FTP), or a Simplified Technical Proposal (STP) as indicated in the **Data Sheet** and using the Standard Forms provided in Section 3 of the RFP.
16. Financial Proposal	**16.1.** The Financial Proposal shall be prepared using the Standard Forms provided in Section 4 of the RFP. It shall list all costs associated with the assignment, including (a) remuneration for Key Experts and Non-Key Experts, (b) reimbursable expenses indicated in the **Data Sheet**.
a. Price Adjustment	**16.2.** For assignments with a duration exceeding 18 months, a price adjustment provision for foreign and/or local inflation for remuneration rates applies if so stated in the **Data Sheet**.
b. Taxes	**16.3.** The Consultant and its Sub-consultants and Experts are responsible for meeting all tax liabilities arising out of the Contract unless stated otherwise in the **Data Sheet**. Information on taxes in the Client's country is provided in the **Data Sheet**.
c. Currency of Proposal	**16.4.** The Consultant may express the price for its Services in the currency or currencies as stated in the **Data Sheet**. If indicated in the **Data Sheet**, the portion of the price representing local cost shall be stated in the national currency.
d. Currency of Payment	**16.5.** Payment under the Contract shall be made in the currency or currencies in which the payment is requested in the Proposal.

C. Submission, Opening and Evaluation

17. Submission, Sealing, and Marking of Proposals

17.1 The Consultant shall submit a signed and complete Proposal comprising the documents and forms in accordance with Clause 10 (Documents Comprising Proposal). The submission can be done by mail or by hand. If specified in the **Data Sheet**, the Consultant has the option of submitting its Proposals electronically.

17.2 An authorized representative of the Consultant shall sign the original submission letters in the required format for both the Technical Proposal and, if applicable, the Financial Proposal and shall initial all pages of both. The authorization shall be in the form of a written power of attorney attached to the Technical Proposal.

> 17.2.1 A Proposal submitted by a Joint Venture shall be signed by all members so as to be legally binding on all members, or by an authorized representative who has a written power of attorney signed by each member's authorized representative.

17.3 Any modifications, revisions, interlineations, erasures, or overwriting shall be valid only if they are signed or initialed by the person signing the Proposal.

17.4 The signed Proposal shall be marked "ORIGINAL", and its copies marked "COPY" as appropriate. The number of copies is indicated in the **Data Sheet**. All copies shall be made from the signed original. If there are discrepancies between the original and the copies, the original shall prevail.

17.5 The original and all the copies of the Technical Proposal shall be placed inside of a sealed envelope clearly marked "**TECHNICAL PROPOSAL**", "[Name of the Assignment]", reference number, name and address of the Consultant, and with a warning "**DO NOT OPEN UNTIL [INSERT THE DATE AND THE TIME OF THE TECHNICAL PROPOSAL SUBMISSION DEADLINE]**."

17.6 Similarly, the original Financial Proposal (if required for the applicable selection method) shall be placed inside of a sealed envelope clearly marked "**FINANCIAL PROPOSAL**" followed by the name of the assignment, reference number, name and address of the Consultant, and with a warning "**DO NOT OPEN WITH THE TECHNICAL PROPOSAL**."

17.7 The sealed envelopes containing the Technical and Financial Proposals shall be placed into one outer envelope and sealed. This outer envelope shall bear the submission address, RFP reference

	number, the name of the assignment, Consultant's name and the address, and shall be clearly marked "**DO NOT OPEN BEFORE** [insert the time and date of the submission deadline indicated in the Data Sheet]". 17.8 If the envelopes and packages with the Proposal are not sealed and marked as required, the Client will assume no responsibility for the misplacement, loss, or premature opening of the Proposal. 17.9 The Proposal or its modifications must be sent to the address indicated in the **Data Sheet** and received by the Client no later than the deadline indicated in the **Data Sheet**, or any extension to this deadline. Any Proposal or its modification received by the Client after the deadline shall be declared late and rejected, and promptly returned unopened.
18. Confidentiality	18.1 From the time the Proposals are opened to the time the Contract is awarded, the Consultant should not contact the Client on any matter related to its Technical and/or Financial Proposal. Information relating to the evaluation of Proposals and award recommendations shall not be disclosed to the Consultants who submitted the Proposals or to any other party not officially concerned with the process, until the publication of the Contract award information. 18.2 Any attempt by shortlisted Consultants or anyone on behalf of the Consultant to influence improperly the Client in the evaluation of the Proposals or Contract award decisions may result in the rejection of its Proposal, and may be subject to the application of prevailing Bank's sanctions procedures. 18.3 Notwithstanding the above provisions, from the time of the Proposals' opening to the time of Contract award publication, if a Consultant wishes to contact the Client or the Bank on any matter related to the selection process, it should do so only in writing.
19. Opening of Technical Proposals	19.1 The Client's evaluation committee shall conduct the opening of the Technical Proposals in the presence of the shortlisted Consultants' authorized representatives who choose to attend (in person, or online if this option is offered in the **Data Sheet**). The opening date, time and the address are stated in the **Data Sheet**. The envelopes with the Financial Proposal shall remain sealed and shall be securely stored with a reputable public auditor or independent authority until they are opened in accordance with Clause 23 of the ITC.

	19.2 At the opening of the Technical Proposals the following shall be read out: (i) the name and the country of the Consultant or, in case of a Joint Venture, the name of the Joint Venture, the name of the lead member and the names and the countries of all members; (ii) the presence or absence of a duly sealed envelope with the Financial Proposal; (iii) any modifications to the Proposal submitted prior to proposal submission deadline; and (iv) any other information deemed appropriate or as indicated in the **Data Sheet**.
20. Proposals Evaluation	20.1 Subject to provision of Clause 15.1 of the ITC, the evaluators of the Technical Proposals shall have no access to the Financial Proposals until the technical evaluation is concluded and the Bank issues its "no objection", if applicable. 20.2 The Consultant is not permitted to alter or modify its Proposal in any way after the proposal submission deadline except as permitted under Clause 12.7 of this ITC. While evaluating the Proposals, the Client will conduct the evaluation solely on the basis of the submitted Technical and Financial Proposals.
21. Evaluation of Technical Proposals	21.1 The Client's evaluation committee shall evaluate the Technical Proposals on the basis of their responsiveness to the Terms of Reference and the RFP, applying the evaluation criteria, sub-criteria, and point system specified in the **Data Sheet**. Each responsive Proposal will be given a technical score. A Proposal shall be rejected at this stage if it does not respond to important aspects of the RFP or if it fails to achieve the minimum technical score indicated in the **Data Sheet**.
22. Financial Proposals for QBS	22.1 Following the ranking of the Technical Proposals, when the selection is based on quality only (QBS), the top-ranked Consultant is invited to negotiate the Contract. 22.2 If Financial Proposals were invited together with the Technical Proposals, only the Financial Proposal of the technically top-ranked Consultant is opened by the Client's evaluation committee. All other Financial Proposals are returned unopened after the Contract negotiations are successfully concluded and the Contract is signed.
23. Public Opening of Financial Proposals (for QCBS, FBS, and LCS methods)	23.1 After the technical evaluation is completed and the Bank has issued its no objection (if applicable), the Client shall notify those Consultants whose Proposals were considered non-responsive to the RFP and TOR or did not meet the minimum qualifying technical score (and shall provide information relating to the Consultant's overall technical score, as well as scores obtained for each criterion and sub-criterion) that their Financial Proposals will be returned unopened after completing the selection process and Contract signing. The Client shall simultaneously notify in writing those

	Consultants that have achieved the minimum overall technical score and inform them of the date, time and location for the opening of the Financial Proposals. The opening date should allow the Consultants sufficient time to make arrangements for attending the opening. The Consultant's attendance at the opening of the Financial Proposals (in person, or online if such option is indicated in the **Data Sheet**) is optional and is at the Consultant's choice. 23.2 The Financial Proposals shall be opened by the Client's evaluation committee in the presence of the representatives of those Consultants whose proposals have passed the minimum technical score. At the opening, the names of the Consultants, and the overall technical scores, including the break-down by criterion, shall be read aloud. The Financial Proposals will then be inspected to confirm that they have remained sealed and unopened. These Financial Proposals shall be then opened, and the total prices read aloud and recorded. Copies of the record shall be sent to all Consultants who submitted Proposals and to the Bank.
24. Correction of Errors	24.1 Activities and items described in the Technical Proposal but not priced in the Financial Proposal, shall be assumed to be included in the prices of other activities or items, and no corrections are made to the Financial Proposal.
a. Time-Based Contracts	24.1.1 If a Time-Based contract form is included in the RFP, the Client's evaluation committee will (a) correct any computational or arithmetical errors, and (b) adjust the prices if they fail to reflect all inputs included for the respective activities or items in the Technical Proposal. In case of discrepancy between (i) a partial amount (sub-total) and the total amount, or (ii) between the amount derived by multiplication of unit price with quantity and the total price, or (iii) between words and figures, the former will prevail. In case of discrepancy between the Technical and Financial Proposals in indicating quantities of input, the Technical Proposal prevails and the Client's evaluation committee shall correct the quantification indicated in the Financial Proposal so as to make it consistent with that indicated in the Technical Proposal, apply the relevant unit price included in the Financial Proposal to the corrected quantity, and correct the total Proposal cost.
b. Lump-Sum Contracts	24.2 If a Lump-Sum contract form is included in the RFP, the Consultant is deemed to have included all prices in the Financial Proposal, so neither arithmetical corrections nor price adjustments shall be made. The total price, net of taxes understood as per Clause

	ITC 25 below, specified in the Financial Proposal (Form FIN-1) shall be considered as the offered price.
25. Taxes	25.1 The Client's evaluation of the Consultant's Financial Proposal shall exclude taxes and duties in the Client's country in accordance with the instructions in the **Data Sheet**.
26. Conversion to Single Currency	26.1 For the evaluation purposes, prices shall be converted to a single currency using the selling rates of exchange, source and date indicated in the **Data Sheet**.
27. Combined Quality and Cost Evaluation	
a. Quality- and Cost-Based Selection (QCBS)	27.1 In the case of QCBS, the total score is calculated by weighting the technical and financial scores and adding them as per the formula and instructions in the **Data Sheet**. The Consultant achieving the highest combined technical and financial score will be invited for negotiations.
b. Fixed-Budget Selection (FBS)	27.2 In the case of FBS, those Proposals that exceed the budget indicated in Clause 14.1.4 of the **Data Sheet** shall be rejected. 27.3 The Client will select the Consultant that submitted the highest-ranked Technical Proposal that does not exceed the budget indicated in the RFP, and invite such Consultant to negotiate the Contract.

c. Least-Cost Selection	27.4 In the case of Least-Cost Selection (LCS), the Client will select the Consultant with the lowest evaluated total price among those consultants that achieved the minimum technical score, and invite such Consultant to negotiate the Contract.
D. Negotiations and Award	
28. Negotiations	28.1 The negotiations will be held at the date and address indicated in the **Data Sheet** with the Consultant's representative(s) who must have written power of attorney to negotiate and sign a Contract on behalf of the Consultant. 28.2 The Client shall prepare minutes of negotiations that are signed by the Client and the Consultant's authorized representative.
a. Availability of Key Experts	28.3 The invited Consultant shall confirm the availability of all Key Experts included in the Proposal as a pre-requisite to the negotiations, or, if applicable, a replacement in accordance with Clause 12 of the ITC. Failure to confirm the Key Experts' availability may result in the rejection of the Consultant's Proposal and the Client proceeding to negotiate the Contract with the next-ranked Consultant. 28.4 Notwithstanding the above, the substitution of Key Experts at the negotiations may be considered if due solely to circumstances outside the reasonable control of and not foreseeable by the Consultant, including but not limited to death or medical incapacity. In such case, the Consultant shall offer a substitute Key Expert within the period of time specified in the letter of invitation to negotiate the Contract, who shall have equivalent or better qualifications and experience than the original candidate.
b. Technical negotiations	28.5 The negotiations include discussions of the Terms of Reference (TORs), the proposed methodology, the Client's inputs, the special conditions of the Contract, and finalizing the "Description of Services" part of the Contract. These discussions shall not substantially alter the original scope of services under the TOR or the terms of the contract, lest the quality of the final product, its price, or the relevance of the initial evaluation be affected.
c. Financial negotiations	28.6 The negotiations include the clarification of the Consultant's tax liability in the Client's country and how it should be reflected in the Contract. 28.7 If the selection method included cost as a factor in the evaluation, the total price stated in the Financial Proposal for a Lump-Sum contract shall not be negotiated.

	28.8 In the case of a Time-Based contract, unit rates negotiations shall not take place, except when the offered Key Experts and Non-Key Experts' remuneration rates are much higher than the typically charged rates by consultants in similar contracts. In such case, the Client may ask for clarifications and, if the fees are very high, ask to change the rates after consultation with the Bank. The format for (i) providing information on remuneration rates in the case of Quality Based Selection; and (ii) clarifying remuneration rates' structure under Clause 28.8 above, is provided in Appendix A to the Financial Form FIN-3: Financial Negotiations – Breakdown of Remuneration Rates.
29. Conclusion of Negotiations	29.1 The negotiations are concluded with a review of the finalized draft Contract, which then shall be initialed by the Client and the Consultant's authorized representative. 29.2 If the negotiations fail, the Client shall inform the Consultant in writing of all pending issues and disagreements and provide a final opportunity to the Consultant to respond. If disagreement persists, the Client shall terminate the negotiations informing the Consultant of the reasons for doing so. After having obtained the Bank's no objection, the Client will invite the next-ranked Consultant to negotiate a Contract. Once the Client commences negotiations with the next-ranked Consultant, the Client shall not reopen the earlier negotiations.
30. Award of Contract	30.1 After completing the negotiations the Client shall obtain the Bank's no objection to the negotiated draft Contract, if applicable; sign the Contract; publish the award information as per the instructions in the **Data Sheet**; and promptly notify the other shortlisted Consultants. 30.2 The Consultant is expected to commence the assignment on the date and at the location specified in the **Data Sheet**.

Instructions to Consultants

E. Data Sheet

[“Notes to Client” shown in brackets throughout the text are provided for guidance to prepare the Data Sheet; they should be deleted from the final RFP to be sent to the shortlisted Consultants]

FORM TECH-1

TECHNICAL PROPOSAL SUBMISSION FORM

{Location, Date}

To:

[Name and address of Client]

Dear Sirs:

We, the undersigned, offer to provide the consulting services for Providing Technical Assistance to Ministry of Urban Development, Govt. of India in Carrying out surveys in 116 cities of India in order to assess a Liveability Index for each of them in accordance with your Request for Proposals dated *[Insert Date]* and our Proposal. *on the QCBS selection method stated in the RFP:* "We are hereby submitting our Proposal, which includes this Technical Proposal and a Financial Proposal sealed in a separate envelope"

{If the Consultant is a joint venture, insert the following*:* We are submitting our Proposal a joint venture with: {Insert a list with full name and the legal address of each member, and indicate the lead member}. We have attached a copy {insert: "of our letter of intent to form a joint venture" or, if a JV is already formed, "of the JV agreement"} signed by every participating member, which details the likely legal structure of and the confirmation of joint and severable liability of the members of the said joint venture.

{OR

If the Consultant's Proposal includes Sub-consultants, insert the following: We are submitting our Proposal with the following firms as Sub-consultants: {Insert a list with full name and address of each Sub-consultant.}

We hereby declare that:

(a) All the information and statements made in this Proposal are true and we accept that any misinterpretation or misrepresentation contained in this Proposal may lead to our disqualification by the Client and/or may be sanctioned by the Bank.

(b) Our Proposal shall be valid and remain binding upon us for the period of time specified in the Data Sheet, Clause 12.1.

(c) We have no conflict of interest in accordance with ITC 3.

(d) We meet the eligibility requirements as stated in ITC 6, and we confirm our understanding of our obligation to abide by the Bank's policy in regard to corrupt and fraudulent practices as per ITC 5.

(e) We, along with any of our sub-consultants, subcontractors, suppliers, or service providers for any part of the contract, are not subject to, and not controlled by any entity or individual that is subject to, a temporary suspension or a debarment imposed by a member of the World Bank Group or a debarment imposed by the World Bank Group in accordance with the Agreement for Mutual Enforcement of Debarment Decisions between the World Bank and other development banks. Further, we are not ineligible under the Employer's country laws or official regulations or pursuant to a decision of the United Nations Security Council;

(f) In competing for (and, if the award is made to us, in executing) the Contract, we undertake to observe the laws against fraud and corruption, including bribery, in force in the country of the Client.

(g) Except as stated in the Data Sheet, Clause 12.1, we undertake to negotiate a Contract on the basis of the proposed Key Experts. We accept that the substitution of Key Experts for reasons other than those stated in ITC Clause 12 and ITC Clause 28.4 may lead to the termination of Contract negotiations.

(h) Our Proposal is binding upon us and subject to any modifications resulting from the Contract negotiations.

We undertake, if our Proposal is accepted and the Contract is signed, to initiate the Services related to the assignment no later than the date indicated in Clause 30.2 of the Data Sheet.

We understand that the Client is not bound to accept any Proposal that the Client receives.

We remain,

Yours sincerely,

Authorized Signature {In full and initials}: ______________________________
Name and Title of Signatory: ____
Name of Consultant (company's name or JV's name):
In the capacity of: ____

Address: ____
Contact information (phone and e-mail): ________________________________

{For a joint venture, either all members shall sign or only the lead member, in which case the power of attorney to sign on behalf of all members shall be attached}

FORM TECH-2
CONSULTANT'S ORGANIZATION AND EXPERIENCE

Form TECH-2: a brief description of the Consultant's organization and an outline of the recent experience of the Consultant that is most relevant to the assignment. In the case of a joint venture, information on similar assignments shall be provided for each partner. For each assignment, the outline should indicate the names of the Consultant's Key Experts and Sub-consultants who participated, the duration of the assignment, the contract amount (total and, if it was done in a form of a joint venture or a sub-consultancy, the amount paid to the Consultant), and the Consultant's role/involvement.

A - Consultant's Organization

1. Provide here a brief description of the background and organization of your company, and – in case of a joint venture – of each member for this assignment.

2. Include organizational chart, a list of Board of Directors, and beneficial ownership

B - Consultant's Experience

1**. List only previous similar assignments successfully completed[2] in the last *10 (ten)* years.**

2. List only those assignments for which the Consultant was legally contracted by the Client as a company or was one of the joint venture partners. Assignments completed by the Consultant's individual experts working privately or through other consulting firms cannot be claimed as the relevant experience of the Consultant, or that of the Consultant's partners or sub-consultants, but can be claimed by the Experts themselves in their CVs. The Consultant should be prepared to substantiate the claimed experience by presenting copies of relevant documents and references if so requested by the Client.

---

[2] The Claims of completion shall be self-certified. A copy of agreement along with or showing the scope of the work is required to be submitted. Substantially completed assignments shall be considered in case the Applicant has completed and submitted Draft Final Report. The client may seek clarifications, if required

Duration	**Assignment name/& brief description of main deliverables/outputs**	**Name of Client & Country of Assignment**	**Approx. Contract value (in US$ equivalent)/ Amount paid to your firm**	**Role on the Assignment**
{e.g., Jan.2009–Apr.2010}	{e.g., "Improvement quality of...............": designed master plan for rationalization of ....; }	{e.g., Ministry of ......, country}	{e.g., US$1 mill/US$0.5 mill}	{e.g., Lead partner in a JV A&B&C}
{e.g., Jan-May 2008}	{e.g., "Support to sub-national government....." : drafted secondary level regulations on..............}	{e.g., municipality of........., country}	{e.g., US$0.2 mil/US$0.2 mil}	{e.g., sole Consultant}

FORM TECH-3
COMMENTS AND SUGGESTIONS ON THE TERMS OF REFERENCE, COUNTERPART STAFF, AND FACILITIES TO BE PROVIDED BY THE CLIENT

Form TECH-3: comments and suggestions on the Terms of Reference that could improve the quality/effectiveness of the assignment; and on requirements for counterpart staff and facilities, which are provided by the Client, including: administrative support, office space, local transportation, equipment, data, etc.

A - On the Terms of Reference

{Improvements to the Terms of Reference, if any}

B - On Counterpart Staff and Facilities

{Comments on counterpart staff and facilities to be provided by the Client. For example, administrative support, office space, local transportation, equipment, data, background reports, etc., if any}

FORM TECH-4
DESCRIPTION OF APPROACH, METHODOLOGY, AND WORK PLAN IN RESPONDING TO THE TERMS OF REFERENCE

Form TECH-4: a description of the approach, methodology and work plan for performing the assignment, including a detailed description of the proposed methodology and staffing for training, if the Terms of Reference specify training as a specific component of the assignment.

{Suggested structure of your Technical Proposal (in FTP format):

a) Technical Approach and Methodology
b) Work Plan
c) Organization and Staffing}

a) ***Technical Approach and Methodology.*** {Please explain your understanding of the objectives of the assignment as outlined in the Terms of Reference (TORs), the technical approach, and the methodology you would adopt for implementing the tasks to deliver the expected output(s), and the degree of detail of such output. **Please do not repeat/copy the TORs in here.**}

b) ***Work Plan.*** {Please outline the plan for the implementation of the main activities/tasks of the assignment, their content and duration, phasing and interrelations, milestones (including interim approvals by the Client), and tentative delivery dates of the reports. The proposed work plan should be consistent with the technical approach and methodology, showing your understanding of the TOR and ability to translate them into a feasible working plan. A list of the final documents (including reports) to be delivered as final output(s) should be included here. The work plan should be consistent with the Work Schedule Form.}

c) ***Organization and Staffing.*** {Please describe the structure and composition of your team, including the list of the Key Experts, Non-Key Experts and relevant technical and administrative support staff.}

FORM TECH-5

WORK SCHEDULE AND PLANNING FOR DELIVERABLES

[Name and address of Client]

Dear Sirs:

We, the undersigned, offer to provide the consulting services for Providing Ministry of Urban Development, Govt. of India in conducting surveys in 116 cities of India to assess a Liveability Index for each of them Insert the name of the state/ULB in accordance with your Request for Proposal dated [Insert Date] and our Technical Proposal.

Our attached Financial Proposal is for the amount of {Indicate the corresponding to the amount(s) currency(ies)} {Insert amount(s) in words and figures}, *[Insert "including" or "excluding"] of all indirect local taxes in accordance with Clause 25.1 in the Data Sheet.* The estimated amount of local indirect taxes is {Insert currency} {Insert amount in words and figures} which shall be confirmed or adjusted, if needed, during negotiations. {Please note that all amounts shall be the same as in Form FIN-2}.

Our Financial Proposal shall be binding upon us subject to the modifications resulting from Contract negotiations, up to expiration of the validity period of the Proposal, i.e. before the date indicated in Clause 12.1 of the Data Sheet.

Commissions and gratuities paid or to be paid by us to an agent or any third party relating to preparation or submission of this Proposal and Contract execution, paid if we are awarded the Contract, are listed below:

Name and Address of Agents	Amount and Currency	Purpose of Commission or Gratuity

{If no payments are made or promised, add the following statement: "No commissions or gratuities have been or are to be paid by us to agents or any third party relating to this Proposal and Contract execution."}

We understand you are not bound to accept any Proposal you receive.

We remain,

Yours sincerely,

Authorized Signature {In full and initials}: ______________________________

Section 5. Eligible Countries

In reference to ITC6.3.2, for the information of shortlisted Consultants, at the present time firms, goods and services from the following countries are excluded from this selection:

Under the ITC 6.3.2 (a): None

Under the ITC 6.3.2 (b): None

Section 6. Bank Policy – Corrupt and Fraudulent Practices

Guidelines for Selection and Employment of Consultants under IBRD Loans and IDA Credits & Grants by World Bank Borrowers, dated January 2011:

"**Fraud and Corruption**

1.23 It is the Bank's policy to require that Borrowers (including beneficiaries of Bank loans), consultants, and their agents (whether declared or not), sub-contractors, sub-consultants, service providers, or suppliers, and any personnel thereof, observe the highest standard of ethics during the selection and execution of Bank-financed contracts [footnote: In this context, any action taken by a consultant or any of its personnel, or its agents, or its sub-consultants, sub-contractors, services providers, suppliers, and/or their employees, to influence the selection process or contract execution for undue advantage is improper.]. In pursuance of this policy, the Bank:

(a) defines, for the purposes of this provision, the terms set forth below as follows:

- (i) "corrupt practice" is the offering, giving, receiving, or soliciting, directly or indirectly, of anything of value to influence improperly the actions of another party[4];
- (ii) "fraudulent practice" is any act or omission, including misrepresentation, that knowingly or recklessly misleads, or attempts to mislead, a party to obtain financial or other benefit or to avoid an obligation[5];
- (iii) "collusive practices" is an arrangement between two or more parties designed to achieve an improper purpose, including to influence improperly the actions of another party[6];
- (iv) "coercive practices" is impairing or harming, or threatening to impair or harm, directly or indirectly, any party or the property of the party to influence improperly the actions of a party[7];

---

[4] For the purpose of this sub-paragraph, "another party" refers to a public official acting in relation to the selection process or contract execution. In this context "public official" includes World Bank staff and employees of other organizations taking or reviewing selection decisions.

[5] For the purpose of this sub-paragraph, "party" refers to a public official; the terms "benefit" and "obligation" relate to the selection process or contract execution; and the "act or omission" is intended to influence the selection process or contract execution.

[6] For the purpose of this sub-paragraph, "parties" refers to participants in the procurement or selection process (including public officials) attempting either themselves, or through another person or entity not participating in the procurement or selection process, to simulate competition or to establish prices at artificial, non-competitive levels, or are privy to each other's bid prices or other conditions.

[7] For the purpose of this sub-paragraph, "party" refers to a participant in the selection process or contract execution.

(v) “obstructive practice” is

(aa) deliberately destroying, falsifying, altering, or concealing of evidence material to the investigation or making false statements to investigators in order to materially impede a Bank investigation into allegations of a corrupt, fraudulent, coercive, or collusive practice; and/or threatening, harassing, or intimidating any party to prevent it from disclosing its knowledge of matters relevant to the investigation or from pursuing the investigation, or

(bb) acts intended to materially impede the exercise of the Bank’s inspection and audit rights;

(b) will reject a proposal for award if it determines that the consultant recommended for award or any of its personnel, or its agents, or its sub-consultants, sub-contractors, services providers, suppliers, and/or their employees, has, directly or indirectly, engaged in corrupt, fraudulent, collusive, coercive, or obstructive practices in competing for the contract in question;

(c) will declare misprocurement and cancel the portion of the Loan allocated to a contract if it determines at any time that representatives of the Borrower or of a recipient of any part of the proceeds of the Loan were engaged in corrupt, fraudulent, collusive, coercive, or obstructive practices during the selection process or the implementation of the contract in question, without the Borrower having taken timely and appropriate action satisfactory to the Bank to address such practices when they occur, including by failing to inform the Bank in a timely manner they knew of the practices;

(d) will sanction a firm or an individual at any time, in accordance with prevailing Bank’s sanctions procedures[8], including by publicly declaring such firm or an ineligible, either indefinitely or for a stated period of time: (i) to be awarded a Bank-financed contract, and (ii) to be a nominated[9] sub-consultant, supplier, or service provider of an otherwise eligible firm being awarded a Bank-financed contract.

---

[8] A firm or an individual may be declared ineligible to be awarded a Bank-financed contract upon (i) completion of the Bank’s sanctions proceedings as per its sanctions procedures, including inter alia: cross-debarment as agreed with other International Financial Institutions, including Multilateral Development Banks, and through the application of the World Bank Group corporate administrative procurement sanctions procedures for fraud and corruption; and (ii) as a result of temporary suspension or early temporary suspension in connection with an ongoing sanctions proceedings. See footnote 12 and paragraph 8 of Appendix 1 of these Guidelines.

[9] A nominated sub-consultant, supplier, or service provider is one which has been either (i) included by the consultant in its proposal because it brings specific and critical experience and know-how that are accounted for in the technical evaluation of the consultant’s proposal for the particular services; or (ii) appointed by the Borrower.

Section 7. Terms of Reference

7.1 Background

i. The Government of India along with State and Local Governments is implementing several flagship Urban Missions for improving various aspects of urban development in Indian cities. An underlying goal of these initiatives is to make Indian cities more ‘Liveable’. This will mean not only providing good quality core infrastructure and services, but also developing cities with ample opportunities for work, entertainment and cultural activities, improved social infrastructure and economic opportunity;

ii. In order to do this through a structured approach it is important to create a common minimum framework, which cities can use to assess their ‘Liveability’ and measure their progress over time. In this context, the Ministry of Urban Development has developed a set of ‘Liveability Standards in Cities’. These will act as a guiding framework for cities to chart their pathway towards liveability and result in a systematic improvement in the quality of life of citizens in Indian cities. The draft ‘Liveability Standards in Cities’ are attached at Annexure X;

iii. A total of 79 different Liveability Standards are proposed across 15 different categories. The Ministry proposes to conduct an ‘Annual Assessment of Liveability in Cities’ across the various standards and develop a ‘City Liveability Index’ – an annual index of the liveability standards in Indian cities. This is an ambitious national project requiring yearly compilation of a large number of datasets across the various Liveability Standards;

iv. A total of 116 cities will be covered in Year 1 (list of cities for Year 1 is provided at Annexure XX), and the coverage of cities may be extended in subsequent years. The following classification of cities will be used for the purpose of the study

Classification*		Population range
1	Small Towns	Less than 50,000 population
2	Medium Towns	Population ≥ 50,000 < 5 lakh
3	Large Towns	Population ≥ 5 lakh < 1 million
4	Metropolitan Cities	Population ≥ 1 million < 5 million
5	Megapolis	Population ≥ 5 million

* *Based on the Classification given in the URDPFI guidelines, 2014*

v. Given the magnitude of data collection and field surveys required, the MoUD wishes to engage the services of a reputed national/international agency/institution for **Conducting a study and field survey of Liveability Standards** (the **‘Assignment’**) across all cities included in the study. This will cover all relevant data required by the MoUD for computing the 79 Liveability

Standards. The data generated from the assignment will be used by the MoUD for calculating the City Liveability Index of cities on an annual basis;

vi. The contract will be valid for activities in Year 1 (as defined in Clause 7.5) only.

7.2 Objective of the Assignment

i. Compile reliable and high quality data for all cities included in the study, as required by the MoUD for the computation of Liveability Indexes and as prescribed in the 'Liveability Standards in Cities' document;

ii. Develop a robust electronic database of datasets that can be used to assess the progress of cities on an annual basis.

7.3 Description of Tasks

The Tasks to be performed and key activities under the assignment will include:

Initiation Activities

i. Conduct State-level workshops (1-day each) on behalf of MoUD. Cost for such workshops must be included in the proposal. The workshops shall achieve the following:

    a. Familiarise States and City governments regarding the overall programme, process that will be followed for data collection, and likely timelines;

    b. Provide State and City governments with a detailed list of data points needed, likely areas of support and information on how the cities should prepare for the surveys;

    c. Help in preparing a preliminary time-line for city meetings and field visits based on preferences indicated by states and cities;

ii. Conduct a Reconnaissance Study of all cities included in the project (as per Annexure X). The study shall inter-alia include:

    a. City-level kick-off meetings with key officials from City governments, Smart City SPVs, various departments and utilities, DISCOMs etc. for assessing data availability and sources, preferred timelines, key nodal officers etc.;

    b. Study of city demography, socio-economic stratification and geography that has a bearing on sample size and distribution;

    c. Study of existing reports, studies, alternative data sources etc.;

iii. Prepare and submit to the MoUD, an Inception Report (separate for all cities included in the study), including inter-alia the following:

    a. Detailed Plan of Action including likely sources of data, proposed field surveys, sample size and distribution, nodal officers etc.;

   b. Proposed timelines for city field visits as discussed and finalized with MoUD and State/City governments;
   c. Specific survey and raw data collection formats for the 79 standards as finalized in discussion with MoUD;

iv. Convey the finalized schedule and Plan of Action to cities allowing them to mobilise support for the activities. A Minimum of 15 days of preparation period must be given to cities before data collection and surveys;

Data Collection and Field Surveys

v. Mobilize Field Teams (with adequate and qualified manpower as indicated in Clause 7.6) for obtaining data required for all 79 Standards;

vi. Conduct field surveys for a statistically relevant sample as per nationally/internationally accepted standards for sampling size and distribution. The method for determining sample size and distribution should be as proposed in the bid during RfP stage and finalized in consultation with the MoUD as part of the Inception Report;

vii. Maintain and submit all raw data and data collection forms to MoUD without any editing and/or masking (including particulars such as names of respondents, exact address and contact details, date and time of survey, and GPS coordinates in case of samples taken for pollution etc.);

viii. Conduct analysis of the raw data through the Analytics Team ((with adequate and qualified manpower as indicated in Clause 7.6) and prepare aggregate data sets for all 79 standards for each of the cities;

ix. Submit Draft City Assessment Report to the MoUD (separate for each city), including inter-alia the following:
   a. Database of aggregate data in the format attached at Annexure X;
   b. All raw data and data sheets;
   c. Sources of data, assumptions (if any), record of discussions with key stakeholders, minutes of city kickoff meeting and other relevant documentation;

x. Submit Draft City Assessment Report to respective city and state governments for inviting comments and suggestions (if any). A period of 15 days shall be given to cities to submit their responses, after which the data will be deemed to be accepted by the city;

xi. Submit Final City Assessment Report to the MoUD after including any recommendations of the MoUD and after suitably incorporating any valid feedback received from cities/states with the approval of the MoUD;

xii. Develop and maintain a digital database of all data sets collected every year for each city. The format should be finalized in consultation with the MoUD and enable examination of raw data as well as aggregated numbers on a year-on-year basis;

Other support activities

xiii. Provide all necessary support to the NIUA or other reputed third-party agency(ies) appointed by the MoUD for undertaking verification of the data submitted by the Consultant;

xiv. Provide any technical support as required by the MoUD or its assigned team during the development of scoring sheets and city indexes for the various Standards;

xv. Conduct a National workshop (1-day) on behalf of MoUD for disseminating the findings of the Ministry. Costs for the workshop must be included in the proposal.

7.4 Results to be achieved

The Assignment will result in the creation of a robust database (updated annually) of critical datasets across 79 different Liveability parameters in Indian Cities. This will form the basis for the Ministry to compute an annual City Liveability Index of cities. This can also act as a repository of critical data for encouraging research on cities in India.

7.5 Timelines and Deliverables for Year 1*

Report	Time line	Documents	Deliverables and Contents
Inception Report	8 weeks from start date as per contract	Hard copies, and Electronic version	Separate for each city, including: a. Detailed Plan of Action including likely sources of data, proposed field surveys, sample size and distribution, nodal officers etc.; b. Proposed timelines for city field visits as discussed and finalized with MoUD and State/City governments; c. Specific survey and raw data collection formats for the 79 standards as finalized in discussion with MoUD;

Report	Time line	Documents	Deliverables and Contents
Draft City Assessment Report	12 weeks from start date as per contract	Hard Copies, and Electronic version	Separate for each city, including: a. Database of aggregate data in the format attached at Annexure X; b. All raw data and data sheets; c. Sources of data, assumptions (if any), record of discussions with key stakeholders, minutes of city kickoff meeting and other relevant documentation;
Final City Assessment Report	20 weeks from start date as per contract	Hard Copies, and Electronic version	Separate report for each city. The Reports should include all recommendations of the MoUD on the Draft Reports. The Report should also incorporate any valid suggestions/feedback received from cities/states with the approval of the MoUD.

***** Timelines for subsequent years will be as decided by MoUD

7.6 Team Composition and Qualification Requirement for key Experts

The assignment is to be undertaken by a full-time Team Leader supported by a Core team of experts and an Analytics Team. Actual data collection and field surveys will be done through city-level Field Teams.

i. **Core Team (full-time):** Given that the assignment requires a deep understanding of the urban sector, as well as of economics, statistics and field studies, the Team Leader and the Core Team of experts must have suitable skills for undertaking the assignment and successfully completing the tasks enumerated. The Team Leader should bring to the table a strong mix of academic accomplishments, urban sector experience and experience of leading similar national/international assignments.

ii. **Analytics Team (full-time):** should be manned with experts capable of analysing large data sets, checking and correcting for errors and inconsistencies, development and management of digital databases and preparation of reports. The team should therefore include adequate number of IT specialist(s), database management/ MIS expert(s), urban economics/planning specialists for data analysis and verification.

iii. **Field Teams per city:** should be manned with adequate number of persons (depending upon city size, stratification and geography) capable of conducting field surveys and extracting credible secondary data from various city/state departments and utilities. Each team should therefore include adequate number of qualified urban professionals for extracting secondary data from various sources, persons with market/field research experience and data processors/ data entry operators. Each team should be led by a suitably experienced Urban Specialist (Urban Planner/ Urban Economist) with at least 10 years of experience in the urban sector and at least 5 years of experience in secondary and primary data collection and analysis

The Core Team proposed should be able to demonstrate the qualifications and experience as prescribed in table below:

7.6.1 Core Team (CV to be evaluated)

Position	**Minimum Qualifications & skills**	**Minimum Experience**
Team Leader	Qualification - Bachelor's Degree in Engineering/Architecture/Planning/Economics/Management with post-graduate degree in Planning/Management or equivalent from a recognized University In-depth knowledge of all aspects of urban sector, including governance-related, socio-economic, environmental and engineering aspects Proven academic credibility in terms of published papers, articles etc. Experience of leading national level urban research assignments Experience of leading national/international ranking assignments	At least 20 years of which at least last 10 years must have been for the Urban Sector
Urban Management Specialist/ Planning Expert	Bachelor's Degree in Engineering/Architecture/Planning with post-graduate degree in Management or equivalent from a recognized University Good knowledge of urban sector Experience of playing a core role in similar national/international data collection and ranking assignments	At least 15 years of experience in the Urban Sector
Market Research Specialist	Master's Degree in Management from a recognized University Good knowledge of mobilization and organization for market research Experience of leading national/international field research assignments	At least 15 years of which at least last 7 years must have been in the field of Market Research
Statistician	Master's Degree in Statistics from a recognized University Good knowledge of urban data sources and urban data analysis Experience of statistically designing and managing sample surveys	At least 15 years of which at least last 5 years must have been for the Urban Sector

7.7 TA management and counterpart staff

The assignment will be contracted by the MoUD for carrying out the assignment.

7.7.1 Items to be provided by the MoUD

a. The MoUD will set up a Coordinating Team at the national level for providing guidance and support to the Core Team for executing the assignment;
b. Provide support for organizing various State and city level workshops and meetings;.
c. Provide feedback from time to time for finalizing deliverables;
d. Set up a monitoring system for timely validation of data and finalization of aggregate data.

7.7.2 Items to be provided by the agency

In addition to the results and deliverables listed above, the Consultant will:

a. Provide for all manpower, materials and equipment necessary for carrying out the assignment;
b. Provide all resources for report production and necessary translations;
c. Provide all Computers and software required by the teams for carrying out the tasks;
d. Arrange for all transportation and travelling required for the teams including Investigations.

I. Form of Contract

LUMP-SUM

This CONTRACT (hereinafter called the "Contract") is made the ……..……….. day of the month of *January,2018*, between, on the one hand, *Ministry of Housing and Urban Affairs* (hereinafter called the "Client") and, on the other hand, M/s IPSOS Research Private Limited (Lead) in consortium M/s Athena Infonomics India Private Limited. and The Economist Group Limited. (hereinafter called the "Consultant").

WHEREAS

(a) the Client has requested the Consultant to provide certain consulting services as defined in this Contract (hereinafter called the "Services");

(b) the Consultant, having represented to the Client that it has the required professional skills, expertise and technical resources, has agreed to provide the Services on the terms and conditions set forth in this Contract;

(c) the Client has received a credit from the *or International Development Association (IDA)]:* toward the cost of the Services and intends to apply a portion of the proceeds of credit to eligible payments under this Contract, it being understood that (i) payments by the Bank will be made only at the request of the Client and upon approval by the Bank; (ii) such payments will be subject, in all respects, to the terms and conditions of the loan agreement, including prohibitions of withdrawal from the credit account for the purpose of any payment to persons or entities, or for any import of goods, if such payment or import, to the knowledge of the Bank, is prohibited by the decision of the United Nations Security council taken under Chapter VII of the Charter of the United Nations; and (iii) no party other than the Client shall derive any rights from the [loan agreement or have any claim to the credit proceeds;

NOW THEREFORE the parties hereto hereby agree as follows:

1. The following documents attached hereto shall be deemed to form an integral part of this Contract:

   (a) The General Conditions of Contract (including Attachment 1 "Bank Policy – Corrupt and Fraudulent Practices);
   (b) The Special Conditions of Contract;
   (c) Appendices:

   Appendix A: Terms of Reference

Appendix B: Key Experts
Appendix C: Breakdown of Contract Price

In the event of any inconsistency between the documents, the following order of precedence shall prevail: the Special Conditions of Contract; the General Conditions of Contract, including Attachment 1; Appendix A; Appendix B; Appendix C. Any reference to this Contract shall include, where the context permits, a reference to its Appendices.

2. The mutual rights and obligations of the Client and the Consultant shall be as set forth in the Contract, in particular:

(a) the Consultant shall carry out the Services in accordance with the provisions of the Contract; and
(b) the Client shall make payments to the Consultant in accordance with the provisions of the Contract.

IN WITNESS WHEREOF, the Parties hereto have caused this Contract to be signed in their respective names as of the day and year first above written.

For and on behalf of
Ministry of Housing and Urban Affairs

Mr. G.Vijay Kumar,
Under Secretary to the Government of India, Ministry of Housing and Urban Affairs

and

For and on behalf of
M/s IPSOS Research Private Limited (Lead) in consortium M/s Athena Infonomics India Private Limited. and The Economist Group Limited.

Mr. Parijat Chakraborty,
Executive Director and Head of Public Affairs and Loyalty
M/s IPSOS Research Private Limited (Lead),

II. General Conditions of Contract

A. GENERAL PROVISIONS

1. Definitions

1.1. Unless the context otherwise requires, the following terms whenever used in this Contract have the following meanings:

(a) "Applicable Guidelines" means Guidelines for Selection and Employment of Consultants under IBRD Loans and IDA Credits & Grants by World Bank Borrowers, dated January 2011.

(b) "Applicable Law" means the laws and any other instruments having the force of law in the Client's country, or in such other country as may be specified in the **Special Conditions of Contract (SCC)**, as they may be issued and in force from time to time.

(c) "Bank" means the International Bank for Reconstruction and Development (IBRD) or the International Development Association (IDA).

(d) "Borrower" means the Government, Government agency or other entity that signs the financing agreement with the Bank.

(e) "Client" means the implementing agency that signs the Contract for the Services with the Selected Consultant.

(f) "Consultant" means a legally-established professional consulting firm or entity selected by the Client to provide the Services under the signed Contract.

(g) "Contract" means the legally binding written agreement signed between the Client and the Consultant and which includes all the attached documents listed in its paragraph 1 of the Form of Contract (the General Conditions (GCC), the Special Conditions (SCC), and the Appendices).

(h) "Day" means a working day unless indicated otherwise.

(i) "Effective Date" means the date on which this Contract comes into force and effect pursuant to Clause GCC 11.

(j) "Experts" means, collectively, Key Experts, Non-Key Experts, or any other personnel of the Consultant, Sub-consultant or JV member(s) assigned by the Consultant to perform the Services or any part thereof under the Contract.

(k) “Foreign Currency” means any currency other than the currency of the Client’s country.

(l) “GCC” means these General Conditions of Contract.

(m) “Government” means the government of the Client’s country.

(n) “Joint Venture (JV)” means an association with or without a legal personality distinct from that of its members, of more than one entity where one member has the authority to conduct all businesses for and on behalf of any and all the members of the JV, and where the members of the JV are jointly and severally liable to the Client for the performance of the Contract.

(o) “Key Expert(s)” means an individual professional whose skills, qualifications, knowledge and experience are critical to the performance of the Services under the Contract and whose Curricula Vitae (CV) was taken into account in the technical evaluation of the Consultant’s proposal.

(p) “Local Currency” means the currency of the Client’s country.

(q) “Non-Key Expert(s)” means an individual professional provided by the Consultant or its Sub-consultant to perform the Services or any part thereof under the Contract.

(r) “Party” means the Client or the Consultant, as the case may be, and “Parties” means both of them.

(s) “SCC” means the Special Conditions of Contract by which the GCC may be amended or supplemented but not over-written.

(t) “Services” means the work to be performed by the Consultant pursuant to this Contract, as described in Appendix A hereto.

(u) “Sub-consultants” means an entity to whom/which the Consultant subcontracts any part of the Services while remaining solely liable for the execution of the Contract.

(v) “Third Party” means any person or entity other than the Government, the Client, the Consultant or a Sub-consultant.

2. Relationship between the Parties

2.1. Nothing contained herein shall be construed as establishing a relationship of master and servant or of principal and agent as between the Client and the Consultant. The Consultant, subject to this Contract, has complete charge of the Experts and Sub-consultants, if any, performing the Services and shall be fully responsible for the Services performed by them or on their behalf hereunder.

3. Law Governing Contract

3.1. This Contract, its meaning and interpretation, and the relation between the Parties shall be governed by the Applicable Law.

4. Language

4.1. This Contract has been executed in the language specified in the **SCC**, which shall be the binding and controlling language for all matters relating to the meaning or interpretation of this Contract.

5. Headings

5.1. The headings shall not limit, alter or affect the meaning of this Contract.

6. Communications

6.1. Any communication required or permitted to be given or made pursuant to this Contract shall be in writing in the language specified in Clause GCC 4. Any such notice, request or consent shall be deemed to have been given or made when delivered in person to an authorized representative of the Party to whom the communication is addressed, or when sent to such Party at the address specified in the **SCC**.

6.2. A Party may change its address for notice hereunder by giving the other Party any communication of such change to the address specified in the **SCC**.

7. Location

7.1. The Services shall be performed at such locations as are specified in **Appendix A** hereto and, where the location of a particular task is not so specified, at such locations, whether in the Government's country or elsewhere, as the Client may approve.

8. Authority of Member in Charge

8.1. In case the Consultant is a Joint Venture, the members hereby authorize the member specified in the **SCC** to act on their behalf in exercising all the Consultant's rights and obligations towards the Client under this Contract, including without limitation the receiving of instructions and payments from the Client.

9. Authorized Representatives

9.1. Any action required or permitted to be taken, and any document required or permitted to be executed under this Contract by the Client or the Consultant may be taken or executed by the officials specified in the **SCC.**

10. Corrupt and Fraudulent Practices

10.1. The Bank requires compliance with its policy in regard to corrupt and fraudulent practices as set forth in **Attachment 1** to the GCC.

a. Commissions and Fees

10.2. The Client requires the Consultant to disclose any commissions, gratuities or fees that may have been paid or are to be paid to agents or any other party with respect to the selection process or execution of the Contract. The information disclosed must include at least the name and address of the agent or other party, the amount and currency, and the purpose of the commission, gratuity or fee.

Failure to disclose such commissions, gratuities or fees may result in termination of the Contract and/or sanctions by the Bank.

B. COMMENCEMENT, COMPLETION, MODIFICATION AND TERMINATION OF CONTRACT

11. Effectiveness of Contract	11.1. This Contract shall come into force and effect on the date (the "Effective Date") of the Client's notice to the Consultant instructing the Consultant to begin carrying out the Services. This notice shall confirm that the effectiveness conditions, if any, listed in the **SCC** have been met.
12. Termination of Contract for Failure to Become Effective	12.1. If this Contract has not become effective within such time period after the date of Contract signature as specified in the **SCC**, either Party may, by not less than twenty two (22) days written notice to the other Party, declare this Contract to be null and void, and in the event of such a declaration by either Party, neither Party shall have any claim against the other Party with respect hereto.
13. Commencement of Services	13.1. The Consultant shall confirm availability of Key Experts and begin carrying out the Services not later than the number of days after the Effective Date specified in the **SCC**.
14. Expiration of Contract	14.1. Unless terminated earlier pursuant to Clause GCC 19 hereof, this Contract shall expire at the end of such time period after the Effective Date as specified in the **SCC**.
15. Entire Agreement	15.1. This Contract contains all covenants, stipulations and provisions agreed by the Parties. No agent or representative of either Party has authority to make, and the Parties shall not be bound by or be liable for, any statement, representation, promise or agreement not set forth herein.
16. Modifications or Variations	16.1. Any modification or variation of the terms and conditions of this Contract, including any modification or variation of the scope of the Services, may only be made by written agreement between the Parties. However, each Party shall give due consideration to any proposals for modification or variation made by the other Party. 16.2. In cases of substantial modifications or variations, the prior written consent of the Bank is required.
17. Force Majeure	
a. Definition	17.1. For the purposes of this Contract, "Force Majeure" means an event which is beyond the reasonable control of a Party, is not foreseeable, is unavoidable, and makes a Party's performance of its obligations hereunder impossible or so impractical as reasonably to

be considered impossible under the circumstances, and subject to those requirements, includes, but is not limited to, war, riots, civil disorder, earthquake, fire, explosion, storm, flood or other adverse weather conditions, strikes, lockouts or other industrial action confiscation or any other action by Government agencies.

17.2. Force Majeure shall not include (i) any event which is caused by the negligence or intentional action of a Party or such Party's Experts, Sub-consultants or agents or employees, nor (ii) any event which a diligent Party could reasonably have been expected to both take into account at the time of the conclusion of this Contract, and avoid or overcome in the carrying out of its obligations hereunder.

17.3. Force Majeure shall not include insufficiency of funds or failure to make any payment required hereunder.

b. No Breach of Contract

17.4. The failure of a Party to fulfill any of its obligations hereunder shall not be considered to be a breach of, or default under, this Contract insofar as such inability arises from an event of Force Majeure, provided that the Party affected by such an event has taken all reasonable precautions, due care and reasonable alternative measures, all with the objective of carrying out the terms and conditions of this Contract.

c. Measures to be Taken

17.5. A Party affected by an event of Force Majeure shall continue to perform its obligations under the Contract as far as is reasonably practical, and shall take all reasonable measures to minimize the consequences of any event of Force Majeure.

17.6. A Party affected by an event of Force Majeure shall notify the other Party of such event as soon as possible, and in any case not later than fourteen (14) calendar days following the occurrence of such event, providing evidence of the nature and cause of such event, and shall similarly give written notice of the restoration of normal conditions as soon as possible.

17.7. Any period within which a Party shall, pursuant to this Contract, complete any action or task, shall be extended for a period equal to the time during which such Party was unable to perform such action as a result of Force Majeure.

17.8. During the period of their inability to perform the Services as a result of an event of Force Majeure, the Consultant, upon instructions by the Client, shall either:

(a) demobilize, in which case the Consultant shall be reimbursed for additional costs they reasonably and

necessarily incurred, and, if required by the Client, in reactivating the Services; or

(b) continue with the Services to the extent reasonably possible, in which case the Consultant shall continue to be paid under the terms of this Contract and be reimbursed for additional costs reasonably and necessarily incurred.

17.9. In the case of disagreement between the Parties as to the existence or extent of Force Majeure, the matter shall be settled according to Clauses GCC 44 & 45.

18. Suspension

18.1. The Client may, by written notice of suspension to the Consultant, suspend all payments to the Consultant hereunder if the Consultant fails to perform any of its obligations under this Contract, including the carrying out of the Services, provided that such notice of suspension (i) shall specify the nature of the failure, and (ii) shall request the Consultant to remedy such failure within a period not exceeding thirty (30) calendar days after receipt by the Consultant of such notice of suspension.

19. Termination

19.1. This Contract may be terminated by either Party as per provisions set up below:

a. By the Client

19.1.1. The Client may terminate this Contract in case of the occurrence of any of the events specified in paragraphs (a) through (f) of this Clause. In such an occurrence the Client shall give at least thirty (30) calendar days’ written notice of termination to the Consultant in case of the events referred to in (a) through (d); at least sixty (60) calendar days’ written notice in case of the event referred to in (e); and at least five (5) calendar days’ written notice in case of the event referred to in (f):

(a) If the Consultant fails to remedy a failure in the performance of its obligations hereunder, as specified in a notice of suspension pursuant to Clause GCC 18;

(b) If the Consultant becomes (or, if the Consultant consists of more than one entity, if any of its members becomes) insolvent or bankrupt or enter into any agreements with their creditors for relief of debt or take advantage of any law for the benefit of debtors or go into liquidation or receivership whether compulsory or voluntary;

(c) If the Consultant fails to comply with any final decision reached as a result of arbitration proceedings pursuant to Clause GCC 45.1;

(d) If, as the result of Force Majeure, the Consultant is unable to perform a material portion of the Services for a period of not less than sixty (60) calendar days;

(e) If the Client, in its sole discretion and for any reason whatsoever, decides to terminate this Contract;

(f) If the Consultant fails to confirm availability of Key Experts as required in Clause GCC 13.

19.1.2. Furthermore, if the Client determines that the Consultant has engaged in corrupt, fraudulent, collusive, coercive or obstructive practices, in competing for or in executing the Contract, then the Client may, after giving fourteen (14) calendar days written notice to the Consultant, terminate the Consultant's employment under the Contract.

b. By the Consultant

19.1.3. The Consultant may terminate this Contract, by not less than thirty (30) calendar days' written notice to the Client, in case of the occurrence of any of the events specified in paragraphs (a) through (d) of this Clause.

(a) If the Client fails to pay any money due to the Consultant pursuant to this Contract and not subject to dispute pursuant to Clause GCC 45.1 within forty-five (45) calendar days after receiving written notice from the Consultant that such payment is overdue.

(b) If, as the result of Force Majeure, the Consultant is unable to perform a material portion of the Services for a period of not less than sixty (60) calendar days.

(c) If the Client fails to comply with any final decision reached as a result of arbitration pursuant to Clause GCC 45.1.

(d) If the Client is in material breach of its obligations pursuant to this Contract and has not remedied the same within forty-five (45) days (or such longer period as the Consultant may have subsequently approved in writing) following the receipt by the Client of the Consultant's notice specifying such breach.

c. Cessation of Rights and Obligations

19.1.4. Upon termination of this Contract pursuant to Clauses GCC 12 or GCC 19 hereof, or upon expiration of this Contract pursuant to Clause GCC 14, all rights and obligations of the Parties hereunder shall cease, except (i) such rights and obligations as may have accrued on the date of termination or expiration, (ii) the obligation of confidentiality set forth in Clause GCC 22, (iii) the Consultant's obligation to permit

inspection, copying and auditing of their accounts and records set forth in Clause GCC 25, and (iv) any right which a Party may have under the Applicable Law.

d. Cessation of Services

19.1.5. Upon termination of this Contract by notice of either Party to the other pursuant to Clauses GCC 19a or GCC 19b, the Consultant shall, immediately upon dispatch or receipt of such notice, take all necessary steps to bring the Services to a close in a prompt and orderly manner and shall make every reasonable effort to keep expenditures for this purpose to a minimum. With respect to documents prepared by the Consultant and equipment and materials furnished by the Client, the Consultant shall proceed as provided, respectively, by Clauses GCC 27 or GCC 28.

e. Payment upon Termination

19.1.6. Upon termination of this Contract, the Client shall make the following payments to the Consultant:

(a) payment for Services satisfactorily performed prior to the effective date of termination; and

(b) in the case of termination pursuant to paragraphs (d) and (e) of Clause GCC 19.1.1, reimbursement of any reasonable cost incidental to the prompt and orderly termination of this Contract, including the cost of the return travel of the Experts.

C. OBLIGATIONS OF THE CONSULTANT

20. General

a. Standard of Performance

20.1 The Consultant shall perform the Services and carry out the Services with all due diligence, efficiency and economy, in accordance with generally accepted professional standards and practices, and shall observe sound management practices, and employ appropriate technology and safe and effective equipment, machinery, materials and methods. The Consultant shall always act, in respect of any matter relating to this Contract or to the Services, as a faithful adviser to the Client, and shall at all times support and safeguard the Client’s legitimate interests in any dealings with the third parties.

20.2. The Consultant shall employ and provide such qualified and experienced Experts and Sub-consultants as are required to carry out the Services.

20.3. The Consultant may subcontract part of the Services to an extent and with such Key Experts and Sub-consultants as may be

approved in advance by the Client. Notwithstanding such approval, the Consultant shall retain full responsibility for the Services.

b. Law Applicable to Services

20.4. The Consultant shall perform the Services in accordance with the Contract and the Applicable Law and shall take all practicable steps to ensure that any of its Experts and Sub-consultants, comply with the Applicable Law.

20.5. Throughout the execution of the Contract, the Consultant shall comply with the import of goods and services prohibitions in the Client's country when

(a) as a matter of law or official regulations, the Borrower's country prohibits commercial relations with that country; or

(b) by an act of compliance with a decision of the United Nations Security Council taken under Chapter VII of the Charter of the United Nations, the Borrower's Country prohibits any import of goods from that country or any payments to any country, person, or entity in that country.

20.6. The Client shall notify the Consultant in writing of relevant local customs, and the Consultant shall, after such notification, respect such customs.

21. Conflict of Interests

21.1. The Consultant shall hold the Client's interests paramount, without any consideration for future work, and strictly avoid conflict with other assignments or their own corporate interests.

a. Consultant Not to Benefit from Commissions, Discounts, etc.

21.1.1 The payment of the Consultant pursuant to GCC F (Clauses GCC 38 through 42) shall constitute the Consultant's only payment in connection with this Contract and, subject to Clause GCC 21.1.3, the Consultant shall not accept for its own benefit any trade commission, discount or similar payment in connection with activities pursuant to this Contract or in the discharge of its obligations hereunder, and the Consultant shall use its best efforts to ensure that any Sub-consultants, as well as the Experts and agents of either of them, similarly shall not receive any such additional payment.

21.1.2 Furthermore, if the Consultant, as part of the Services, has the responsibility of advising the Client on the procurement of goods, works or services, the Consultant shall comply with the Bank's Applicable Guidelines, and shall at all times exercise such responsibility in the best interest of the Client. Any discounts or commissions obtained by the Consultant in the exercise of such procurement responsibility shall be for the account of the Client.

b. Consultant and Affiliates Not to Engage in Certain Activities

21.1.3 The Consultant agrees that, during the term of this Contract and after its termination, the Consultant and any entity affiliated with the Consultant, as well as any Sub-consultants and any entity affiliated with such Sub-consultants, shall be disqualified from providing goods, works or non-consulting services resulting from or directly related to the Consultant's Services for the preparation or implementation of the project, unless otherwise indicated in the **SCC**.

c. Prohibition of Conflicting Activities

21.1.4 The Consultant shall not engage, and shall cause its Experts as well as its Sub-consultants not to engage, either directly or indirectly, in any business or professional activities that would conflict with the activities assigned to them under this Contract.

d. Strict Duty to Disclose Conflicting Activities

21.1.5 The Consultant has an obligation and shall ensure that its Experts and Sub-consultants shall have an obligation to disclose any situation of actual or potential conflict that impacts their capacity to serve the best interest of their Client, or that may reasonably be perceived as having this effect. Failure to disclose said situations may lead to the disqualification of the Consultant or the termination of its Contract.

22. Confidentiality

22.1 Except with the prior written consent of the Client, the Consultant and the Experts shall not at any time communicate to any person or entity any confidential information acquired in the course of the Services, nor shall the Consultant and the Experts make public the recommendations formulated in the course of, or as a result of, the Services.

23. Liability of the Consultant

23.1 Subject to additional provisions, if any, set forth in the **SCC**, the Consultant's liability under this Contract shall be provided by the Applicable Law.

24. Insurance to be Taken out by the Consultant

24.1 The Consultant (i) shall take out and maintain, and shall cause any Sub-consultants to take out and maintain, at its (or the Sub-consultants', as the case may be) own cost but on terms and conditions approved by the Client, insurance against the risks, and for the coverage specified in the **SCC,** and (ii) at the Client's request, shall provide evidence to the Client showing that such insurance has been taken out and maintained and that the current premiums therefore have been paid. The Consultant shall ensure that such insurance is in place prior to commencing the Services as stated in Clause GCC 13.

25. Accounting, Inspection and Auditing

25.1 The Consultant shall keep, and shall make all reasonable efforts to cause its Sub-consultants to keep, accurate and systematic accounts and records in respect of the Services and in such form and detail as will clearly identify relevant time changes and costs.

25.2 The Consultant shall permit and shall cause its Sub-consultants to permit, the Bank and/or persons appointed by the Bank to inspect the Site and/or all accounts and records relating to the performance of the Contract and the submission of the Proposal to provide the Services, and to have such accounts and records audited by auditors appointed by the Bank if requested by the Bank. The Consultant's attention is drawn to Clause GCC 10 which provides, inter alia, that acts intended to materially impede the exercise of the Bank's inspection and audit rights provided for under this Clause GCC25.2 constitute a prohibited practice subject to contract termination (as well as to a determination of ineligibility under the Bank's prevailing sanctions procedures.)

26. Reporting Obligations

26.1 The Consultant shall submit to the Client the reports and documents specified in **Appendix A**, in the form, in the numbers and within the time periods set forth in the said Appendix.

27. Proprietary Rights of the Client in Reports and Records

27.1 Unless otherwise indicated in the **SCC**, all reports and relevant data and information such as maps, diagrams, plans, databases, other documents and software, supporting records or material compiled or prepared by the Consultant for the Client in the course of the Services shall be confidential and become and remain the absolute property of the Client. The Consultant shall, not later than upon termination or expiration of this Contract, deliver all such documents to the Client, together with a detailed inventory thereof. The Consultant may retain a copy of such documents, data and/or software but shall not use the same for purposes unrelated to this Contract without prior written approval of the Client.

27.2 If license agreements are necessary or appropriate between the Consultant and third parties for purposes of development of the plans, drawings, specifications, designs, databases, other documents and software, the Consultant shall obtain the Client's prior written approval to such agreements, and the Client shall be entitled at its discretion to require recovering the expenses related to the development of the program(s) concerned. Other restrictions about the future use of these documents and software, if any, shall be specified in the **SCC**.

28. Equipment, Vehicles and Materials

28.1 Equipment, vehicles and materials made available to the Consultant by the Client, or purchased by the Consultant wholly or partly with funds provided by the Client, shall be the property of the Client and shall be marked accordingly. Upon termination or expiration of this Contract, the Consultant shall make available to the

Client an inventory of such equipment, vehicles and materials and shall dispose of such equipment, vehicles and materials in accordance with the Client's instructions. While in possession of such equipment, vehicles and materials, the Consultant, unless otherwise instructed by the Client in writing, shall insure them at the expense of the Client in an amount equal to their full replacement value.

28.2 Any equipment or materials brought by the Consultant or its Experts into the Client's country for the use either for the project or personal use shall remain the property of the Consultant or the Experts concerned, as applicable.

D. CONSULTANT'S EXPERTS AND SUB-CONSULTANTS

29. Description of Key Experts

29.1 The title, agreed job description, minimum qualification and estimated period of engagement to carry out the Services of each of the Consultant's Key Experts are described in **Appendix B.**

30. Replacement of Key Experts

30.1 Except as the Client may otherwise agree in writing, no changes shall be made in the Key Experts.

30.2 Notwithstanding the above, the substitution of Key Experts during Contract execution may be considered only based on the Consultant's written request and due to circumstances outside the reasonable control of the Consultant, including but not limited to death or medical incapacity. In such case, the Consultant shall forthwith provide as a replacement, a person of equivalent or better qualifications and experience, and at the same rate of remuneration.

31. Removal of Experts or Sub-consultants

31.1 If the Client finds that any of the Experts or Sub-consultant has committed serious misconduct or has been charged with having committed a criminal action, or shall the Client determine that Consultant's Expert of Sub-consultant have engaged in corrupt, fraudulent, collusive, coercive or obstructive practice while performing the Services, the Consultant shall, at the Client's written request, provide a replacement.

31.2 In the event that any of Key Experts, Non-Key Experts or Sub-consultants is found by the Client to be incompetent or incapable in discharging assigned duties, the Client, specifying the grounds therefore, may request the Consultant to provide a replacement.

31.3 Any replacement of the removed Experts or Sub-consultants shall possess better qualifications and experience and shall be acceptable to the Client.

31.4 The Consultant shall bear all costs arising out of or incidental to any removal and/or replacement of such Experts.

E. OBLIGATIONS OF THE CLIENT

32. Assistance and Exemptions

32.1 Unless otherwise specified in the **SCC**, the Client shall use its best efforts to:

(a) Assist the Consultant with obtaining work permits and such other documents as shall be necessary to enable the Consultant to perform the Services.

(b) Assist the Consultant with promptly obtaining, for the Experts and, if appropriate, their eligible dependents, all necessary entry and exit visas, residence permits, exchange permits and any other documents required for their stay in the Client's country while carrying out the Services under the Contract.

(c) Facilitate prompt clearance through customs of any property required for the Services and of the personal effects of the Experts and their eligible dependents.

(c) Issue to officials, agents and representatives of the Government all such instructions and information as may be necessary or appropriate for the prompt and effective implementation of the Services.

(d) Assist the Consultant and the Experts and any Sub-consultants employed by the Consultant for the Services with obtaining exemption from any requirement to register or obtain any permit to practice their profession or to establish themselves either individually or as a corporate entity in the Client's country according to the applicable law in the Client's country.

(e) Assist the Consultant, any Sub-consultants and the Experts of either of them with obtaining the privilege, pursuant to the applicable law in the Client's country, of bringing into the Client's country reasonable amounts of foreign currency for the purposes of the Services or for the personal use of the Experts and of withdrawing any such amounts as may be earned therein by the Experts in the execution of the Services.

(f) Provide to the Consultant any such other assistance as may be specified in the **SCC**.

33. Access to Project Site

33.1 The Client warrants that the Consultant shall have, free of charge, unimpeded access to the project site in respect of which access is required for the performance of the Services. The Client will be

responsible for any damage to the project site or any property thereon resulting from such access and will indemnify the Consultant and each of the experts in respect of liability for any such damage, unless such damage is caused by the willful default or negligence of the Consultant or any Sub-consultants or the Experts of either of them.

34. Change in the Applicable Law Related to Taxes and Duties

34.1 If, after the date of this Contract, there is any change in the applicable law in the Client's country with respect to taxes and duties which increases or decreases the cost incurred by the Consultant in performing the Services, then the remuneration and reimbursable expenses otherwise payable to the Consultant under this Contract shall be increased or decreased accordingly by agreement between the Parties hereto, and corresponding adjustments shall be made to the Contract price amount specified in Clause GCC 38.1

35. Services, Facilities and Property of the Client

35.1 The Client shall make available to the Consultant and the Experts, for the purposes of the Services and free of any charge, the services, facilities and property described in the Terms of Reference (**Appendix A)** at the times and in the manner specified in said **Appendix A.**

36. Counterpart Personnel

36.1 The Client shall make available to the Consultant free of charge such professional and support counterpart personnel, to be nominated by the Client with the Consultant's advice, if specified in **Appendix A**.

36.2 Professional and support counterpart personnel, excluding Client's liaison personnel, shall work under the exclusive direction of the Consultant. If any member of the counterpart personnel fails to perform adequately any work assigned to such member by the Consultant that is consistent with the position occupied by such member, the Consultant may request the replacement of such member, and the Client shall not unreasonably refuse to act upon such request.

37. Payment Obligation

37.1 In consideration of the Services performed by the Consultant under this Contract, the Client shall make such payments to the Consultant for the deliverables specified in **Appendix A** and in such manner as is provided by GCC F below.

F. PAYMENTS TO THE CONSULTANT

38. Contract Price

38.1 The Contract price is fixed and is set forth in the **SCC.** The Contract price breakdown is provided in **Appendix C**.

38.2 Any change to the Contract price specified in Clause 38.1 can be made only if the Parties have agreed to the revised scope of Services

pursuant to Clause GCC 16 and have amended in writing the Terms of Reference in **Appendix A**.

39. Taxes and Duties

39.1 The Consultant, Sub-consultants and Experts are responsible for meeting any and all tax liabilities arising out of the Contract unless it is stated otherwise in the **SCC**.

39.2 As an exception to the above and as stated in the **SCC**, all local identifiable indirect taxes (itemized and finalized at Contract negotiations) are reimbursed to the Consultant or are paid by the Client on behalf of the Consultant.

40. Currency of Payment

40.1 Any payment under this Contract shall be made in the currency(ies) of the Contract.

41. Mode of Billing and Payment

41.1 The total payments under this Contract shall not exceed the Contract price set forth in Clause GCC 38.1.

41.2 The payments under this Contract shall be made in lump-sum installments against deliverables specified in **Appendix A**. The payments will be made according to the payment schedule stated in the **SCC**.

41.2.1 *Advance payment:* Unless otherwise indicated in the **SCC**, an advance payment shall be made against an advance payment bank guarantee acceptable to the Client in an amount (or amounts) and in a currency (or currencies) specified in the **SCC**. Such guarantee (i) is to remain effective until the advance payment has been fully set off, and (ii) is to be in the form set forth in **Appendix D**, or in such other form as the Client shall have approved in writing. The advance payments will be set off by the Client in equal portions against the lump-sum installments specified in the **SCC** until said advance payments have been fully set off.

41.2.2 *The Lump-Sum Installment Payments.* The Client shall pay the Consultant within sixty (60) days after the receipt by the Client of the deliverable(s) and the cover invoice for the related lump-sum installment payment. The payment can be withheld if the Client does not approve the submitted deliverable(s) as satisfactory in which case the Client shall provide comments to the Consultant within the same sixty (60) days period. The Consultant shall thereupon promptly make any necessary corrections, and thereafter the foregoing process shall be repeated.

41.2.3 *The Final Payment* .The final payment under this Clause shall be made only after the final report l have been submitted by the Consultant and approved as satisfactory by the Client. The

Services shall then be deemed completed and finally accepted by the Client. The last lump-sum installment shall be deemed approved for payment by the Client within ninety (90) calendar days after receipt of the final report by the Client unless the Client, within such ninety (90) calendar day period, gives written notice to the Consultant specifying in detail deficiencies in the Services, the final report. The Consultant shall thereupon promptly make any necessary corrections, and thereafter the foregoing process shall be repeated. 41.2.4 All payments under this Contract shall be made to the accounts of the Consultant specified in the **SCC**.

41.2.4 With the exception of the final payment under 41.2.3 above, payments do not constitute acceptance of the whole Services nor relieve the Consultant of any obligations hereunder.

42. Interest on Delayed Payments

42.1 If the Client had delayed payments beyond fifteen (15) days after the due date stated in Clause GCC 41.2.2 , interest shall be paid to the Consultant on any amount due by, not paid on, such due date for each day of delay at the annual rate stated in the **SCC.**

G. FAIRNESS AND GOOD FAITH

43. Good Faith

43.1 The Parties undertake to act in good faith with respect to each other's rights under this Contract and to adopt all reasonable measures to ensure the realization of the objectives of this Contract.

H. SETTLEMENT OF DISPUTES

44. Amicable Settlement

44.1 The Parties shall seek to resolve any dispute amicably by mutual consultation.

44.2 If either Party objects to any action or inaction of the other Party, the objecting Party may file a written Notice of Dispute to the other Party providing in detail the basis of the dispute. The Party receiving the Notice of Dispute will consider it and respond in writing within fourteen (14) days after receipt. If that Party fails to respond within fourteen (14) days, or the dispute cannot be amicably settled within fourteen (14) days following the response of that Party, Clause GCC 49.1 shall apply.

45. Dispute Resolution

45.1 Any dispute between the Parties arising under or related to this Contract that cannot be settled amicably may be referred to by either Party to the adjudication/arbitration in accordance with the provisions specified in the **SCC**.

II. General Conditions

Attachment 1: Bank's Policy – Corrupt and Fraudulent Practices

(the text in this Attachment 1 shall not be modified)

Guidelines for Selection and Employment of Consultants under IBRD Loans and IDA Credits & Grants by World Bank Borrowers, dated January 2011:

"**Fraud and Corruption**

1.23 It is the Bank's policy to require that Borrowers (including beneficiaries of Bank loans), consultants, and their agents (whether declared or not), sub-contractors, sub-consultants, service providers, or suppliers, and any personnel thereof, observe the highest standard of ethics during the selection and execution of Bank-financed contracts [footnote: In this context, any action taken by a consultant or any of its personnel, or its agents, or its sub-consultants, sub-contractors, services providers, suppliers, and/or their employees, to influence the selection process or contract execution for undue advantage is improper.]. In pursuance of this policy, the Bank:

(a) defines, for the purposes of this provision, the terms set forth below as follows:

  (i) "corrupt practice" is the offering, giving, receiving, or soliciting, directly or indirectly, of anything of value to influence improperly the actions of another party[1];

  (ii) "fraudulent practice" is any act or omission, including misrepresentation, that knowingly or recklessly misleads, or attempts to mislead, a party to obtain financial or other benefit or to avoid an obligation[2];

  (iii) "collusive practices" is an arrangement between two or more parties designed to achieve an improper purpose, including to influence improperly the actions of another party[3];

---

[1] For the purpose of this sub-paragraph, "another party" refers to a public official acting in relation to the selection process or contract execution. In this context "public official" includes World Bank staff and employees of other organizations taking or reviewing selection decisions.

[2] For the purpose of this sub-paragraph, "party" refers to a public official; the terms "benefit" and "obligation" relate to the selection process or contract execution; and the "act or omission" is intended to influence the selection process or contract execution.

[3] For the purpose of this sub-paragraph, "parties" refers to participants in the procurement or selection process (including public officials) attempting either themselves, or through another person or entity not participating in the procurement or selection process, to simulate competition or to establish prices at artificial, non-competitive levels, or are privy to each other's bid prices or other conditions.

(iv) “coercive practices” is impairing or harming, or threatening to impair or harm, directly or indirectly, any party or the property of the party to influence improperly the actions of a party[4];

(v) “obstructive practice” is

(aa) deliberately destroying, falsifying, altering, or concealing of evidence material to the investigation or making false statements to investigators in order to materially impede a Bank investigation into allegations of a corrupt, fraudulent, coercive, or collusive practice; and/or threatening, harassing, or intimidating any party to prevent it from disclosing its knowledge of matters relevant to the investigation or from pursuing the investigation, or

(bb) acts intended to materially impede the exercise of the Bank’s inspection and audit rights;

(b) will reject a proposal for award if it determines that the consultant recommended for award or any of its personnel, or its agents, or its sub-consultants, sub-contractors, services providers, suppliers, and/or their employees, has, directly or indirectly, engaged in corrupt, fraudulent, collusive, coercive, or obstructive practices in competing for the contract in question;

(c) will declare mis procurement and cancel the portion of the Loan allocated to a contract if it determines at any time that representatives of the Borrower or of a recipient of any part of the proceeds of the Loan were engaged in corrupt, fraudulent, collusive, coercive, or obstructive practices during the selection process or the implementation of the contract in question, without the Borrower having taken timely and appropriate action satisfactory to the Bank to address such practices when they occur, including by failing to inform the Bank in a timely manner they knew of the practices;

(d) will sanction a firm or an individual at any time, in accordance with prevailing Bank’s sanctions procedures[5], including by publicly declaring such firm or an ineligible, either indefinitely or for a stated period of time: (i) to be awarded a Bank-financed contract, and (ii) to be a nominated[6] sub-consultant, supplier, or service provider of an otherwise eligible firm being awarded a Bank-financed contract.

---

[4] For the purpose of this sub-paragraph, “party” refers to a participant in the selection process or contract execution.

[5] A firm or an individual may be declared ineligible to be awarded a Bank-financed contract upon (i) completion of the Bank’s sanctions proceedings as per its sanctions procedures, including inter alia: cross-debarment as agreed with other International Financial Institutions, including Multilateral Development Banks, and through the application of the World Bank Group corporate administrative procurement sanctions procedures for fraud and corruption; and (ii) as a result of temporary suspension or early temporary suspension in connection with an ongoing sanctions proceedings. See footnote 12 and paragraph 8 of Appendix 1 of these Guidelines.

[6] A nominated sub-consultant, supplier, or service provider is one which has been either (i) included by the consultant in its proposal because it brings specific and critical experience and know-how that are accounted for in the technical evaluation of the consultant’s proposal for the particular services; or (ii) appointed by the Borrower.

III. Special Conditions of Contract

Number of GC Clause	Amendments of, and Supplements to, Clauses in the General Conditions of Contract
1.1(b) and 3.1	**The Contract shall be construed in accordance with the law of *Republic of India*.**
4.1	**The language is: English**
6.1 and 6.2	**The addresses are:** **Client : Ministry of Housing and Urban Affairs (MoHUA)** Address: 202-C Nirman Bhawan, Maulana Azad Road, New Delhi. **Attention:** Telephone: 011-23063217 **(E-mail):** g.vijaykumar@nic.in and g.vijaykumar.moud@gmail.com **Consultant : M/s IPSOS Research Private Limited(Lead),** Address: 801,8th Floor,Vipul Square, B-Block, Sushant Lok, Part-1, Gurgaon-122003, Haryana, India **Attention: Mr. Parijat Chakraborty**, Executive Director and Head of Public Affairs and Loyalty **Facsimile** :+91 9810496838, 0124 4692400, Fax 0124 4692401 **E-mail :** parijat.chakraborty@ipsos.com
8.1	M/s IPSOS Research Private Limited (Lead) in consortium M/s Athena Infonomics India Private Limited. and The Economist Group Limited. **The Lead Member on behalf of the consortium is** M/s IPSOS Research Pvt. Ltd.
9.1	**The Authorized Representatives are:** **For the Client:** ***Mr. G.Vijay Kumar*** ***Under Secretary to the Government of India,*** ***Ministry of Housing and Urban Affairs*** g.vijaykumar@nic.in and g.vijaykumar.moud@gmail.com **For the Consultant:** **Mr. Parijat Chakraborty**, Executive Director and Head of Public Affairs and Loyalty Email- parijat.chakraborty@ipsos.com
12.1	**Termination of Contract for Failure to Become Effective:**

	The time period shall be One Month
13.1	**Commencement of Services:** **The number of days shall be 10 days** Confirmation of Key Experts' availability to start the Assignment shall be submitted to the Client in writing as a written statement signed by each Key Expert.
14.1	**Expiration of Contract:** **The time period shall be 20 Weeks**
21 b.	**The Client reserves the right to determine on a case-by-case basis whether the Consultant should be disqualified from providing goods, works or non-consulting services due to a conflict of a nature described in Clause GCC 21.1.3** Yes

23.1	No additional provisions
24.1	**The insurance coverage against the risks shall be as follows:** **(a) Professional liability shall be equivalent to the total amount of the Contract;** (b) employer's liability and workers' compensation insurance in respect of the experts in accordance with the relevant provisions of the applicable law in the Client's country, as well as, with respect to such Experts, any such life, health, accident, travel or other insurance as may be appropriate; and (c) insurance against loss of or damage to (i) equipment purchased in whole or in part with funds provided under this Contract, (ii) the Consultant's property used in the performance of the Services, and (iii) any documents prepared by the Consultant in the performance of the Services.
27.1	**All data collected shall be property of the Ministry (client) and Consultant will not use this data without written permission from the Ministry (Client).**
27.2	**The Consultant shall not use any documents and software for purposes unrelated to this Contract without the prior written approval of the Client**.
32.1 **(a) through (e)**	**As defined in clause 7.8 of the Term of Reference**
38.1	**The Contract price is:** INR 10,94,28,200/- *[INR Ten Crores Ninety Four Lakhs Twenty Eight Thousand and Two Hundred only]* ***exclusive*** **of local indirect taxes.** **Any indirect local taxes chargeable in respect of this Contract for the Services provided by the Consultant shall be *"*reimbursed*"* by the Client to the Consultant.** **The amount of such taxes is INR 1,96,97,076 (GST @ 18%)on the basis of the estimates provided by the Consultant in Form FIN-2 of the Consultant's Financial Proposal.**

39.1 and 39.2	**Client shall reimburse the Consultant, all local identifiable indirect taxes (itemized and finalized at Contract negotiations) are reimbursed to the Consultant or are paid by the Client on behalf of the Consultant**.
41.2	**The payment schedule:** **For the Local Currency INR 10,94,28,200 exclusive of indirect taxes.** Payment of remuneration will be as follows: ➢ 1st payment: Inception Report: Twenty Percent (20%) will be paid on acceptance/approval of the inception report. ➢ Draft City Assessment Report: Fifty Percent (50%) will be paid on acceptance approval of Draft Final Report. ➢ Final City Assessment Report: Thirty percent (30%) will be paid on acceptance/approval of Final Report. Note: The Consulting firm will submit the invoice in the name of Project Director (CBUD), Ministry of housing and Urban Affairs, Nirman Bhawan, Maulana Azad Road, New Delhi-110011.
41.2.4	**The accounts are:** for local currency: Beneficiary Name-IPSOS Research Private Limited. Bank Name-HSBC Account No.-030-777080-001 IFSC Code-HSBC0400002
42.1	**The interest rate is**: **Equivalent to Inflation at the relevant time.** **Foreign currency: LIBOR+2%**
45.1	**Disputes shall be settled by arbitration in accordance with the following provisions:** 1. Selection of Arbitrators. Each dispute submitted by a Party to arbitration shall be heard by a sole arbitrator or an arbitration panel composed of three (3) arbitrators, in accordance with the following provisions: (a) Where the Parties agree that the dispute concerns a technical matter, they may agree to appoint a sole arbitrator or, failing agreement on the identity of such sole arbitrator within thirty (30) days after receipt by the other Party of the proposal of a name for such an appointment by the Party who initiated the proceedings, either Party may apply to *Council of Arbitrators, New Delhi* for a list of not fewer than five (5) nominees and, on receipt of such list, the Parties shall alternately strike names therefrom, and the last remaining

	nominee on the list shall be the sole arbitrator for the matter in dispute. If the last remaining nominee has not been determined in this manner within sixty (60) days of the date of the list, *Council of Arbitrator, New Delhi* shall appoint, upon the request of either Party and from such list or otherwise, a sole arbitrator for the matter in dispute. (b) Where the Parties do not agree that the dispute concerns a technical matter, the Client and the Consultant shall each appoint one (1) arbitrator, and these two arbitrators shall jointly appoint a third arbitrator, who shall chair the arbitration panel. If the arbitrators named by the Parties do not succeed in appointing a third arbitrator within thirty (30) days after the latter of the two (2) arbitrators named by the Parties has been appointed, the third arbitrator shall, at the request of either Party, be appointed by *Secretary, Council of Arbitration, New Delhi* (c) If, in a dispute subject to paragraph (b) above, one Party fails to appoint its arbitrator within thirty (30) days after the other Party has appointed its arbitrator, the Party which has named an arbitrator may apply to the *Secretary, Indian Council of Arbitration, New Delhi* to appoint a sole arbitrator for the matter in dispute, and the arbitrator appointed pursuant to such application shall be the sole arbitrator for that dispute. Note: All disputes between domestic consultant the proceeding shall be in accordance with Indian Arbitration Act, 1996.
	2. Rules of Procedure. Except as otherwise stated herein, arbitration proceedings shall be conducted in accordance with the rules of procedure for arbitration of the United Nations Commission on International Trade Law (UNCITRAL) as in force on the date of this Contract. For any dispute between a domestic consultant, the proceedings shall be in accordance with Indian Arbitration Act, 1996. 3. Substitute Arbitrators. If for any reason an arbitrator is unable to perform his/her function, a substitute shall be appointed in the same manner as the original arbitrator. 4. Nationality and Qualifications of Arbitrators. The sole arbitrator or the third arbitrator appointed pursuant to paragraphs 1(a) through 1(c) above shall be an internationally recognized legal or technical expert with extensive experience in relation to the matter in dispute and shall not be a national of the Consultant's home country *[If the Consultant consists of more than one entity, add:* or of the home country of any of their members or Parties*]* or of

	the Government's country. For the purposes of this Clause, "home country" means any of: (a) the country of incorporation of the Consultant *[If the Consultant consists of more than one entity, add:* or of any of their members or Parties*]*; or (b) the country in which the Consultant's [or any of their members' or Parties'] principal place of business is located; or (c) the country of nationality of a majority of the Consultant's [or of any members' or Parties'] shareholders; or (d) the country of nationality of the Sub-consultants concerned, where the dispute involves a subcontract.
	5. Miscellaneous. In any arbitration proceeding hereunder: (a) proceedings shall, unless otherwise agreed by the Parties, be held in a neutral venue or mutually agreed venue. (b) the English language shall be the official language for all purposes; and (c) the decision of the sole arbitrator or of a majority of the arbitrators (or of the third arbitrator if there is no such majority) shall be final and binding and shall be enforceable in any court of competent jurisdiction, and the Parties hereby waive any objections to or claims of immunity in respect of such enforcement.

IV. Appendices

APPENDIX A– TERMS OF REFERENCE

7.1 Background

i. The Government of India along with State and Local Governments is implementing several flagship Urban Missions for improving various aspects of urban development in Indian cities. An underlying goal of these initiatives is to make Indian cities more ‘Liveable’. This will mean not only providing good quality core infrastructure and services, but also developing cities with ample opportunities for work, entertainment and cultural activities, improved social infrastructure and economic opportunity;

ii. In order to do this through a structured approach it is important to create a common minimum framework, which cities can use to assess their ‘Liveability’ and measure their progress over time. In this context, the Ministry of Housing and Urban Affairs has developed a set of ‘Liveability Standards in Cities’. These will act as a guiding framework for cities to chart their pathway towards liveability and result in a systematic improvement in the quality of life of citizens in Indian cities. The draft ‘Liveability Standards in Cities’ as at http://smartcities.gov.in/upload/uploadfiles/files/LiveabilityStandards.pdf ;

iii. A total of 79 different Liveability Standards are proposed across 15 different categories. The Ministry proposes to conduct an ‘Annual Assessment of Liveability in Cities’ across the various standards and develop a ‘City Liveability Index’ – an annual index of the liveability standards in Indian cities. This is an ambitious national project requiring yearly compilation of a large number of datasets across the various Liveability Standards;

iv. A total of 116 cities will be covered in Year 1 (list of cities for Year 1 is provided at Annexure A), and the coverage of cities may be extended in subsequent years. The following classification of cities will be used for the purpose of the study

Classification*		**Population range**
1	Small Towns	Less than 50,000 population
2	Medium Towns	Population ≥ 50,000 < 5 lakh
3	Large Towns	Population ≥ 5 lakh < 1 million
4	Metropolitan Cities	Population ≥ 1 million < 5 million

5	Megapolis	Population ≥ 5 million

** Based on the Classification given in the URDPFI guidelines, 2014*

V. Given the magnitude of data collection and field surveys required, the MoHUA wishes to engage the services of a reputed national/international agency/institution for **Conducting a study and field survey of Liveability Standards** (the **'Assignment'**) across all cities included in the study. This will cover all relevant data required by the MoHUA for computing the 79 Liveability Standards. The data generated from the assignment will be used by the MoHUA for calculating the City Liveability Index of cities on an annual basis;

VI. The contract will be valid for activities in Year 1 (as defined in Clause 7.5) only.

7.2 *Objective of the Assignment*

i. Compile reliable and high quality data for all cities included in the study, as required by the MoHUA for the computation of Liveability Indexes and as prescribed in the 'Liveability Standards in Cities' document;

ii. Develop a robust electronic database of datasets that can be used to assess the progress of cities on an annual basis.

7.3 *Description of Tasks*

The Tasks to be performed and key activities under the assignment will include:

Initiation Activities

i. Conduct State-level workshops (1-day each) on behalf of MoHUA Cost for such workshops must be included in the proposal. The workshops shall achieve the following:

  a. Familiarise States and City governments regarding the overall programme, process that will be followed for data collection, and likely timelines;

  b. Provide State and City governments with a detailed list of data points needed, likely areas of support and information on how the cities should prepare for the surveys;

  c. Help in preparing a preliminary time-line for city meetings and field visits based on preferences indicated by states and cities;

ii. Conduct a Reconnaissance Study of all cities included in the project (as per Annexure A). The study shall inter-alia include:

   a. City-level kick-off meetings with key officials from City governments, Smart City SPVs, various departments and utilities, DISCOMs etc. for assessing data availability and sources, preferred timelines, key nodal officers etc.;
   b. Study of city demography, socio-economic stratification and geography that has a bearing on sample size and distribution;
   c. Study of existing reports, studies, alternative data sources etc.

iii. Prepare and submit to the MoHUA, an Inception Report (separate for all cities included in the study), including inter-alia the following:
   a. Detailed Plan of Action including likely sources of data, proposed field surveys, sample size and distribution, nodal officers etc.;
   b. Proposed timelines for city field visits as discussed and finalized with MoHUA and State/City governments;
   c. Specific survey and raw data collection formats for the 79 standards as finalized in discussion with MoHUA;

iv. Convey the finalized schedule and Plan of Action to cities allowing them to mobilise support for the activities. A Minimum of 15 days of preparation period must be given to cities before data collection and surveys;

Data Collection and Field Surveys

v. Mobilize Field Teams (with adequate and qualified manpower as indicated in Clause 7.6) for obtaining data required for all 79 Standards;
vi. Conduct field surveys for a statistically relevant sample as per nationally/internationally accepted standards for sampling size and distribution. The method for determining sample size and distribution should be as proposed in the bid during RfP stage and finalized in consultation with the MoHUA as part of the Inception Report;
vii. Maintain and submit all raw data and data collection forms to MoHUA without any editing and/or masking (including particulars such as names of respondents, exact address and contact details, date and time of survey, and GPS coordinates in case of samples taken for pollution etc.);
viii. Conduct analysis of the raw data through the Analytics Team ((with adequate and qualified manpower as indicated in Clause 7.6) and prepare aggregate data sets for all 79 standards for each of the cities adopting the methodology as prescribed in http://smartcities.gov.in/upload/uploadfiles/files/MethodologicalReportFinal.pdf

ix. Submit Draft City Assessment Report to the MoHUA (separate for each city), including inter-alia the following:

   a. Database of aggregate data in the format as mutually agreed

   b. All raw data and data sheets;

   c. Sources of data, assumptions (if any), record of discussions with key stakeholders, minutes of city kickoff meeting and other relevant documentation;

x. Submit Draft City Assessment Report to respective city and state governments for inviting comments and suggestions (if any). A period of 15 days shall be given to cities to submit their responses, after which the data will be deemed to be accepted by the city,

xi. Submit Final City Assessment Report to the MoHUA after including any recommendations of the MoHUA and after suitably incorporating any valid feedback received from cities/states with the approval of the MoHUA;

xii. Develop and maintain a digital database of all data sets collected every year for each city. The format should be finalized in consultation with the MoHUA and enable examination of raw data as well as aggregated numbers on a year-on-year basis;

Other support activities

xiii. Provide all necessary support to the NIUA or other reputed third-party agency(ies) appointed by the MoHUA for undertaking verification of the data submitted by the Consultant;

xiv. Provide any technical support as required by the MoHUA or its assigned team during the development of scoring sheets and city indexes for the various Standards;

xv. Conduct a National workshop (1-day) on behalf of MoHUA for disseminating the findings of the Ministry. Costs for the workshop must be included in the proposal.

7.4 *Results to be achieved*

The Assignment will result in the creation of a robust database (updated annually) of critical datasets across 79 different Liveability parameters in Indian Cities. This will form the basis for the Ministry to compute an annual City Liveability Index of cities. This can also act as a repository of critical data for encouraging research on cities in India.

7.5 *Timelines and Deliverables for Year 1**

Report	Time line	Documents	Deliverables and Contents
Inception Report	8 weeks from start date as per contract	Hard copies, and Electronic version	Separate for each city, including: a. Detailed Plan of Action, Minutes of state level workshops, , city meetings including likely sources of data, proposed field surveys, sample size and distribution, nodal officers etc.; b. Proposed timelines for city field visits as discussed and finalized with MoHUA and State/City governments; c. Specific survey and raw data collection formats for the 79 standards as finalized in discussion with MoHUA;
Draft City Assessment Report	12 weeks from start date as per contract	Hard Copies, and Electronic version	Separate for each city, including: a. Database of aggregate data in the format as mutually agreed. b. All raw data and data sheets; c. Sources of data, assumptions (if any), record of discussions with key stakeholders, minutes of city kickoff meeting and other
Final City Assessment Report	20 weeks from start date as per contract	Hard Copies, and Electronic version	Separate report for each city. The Reports should include all recommendations of the MoHUA on the Draft Reports. The Report should also incorporate any valid suggestions/feedback received from cities/states with the approval of the MoHUA.

***** Timelines for subsequent years will be as decided by MoHUA

7.6 *Team Composition and Qualification Requirement for key Experts*

a. **Team (full-time):** Given that the assignment requires a deep understanding of the urban sector, as well as of economics, statistics and field studies, the Team Leader and the Core Team of experts must have suitable skills for undertaking the assignment and successfully completing the tasks enumerated. The Team Leader should bring to the table a strong mix of academic accomplishments, urban sector experience and experience of leading similar national/international assignments.

b. **Analytics Team (full-time):** should be manned with experts capable of analysing large data sets, checking and correcting for errors and inconsistencies, development and management of digital databases and preparation of reports. The team should therefore include adequate number of IT specialist(s), database management/ MIS expert(s), urban economics/planning specialists for **Core** data analysis and verification.

c. **Field Teams per city:** should be manned with adequate number of persons (depending upon city size, stratification and geography) capable of conducting field surveys and extracting credible secondary data from various city/state departments and utilities. Each team should therefore include adequate number of qualified urban professionals for extracting secondary data from various sources, persons with market/field research experience and data processors/ data entry operators. Each team should be led by a suitably experienced Urban Specialist (Urban Planner/ Urban Economist) with at least 10 years of experience in the urban sector and at least 5 years of experience in secondary and primary data collection and analysis. The Core Team proposed should be able to demonstrate the qualifications and experience as prescribed in table below:

7.7 *Core Team (CV to be evaluated)*

Position	**Minimum Qualifications & skills**	**Minimum Experience**
Team Leader	Qualification - Bachelor’s Degree in Engineering/Architecture/Planning/Economics/Management with post-graduate degree in Planning/Management or equivalent from a recognized University In-depth knowledge of all aspects of urban sector, including governance-related, socio-economic, environmental and engineering aspects Proven academic credibility in terms of published papers, articles etc. Experience of leading national level urban research assignments Experience of leading	At least 20 years of which at least last 10 years must have been for the Urban Sector
Urban Management Specialist/ Planning Expert	Bachelor’s Degree in Engineering/Architecture/Planning with post-graduate degree in Management or equivalent from a recognized University Good knowledge of urban sector Experience of playing a core role in similar national/international data collection and ranking assignments	At least 15 years of experience in the Urban Sector
Market Research Specialist	Master’s Degree in Management from a recognized University Good knowledge of mobilization and organization for market research Experience of leading national/international field research assignments	At least 15 years of which at least last 7 years must have been in the field of Market Research
Statistician	Master’s Degree in Statistics from a recognized University Good knowledge of urban data sources and urban data analysis Experience of statistically designing and managing sample surveys	At least 15 years of which at least last 5 years must have been for the Urban Sector

7.8 *TA management and counterpart staff*

The assignment will be contracted by the MoHUA (erstwhile MOUD) for carrying out the assignment.

Items to be provided by the MoHUA

a. The MoHUA will set up a Coordinating Team at the national level for providing guidance and support to the Core Team for executing the assignment;
b. Provide support for organizing various State and city level workshops and meetings;.
c. Provide feedback from time to time for finalizing deliverables;
d. Set up a monitoring system for timely validation of data and finalization of aggregate data.

Items to be provided by the agency

In addition to the results and deliverables listed above, the Consultant will:

a. Provide for all manpower, materials and equipment necessary for carrying out the assignment;
b. Provide all resources for report production and necessary translations;
c. Provide all Computers and software required by the teams for carrying out the tasks;
d. Arrange for all transportation and travelling required for the teams including Investigations.

Annexure A: List of Cities

Sl. No.	Name of State	Name of City	Population
1	Andaman Nicobar	Portblair	1,40,572
2	Andhra Pradesh	Kakinada	3,12,538
3	Andhra Pradesh	Visakhapatnam	17,28,128
4	Andhra Pradesh	Tirupati	2,87,482
5	Andhra Pradesh	Amaravati	1,03,000
6	Andhra Pradesh	Vijayawada	10,34,358

I. Form of Contract

LUMP-SUM

This CONTRACT (hereinafter called the "Contract") is made the ………………. day of the month of *February, 2018*, between, on the one hand, *Ministry of Housing and Urban Affairs* (hereinafter called the "Client") and, on the other hand, M/s IPSOS Research Private Limited (Lead) in consortium with M/s Athena Infonomics India Private Limited. and The Economist Group Limited. (hereinafter called the "Consultant").

WHEREAS

(a) the Client has requested the Consultant to provide certain consulting services as defined in this Contract (hereinafter called the "Services");

(b) the Consultant, having represented to the Client that it has the required professional skills, expertise and technical resources, has agreed to provide the Services on the terms and conditions set forth in this Contract;

(c) the Client has received a credit from the *International Development Association (IDA)]:* toward the cost of the Services and intends to apply a portion of the proceeds of credit to eligible payments under this Contract, it being understood that (i) payments by the Bank will be made only at the request of the Client and upon approval by the Bank; (ii) such payments will be subject, in all respects, to the terms and conditions of the loan agreement, including prohibitions of withdrawal from the credit account for the purpose of any payment to persons or entities, or for any import of goods, if such payment or import, to the knowledge of the Bank, is prohibited by the decision of the United Nations Security council taken under Chapter VII of the Charter of the United Nations; and (iii) no party other than the Client shall derive any rights from the [loan agreement or have any claim to the credit proceeds;

NOW THEREFORE the parties hereto hereby agree as follows:

1. The following documents attached hereto shall be deemed to form an integral part of this Contract:

   (a) The General Conditions of Contract (including Attachment 1 "Bank Policy – Corrupt and Fraudulent Practices);
   (b) The Special Conditions of Contract;
   (c) Appendices:

   Appendix A: Terms of Reference

Appendix B: Key Experts
Appendix C: Breakdown of Contract Price

In the event of any inconsistency between the documents, the following order of precedence shall prevail: the Special Conditions of Contract; the General Conditions of Contract, including Attachment 1; Appendix A; Appendix B; Appendix C. Any reference to this Contract shall include, where the context permits, a reference to its Appendices.

2. The mutual rights and obligations of the Client and the Consultant shall be as set forth in the Contract, in particular:

(a) the Consultant shall carry out the Services in accordance with the provisions of the Contract; and
(b) the Client shall make payments to the Consultant in accordance with the provisions of the Contract.

IN WITNESS WHEREOF, the Parties hereto have caused this Contract to be signed in their respective names as of the day and year first above written.

For and on behalf of
Ministry of Housing and Urban Affairs

Mr. G.Vijay Kumar
Under Secretary to the Government of India, Ministry of Housing and Urban Affairs

and

For and on behalf of
M/s IPSOS Research Private Limited (Lead) in consortium M/s Athena Infonomics India Private Limited. and The Economist Group Limited.

Mr. Parijat Chakraborty,
Executive Director and Head of Public Affairs and Loyalty
M/s IPSOS Research Private Limited (Lead),

II. General Conditions of Contract

A. GENERAL PROVISIONS

1. Definitions

1.1. Unless the context otherwise requires, the following terms whenever used in this Contract have the following meanings:

(a) "Applicable Guidelines" means Guidelines for Selection and Employment of Consultants under IBRD Loans and IDA Credits & Grants by World Bank Borrowers, dated January 2011.

(b) "Applicable Law" means the laws and any other instruments having the force of law in the Client's country, or in such other country as may be specified in the **Special Conditions of Contract (SCC)**, as they may be issued and in force from time to time.

(c) "Bank" means the International Bank for Reconstruction and Development (IBRD) or the International Development Association (IDA).

(d) "Borrower" means the Government, Government agency or other entity that signs the financing agreement with the Bank.

(e) "Client" means the implementing agency that signs the Contract for the Services with the Selected Consultant.

(f) "Consultant" means a legally-established professional consulting firm or entity selected by the Client to provide the Services under the signed Contract.

(g) "Contract" means the legally binding written agreement signed between the Client and the Consultant and which includes all the attached documents listed in its paragraph 1 of the Form of Contract (the General Conditions (GCC), the Special Conditions (SCC), and the Appendices).

(h) "Day" means a working day unless indicated otherwise.

(i) "Effective Date" means the date on which this Contract comes into force and effect pursuant to Clause GCC 11.

(j) "Experts" means, collectively, Key Experts, Non-Key Experts, or any other personnel of the Consultant, Sub-consultant or JV member(s) assigned by the Consultant to perform the Services or any part thereof under the Contract.

(k) "Foreign Currency" means any currency other than the currency of the Client's country.

(l) "GCC" means these General Conditions of Contract.

(m) "Government" means the government of the Client's country.

(n) "Joint Venture (JV)" means an association with or without a legal personality distinct from that of its members, of more than one entity where one member has the authority to conduct all businesses for and on behalf of any and all the members of the JV, and where the members of the JV are jointly and severally liable to the Client for the performance of the Contract.

(o) "Key Expert(s)" means an individual professional whose skills, qualifications, knowledge and experience are critical to the performance of the Services under the Contract and whose Curricula Vitae (CV) was taken into account in the technical evaluation of the Consultant's proposal.

(p) "Local Currency" means the currency of the Client's country.

(q) "Non-Key Expert(s)" means an individual professional provided by the Consultant or its Sub-consultant to perform the Services or any part thereof under the Contract.

(r) "Party" means the Client or the Consultant, as the case may be, and "Parties" means both of them.

(s) "SCC" means the Special Conditions of Contract by which the GCC may be amended or supplemented but not over-written.

(t) "Services" means the work to be performed by the Consultant pursuant to this Contract, as described in Appendix A hereto.

(u) "Sub-consultants" means an entity to whom/which the Consultant subcontracts any part of the Services while remaining solely liable for the execution of the Contract.

(v) "Third Party" means any person or entity other than the Government, the Client, the Consultant or a Sub-consultant.

2. Relationship between the Parties

2.1. Nothing contained herein shall be construed as establishing a relationship of master and servant or of principal and agent as between the Client and the Consultant. The Consultant, subject to this Contract, has complete charge of the Experts and Sub-consultants, if any, performing the Services and shall be fully responsible for the Services performed by them or on their behalf hereunder.

3. Law Governing Contract

3.1. This Contract, its meaning and interpretation, and the relation between the Parties shall be governed by the Applicable Law.

4. Language

4.1. This Contract has been executed in the language specified in the **SCC**, which shall be the binding and controlling language for all matters relating to the meaning or interpretation of this Contract.

5. Headings

5.1. The headings shall not limit, alter or affect the meaning of this Contract.

6. Communications

6.1. Any communication required or permitted to be given or made pursuant to this Contract shall be in writing in the language specified in Clause GCC 4. Any such notice, request or consent shall be deemed to have been given or made when delivered in person to an authorized representative of the Party to whom the communication is addressed, or when sent to such Party at the address specified in the **SCC**.

6.2. A Party may change its address for notice hereunder by giving the other Party any communication of such change to the address specified in the **SCC**.

7. Location

7.1. The Services shall be performed at such locations as are specified in **Appendix A** hereto and, where the location of a particular task is not so specified, at such locations, whether in the Government's country or elsewhere, as the Client may approve.

8. Authority of Member in Charge

8.1. In case the Consultant is a Joint Venture, the members hereby authorize the member specified in the **SCC** to act on their behalf in exercising all the Consultant's rights and obligations towards the Client under this Contract, including without limitation the receiving of instructions and payments from the Client.

9. Authorized Representatives

9.1. Any action required or permitted to be taken, and any document required or permitted to be executed under this Contract by the Client or the Consultant may be taken or executed by the officials specified in the **SCC.**

10. Corrupt and Fraudulent Practices

10.1. The Bank requires compliance with its policy in regard to corrupt and fraudulent practices as set forth in **Attachment 1** to the GCC.

a. Commissions and Fees

10.2. The Client requires the Consultant to disclose any commissions, gratuities or fees that may have been paid or are to be paid to agents or any other party with respect to the selection process or execution of the Contract. The information disclosed must include at least the name and address of the agent or other party, the amount and currency, and the purpose of the commission, gratuity or fee.

Failure to disclose such commissions, gratuities or fees may result in termination of the Contract and/or sanctions by the Bank.

B. COMMENCEMENT, COMPLETION, MODIFICATION AND TERMINATION OF CONTRACT

11. Effectiveness of Contract

11.1. This Contract shall come into force and effect on the date (the "Effective Date") of the Client's notice to the Consultant instructing the Consultant to begin carrying out the Services. This notice shall confirm that the effectiveness conditions, if any, listed in the **SCC** have been met.

12. Termination of Contract for Failure to Become Effective

12.1. If this Contract has not become effective within such time period after the date of Contract signature as specified in the **SCC**, either Party may, by not less than twenty two (22) days written notice to the other Party, declare this Contract to be null and void, and in the event of such a declaration by either Party, neither Party shall have any claim against the other Party with respect hereto.

13. Commencement of Services

13.1. The Consultant shall confirm availability of Key Experts and begin carrying out the Services not later than the number of days after the Effective Date specified in the **SCC**.

14. Expiration of Contract

14.1. Unless terminated earlier pursuant to Clause GCC 19 hereof, this Contract shall expire at the end of such time period after the Effective Date as specified in the **SCC**.

15. Entire Agreement

15.1. This Contract contains all covenants, stipulations and provisions agreed by the Parties. No agent or representative of either Party has authority to make, and the Parties shall not be bound by or be liable for, any statement, representation, promise or agreement not set forth herein.

16. Modifications or Variations

16.1. Any modification or variation of the terms and conditions of this Contract, including any modification or variation of the scope of the Services, may only be made by written agreement between the Parties. However, each Party shall give due consideration to any proposals for modification or variation made by the other Party.

16.2. In cases of substantial modifications or variations, the prior written consent of the Bank is required.

17. Force Majeure

a. Definition

17.1. For the purposes of this Contract, "Force Majeure" means an event which is beyond the reasonable control of a Party, is not foreseeable, is unavoidable, and makes a Party's performance of its obligations hereunder impossible or so impractical as reasonably to

be considered impossible under the circumstances, and subject to those requirements, includes, but is not limited to, war, riots, civil disorder, earthquake, fire, explosion, storm, flood or other adverse weather conditions, strikes, lockouts or other industrial action confiscation or any other action by Government agencies.

17.2. Force Majeure shall not include (i) any event which is caused by the negligence or intentional action of a Party or such Party's Experts, Sub-consultants or agents or employees, nor (ii) any event which a diligent Party could reasonably have been expected to both take into account at the time of the conclusion of this Contract, and avoid or overcome in the carrying out of its obligations hereunder.

17.3. Force Majeure shall not include insufficiency of funds or failure to make any payment required hereunder.

b. No Breach of Contract

17.4. The failure of a Party to fulfill any of its obligations hereunder shall not be considered to be a breach of, or default under, this Contract insofar as such inability arises from an event of Force Majeure, provided that the Party affected by such an event has taken all reasonable precautions, due care and reasonable alternative measures, all with the objective of carrying out the terms and conditions of this Contract.

c. Measures to be Taken

17.5. A Party affected by an event of Force Majeure shall continue to perform its obligations under the Contract as far as is reasonably practical, and shall take all reasonable measures to minimize the consequences of any event of Force Majeure.

17.6. A Party affected by an event of Force Majeure shall notify the other Party of such event as soon as possible, and in any case not later than fourteen (14) calendar days following the occurrence of such event, providing evidence of the nature and cause of such event, and shall similarly give written notice of the restoration of normal conditions as soon as possible.

17.7. Any period within which a Party shall, pursuant to this Contract, complete any action or task, shall be extended for a period equal to the time during which such Party was unable to perform such action as a result of Force Majeure.

17.8. During the period of their inability to perform the Services as a result of an event of Force Majeure, the Consultant, upon instructions by the Client, shall either:

(a) demobilize, in which case the Consultant shall be reimbursed for additional costs they reasonably and

necessarily incurred, and, if required by the Client, in reactivating the Services; or

(b) continue with the Services to the extent reasonably possible, in which case the Consultant shall continue to be paid under the terms of this Contract and be reimbursed for additional costs reasonably and necessarily incurred.

17.9. In the case of disagreement between the Parties as to the existence or extent of Force Majeure, the matter shall be settled according to Clauses GCC 44 & 45.

18. Suspension

18.1. The Client may, by written notice of suspension to the Consultant, suspend all payments to the Consultant hereunder if the Consultant fails to perform any of its obligations under this Contract, including the carrying out of the Services, provided that such notice of suspension (i) shall specify the nature of the failure, and (ii) shall request the Consultant to remedy such failure within a period not exceeding thirty (30) calendar days after receipt by the Consultant of such notice of suspension.

19. Termination

19.1. This Contract may be terminated by either Party as per provisions set up below:

a. By the Client

19.1.1. The Client may terminate this Contract in case of the occurrence of any of the events specified in paragraphs (a) through (f) of this Clause. In such an occurrence the Client shall give at least thirty (30) calendar days’ written notice of termination to the Consultant in case of the events referred to in (a) through (d); at least sixty (60) calendar days’ written notice in case of the event referred to in (e); and at least five (5) calendar days’ written notice in case of the event referred to in (f):

(a) If the Consultant fails to remedy a failure in the performance of its obligations hereunder, as specified in a notice of suspension pursuant to Clause GCC 18;

(b) If the Consultant becomes (or, if the Consultant consists of more than one entity, if any of its members becomes) insolvent or bankrupt or enter into any agreements with their creditors for relief of debt or take advantage of any law for the benefit of debtors or go into liquidation or receivership whether compulsory or voluntary;

(c) If the Consultant fails to comply with any final decision reached as a result of arbitration proceedings pursuant to Clause GCC 45.1;

(d) If, as the result of Force Majeure, the Consultant is unable to perform a material portion of the Services for a period of not less than sixty (60) calendar days;

(e) If the Client, in its sole discretion and for any reason whatsoever, decides to terminate this Contract;

(f) If the Consultant fails to confirm availability of Key Experts as required in Clause GCC 13.

19.1.2. Furthermore, if the Client determines that the Consultant has engaged in corrupt, fraudulent, collusive, coercive or obstructive practices, in competing for or in executing the Contract, then the Client may, after giving fourteen (14) calendar days written notice to the Consultant, terminate the Consultant's employment under the Contract.

b. By the Consultant

19.1.3. The Consultant may terminate this Contract, by not less than thirty (30) calendar days’ written notice to the Client, in case of the occurrence of any of the events specified in paragraphs (a) through (d) of this Clause.

(a) If the Client fails to pay any money due to the Consultant pursuant to this Contract and not subject to dispute pursuant to Clause GCC 45.1 within forty-five (45) calendar days after receiving written notice from the Consultant that such payment is overdue.

(b) If, as the result of Force Majeure, the Consultant is unable to perform a material portion of the Services for a period of not less than sixty (60) calendar days.

(c) If the Client fails to comply with any final decision reached as a result of arbitration pursuant to Clause GCC 45.1.

(d) If the Client is in material breach of its obligations pursuant to this Contract and has not remedied the same within forty-five (45) days (or such longer period as the Consultant may have subsequently approved in writing) following the receipt by the Client of the Consultant’s notice specifying such breach.

c. Cessation of Rights and Obligations

19.1.4. Upon termination of this Contract pursuant to Clauses GCC 12 or GCC 19 hereof, or upon expiration of this Contract pursuant to Clause GCC 14, all rights and obligations of the Parties hereunder shall cease, except (i) such rights and obligations as may have accrued on the date of termination or expiration, (ii) the obligation of confidentiality set forth in Clause GCC 22, (iii) the Consultant’s obligation to permit

inspection, copying and auditing of their accounts and records set forth in Clause GCC 25, and (iv) any right which a Party may have under the Applicable Law.

d. Cessation of Services

19.1.5. Upon termination of this Contract by notice of either Party to the other pursuant to Clauses GCC 19a or GCC 19b, the Consultant shall, immediately upon dispatch or receipt of such notice, take all necessary steps to bring the Services to a close in a prompt and orderly manner and shall make every reasonable effort to keep expenditures for this purpose to a minimum. With respect to documents prepared by the Consultant and equipment and materials furnished by the Client, the Consultant shall proceed as provided, respectively, by Clauses GCC 27 or GCC 28.

e. Payment upon Termination

19.1.6. Upon termination of this Contract, the Client shall make the following payments to the Consultant:

(a) payment for Services satisfactorily performed prior to the effective date of termination; and

(b) in the case of termination pursuant to paragraphs (d) and (e) of Clause GCC 19.1.1, reimbursement of any reasonable cost incidental to the prompt and orderly termination of this Contract, including the cost of the return travel of the Experts.

C. OBLIGATIONS OF THE CONSULTANT

20. General

a. Standard of Performance

20.1 The Consultant shall perform the Services and carry out the Services with all due diligence, efficiency and economy, in accordance with generally accepted professional standards and practices, and shall observe sound management practices, and employ appropriate technology and safe and effective equipment, machinery, materials and methods. The Consultant shall always act, in respect of any matter relating to this Contract or to the Services, as a faithful adviser to the Client, and shall at all times support and safeguard the Client's legitimate interests in any dealings with the third parties.

20.2. The Consultant shall employ and provide such qualified and experienced Experts and Sub-consultants as are required to carry out the Services.

20.3. The Consultant may subcontract part of the Services to an extent and with such Key Experts and Sub-consultants as may be

approved in advance by the Client. Notwithstanding such approval, the Consultant shall retain full responsibility for the Services.

b. Law Applicable to Services

20.4. The Consultant shall perform the Services in accordance with the Contract and the Applicable Law and shall take all practicable steps to ensure that any of its Experts and Sub-consultants, comply with the Applicable Law.

20.5. Throughout the execution of the Contract, the Consultant shall comply with the import of goods and services prohibitions in the Client's country when

(a) as a matter of law or official regulations, the Borrower's country prohibits commercial relations with that country; or

(b) by an act of compliance with a decision of the United Nations Security Council taken under Chapter VII of the Charter of the United Nations, the Borrower's Country prohibits any import of goods from that country or any payments to any country, person, or entity in that country.

20.6. The Client shall notify the Consultant in writing of relevant local customs, and the Consultant shall, after such notification, respect such customs.

21. Conflict of Interests

21.1. The Consultant shall hold the Client's interests paramount, without any consideration for future work, and strictly avoid conflict with other assignments or their own corporate interests.

a. Consultant Not to Benefit from Commissions, Discounts, etc.

21.1.1 The payment of the Consultant pursuant to GCC F (Clauses GCC 38 through 42) shall constitute the Consultant's only payment in connection with this Contract and, subject to Clause GCC 21.1.3, the Consultant shall not accept for its own benefit any trade commission, discount or similar payment in connection with activities pursuant to this Contract or in the discharge of its obligations hereunder, and the Consultant shall use its best efforts to ensure that any Sub-consultants, as well as the Experts and agents of either of them, similarly shall not receive any such additional payment.

21.1.2 Furthermore, if the Consultant, as part of the Services, has the responsibility of advising the Client on the procurement of goods, works or services, the Consultant shall comply with the Bank's Applicable Guidelines, and shall at all times exercise such responsibility in the best interest of the Client. Any discounts or commissions obtained by the Consultant in the exercise of such procurement responsibility shall be for the account of the Client.

b. Consultant and Affiliates Not to Engage in Certain Activities

21.1.3 The Consultant agrees that, during the term of this Contract and after its termination, the Consultant and any entity affiliated with the Consultant, as well as any Sub-consultants and any entity affiliated with such Sub-consultants, shall be disqualified from providing goods, works or non-consulting services resulting from or directly related to the Consultant's Services for the preparation or implementation of the project, unless otherwise indicated in the **SCC**.

c. Prohibition of Conflicting Activities

21.1.4 The Consultant shall not engage, and shall cause its Experts as well as its Sub-consultants not to engage, either directly or indirectly, in any business or professional activities that would conflict with the activities assigned to them under this Contract.

d. Strict Duty to Disclose Conflicting Activities

21.1.5 The Consultant has an obligation and shall ensure that its Experts and Sub-consultants shall have an obligation to disclose any situation of actual or potential conflict that impacts their capacity to serve the best interest of their Client, or that may reasonably be perceived as having this effect. Failure to disclose said situations may lead to the disqualification of the Consultant or the termination of its Contract.

22. Confidentiality

22.1 Except with the prior written consent of the Client, the Consultant and the Experts shall not at any time communicate to any person or entity any confidential information acquired in the course of the Services, nor shall the Consultant and the Experts make public the recommendations formulated in the course of, or as a result of, the Services.

23. Liability of the Consultant

23.1 Subject to additional provisions, if any, set forth in the **SCC**, the Consultant's liability under this Contract shall be provided by the Applicable Law.

24. Insurance to be Taken out by the Consultant

24.1 The Consultant (i) shall take out and maintain, and shall cause any Sub-consultants to take out and maintain, at its (or the Sub-consultants', as the case may be) own cost but on terms and conditions approved by the Client, insurance against the risks, and for the coverage specified in the **SCC,** and (ii) at the Client's request, shall provide evidence to the Client showing that such insurance has been taken out and maintained and that the current premiums therefore have been paid. The Consultant shall ensure that such insurance is in place prior to commencing the Services as stated in Clause GCC 13.

25. Accounting, Inspection and Auditing

25.1 The Consultant shall keep, and shall make all reasonable efforts to cause its Sub-consultants to keep, accurate and systematic accounts and records in respect of the Services and in such form and detail as will clearly identify relevant time changes and costs.

25.2 The Consultant shall permit and shall cause its Sub-consultants to permit, the Bank and/or persons appointed by the Bank to inspect the Site and/or all accounts and records relating to the performance of the Contract and the submission of the Proposal to provide the Services, and to have such accounts and records audited by auditors appointed by the Bank if requested by the Bank. The Consultant's attention is drawn to Clause GCC 10 which provides, inter alia, that acts intended to materially impede the exercise of the Bank's inspection and audit rights provided for under this Clause GCC25.2 constitute a prohibited practice subject to contract termination (as well as to a determination of ineligibility under the Bank's prevailing sanctions procedures.)

26. Reporting Obligations

26.1 The Consultant shall submit to the Client the reports and documents specified in **Appendix A**, in the form, in the numbers and within the time periods set forth in the said Appendix.

27. Proprietary Rights of the Client in Reports and Records

27.1 Unless otherwise indicated in the **SCC**, all reports and relevant data and information such as maps, diagrams, plans, databases, other documents and software, supporting records or material compiled or prepared by the Consultant for the Client in the course of the Services shall be confidential and become and remain the absolute property of the Client. The Consultant shall, not later than upon termination or expiration of this Contract, deliver all such documents to the Client, together with a detailed inventory thereof. The Consultant may retain a copy of such documents, data and/or software but shall not use the same for purposes unrelated to this Contract without prior written approval of the Client.

27.2 If license agreements are necessary or appropriate between the Consultant and third parties for purposes of development of the plans, drawings, specifications, designs, databases, other documents and software, the Consultant shall obtain the Client's prior written approval to such agreements, and the Client shall be entitled at its discretion to require recovering the expenses related to the development of the program(s) concerned. Other restrictions about the future use of these documents and software, if any, shall be specified in the **SCC**.

28. Equipment, Vehicles and Materials

28.1 Equipment, vehicles and materials made available to the Consultant by the Client, or purchased by the Consultant wholly or partly with funds provided by the Client, shall be the property of the Client and shall be marked accordingly. Upon termination or expiration of this Contract, the Consultant shall make available to the

Client an inventory of such equipment, vehicles and materials and shall dispose of such equipment, vehicles and materials in accordance with the Client's instructions. While in possession of such equipment, vehicles and materials, the Consultant, unless otherwise instructed by the Client in writing, shall insure them at the expense of the Client in an amount equal to their full replacement value.

28.2 Any equipment or materials brought by the Consultant or its Experts into the Client's country for the use either for the project or personal use shall remain the property of the Consultant or the Experts concerned, as applicable.

D. CONSULTANT'S EXPERTS AND SUB-CONSULTANTS

29. Description of Key Experts

29.1 The title, agreed job description, minimum qualification and estimated period of engagement to carry out the Services of each of the Consultant's Key Experts are described in **Appendix B.**

30. Replacement of Key Experts

30.1 Except as the Client may otherwise agree in writing, no changes shall be made in the Key Experts.

30.2 Notwithstanding the above, the substitution of Key Experts during Contract execution may be considered only based on the Consultant's written request and due to circumstances outside the reasonable control of the Consultant, including but not limited to death or medical incapacity. In such case, the Consultant shall forthwith provide as a replacement, a person of equivalent or better qualifications and experience, and at the same rate of remuneration.

31. Removal of Experts or Sub-consultants

31.1 If the Client finds that any of the Experts or Sub-consultant has committed serious misconduct or has been charged with having committed a criminal action, or shall the Client determine that Consultant's Expert of Sub-consultant have engaged in corrupt, fraudulent, collusive, coercive or obstructive practice while performing the Services, the Consultant shall, at the Client's written request, provide a replacement.

31.2 In the event that any of Key Experts, Non-Key Experts or Sub-consultants is found by the Client to be incompetent or incapable in discharging assigned duties, the Client, specifying the grounds therefore, may request the Consultant to provide a replacement.

31.3 Any replacement of the removed Experts or Sub-consultants shall possess better qualifications and experience and shall be acceptable to the Client.

31.4 The Consultant shall bear all costs arising out of or incidental to any removal and/or replacement of such Experts.

E. OBLIGATIONS OF THE CLIENT

32. Assistance and Exemptions

32.1 Unless otherwise specified in the **SCC**, the Client shall use its best efforts to:

(a) Assist the Consultant with obtaining work permits and such other documents as shall be necessary to enable the Consultant to perform the Services.

(b) Assist the Consultant with promptly obtaining, for the Experts and, if appropriate, their eligible dependents, all necessary entry and exit visas, residence permits, exchange permits and any other documents required for their stay in the Client's country while carrying out the Services under the Contract.

(c) Facilitate prompt clearance through customs of any property required for the Services and of the personal effects of the Experts and their eligible dependents.

(c) Issue to officials, agents and representatives of the Government all such instructions and information as may be necessary or appropriate for the prompt and effective implementation of the Services.

(d) Assist the Consultant and the Experts and any Sub-consultants employed by the Consultant for the Services with obtaining exemption from any requirement to register or obtain any permit to practice their profession or to establish themselves either individually or as a corporate entity in the Client's country according to the applicable law in the Client's country.

(e) Assist the Consultant, any Sub-consultants and the Experts of either of them with obtaining the privilege, pursuant to the applicable law in the Client's country, of bringing into the Client's country reasonable amounts of foreign currency for the purposes of the Services or for the personal use of the Experts and of withdrawing any such amounts as may be earned therein by the Experts in the execution of the Services.

(f) Provide to the Consultant any such other assistance as may be specified in the **SCC**.

33. Access to Project Site

33.1 The Client warrants that the Consultant shall have, free of charge, unimpeded access to the project site in respect of which access is required for the performance of the Services. The Client will be

responsible for any damage to the project site or any property thereon resulting from such access and will indemnify the Consultant and each of the experts in respect of liability for any such damage, unless such damage is caused by the willful default or negligence of the Consultant or any Sub-consultants or the Experts of either of them.

34. Change in the Applicable Law Related to Taxes and Duties

34.1 If, after the date of this Contract, there is any change in the applicable law in the Client's country with respect to taxes and duties which increases or decreases the cost incurred by the Consultant in performing the Services, then the remuneration and reimbursable expenses otherwise payable to the Consultant under this Contract shall be increased or decreased accordingly by agreement between the Parties hereto, and corresponding adjustments shall be made to the Contract price amount specified in Clause GCC 38.1

35. Services, Facilities and Property of the Client

35.1 The Client shall make available to the Consultant and the Experts, for the purposes of the Services and free of any charge, the services, facilities and property described in the Terms of Reference (**Appendix A)** at the times and in the manner specified in said **Appendix A.**

36. Counterpart Personnel

36.1 The Client shall make available to the Consultant free of charge such professional and support counterpart personnel, to be nominated by the Client with the Consultant's advice, if specified in **Appendix A**.

36.2 Professional and support counterpart personnel, excluding Client's liaison personnel, shall work under the exclusive direction of the Consultant. If any member of the counterpart personnel fails to perform adequately any work assigned to such member by the Consultant that is consistent with the position occupied by such member, the Consultant may request the replacement of such member, and the Client shall not unreasonably refuse to act upon such request.

37. Payment Obligation

37.1 In consideration of the Services performed by the Consultant under this Contract, the Client shall make such payments to the Consultant for the deliverables specified in **Appendix A** and in such manner as is provided by GCC F below.

F. PAYMENTS TO THE CONSULTANT

38. Contract Price

38.1 The Contract price is fixed and is set forth in the **SCC.** The Contract price breakdown is provided in **Appendix C**.

38.2 Any change to the Contract price specified in Clause 38.1 can be made only if the Parties have agreed to the revised scope of Services

pursuant to Clause GCC 16 and have amended in writing the Terms of Reference in **Appendix A**.

39. Taxes and Duties

39.1 The Consultant, Sub-consultants and Experts are responsible for meeting any and all tax liabilities arising out of the Contract unless it is stated otherwise in the **SCC**.

39.2 As an exception to the above and as stated in the **SCC**, all local identifiable indirect taxes (itemized and finalized at Contract negotiations) are reimbursed to the Consultant or are paid by the Client on behalf of the Consultant.

40. Currency of Payment

40.1 Any payment under this Contract shall be made in the currency(ies) of the Contract.

41. Mode of Billing and Payment

41.1 The total payments under this Contract shall not exceed the Contract price set forth in Clause GCC 38.1.

41.2 The payments under this Contract shall be made in lump-sum installments against deliverables specified in **Appendix A**. The payments will be made according to the payment schedule stated in the **SCC**.

41.2.1 *Advance payment:* Unless otherwise indicated in the **SCC**, an advance payment shall be made against an advance payment bank guarantee acceptable to the Client in an amount (or amounts) and in a currency (or currencies) specified in the **SCC**. Such guarantee (i) is to remain effective until the advance payment has been fully set off, and (ii) is to be in the form set forth in **Appendix D**, or in such other form as the Client shall have approved in writing. The advance payments will be set off by the Client in equal portions against the lump-sum installments specified in the **SCC** until said advance payments have been fully set off.

41.2.2 *The Lump-Sum Installment Payments.* The Client shall pay the Consultant within sixty (60) days after the receipt by the Client of the deliverable(s) and the cover invoice for the related lump-sum installment payment. The payment can be withheld if the Client does not approve the submitted deliverable(s) as satisfactory in which case the Client shall provide comments to the Consultant within the same sixty (60) days period. The Consultant shall thereupon promptly make any necessary corrections, and thereafter the foregoing process shall be repeated.

41.2.3 *The Final Payment* .The final payment under this Clause shall be made only after the final report l have been submitted by the Consultant and approved as satisfactory by the Client. The

Services shall then be deemed completed and finally accepted by the Client. The last lump-sum installment shall be deemed approved for payment by the Client within ninety (90) calendar days after receipt of the final report by the Client unless the Client, within such ninety (90) calendar day period, gives written notice to the Consultant specifying in detail deficiencies in the Services, the final report. The Consultant shall thereupon promptly make any necessary corrections, and thereafter the foregoing process shall be repeated.

41.2.4 All payments under this Contract shall be made to the accounts of the Consultant specified in the **SCC**.

With the exception of the final payment under 41.2.3 above, payments do not constitute acceptance of the whole Services nor relieve the Consultant of any obligations hereunder.

42. Interest on Delayed Payments

42.1 If the Client had delayed payments beyond fifteen (15) days after the due date stated in Clause GCC 41.2.2 , interest shall be paid to the Consultant on any amount due by, not paid on, such due date for each day of delay at the annual rate stated in the **SCC.**

G. FAIRNESS AND GOOD FAITH

43. Good Faith

43.1 The Parties undertake to act in good faith with respect to each other's rights under this Contract and to adopt all reasonable measures to ensure the realization of the objectives of this Contract.

H. SETTLEMENT OF DISPUTES

44. Amicable Settlement

44.1 The Parties shall seek to resolve any dispute amicably by mutual consultation.

44.2 If either Party objects to any action or inaction of the other Party, the objecting Party may file a written Notice of Dispute to the other Party providing in detail the basis of the dispute. The Party receiving the Notice of Dispute will consider it and respond in writing within fourteen (14) days after receipt. If that Party fails to respond within fourteen (14) days, or the dispute cannot be amicably settled within fourteen (14) days following the response of that Party, Clause GCC 45.1 shall apply.

45. Dispute Resolution

45.1 Any dispute between the Parties arising under or related to this Contract that cannot be settled amicably may be referred to by either Party to the adjudication/arbitration in accordance with the provisions specified in the **SCC**.

II. General Conditions

Attachment 1: Bank's Policy – Corrupt and Fraudulent Practices

(the text in this Attachment 1 shall not be modified)

Guidelines for Selection and Employment of Consultants under IBRD Loans and IDA Credits & Grants by World Bank Borrowers, dated January 2011:

"**Fraud and Corruption**

1.23 It is the Bank's policy to require that Borrowers (including beneficiaries of Bank loans), consultants, and their agents (whether declared or not), sub-contractors, sub-consultants, service providers, or suppliers, and any personnel thereof, observe the highest standard of ethics during the selection and execution of Bank-financed contracts [footnote: In this context, any action taken by a consultant or any of its personnel, or its agents, or its sub-consultants, sub-contractors, services providers, suppliers, and/or their employees, to influence the selection process or contract execution for undue advantage is improper.]. In pursuance of this policy, the Bank:

(a) defines, for the purposes of this provision, the terms set forth below as follows:

- (i) "corrupt practice" is the offering, giving, receiving, or soliciting, directly or indirectly, of anything of value to influence improperly the actions of another party[1];
- (ii) "fraudulent practice" is any act or omission, including misrepresentation, that knowingly or recklessly misleads, or attempts to mislead, a party to obtain financial or other benefit or to avoid an obligation[2];
- (iii) "collusive practices" is an arrangement between two or more parties designed to achieve an improper purpose, including to influence improperly the actions of another party[3];

---

[1] For the purpose of this sub-paragraph, "another party" refers to a public official acting in relation to the selection process or contract execution. In this context "public official" includes World Bank staff and employees of other organizations taking or reviewing selection decisions.

[2] For the purpose of this sub-paragraph, "party" refers to a public official; the terms "benefit" and "obligation" relate to the selection process or contract execution; and the "act or omission" is intended to influence the selection process or contract execution.

[3] For the purpose of this sub-paragraph, "parties" refers to participants in the procurement or selection process (including public officials) attempting either themselves, or through another person or entity not participating in the procurement or selection process, to simulate competition or to establish prices at artificial, non-competitive levels, or are privy to each other's bid prices or other conditions.

(iv) “coercive practices” is impairing or harming, or threatening to impair or harm, directly or indirectly, any party or the property of the party to influence improperly the actions of a party[4];

(v) “obstructive practice” is

(aa) deliberately destroying, falsifying, altering, or concealing of evidence material to the investigation or making false statements to investigators in order to materially impede a Bank investigation into allegations of a corrupt, fraudulent, coercive, or collusive practice; and/or threatening, harassing, or intimidating any party to prevent it from disclosing its knowledge of matters relevant to the investigation or from pursuing the investigation, or

(bb) acts intended to materially impede the exercise of the Bank’s inspection and audit rights;

(b) will reject a proposal for award if it determines that the consultant recommended for award or any of its personnel, or its agents, or its sub-consultants, sub-contractors, services providers, suppliers, and/or their employees, has, directly or indirectly, engaged in corrupt, fraudulent, collusive, coercive, or obstructive practices in competing for the contract in question;

(c) will declare mis procurement and cancel the portion of the Loan allocated to a contract if it determines at any time that representatives of the Borrower or of a recipient of any part of the proceeds of the Loan were engaged in corrupt, fraudulent, collusive, coercive, or obstructive practices during the selection process or the implementation of the contract in question, without the Borrower having taken timely and appropriate action satisfactory to the Bank to address such practices when they occur, including by failing to inform the Bank in a timely manner they knew of the practices;

(d) will sanction a firm or an individual at any time, in accordance with prevailing Bank’s sanctions procedures[5], including by publicly declaring such firm or an ineligible, either indefinitely or for a stated period of time: (i) to be awarded a Bank-financed contract, and (ii) to be a nominated[6] sub-consultant, supplier, or service provider of an otherwise eligible firm being awarded a Bank-financed contract.

---

[4] For the purpose of this sub-paragraph, “party” refers to a participant in the selection process or contract execution.

[5] A firm or an individual may be declared ineligible to be awarded a Bank-financed contract upon (i) completion of the Bank’s sanctions proceedings as per its sanctions procedures, including inter alia: cross-debarment as agreed with other International Financial Institutions, including Multilateral Development Banks, and through the application of the World Bank Group corporate administrative procurement sanctions procedures for fraud and corruption; and (ii) as a result of temporary suspension or early temporary suspension in connection with an ongoing sanctions proceedings. See footnote 12 and paragraph 8 of Appendix 1 of these Guidelines.

[6] A nominated sub-consultant, supplier, or service provider is one which has been either (i) included by the consultant in its proposal because it brings specific and critical experience and know-how that are accounted for in the technical evaluation of the consultant’s proposal for the particular services; or (ii) appointed by the Borrower.

45.1	**Disputes shall be settled by arbitration in accordance with the following provisions:** 1. Selection of Arbitrators. Each dispute submitted by a Party to arbitration shall be heard by a sole arbitrator or an arbitration panel composed of three (3) arbitrators, in accordance with the following provisions: (a) Where the Parties agree that the dispute concerns a technical matter, they may agree to appoint a sole arbitrator or, failing agreement on the identity of such sole arbitrator within thirty (30) days after receipt by the other Party of the proposal of a name for such an appointment by the Party who initiated the proceedings, either Party may apply to *Council of Arbitrators, New Delhi* for a list of not fewer than five (5) nominees and, on receipt of such list, the Parties shall alternately strike names therefrom, and the last remaining nominee on the list shall be the sole arbitrator for the matter in dispute. If the last remaining nominee has not been determined in this manner within sixty (60) days of the date of the list, *Council of Arbitrator, New Delhi* shall appoint, upon the request of either Party and from such list or otherwise, a sole arbitrator for the matter in dispute. (b) Where the Parties do not agree that the dispute concerns a technical matter, the Client and the Consultant shall each

	appoint one (1) arbitrator, and these two arbitrators shall jointly appoint a third arbitrator, who shall chair the arbitration panel. If the arbitrators named by the Parties do not succeed in appointing a third arbitrator within thirty (30) days after the latter of the two (2) arbitrators named by the Parties has been appointed, the third arbitrator shall, at the request of either Party, be appointed by *Secretary, Council of Arbitration, New Delhi* (c) If, in a dispute subject to paragraph (b) above, one Party fails to appoint its arbitrator within thirty (30) days after the other Party has appointed its arbitrator, the Party which has named an arbitrator may apply to the *Secretary, Indian Council of Arbitration, New Delhi* to appoint a sole arbitrator for the matter in dispute, and the arbitrator appointed pursuant to such application shall be the sole arbitrator for that dispute. Note: All disputes between domestic consultant the proceeding shall be in accordance with Indian Arbitration Act, 1996.
	2. Rules of Procedure. Except as otherwise stated herein, arbitration proceedings shall be conducted in accordance with the rules of procedure for arbitration of the United Nations Commission on International Trade Law (UNCITRAL) as in force on the date of this Contract. For any dispute between a domestic consultant, the proceedings shall be in accordance with Indian Arbitration Act, 1996. 3. Substitute Arbitrators. If for any reason an arbitrator is unable to perform his/her function, a substitute shall be appointed in the same manner as the original arbitrator. 4. Nationality and Qualifications of Arbitrators. The sole arbitrator or the third arbitrator appointed pursuant to paragraphs 1(a) through 1(c) above shall be an internationally recognized legal or technical expert with extensive experience in relation to the matter in dispute and shall not be a national of the Consultant's home country *[If the Consultant consists of more than one entity, add:* or of the home country of any of their members or Parties*]* or of the Government's country. For the purposes of this Clause, "home country" means any of: (a) the country of incorporation of the Consultant *[If the Consultant consists of more than one entity, add:* or of any of their members or Parties*]*; or (b) the country in which the Consultant's [or any of their members' or Parties'] principal place of business is located; or

	(c) the country of nationality of a majority of the Consultant's [or of any members' or Parties'] shareholders; or (d) the country of nationality of the Sub-consultants concerned, where the dispute involves a subcontract.
	5. Miscellaneous. In any arbitration proceeding hereunder: (a) proceedings shall, unless otherwise agreed by the Parties, be held in a neutral venue or mutually agreed venue. (b) the English language shall be the official language for all purposes; and (c) the decision of the sole arbitrator or of a majority of the arbitrators (or of the third arbitrator if there is no such majority) shall be final and binding and shall be enforceable in any court of competent jurisdiction, and the Parties hereby waive any objections to or claims of immunity in respect of such enforcement.

IV. Appendices

APPENDIX A– TERMS OF REFERENCE

7.1 Background

i. The Government of India along with State and Local Governments is implementing several flagship Urban Missions for improving various aspects of urban development in Indian cities. An underlying goal of these initiatives is to make Indian cities more 'Liveable'. This will mean not only providing good quality core infrastructure and services, but also developing cities with ample opportunities for work, entertainment and cultural activities, improved social infrastructure and economic opportunity;

ii. In order to do this through a structured approach it is important to create a common minimum framework, which cities can use to assess their 'Liveability' and measure their progress over time. In this context, the Ministry of Housing and Urban Affairs has developed a set of 'Liveability Standards in Cities'. These will act as a guiding framework for cities to chart their pathway towards liveability and result in a systematic improvement in the quality of life of citizens in Indian cities. The draft 'Liveability Standards in Cities' as at http://smartcities.gov.in/upload/uploadfiles/files/LiveabilityStandards.pdf ;

iii. A total of 79 different Liveability Standards are proposed across 15 different categories. The Ministry proposes to conduct an 'Annual Assessment of Liveability in Cities' across the various standards and develop a 'City Liveability Index' – an annual index of the liveability standards in Indian cities. This is an ambitious national project requiring yearly compilation of a large number of datasets across the various Liveability Standards;

iv. A total of 116 cities will be covered in Year 1 (list of cities for Year 1 is provided at Annexure A), and the coverage of cities may be extended in subsequent years. The following classification of cities will be used for the purpose of the study

Classification*		**Population range**
1	Small Towns	Less than 50,000 population
2	Medium Towns	Population ≥ 50,000 < 5 lakh
3	Large Towns	Population ≥ 5 lakh < 1 million
4	Metropolitan Cities	Population ≥ 1 million < 5 million

5	Megapolis	Population ≥ 5 million

** Based on the Classification given in the URDPFI guidelines, 2014*

V. Given the magnitude of data collection and field surveys required, the MoHUA wishes to engage the services of a reputed national/international agency/institution for **Conducting a study and field survey of Liveability Standards** (the **'Assignment'**) across all cities included in the study. This will cover all relevant data required by the MoHUA for computing the 79 Liveability Standards. The data generated from the assignment will be used by the MoHUA for calculating the City Liveability Index of cities on an annual basis;

VI. The contract will be valid for activities in Year 1 (as defined in Clause 7.5) only.

7.2 *Objective of the Assignment*

i. Compile reliable and high quality data for all cities included in the study, as required by the MoHUA for the computation of Liveability Indexes and as prescribed in the 'Liveability Standards in Cities' document;

ii. Develop a robust electronic database of datasets that can be used to assess the progress of cities on an annual basis.

7.3 *Description of Tasks*

The Tasks to be performed and key activities under the assignment will include:

Initiation Activities

i. Conduct State-level workshops (1-day each) on behalf of MoHUA Cost for such workshops must be included in the proposal. The workshops shall achieve the following:

  a. Familiarise States and City governments regarding the overall programme, process that will be followed for data collection, and likely timelines;

  b. Provide State and City governments with a detailed list of data points needed, likely areas of support and information on how the cities should prepare for the surveys;

  c. Help in preparing a preliminary time-line for city meetings and field visits based on preferences indicated by states and cities;

ii. Conduct a Reconnaissance Study of all cities included in the project (as per Annexure A). The study shall inter-alia include:

   a. City-level kick-off meetings with key officials from City governments, Smart City SPVs, various departments and utilities, DISCOMs etc. for assessing data availability and sources, preferred timelines, key nodal officers etc.;
   b. Study of city demography, socio-economic stratification and geography that has a bearing on sample size and distribution;
   c. Study of existing reports, studies, alternative data sources etc.

iii. Prepare and submit to the MoHUA, an Inception Report (separate for all cities included in the study), including inter-alia the following:
   a. Detailed Plan of Action including likely sources of data, proposed field surveys, sample size and distribution, nodal officers etc.;
   b. Proposed timelines for city field visits as discussed and finalized with MoHUA and State/City governments;
   c. Specific survey and raw data collection formats for the 79 standards as finalized in discussion with MoHUA;

iv. Convey the finalized schedule and Plan of Action to cities allowing them to mobilise support for the activities. A Minimum of 15 days of preparation period must be given to cities before data collection and surveys;

Data Collection and Field Surveys

v. Mobilize Field Teams (with adequate and qualified manpower as indicated in Clause 7.6) for obtaining data required for all 79 Standards;

vi. Conduct field surveys for a statistically relevant sample as per nationally/internationally accepted standards for sampling size and distribution. The method for determining sample size and distribution should be as proposed in the bid during RfP stage and finalized in consultation with the MoHUA as part of the Inception Report;

vii. Maintain and submit all raw data and data collection forms to MoHUA without any editing and/or masking (including particulars such as names of respondents, exact address and contact details, date and time of survey, and GPS coordinates in case of samples taken for pollution etc.);

viii. Conduct analysis of the raw data through the Analytics Team ((with adequate and qualified manpower as indicated in Clause 7.6) and prepare aggregate data sets for all 79 standards for each of the cities adopting the methodology as prescribed in http://smartcities.gov.in/upload/uploadfiles/files/MethodologicalReportFinal.pdf

ix. Submit Draft City Assessment Report to the MoHUA (separate for each city), including inter-alia the following:

  a. Database of aggregate data in the format as mutually agreed

  b. All raw data and data sheets;

  c. Sources of data, assumptions (if any), record of discussions with key stakeholders, minutes of city kickoff meeting and other relevant documentation;

x. Submit Draft City Assessment Report to respective city and state governments for inviting comments and suggestions (if any). A period of 15 days shall be given to cities to submit their responses, after which the data will be deemed to be accepted by the city,

xi. Submit Final City Assessment Report to the MoHUA after including any recommendations of the MoHUA and after suitably incorporating any valid feedback received from cities/states with the approval of the MoHUA;

xii. Develop and maintain a digital database of all data sets collected every year for each city. The format should be finalized in consultation with the MoHUA and enable examination of raw data as well as aggregated numbers on a year-on-year basis;

Other support activities

xiii. Provide all necessary support to the NIUA or other reputed third-party agency(ies) appointed by the MoHUA for undertaking verification of the data submitted by the Consultant;

xiv. Provide any technical support as required by the MoHUA or its assigned team during the development of scoring sheets and city indexes for the various Standards;

xv. Conduct a National workshop (1-day) on behalf of MoHUA for disseminating the findings of the Ministry. Costs for the workshop must be included in the proposal.

7.4 *Results to be achieved*

The Assignment will result in the creation of a robust database (updated annually) of critical datasets across 79 different Liveability parameters in Indian Cities. This will form the basis for the Ministry to compute an annual City Liveability Index of cities. This can also act as a repository of critical data for encouraging research on cities in India.

7.5 *Timelines and Deliverables for Year 1**

Report	Time line	Documents	Deliverables and Contents
Inception Report	8 weeks from start date as per contract	Hard copies, and Electronic version	Separate for each city, including: a. Detailed Plan of Action, Minutes of state level workshops, , city meetings including likely sources of data, proposed field surveys, sample size and distribution, nodal officers etc.; b. Proposed timelines for city field visits as discussed and finalized with MoHUA and State/City governments; c. Specific survey and raw data collection formats for the 79 standards as finalized in discussion with MoHUA;
Draft City Assessment Report	12 weeks from start date as per contract	Hard Copies, and Electronic version	Separate for each city, including: a. Database of aggregate data in the format as mutually agreed. b. All raw data and data sheets; c. Sources of data, assumptions (if any), record of discussions with key stakeholders, minutes of city kickoff meeting and other
Final City Assessment Report	20 weeks from start date as per contract	Hard Copies, and Electronic version	Separate report for each city. The Reports should include all recommendations of the MoHUA on the Draft Reports. The Report should also incorporate any valid suggestions/feedback received from cities/states with the approval of the MoHUA.

***** Timelines for subsequent years will be as decided by MoHUA

7.6 *Team Composition and Qualification Requirement for key Experts*

a. **Team (full-time):** Given that the assignment requires a deep understanding of the urban sector, as well as of economics, statistics and field studies, the Team Leader and the Core Team of experts must have suitable skills for undertaking the assignment and successfully completing the tasks enumerated. The Team Leader should bring to the table a strong mix of academic accomplishments, urban sector experience and experience of leading similar national/international assignments.

b. **Analytics Team (full-time):** should be manned with experts capable of analysing large data sets, checking and correcting for errors and inconsistencies, development and management of digital databases and preparation of reports. The team should therefore include adequate number of IT specialist(s), database management/ MIS expert(s), urban economics/planning specialists for **Core** data analysis and verification.

c. **Field Teams per city:** should be manned with adequate number of persons (depending upon city size, stratification and geography) capable of conducting field surveys and extracting credible secondary data from various city/state departments and utilities. Each team should therefore include adequate number of qualified urban professionals for extracting secondary data from various sources, persons with market/field research experience and data processors/ data entry operators. Each team should be led by a suitably experienced Urban Specialist (Urban Planner/ Urban Economist) with at least 10 years of experience in the urban sector and at least 5 years of experience in secondary and primary data collection and analysis. The Core Team proposed should be able to demonstrate the qualifications and experience as prescribed in table below:

7.7 *Core Team (CV to be evaluated)*

Position	**Minimum Qualifications & skills**	**Minimum Experience**
Team Leader	Qualification - Bachelor's Degree in Engineering/Architecture/Planning/Economics/Management with post-graduate degree in Planning/Management or equivalent from a recognized University In-depth knowledge of all aspects of urban sector, including governance-related, socio-economic, environmental and engineering aspects Proven academic credibility in terms of published papers, articles etc. Experience of leading national level urban research assignments Experience of leading	At least 20 years of which at least last 10 years must have been for the Urban Sector
Urban Management Specialist/ Planning Expert	Bachelor's Degree in Engineering/Architecture/Planning with post-graduate degree in Management or equivalent from a recognized University Good knowledge of urban sector Experience of playing a core role in similar national/international data collection and ranking assignments	At least 15 years of experience in the Urban Sector
Market Research Specialist	Master's Degree in Management from a recognized University Good knowledge of mobilization and organization for market research Experience of leading national/international field research assignments	At least 15 years of which at least last 7 years must have been in the field of Market Research
Statistician	Master's Degree in Statistics from a recognized University Good knowledge of urban data sources and urban data analysis Experience of statistically designing and managing sample surveys	At least 15 years of which at least last 5 years must have been for the Urban Sector

7.8 *TA management and counterpart staff*

The assignment will be contracted by the MoHUA (erstwhile MOUD) for carrying out the assignment.

Items to be provided by the MoHUA

a. The MoHUA will set up a Coordinating Team at the national level for providing guidance and support to the Core Team for executing the assignment;
b. Provide support for organizing various State and city level workshops and meetings;.
c. Provide feedback from time to time for finalizing deliverables;
d. Set up a monitoring system for timely validation of data and finalization of aggregate data.

Items to be provided by the agency

In addition to the results and deliverables listed above, the Consultant will:

a. Provide for all manpower, materials and equipment necessary for carrying out the assignment;
b. Provide all resources for report production and necessary translations;
c. Provide all Computers and software required by the teams for carrying out the tasks;
d. Arrange for all transportation and travelling required for the teams including Investigations.

Annexure A: List of Cities

Sl. No.	Name of State	Name of City	Population
1	Andaman Nicobar	Portblair	1,40,572
2	Andhra Pradesh	Kakinada	3,12,538
3	Andhra Pradesh	Visakhapatnam	17,28,128
4	Andhra Pradesh	Tirupati	2,87,482
5	Andhra Pradesh	Amaravati	1,03,000

Dear G. Vijay Kumar;

India-P099979: Capacity Building for Urban Development Project , Ln./Cr # IDA-49970
No-Objection to Combined Evaluation Report and Draft Negotiated Contract for Selection of Consulting Services for Assessment of Liveability indeax for 116 cities in India – Quality And Cost-Based Selection – Reference No. IN-MOUD-27866-CS-QCBS

We have reviewed the combined technical and financial evaluation report and the draft negotiated contract for the above-mentioned consultancy service received on 2018/01/19. Subsequently, Bank had raised certain queries on the draft contract through email dated 23rd Jan. 2018 which were clarified through email dated 6th February, 2018. Based on the clarifications and information provided through email dated 6th Feb. 2018 and 7th Feb. 2018, the Bank has no objection to your signing the draft negotiated contract, **subject to Bank's INT teams clearance on The Economist Group**, as follows:

Contract Description	Name of Consultant/Firm	Country	Currency	Amount
Selection of Consulting Services for Assessment of Liveability indeax for 116 cities in India	ATENA INFONOMICS INDIA PRIVATE LIMTED	India	INR	109,428,200.00
	IPSOS RESEARCH PRIVATE LIMITED	India		
	THE ECONOMIST GROUP LIMITED	United Kingdom		

Please forward a copy of the signed contract to the Bank prior to requesting or making any payments under this contract.

In accordance with the requirements in the applicable Regulations please publish the contract award information within the two weeks. For instructions on the specific publishing requirements, you may refer to the Bank's Procurement Notices webpage.

Contract award notices will be automatically published in UNDB Online and the World Bank's external website

Best Regards,

Vasudha Thawakar

Subject: About The Economist Group

Dear sir,

Please refer to our discussions.

The Economist Intelligence Unit (EIU) is a business within The Economist Group. It is a highly reputed organization and working with many esteemed organizations in the world. More information about the organization can be accessed at www.eiu.com. The attached affidavit also confirms that they are not blacklisted anywhere.

We are not aware of organizations named Economic Consulting Group, UK or Economic Consultancy Associates, UK. These appear to be different organizations and not connected to our partner EIU.

Thanks and regards,

Parijat Chakraborty| *Executive Director - Ipsos Public Affairs and Loyalty*

Technical Submission Proposal Form

TECH-1: TECHNICAL PROPOSAL SUBMISSION FORM

New Delhi, 26th December 2017

To:

Shri G. Vijay Kumar,
Under Secretary,
Ministry of Housing and Urban Affairs (MoHUA)
202-C, Nirman Bhawan,
Maulana Azad Road,
New Delhi.
Telephone: 011-23063217
E-mail: g.vijaykumar@nic.in and g.vijaykumar.moud@gmail.com

Dear Sir:

We, the undersigned, offer to provide the consulting services for Selection of Consulting Firms for Assessment of Liveability Indices for 116 cities in India in accordance with your Request for Proposals dated 27th November 2017 and our Proposal.

We are submitting our Proposal a joint venture with: Ipsos Public Affairs with legal address at Lotus Corporate Park, 1701, 17th Floor, F Wing, Off Western Express Highway, Goregaon East, Mumbai 400 063, India as lead member and Athena Infonomics India Private limited with legal address at 15 Arcot Street, T. Nagar, Chennai, Tamil Nadu – 600 017, India as Associate Member. We have attached a copy of our letter of intent to form a joint venture signed by every participating member, which details the likely legal structure of and the confirmation of joint and severable liability of the members of the said joint venture.

And

We are submitting our Proposal with the following firms as Sub-consultants: The Economist Group Limited having its registered office at 20 Cabot Square, London, E14 4QW, United Kingdom

We hereby declare that:

a) All the information and statements made in this Proposal are true and we accept that any misinterpretation or misrepresentation contained in this Proposal may lead to our disqualification by the Client and/or may be sanctioned by the Bank.
b) Our Proposal shall be valid and remain binding upon us for 90 days (the period of time specified in the Data Sheet, Clause 12.1).
c) We have no conflict of interest in accordance with ITC 3.
d) We meet the eligibility requirements as stated in ITC 6, and we confirm our understanding of our obligation to abide by the Bank's policy in regard to corrupt and fraudulent practices as per ITC 5.
e) In competing for (and, if the award is made to us, in executing) the Contract, we undertake to observe the laws against fraud and corruption, including bribery, in force in the country of the Client.]
f) Except as stated in the Data Sheet, Clause 12.1, we undertake to negotiate a Contract on the basis of the proposed Key Experts. We accept that the substitution of Key Experts for reasons other than

those stated in ITC Clause 12 and ITC Clause 28.4 may lead to the termination of Contract negotiations.

g) Our Proposal is binding upon us and subject to any modifications resulting from the Contract negotiations.

We undertake, if our Proposal is accepted and the Contract is signed, to initiate the Services related to the assignment no later than 15th January (the date indicated in Clause 30.2 of the Data Sheet).

We understand that the Client is not bound to accept any Proposal that the Client receives.

We remain,

Yours sincerely,

About the Joint Venture and Sub Consultant

Ipsos India's Public Affairs team, together with Athena Infonomics India Private Limited, and Sub Consultant The Economist Intelligence Unit Limited are pleased to submit their request for proposal for providing consulting services for Assessment of Liveability Indices for 116 cities in India by the Ministry of Housing and Urban Affairs. As a consortium, we possess a comprehensive understanding of national and global learnings from liveability studies. Collectively, we have carried out over 10,000+ studies in urban areas on a range of subjects, including: Infrastructure and Public Services (showcasing a blend of global and national perspectives on Urban Development and Governance), Data Analytics, Indices creation, Monitoring and Evaluation and undertaking large scale quantitative and qualitative surveys. The consortium possesses vast knowledge and experience of using a wide range of data collection and analysis, both primary and secondary data. Our data collection methods range from PAPI (Pen and Paper Interview), CATI (Computer Assisted Telephonic Interview), CAPI (Computer Assisted Personal Interview), rapid ethnographies, mobile based surveys, stakeholder consultations, third party audits of infrastructure, participatory assessment methods, and workshops:

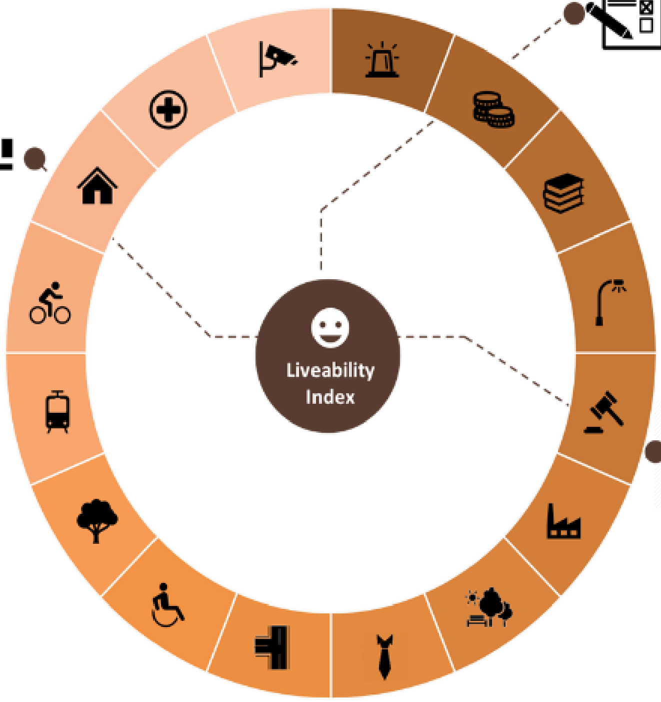
- Ipsos (Lead Member): Ipsos has a long-held reputation of carrying out surveys that capture citizen perceptions. It has a pan India presence (22 offices in strategic locations), accompanying infrastructure (2800+ tablets for digital data collection), human resource (3500 investigators familiar with language, geography, and experienced in data collection), and the technical and managerial capability (presence of a strong analytics team of 30+ staff, 300+ researchers) in India to deliver this assessment according to global standards. Their technical expertise includes research design, probability sampling procedures, survey instrument, design survey management, qualitative methodologies and using technological innovations to ensure timeliness, efficiency and quality of the data collected.

- Athena Infonomics (Associate Member): Athena Infonomics employs rigorous quantitative and qualitative assessments applying state of-the-art tools and methodologies from social science and statistics to answer urban governance challenges. Its portfolio of tools and methods include: qualitative comparative assessment, cost benefit and cost effectiveness analysis, experimental methods, participatory impact assessments, systems assessment tools, social impact measurement tools, spatial data analysis, Computer Assisted Personal Interviewing (CAPI), online and offline survey implementation among others.

- **The Economist Intelligence Unit (Sub Consultant):** The Economist Intelligence Unit possesses technical expertise in economic, political and social demographic forecasting, bespoke modelling and scenario analysis, country and city forecasting and location benchmarking.

The key strengths of our submission as partners are summarised in the table below.

Knowledge of Thematic area	Ipsos	AIIPL	EIU
Staff having experience of carrying out similar assignments and having performed tasks related to the assignment	🟨	🟨	🟨
Large scale projects for Central/ State governments/ departments, para-statals, ULBs and multilateral agencies	🟨	🟨	🟨
Experience in implementing urban studies in the areas of water, health, education, transportation etc.	🟨	🟨	🟨
Data Interoperability & Policy Convergence		🟨	🟨
Experience of Applicant in development of indices, preparation of national/international reports		🟨	🟨
Strong Market Research Infrastructure & Resource Network	🟨		
Digital data collection- use of tablets and mini laptops	🟨	🟨	
In house team of statisticians and analysis managers and executives	🟨	🟨	🟨
Quality Assurance processes	🟨	🟨	🟨
Global Outreach	🟨		🟨
Strategic Branding			🟨



Data generation

- *IPSOS* has vast experience undertaking large scale surveys (both quantitative and qualitative) across multiple sectors
- *IPSOS* also has expertise in advanced survey design, data collection and data management
- *Athena Infonomics* also specializes in large data collection including behavioural aspects such as satisfaction, perception attitudes etc.

Indicator development

- *EIU* has proprietary methodologies for benchmarking and indexing
- *EIU* also has strong expertise in qualitative and quantitative data, and weighting it together to conduct multi-dimensional comparisons
- *Athena Infonomics* specializes in developing indicators using a minimalistic data approach

Data analysis and Management

- *Athena Infonomics* has the technical expertise in quantitative and qualitative data analysis, data management
- *Athena Infonomics* also bring in the capacity to deliver integrated services all through a project value chain, including data collection, information analysis, capacity building and evaluation
- *IPSOS* specialises in CAPI, CATI. Rapid ethnographies, mobile based surveys, etc.

Dissemination through Media

- EIU has developed dissemination platform called “The Hub” @ Economist
- Engage with international and national media

Ipsos Research Private Limited – Lead Member

Ipsos is the third largest survey-based market research company in the world. Ipsos Public Affairs is a specialized unit (WSBL) of Ipsos and focuses exclusively on social and development research. Ipsos is also rated as the second most innovative market research company per the GRIT Report 2017.

Ipsos Public Affairs teams around the world conduct research on public policy issues and on the attitudes and behaviors of citizens and consumers. Ipsos Public Affairs in India is organized around the two major disciplines: Social and Developmental Research and Corporate Reputation. As part of their social research and evaluation specialization, they have undertaken more than 300+ research studies in India, including quantitative, qualitative, and participatory research over 17 + years of their operations in India. Generating new hypotheses and exploring landscapes with a relevant lens is key to any exploratory exercise and program's success. Thus, with its strong and experienced team, Ipsos Public Affairs India have delivered high quality outputs to its clients in various domains. These outputs not only validated the true situation on ground but helped client build and test various hypothesis which they were unaware of at the designing stage. Ipsos Public Affairs India's technical expertise in Baseline, Midline and End Line Studies, Participatory Rural Research, Mind Mapping, in–Depth Interviews, ethnographies, Exploratory and Formative Research, Communication Designing and Evaluation studies etc. have been use in different contexts to bring out actionable insights. Thematic areas of its experience include Public Health, Water, Sanitation & Hygiene (WASH), Education, Gender etc.

Ipsos Public Affairs India has extensive experience of working with the central and state ministries, government departments and national and international non-governmental organizations in the social and international development sector.

Ipsos Public Affairs India provides clients with information that helps them understand how they can build efficient and effective policies, programs, communications strategies, and marketing initiatives. In India, Ipsos Public Affairs has worked on a range of social policy issues that includes public health, WASH, education, gender, governance, micro finance, using quantitative survey methods, qualitative and participative approaches, and mixed methods. Ipsos is an ISO 20252 certified company for both research and field (Enclosed Certification) that requires that all processes are carried out in accordance with standards laid out in ISO 20252:2012[1]

We have invested significantly in digital data collection mode and have transitioned from pen and paper mode to CAPI. Over 90% of our data collection is CAPI (Computer Aided Telephonic Interviews). The

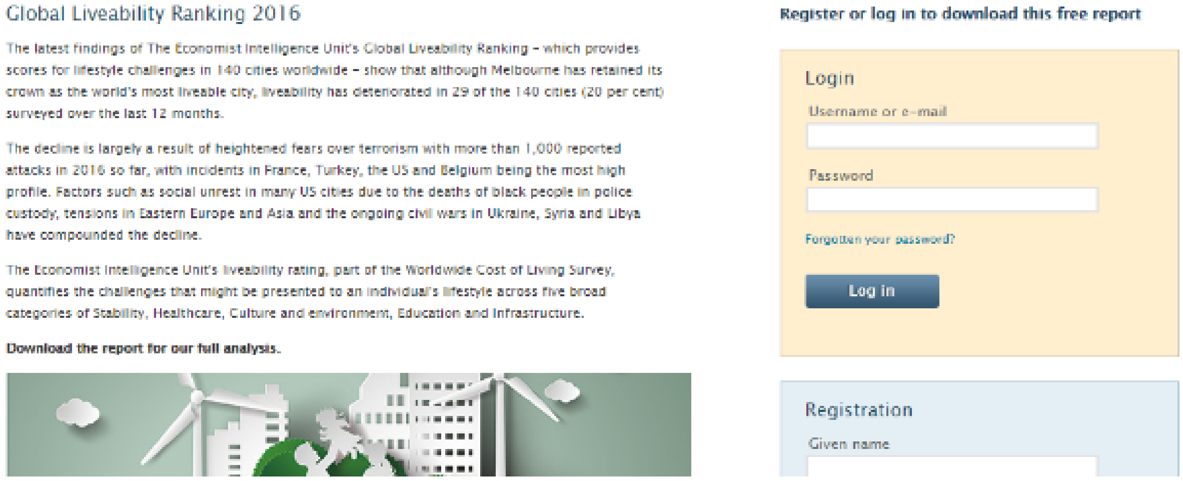
The Economist Group Limited – Sub Consultant

The Economist Group is the leading source of analysis on international business and world affairs. They deliver information through a range of formats, from newspapers and magazines to conferences and electronic services.

What ties Economist together is the objectivity of their opinion, the originality of their insight and their advocacy of economic and political freedom around the world.

The Economist Intelligence Unit (EIU) is the research and analysis division of The Economist Group and the world leader in global business intelligence. Its extensive international reach and unfettered independence make it the most trusted and valuable resource for international business throughout the world. To meet the changing needs of today's organisation, the Economist Intelligence Unit is uniquely able to deliver its analysis online or in print, via webcast or face-to-face, through subscription services or custom research. EIU has pioneered the design and development of the Worldwide Cost of Living Index and the Global Liveability Index. A snap shot of the EIU Global Liveability index is presented below:

EIU's Global Liveability Ranking



Global Liveability Ranking 2016

The latest findings of The Economist Intelligence Unit's Global Liveability Ranking – which provides scores for lifestyle challenges in 140 cities worldwide – show that although Melbourne has retained its crown as the world's most liveable city, liveability has deteriorated in 29 of the 140 cities (20 per cent) surveyed over the last 12 months.

The decline is largely a result of heightened fears over terrorism with more than 1,000 reported attacks in 2016 so far, with incidents in France, Turkey, the US and Belgium being the most high profile. Factors such as social unrest in many US cities due to the deaths of black people in police custody, tensions in Eastern Europe and Asia and the ongoing civil wars in Ukraine, Syria and Libya have compounded the decline.

The Economist Intelligence Unit's liveability rating, part of the Worldwide Cost of Living Survey, quantifies the challenges that might be presented to an individual's lifestyle across five broad categories of Stability, Healthcare, Culture and environment, Education and Infrastructure.

- December 2009	Brief description of main deliverables: Summary of key tasks delivered by us included drawing village lay out maps, sampling, recruitment and training of field team, canvassing of schedules in 2 states using iPAQs, uploading data periodically and providing data for fact sheets. Output: Conducted a quantitative household survey done in state of Manipur and Nagaland. In each state 30 urban and 30 rural clusters were selected, A Post listing of all HHs that provided the sampling frame, total 3000 households were selected where interviews were completed. In each HHs adult members were surveyed. It was the first time, IIPS has introduced digital data collection and IPAQ were used for data collection	Health & Family Welfare Country of Assignment: India		
May 2014 - Mar 2015	Assignment name: Endline survey on quality of care, Patient Satisfaction Survey and utilisation of services in secondary hospitals of Tamil Nadu Brief description of main deliverables: Overall design of the endline surveys, developing of data collection tools, recruitment and training of qualified staff for data collection, data collection at hospital, analysis and submission of an analytical report Output: Conducted in all districts of Tamil Nadu, except Chennai. In each district of the state, 1 district head quarter hospital, 2 taluk Hospitals and 1 Non-Taluk hospital were covered, designed as a quantitative study that	Name of Client: Tamil Nadu Health Systems Project (TNHSP) Country of Assignment: India	30,923 USD/ 30,923 USD	Lead and Sole Member

	included structured interviews with the patients (in patients and out patients) at the facility as well as with the health functionaries, Interviewed a total of 4500 patients and community members.			
	Assignment name: Investment Region Assessment Brief description of main deliverables: Conducted an in-depth analysis of industries which should be a part of a 200 sq.km smart city, Assessed regional and location strengths and constraints and analyze the investment climate with respect to existing resources and industry sectors. Output: Industry index was prepared to arrive at the top industries for the investment region, From the analysis of key strengths of the investment region, existing and future high growth industries, discussions with domestic and multinational companies and benchmarking with global hubs following focus industry mix was suggested for the investment region.	Name of Client: Delhi Mumbai Industrial Corridor in collaboration with Halcrow Country of Assignment: India	3,09,230 USD/ 3,09,230 USD	Lead and Sole Member
December 2011 - November 2012	Assignment name: EU-wide survey on women's well-being and safety in Europe Brief description of main deliverables: Carried out the first EU-wide survey on women's well-being and safety in Europe - involving interviews with 42,000 women. The FRA survey filled the gap by interviewing 40,000	Name of Client: European Union Agency for Fundamental Rights (FRA)	26,39,230 USD/ 26,39,230 USD	Lead and Sole Member

	women across the 27 EU Member States. Output: The results of the project were presented in 2013, through a range of various products and channels, to inform FRA stakeholders and the general public about the outcomes of the full-scale survey in the EU27 and Croatia.	Country of Assignment: EU28 countries		
January 2014 August 2014	Assignment name: EU-MIDIS II Brief description of main deliverables: Collected comparable data in all 28 EU Member States to support the EU in protecting the fundamental rights of people with an immigrant or ethnic minority background, including Roma. It also aimed to populate core indicators for measuring progress in the implementation of the EU Framework for National Roma Integration Strategies as well as selected indicators on immigrant integration. The survey covered topics such as experiences of discrimination in different areas of life (labour market, education, housing, health and other services), criminal victimisation (including hate crime), social inclusion and societal participation Output: Ipsos coordinated and delivered this survey covering a sample 25515 interviews that were completed in 28 counties among target groups that	Name of Client: European Union Agency for Fundamental Rights Country of Assignment: EU 28 countries	32,12,459 USD/ 32,12,459 USD	Lead and Sole Member

	included Immigrants from North Africa and their descendants (North African), Immigrants from Asia and their descendants (Asian), Immigrants from South Asia and their descendants (South Asian), Immigrants from Turkey and their descendants (Turkish), Sub-Saharans and persons of African descent (Sub-Saharan African), Recent Immigrants, Roma, and Russian minorities.			
September 2009 - November 2009	Assignment name: Citizen satisfaction survey - municipal development - South West Serbia Brief description of main deliverables: Ipsos Strategic Marketing conducted F2F survey, on a representative sample of citizens of 8 municipalities in South West Serbia (N= 1770 in total). Specific tasks of Ipsos included conceptualisation of the analysis framework, tool development, recruitment and training of team, data collection, analysis and report submission. Output: The specific purpose of the project is to develop capacities of local stakeholders and local governments so that municipalities in South West Serbia, individually and jointly, plan and take strategic action to achieve the sustainable economic and social development of the region and to fulfil their obligations to citizens.	Name of Client: UNDP Country of Assignment: Serbia	11,630 USD/ 11,630 USD	Lead and Sole Member

April 2013 - June 2014	Assignment name: Implementation of an employer survey on skills needs in Europe Brief description of main deliverables: Surveyed on skills needs which will help to better understand the labour market and contribute towards the further development of vocational education and training policies across Europe. The Phase 1 of the study involved an extensive testing and piloting. Output: Using a random probability sampling technique which helped to access a representative sample of employers in local establishments across the whole economy.	Name of Client: CEDEFOP Country of Assignment: EU28	2,98,496 USD/ 2,98,496 USD	Lead and Sole Member
1/09/2015 1/05/2016	Assignment name: Urban Citizen Dialogue Brief description of main deliverables: Ipsos MORI carried out three face-to-face day-long public dialogue workshops which focused on possible future outcomes of six urban systems (energy, food, health, transport, waste and water) to understand citizen preferences. Output: All participants were then invited to a central reconvened summit where we brought together all six systems into integrated future scenarios. Experts in futures, urban integration or the specific systems actively participated in these events. Before and after the summit, we ran an online community including all	Name of Client: Innovate UK Country of Assignment: UK	13,26,89USD/ 13,26,89USD	Lead and Sole Member

	workshop participants, and 350 members of the public. The community activities covered system outcomes, integrated scenarios, technologies, and their future hopes for the UK's cities.			
June 2016 December 2016	Assignment name: Community Attitudes to Melbourne's Suburbs Brief description of main deliverables: Undertook a research project into Community Attitudes to Suburbs across Melbourne with the aim of furthering understanding of the pressures facing citizens and families within specific suburban areas. Output: Computer Assisted Telephone Interviewing (CATI) was used to administer the survey to n=1,000 Melburnians across 12 clusters of similar, and similarly located suburbs. A dual frame approach of Random Digit Dialling (RDD) landline and mobile phones was used (50% RDD; 50% mobile) Of the n=1,000 Melburnians who completed the survey, 68% were open to being re-contacted. Ipsos re-contacted 40 of these Melburnians (a mixture of young and older Victorians, parents and single people, those from high and low growth suburbs) to engage in bottom-up stories about what it was like to live in their suburb. These stories – populated throughout the report – often directly reference the	Name of Client: State Department of Environment, Land, Water and Planning Country of Assignment: Australia	77,084 USD/ 77,084 USD	Lead and Sole Member

	items of most importance identified through the quantitative research.			
Athena Infonomics India Private Limited				
September 2015 - October 2016	Assignment name: Market Potential Study: Mapping the Opportunity and Providing Recommendations in Facilitating Finance for Women Entrepreneurs in Bangladesh Brief description of main deliverables: Mapped the potential opportunity in facilitating finance to women SMEs in Bangladesh and estimate the current financing gap, developed comprehensive sectoral knowledge of the ecosystem, Identified the major challenges faced by women SME entrepreneurs in availing finance from financial institutions, identified key areas of focus, which could improve financing for women SME entrepreneurs Output: Extensive Literature Reviewed, Women Enterprise Survey carried out with 500 women SME entrepreneurs sampled from Bangladesh's seven administrative selections (and 12 cities)- Dhaka, Tangail, Gazipur, Rajshahi, Bogra, Rangpur, Chittagong, Comilla, Khulna, Jessore, Barisal and Sylhet., In-depth interviews were conducted with financial institutions and various stakeholders engaged in SME financing, Estimated the Finance Gap	Name of Client: International Financial Corporation, World Bank Country of Assignment: Bangladesh	45,525 USD/ 25,000 USD	Lead Member: Athena Infonomics Partner Member: NARI & Matrix Business Development

January 2015 -June 2015	Assignment name: Sustainability oriented financial services and products – Analysis of current loan products and government financing schemes for women entrepreneurs in the MSME sector Brief description of main deliverables: A systemic understanding of current lending patterns to women owned MS, get provider perspectives on the efficacy of support schemes and the issues in administration of loans to women entrepreneurs, Understand the issues faced by women who own MSMEs, in accessing credit and their awareness of support schemes Output: Extensive Literature Reviewed, Assessed Demand Side Constraints by surveying 110 women entrepreneurs across six key cities in the country - Delhi, Mumbai, Chennai, Bangalore, Ahmadabad and Hyderabad. The business survey focused on understanding the characteristics, growth potential, financial requirements and sources of finance and supply of credit for women led MSMEs., The evidence generated by the survey was used to draft policy and strategic recommendations to increase credit access for women entrepreneurs	Name of Client: Deutsche Gesellschaft fuer Internationale Zusammenarbeit (GIZ Country of Assignment: India	27,600 USD/ 27,600 USD	Lead and Sole Member
September 2015 - January 2016	Assignment name: Preparation of Proposals for assisting Tirunelveli Municipal Corporation and Vellore Municipal Corporation to participate in the Smart Cities challenge	Name of Client: Tirunelveli City Municipal Corporation,	45,000 USD/ 22,500 USD	Lead Member: Shah Technical Consultants Associate Member: Athena Infonomics

	Brief description of main deliverables: As cities compete in the SCM, consulting support was envisaged to hand-hold cities in identification of innovative and viable smart solutions following a bottoms-up approach with citizens at the centre of the solutions. Output: Collected city level data on GDP, industry composition, ULB service delivery, infrastructure availability among others , Developed a people-driven participatory research framework that calls for active participation of Residents Welfare Associations, Tax Payers Associations, Senior Citizens, Chamber of Commerce and Industries, Slum Dwellers Associations and other groups,Developed research instruments and conducted citizen satisfaction survey for the identification of issues, needs and priorities in line with the smart cities vision. A three-layered engagement strategy (Capture-Investigate-Validate & Disseminate) was deployed to ensure that citizens are meaningfully engaged to provide inputs on the city's vision and goals. Over 3.8 lakh citizens with a focus on low-income groups were engaged as part of the smart cities planning process in Vellore alone. A combination of online google forms, direct interviews using a mobile app, WhatsApp and social media channels were deployed for the outreach activities.	Vellore Municipal Corporation and Ministry of Urban Development Country of Assignment: India		

February 2014 - Sept 2015	Assignment name: Consultancy Services to develop methodology for ranking urban local bodies (ULBs) based on their quality of service deliveries and conduct Quarterly Performance assessment of services delivered by 665 ULBs in Tamil Nadu Brief description of main deliverables: Develop and implement a comprehensive performance assessment framework to enable the Government to evaluate and rank 664 Municipalities, Municipal Corporations and Town Panchayats on a range of urban infrastructure and governance themes such as poverty levels, public health, sanitation, SWM, urban water supply etc Output: Designed a detailed data driven methodology to assess ULB performance, identified a comprehensive set of parameters - 110 quantitative and qualitative metrics (KPIs) covering the main functions (devolved to the ULBs in Tamil Nadu from the 12th Schedule of the Constitution) to design the assessment framework. The parameters considered are: Financial Management, Water Supply, Solid Waste Management, Sanitation, Public Health, Street Lights, Poverty Alleviation and Special Initiatives, designed a detailed survey tool and developed a comprehensive analytical framework to score the 665 ULBs both quantitatively and qualitatively, Developed an automated dashboard	Name of Client: Commissionerate of Municipal Administration, Government of Tamil Nadu Country of Assignment: India	76,675 USD/ 76,675 USD	Lead and Sole Member

	– tool that processes the data, calculates the score and visually represents the results			
April, 2015 December, 2015	Assignment name: Consumer Research in Sanitation in the State of Uttar Pradesh Brief description of main deliverables: Identify factors that influence sanitation behaviors (such as open defecation), and identify the most trusted and appropriate channels of communication. The study will inform the Government of Uttar Pradesh in designing its state sanitation marketing and communication strategy. Output: Developed a comprehensive sampling plan for qualitative (600 Focus Group Discussions and In-Depth Interview in 15 districts) and quantitative research (5400 quantitative interviews in 18 districts spread across the State) taking into account agro-climatic aspects, distance from state capital and backwardness of the districts, Designed field guides across 16 cohorts based on socio-economic classification, age, gender etc. ,Conducted training of the moderators and surveyors to implement the qualitative and quantitative research on domain knowledge, technical knowledge, research ethics using audio-visual aids and interactive tools including	Name of Client: World Bank Country of Assignment: India	1,02,965 USD/ 51,482 USD	Lead Member: Athena Infonomics India Private Limited Associate Member: Gorakhpur Environmental Action Group (GEAG)

	screening and evaluation of field staff, Data monitoring and analysis			
July 2013 - March 2015	Assignment name: Post Award Governance strategies for PPPs in India Brief description of main deliverables: Evaluate the factors impacting project performance 'post-award' of a PPP project and develop a framework to enhance sustainability. Output: Developed a 'Post-Award' Governance framework through in-depth research of 9 PPP projects in India across sectors of urban water supply, municipal solid waste management and urban transport, prepared of a National Report which was released by the Niti Aayog at a national conference that had representation from the Ministry of Urban Development, Department of Economic Affairs and British High Commission	Name of Client: British High Commission Country of Assignment: India	1,68,390 USD/ 1,68,390 USD	Lead and Sole Member
July 2016- 2016	Assignment name: Hiring Firm Strengthening Municipal and National Government Capacity to Deliver Pro-poor, Climate Sensitive Urban Development Brief description of main deliverables: Carried out investigation into current practices under four themes namely i) Policy and Legislation ii) Institutional Roles & Capacities (with special emphasis on data capture and utilization maturity) iii) Municipal Financing and iv) Community	Name of Client: UNDP Bangladesh Country of Assignment: Bangladesh	72,820 USD/ 72,820 USD	Lead and Sole Member

	Participation structures in Urban Planning and Development from the perspective of their impact on climate and the poor and identify key gaps; Urban Planning and Development from the perspective of their impact on climate and the poor and identify key gaps Output: Prepared a National Report on "Strengthening Municipal & National Government Capacity to deliver pro-poor climate sensitive urban development that detailed key drivers of urban poverty in Bangladesh, solution pathways to address them and a potential set of indicators (spatial and non-spatial) that could be integrated into the overall monitoring, learning and evaluation module of the Programme			
Phase I: August 2013 - November 2013 Phase II: December 2013 - May 2014	Assignment name: Accelerating Women Entrepreneurship in Karnataka: A Roadmap to 2020 Brief description of main deliverables: Evaluated the entrepreneurial ecosystem and identify major challenges being faced by women entrepreneurs, to formulate a roadmap, outlining the various programs and policies required to facilitate women's entrepreneurship Output: Phase I: 200 face to face structured surveys with Women Business Enterprises in Bangalore ,50 qualitative interviews with male entrepreneurs, government agencies,	Name of Client: Deutsche Gesellschaft fuer Internationale Zusammenarbeit (GIZ) Country of Assignment: India	55,000 USD/ 22000 USD	Lead Member: Athena Infonomics Associate Member: Phase I: WE Connect International and Quantum Leaps Phase II: e-MERG

	business associations, financial institutions and investors; Phase II: 250 structured interviews with women entrepreneurs across 9 cities in Karnataka ,25 qualitative interviews with Government, business associations, NGOs and other stakeholders, Multi-stakeholder conference in Hubli and Mysore. Constructed a Women Entrepreneurial Environment Index (WEEI) in bot Phase I and II			
April 2013 - July 2013	Assignment name: The National Customer Satisfaction Survey-Rwanda Brief description of main deliverables: Carried out a customer satisfaction survey with an aim to track the progress of national customer service from the previous survey that was carried out by OTF, to serve as a common basis for customer care improvement in Rwanda and develop a strategic policy and assess the initiatives to promote excellence. Output: Survey was carried out across three urban centers – Kigali, Huye and Musanze covering national of Rwanda, and EAC – Burundi, Kenya, Uganda and Tanzania, produced a robust data set and carried out statistical analysis of data collected through Chronbach's alpha	Name of Client: Rwanda Development Board Country of Assignment: Rwanda	90,000 USD/ 40,000 USD	Lead Member: RUMA CPA Associate Member: Athena Infonomics
August 2012 - April 2013	Assignment name: Tamil Nadu Skill Gap Assessment Brief description of main deliverables: Undertook a detailed district-level skill	Name of Client:	29,230 USD/ 29,230 USD	Lead and Sole Member

	gap analysis for the state of Tamil Nadu Output: On identification of the skills gaps and opportunities, recommendations were presented for each key stakeholder including government, industries, skill training institutes and NSDC to bridge the gap, Policy actions were proposed based on detailed analysis of current policies and the findings of the study.	National Skill Development Corporation Country of Assignment: India		
Economist Intelligence Unit (Sub Consultant)				
2009 - Current	Assignment name: EIU Global Liveability Ranking Brief description of main deliverables: The Economist Intelligence Unit's Global Liveability Ranking scores a range of qualitative and quantitative indicators to provide a robust and global benchmarking study of 140 cities globally. The product uses over 40 indicators in 30 subcategories across five broad lifestyle categories (stability, healthcare, culture, education and infrastructure) to create an overall liveability score. The product takes three forms: Global Liveability Ranking and overview, which is a short ranking report summarising key findings and supplying an overall ranking of 140 cities; the Global Liveability Survey, a full report with 140 city profiles broken down by sub-category (which can be sold separately); and lastly the Global Liveability Matrix, an interactive excel	Name of Client: Multiple (based on paid access to the database) Country of Assignment: Multiple	N/A/ N/A	Lead and Sole Member

	tool to compare all scores in all locations. Output: Data gathering (quantitative and qualitative indicators by country) & quality control Desktop research (vetting and triangulation of data; supplementary analysis of overall survey findings) ; Data analysis (analysis and sense check of datasets based on objective of the assignment, along with quality-assurance checks for comparability and accuracy) ; Benchmarking (design of an interactive benchmarking-index, scoring and weighting of indicators), Report writing and Data visualisation (design of dashboard with a range of functionality including adjustable weightings to allow for customisation, a list of country/city scores by category and/or indicator, ability to compare multiple geographies simultaneously)			
2009 - Current	Assignment name: EIU Worldwide Cost of Living Brief description of main deliverables: Worldwide Cost of Living is a biannual interactive tool which allows users to compare the cost of living between approximately 145 cities globally. As well as delivering simple city to city comparisons, the tool can be customised and recalculated according to user needs with a variety of add-on features.	Name of Client: Multiple (based on paid access to the database) Country of Assignment: Multiple	N/A/ N/A	Lead and Sole Member

	Output: Survey of price data (price data is vetted and weighted individually before again being weighted and compared across categories to form an index) ,Data gathering (quantitative and qualitative indicators by country) and Data analysis (analysis and sense check of datasets based on objective of the assignment, along with quality-assurance checks for comparability and accuracy), Benchmarking (design of an interactive benchmarking-index; tracking of aggregate movement of prices against national or city-level inflation), Report writing and editing (ranking report summarising the findings of the survey)			
6/2014- 3/ 2015	Assignment name: Safe City Index Brief description of main deliverables: The Safe Cities Index 2015 is an Economist Intelligence Unit report, sponsored by NEC. The report is based on an index composed of more than 40 quantitative and qualitative indicators. These indicators are split across four thematic categories: digital security; health security; infrastructure safety; and personal safety. Every city in the Index is scored across these four categories. Each category, represented throughout the report by the icons shown in the key, comprises between three and eight sub-indicators. These indicators are divided between inputs, such as policy measures and levels of spending, and outputs, such as the frequency of	Name of Client: NEC Country of Assignment: North America, Latin America, Europe, Middle East & Africa, Asia-Pacific	N/A/ N/A	Lead and Sole Member

	vehicular accidents. The Index focuses on 50 cities selected by The Economist Intelligence Unit, based on factors such as regional representation and availability of data. Output: Data gathering (quantitative and qualitative indicators by city) and Data cleaning and dataset completion Data verification and validation Data analysis Benchmarking/Modelling Report writing and Data Visualization			
1/2014-6/2015	Assignment name: MENA Cities Brief description of main deliverables: Provided demographic and economic data (with a selection of 5-year forecasts) for 26 Middle East cities, using a combination of secondary and primary research. The EIU produced a workbook which included the following features: map navigation through clickable markers on a map of the region to call up data for relevant cities; population pyramids displaying population breakdowns by age group and gender; customisable rankings of cities by income and population for comparison purposes; access to all indicators included in the workbook. Output: Data gathering (quantitative and qualitative indicators by city)	Name of Client: A multinational conglomerate Country of Assignment: UAE, Egypt, Algeria, Jordan, Iraq, Lebanon, Morocco, Saudi Arabia, Qatar, Iraqi-Kurdistan, Turkey, Kuwait, Bahrain, Iran, Oman, Libya, Tunisia	2,30,769 USD/ 2,30,769 USD	Lead and Sole Member

	Data cleaning and dataset completion (developing custom estimation models, and/or conducting primary research, and in some cases applying statistical data imputation methods) Data verification and validation (developing documents that present the data to experts and practitioners to review and critique) Data analysis (analysis and sense check of datasets based on objective of the assignment, along with quality-assurance checks for comparability and accuracy) Data visualisation (design of dashboard with a range of functionality including adjustable weightings to allow for customisation, a list of country/city scores by category and/or indicator, ability to compare multiple geographies simultaneously)			

FORM TECH 3:

Comments and suggestions on the Terms of Reference, counterpart staff, and facilities to be provided by the client

TECH-3: COMMENTS AND SUGGESTIONS ON THE TERMS OF REFERENCE, COUNTERPART STAFF, AND FACILITIES TO BE PROVIDED BY THE CLIENT

A - On the Terms of Reference

Comments on the Terms of Reference

At the outset, we commend the efforts of the Ministry to embark on such a timely and relevant exercise and the detailed methodology document, which serves as a guidance note for the same. We are excited to be given an opportunity to participate in developing a framework for rolling out such an exercise. Based on our experience of developing a technical response to this bid, our observations are summarized below.

Our review of the methodology document confirms need for some form of physical assessment- sample survey or validation required for 24 of these indicators Phase 1 of our proposal. These 24 indicators vary from non-motorized transport, hotels and schools among others. The TOR does not clearly specify what a consultant must do if the data is not available for these indicators. Several of them (for example modal share of transport) are technical outputs that demand detailed studies and cannot be determined through a random physical audit

Given the timelines available, a critical assumption made is that the physical validation will be performed on only those data parameters submitted by the city government, through a random audit/physical inspection

Also our approach categorizes the data sub groups into a) Indicators where secondary data will be provided by city/ report 'as is' and no validation required b) Indicators where secondary data is available and will require validation through field visits/ sample survey/ citizen feedback c) indicators where secondary data is missing but can be collected d) indicators where secondary data is not available and will be excluded.

Our technical proposal and financial proposal is built on this categorisation We would be very keen to discuss and receive your feedback during proposal discussion stage to finetune this categorisation as well as discuss implication of this approach for both the timelines and costs.

B - On Counterpart Staff and Facilities

A summary of the key support areas where we look forward for support for MoHUA is outlined below:

- City officials are informed of the assignment vide a circular of the proposed assessment
- A state nodal officer will be appointed in every state to co-ordinate with the consultants to facilitate the implementation of the entire process
- A clear reporting structure is established for approval and sign off on all the key milestones and deliverables
- A clear process for reconciliation of differences between self-reported and audited data outputs to be identified and put in place early on.
- Facilitation of secondary datasets available across different flagship schemes within the ministry to ensure effective delivery of the 'pre-filled' data templates for each city

FORM TECH 4:
Description of Approach, Methodology, and Work Plan in responding to the Terms of Reference

TECH-4: DESCRIPTION OF APPROACH, METHODOLOGY, AND WORK PLAN IN RESPONDING TO THE TERMS OF REFERENCE

A. Technical Approach and Methodology

Liveability – Ranking and Beyond

Urban expansion in India is anticipated to grow at a pace unlike anything the country or the world has seen before, with much of the population likely to be concentrated in cities with a population of a 1 million plus. This trend brings with it several opportunities and challenges and clearly a trend of intensified competition among cities to attract talent and resources, with 'liveability' occupying centre stage in much of the new discourse.

Livability rankings are a common feature in several countries and is an opportunity to systematically quantify the challenges that may be presented to an individual's lifestyle and offers itself as an instrument for policy reform, resource mobilization, investment prioritization and management of services.

It is heartening to note that India, under the leadership of MoHUA, has embarked on measuring the 'liveability' of its cities and we are excited to draw from our collective experience to summarize our appreciation/understanding of what such an exercise can offer.

First, are a set of highlights of our approach to the data collection and the ranking exercise:

1. **Indicator development:** While the guidelines define a set of indicator areas, for the exercise to be objective and consistent, bespoke guiding questions for data collection that is aligned with the '**language of data**' used by city governments and aligned with global best-practices needs to be developed. This aim here is to minimise comparability issues – e.g. the definition of capital spending for indicator 1.7 under Category 1: Governance (such as what expenditure categories may fall into infrastructure and assets) or the definition of access to digital education under indicator 3.4 for Category 3: Education, (mapping what qualifies as access to digital education) Here the team seeks to leverage the experience of the Economist's step by step approach in developing such frameworks and the experience of IPSOS and Athena Infonomics in creating and scaling up similar large scale ranking exercises in India. (Refer Phase 1 of our detailed A&M for a detailed description of this approach)

2. **A pilot for city GDP:** The ability to measure a city's output and use that as a baseline to track its growth can be invaluable particularly in the context of the large capex investments that the identified smart cities are expected to attract. Given the opportunity to interact with a large number of cities, with varying data ecosystems, an attempt will be made to pilot test as part of the data collection exercise an approach to systematically map and calculate the city's GDP, which can be further refined in the subsequent rounds.

3. **Innovations in sampling and audit using spatial data:** A unique system of auditing indicators using publicly available open source spatial data sets will be deployed and a geo-spatial

sampling strategy to ensure that the citizen surveys are well diversified across the city will be deployed

4. **An online portal for real-time tracking of progress and outcomes:** Through the creation of an online portal right at the start of the assessment and real-time tracking of the progress of the liveability ranking exercise across phases (training workshops, data collection, validation and ranking) we hope to induce and leverage the competitive spirit that has driven the smart city process.

5. **Economist Hub- Effective national and global dissemination:** The Economist Intelligence Unit is a global leader in data intelligence and as a key intellectual partner to this JV will lead the development of a dedicated 'economist hub' with interactive workbooks and dashboards to present the findings of the liveability rankings.

While there are numerous positive spill overs to the liveability ranking, there are three key strands that we hope to get a dialogue initiated on. The team will submit at the end of the exercise a white paper on the potential the liveability ranking exercise has in moving the needle of various policy and programmatic goals of the nation, with a detailed analysis on the following:

- **Data availability, access and quality:** A framework to systematically evaluate the key gaps in data availability and quality will be developed and deployed and suggestions on smart data collection protocols developed to inform future data collection strategies and strengthen the data ecosystem. This approach It segregates "available data" from "quality data". In areas like water and sanitation, which carry with them a number of citizen sensitivities, there is a conflict of interest between data reporting and service delivery functions, which are usually vested in the same agency. By looking at data quality through a standardized process view (representativeness, third party validation etc.), it is possible to identify datasets which are more likely to be error prone than others

- **City-centric use cases- Interoperability and convergence with domestic policy and programme levers:** MoHUA under the smart city mission has already launched an initiative to set up integrated digital platforms which will provide the infrastructure backbone to host and run citizen and other e-government applications. The newly created datasets when generated can be linked to the platform and opportunities for use-cases by overcoming interoperability concerns may be explored. The ranking exercise (once the data maturity improved) may also serve as a planning tool or soft collateral for attracting investments and raising resources as illustrated in the figure below. Some of the key convergence and use-case applications between this exercise and the key goals set out by the MoHUA will be explored and documented

Our understanding of the assignment

CITY LIVEABILITY INDEX

This study serves as a data enabler assessment exercise
01 City responds to data queries
02 Opportunities for smarter data collection protocols identified
03 Top priority areas for solutioning identified
04 Links to relevant case studies and support tools – USE CASE APPLICATIONS
05 Improvements reflected in next assessment rounds

Currently cities are at various levels in the data pyramid and operate with data that is scattered and available in various legacy formats

The liveability index is an excellent opportunity in the first phase to systematically identify gaps in data and map its use cases

In subsequent phases, it emerges as a driver to build mature data ecosystems with a common data architecture, addressing issues of data interoperability, scalability and integration

Cities leverage data as an instrument for urban planning and management

Data refining

Figure 1: Our understanding of the assignment

- Global use-cases- Alignment with global data reporting requirements: The newly generated data sets may also serve as an opportunity to systematically explore convergence between the data being generated by cities and global development standards like the SDGs and provides for an opportunity to explore what it means to achieve some of those goals at the local level and generate data at the level of local governments to better track progress on development goals.

Summary of our approach & methodology

Phase 1 Preparatory phase

Duration
W1-W5

Literature review of existing studies and data sources (Smart City Reports, AMRUT reports, Data.gov, etc.) to prepare baselines for each city

Data availability/gap assessment to assess a) Data points to be collected through primaries b) Metrics that would merit smart proxies

Indicator development

Finalization of stakeholder participation lists

Development of workshop structure and content

Finalisation of workshop dates for the state workshops

Development of data entry application /interface

Prototypes for a) Nation-wide workshop tracker b) City-level data updation dashboard c) Data visualisation

Draft report templates- City Assessment

Preparation of research Instrument for primaries and physical validation

Data entry and quality control template

Data administration protocols and data collection monitoring framework

Summary of our approach & methodology

Phase 1 Preparatory phase (Continued…)

Duration
W1-W5

Framework to estimate city GDP

Formulation of media strategy

Approach note for data interoperability

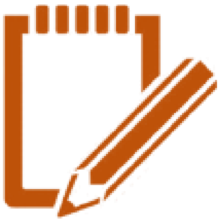
Media dissemination through photo journals, national portal to be an on-going exercise

Phase 2 State/City level engagement

Duration
W5-W8

Organisation of State-level Workshops

Launch and updation of nation-wide tracker



Preparation of workshop proceedings, materials and key-takeaways

Internal ToT, training of Field Staff and orientation of ULB Official

City level Reconnaissance meetings

Final list of indicators (with details on collection protocols), incorporating comments from the workshop; and Inception Report preparation

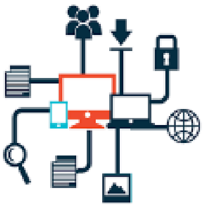
Media dissemination through photo journals, national portal to be an on-going exercise

Summary of our approach & methodology

Phase 3 Data collection

Duration
W8-W12

Finalisation of secondary data collection interface/application

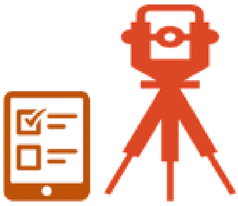


Secondary data collection

Setting up a region/state level help-desks for near-real-time troubleshooting)

Final data availability/gap assessment

Household/Citizen Surveys



Physical audit of secondary data provided by cities (all relevant indicators)

GIS based audit of secondary data provided by cities e.g., % of open spaces along transit corridors

Real-time updation of data progress dashboard and periodic update to State Government Nodal Officers/PSC

Near-real time quality checks and rectification

Media dissemination through photo journals, national portal to be an on-going exercise

Summary of our approach & methodology

Phase 4 Data collation and finalisation

Duration
W13-W14

Preparation of Draft data sets circulation with cities for validation

City level discussions for addressing queries and incorporating revisions, modifications etc.

Sign-off on final list of data points/ indicators

Media dissemination through photo journals, national portal to be an on-going exercise

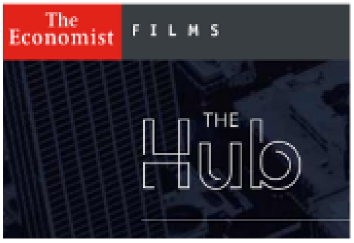
Phase 5 Report preparation and national workshop

Duration
W15-W20

Indices development and visualisation

Preparation of draft assessment report

Preparation of final assessment report



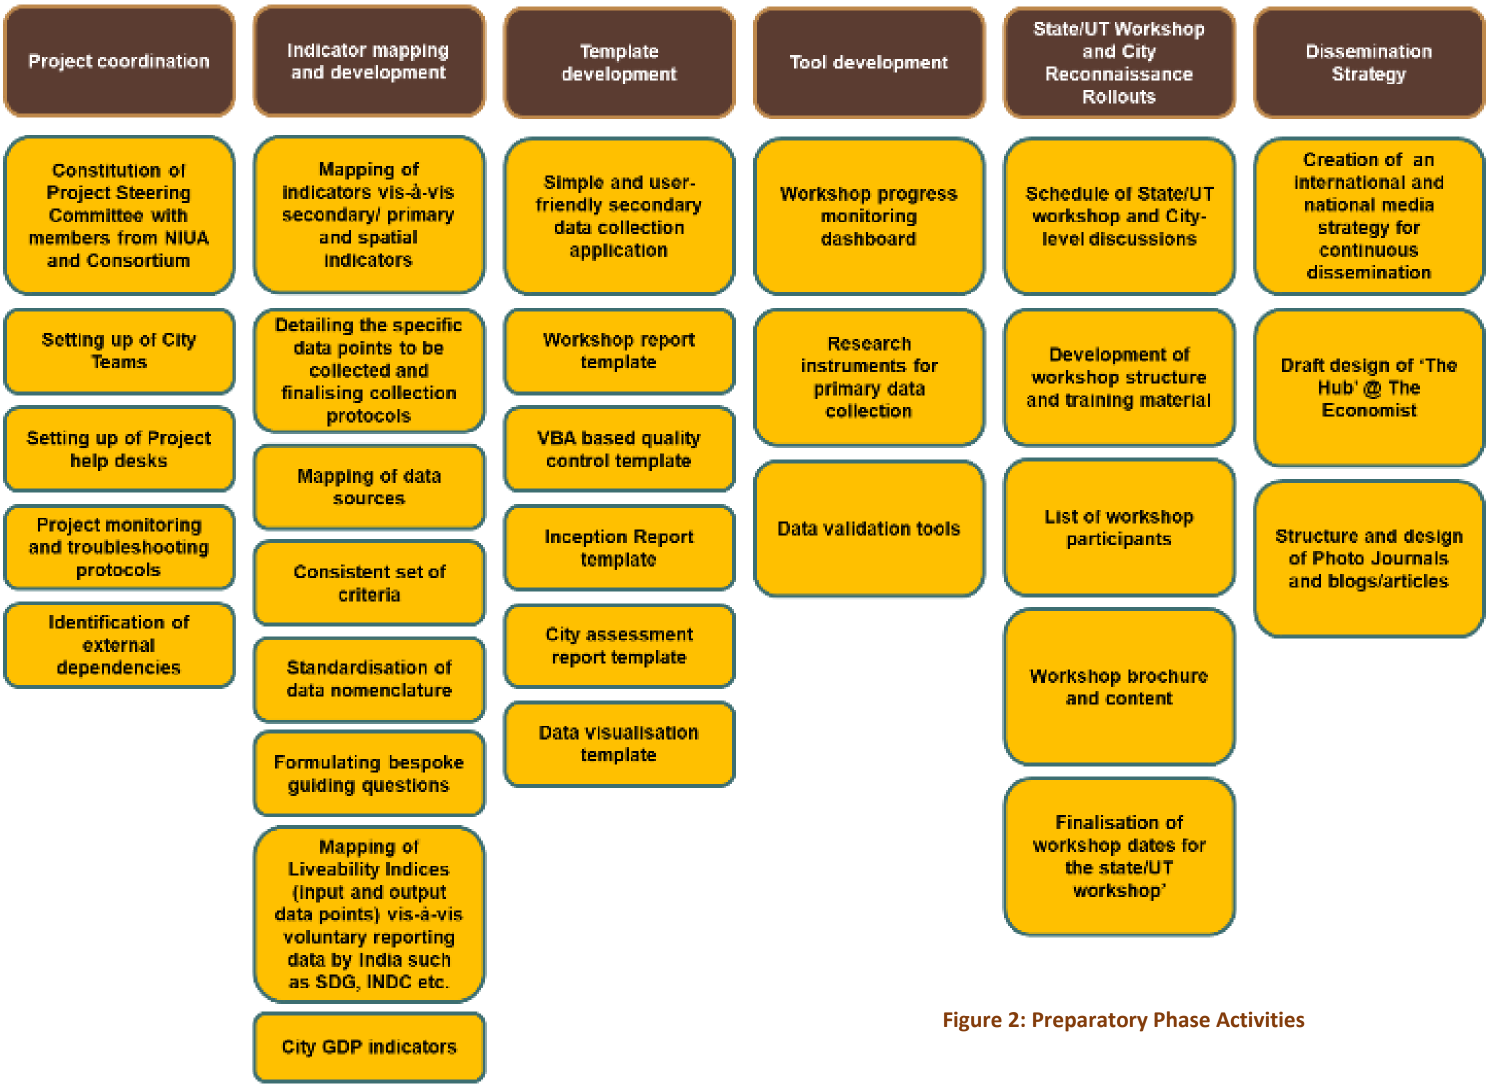
Launch of 'The Hub' @ The Economist

National-level Workshop

Media dissemination through photo journals, national portal to be an on-going exercise

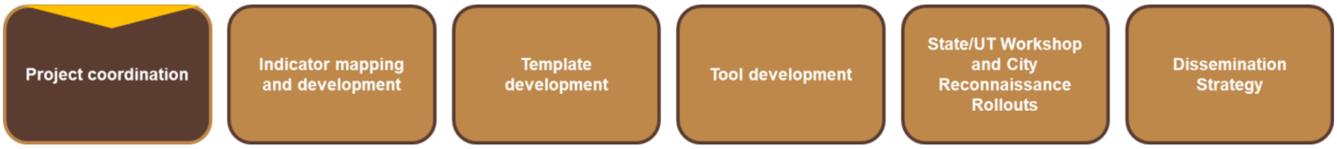
Phase 1: Preparatory phase: [Week 1 – W8]

The first four weeks are extremely crucial for this assignment as it would entail completion of preparatory steps for the short-term project milestones such as state level workshops and city reconnaissance discussions and gain momentum on the mid-term project milestones involving secondary and primary data collection including validation and report preparation. This phase will involve activities on the following areas:



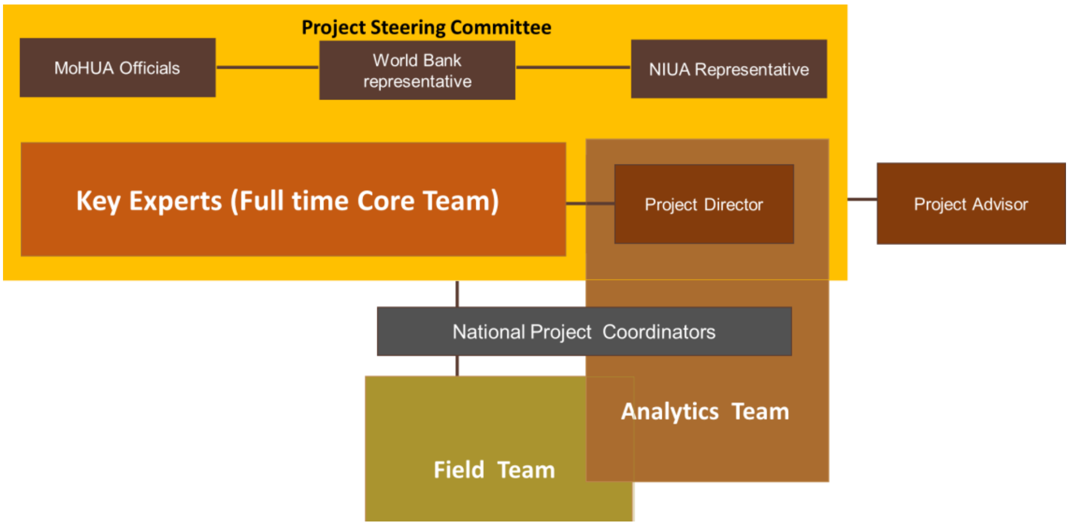
Project coordination	Indicator mapping and development	Template development	Tool development	State/UT Workshop and City Reconnaissance Rollouts	Dissemination Strategy
Constitution of Project Steering Committee with members from NIUA and Consortium	Mapping of indicators vis-à-vis secondary/ primary and spatial indicators	Simple and user-friendly secondary data collection application	Workshop progress monitoring dashboard	Schedule of State/UT workshop and City-level discussions	Creation of an international and national media strategy for continuous dissemination
Setting up of City Teams	Detailing the specific data points to be collected and finalising collection protocols	Workshop report template	Research instruments for primary data collection	Development of workshop structure and training material	Draft design of 'The Hub' @ The Economist
Setting up of Project help desks	Mapping of data sources	VBA based quality control template	Data validation tools	List of workshop participants	Structure and design of Photo Journals and blogs/articles
Project monitoring and troubleshooting protocols	Consistent set of criteria	Inception Report template		Workshop brochure and content	
Identification of external dependencies	Standardisation of data nomenclature	City assessment report template		Finalisation of workshop dates for the state/UT workshop'	
	Formulating bespoke guiding questions	Data visualisation template			
	Mapping of Liveability Indices (input and output data points) vis-à-vis voluntary reporting data by India such as SDG, INDC etc.				
	City GDP indicators				

Figure 2: Preparatory Phase Activities



Project coordination
Indicator mapping and development
Template development
Tool development
State/UT Workshop and City Reconnaissance Rollouts
Dissemination Strategy

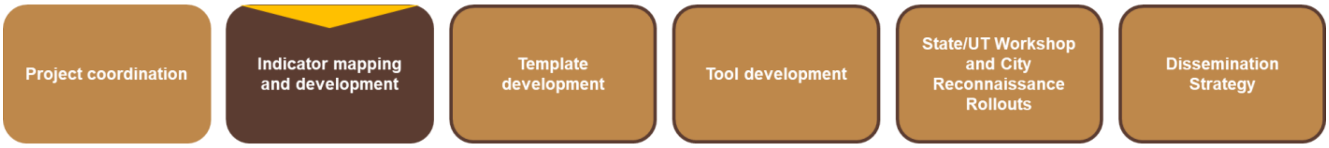
Given the short and intense nature of the assignment we propose to have a human resources structure in place to enable seamless effective and timely coordination. A four-tier project team is proposed comprising a Project Steering Committee (PSC), Key Experts (Full time Core Team) and Support Teams shortly after commencement of the assignment.



Project Steering Committee
MoHUA Officials
World Bank representative
NIUA Representative
Key Experts (Full time Core Team)
Project Director
Project Advisor
National Project Coordinators
Analytics Team
Field Team

Figure 3: Project Governance and Management Structure

The PSC will have representative from the MoHUA, NIUA, the World Bank and Key Experts. A Project Command Centre with video conferencing facilities would be set up to monitor the entire project including state workshops, secondary and primary data collection. The PSC will have access to dashboards for monitoring the progress of a) state level workshops b) secondary and primary data collection c) Queries and troubleshooting at state/UT-level Help Desks. The PSC will be the final point of approval on protocols for data collection, training content, project reporting, issue escalation and, troubleshooting for various aspects of the project such as support from state/UT/City Governments, data availability/gaps or lags etc.



Project coordination
Indicator mapping and development
Template development
Tool development
State/UT Workshop and City Reconnaissance Rollouts
Dissemination Strategy

While most of the 79 indicators comprising the Liveability Indices can be computed based on secondary data available with the City Government, some of them require primary and/or spatial data inputs/validation. The 'Methodology for Collection and Computation of Liveability Standards in Cities' document has detailed the input data points required for computation of each indicator and has also specified the type (secondary/ primary/ spatial) of data points required. The figure below maps and categorises indicators based on different data collection interfaces.

CITY LIVEABILITY INDEX
79
Indicators

Category A

Secondary data collection

- 2.3 | Hotel occupancy

Category B

Secondary data collection + GIS validation

- 8.1 | Per capita availability of green spaces
- 5.1 | Number of streets, public places, junctions covered through surveillance systems
- 9.1 | Share of mixed land use area in overall city land use
- 9.2 | Net Density

Category C

Secondary data collection + Physical validation

- 2.3 | Hotel occupancy
- 3.4 | Percentage of schools with access to digital education
- 5.1| Number of streets, public places, junctions covered through surveillance systems
- 6.5 | Percentage of vendors registered and provided formal spaces
- 14.3 | Extent of municipal solid waste recovered through reuse
- 11.7 | Availability of Passenger Information System
- 11.8 | Extent of signal synchronization
- 11.9 | Availability of paid parking spaces
- 11.10 | Percentage coverage of footpaths – wider than 1.2 m
- 11.11 | Percentage of traffic intersections with pedestrian crossing facilities
- 11.12 | Extent to which universal accessibility is incorporated in public rights-of-way

Category D

Data unavailable but collected through HH level sample survey

- 7.2 | Percentage of slum areas covered through basic services
- 11.3 | Mode share of public transport
- 11.6 | Mode share of non-motorized transport
- 14.1 | Household level coverage of municipal solid waste collection

Category E

Data unavailable but collected through HH^{++} sample survey

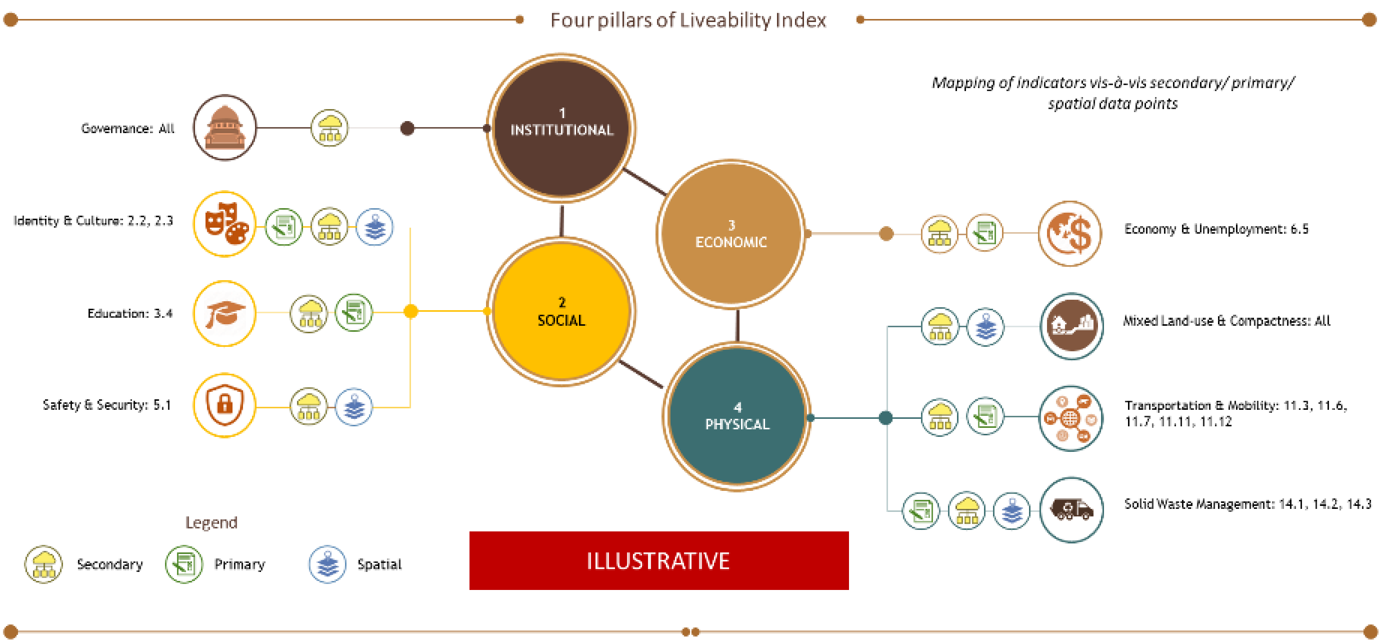
- 13.1 | Coverage of toilets

Category F

Data unavailable

- To be identified based on city responses

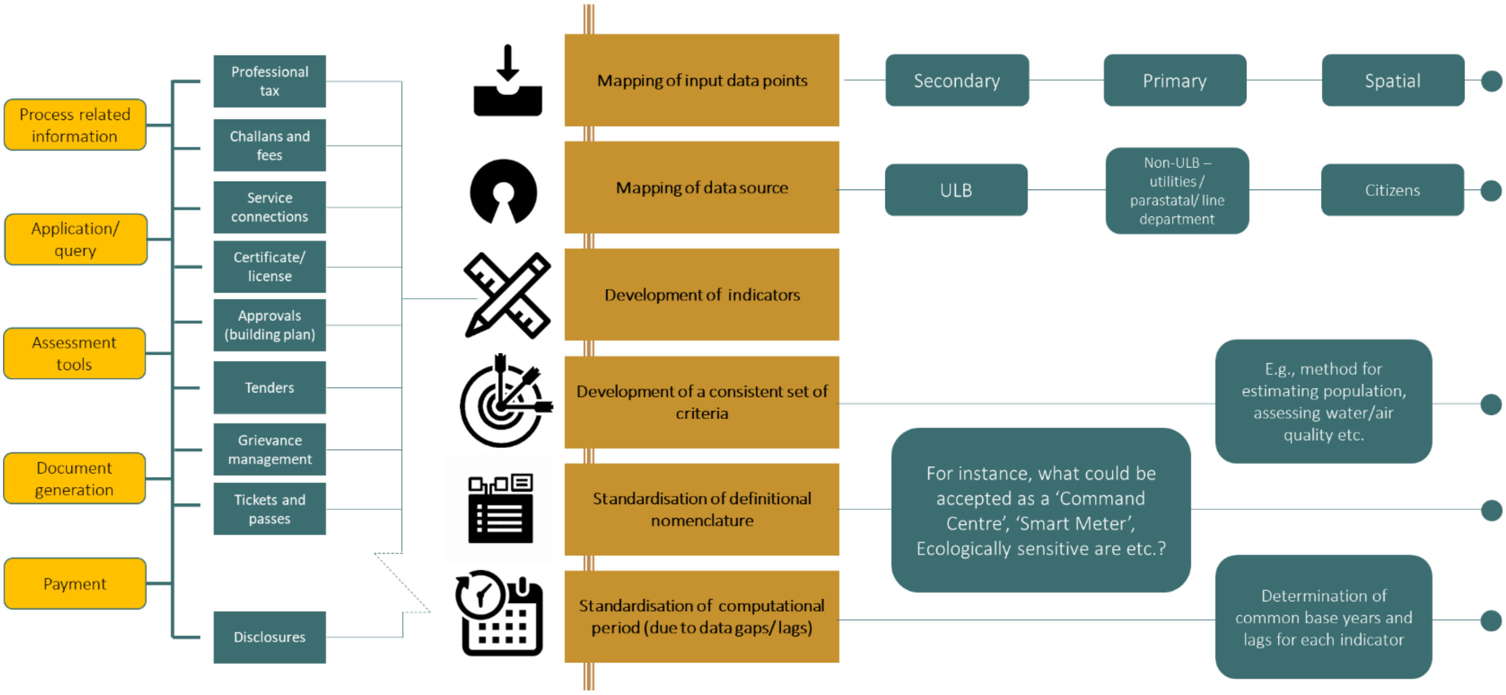
To be excluded from computation of index if data is absolutely no data could be obtained despite all measures to collect it.



Four pillars of Liveability Index
Mapping of indicators vis-à-vis secondary/ primary/ spatial data points
Governance: All
Identity & Culture: 2.2, 2.3
Education: 3.4
Safety & Security: 5.1
1 INSTITUTIONAL
2 SOCIAL
3 ECONOMIC
4 PHYSICAL
Economy & Unemployment: 6.5
Mixed Land-use & Compactness: All
Transportation & Mobility: 11.3, 11.6, 11.7, 11.11, 11.12
Solid Waste Management: 14.1, 14.2, 14.3
Legend
Secondary
Primary
Spatial
ILLUSTRATIVE

It will also involve building a consistent set of criteria for computation of the indicators – for instance method for estimation of city population (estimating city population based on 2011 Census or estimates provided by City Governments), approach for testing air/water quality etc. that could be used across cities. Our team will deploy a systematic approach to define clearly every indicators and collection protocols to ensure comparability (E.g., what could be construed as a Command Centre? Are there a minimum number of services that should be integrated under the Command Centre?) What is the standard definition of a 'smart meter?' etc. Here, the aim is to provide guidance for cities and analysts, with good tracking mechanisms.

Some of the indicators such as 'percentage of citizen services available online', 'percentage of services integrated through Command Centre,' etc. have been detailed for some of the ULB functions (e.g., property tax functions) and sub-services (e.g., city transport) but the rest needs to be further developed. Please refer figure below for an illustration of our overall approach



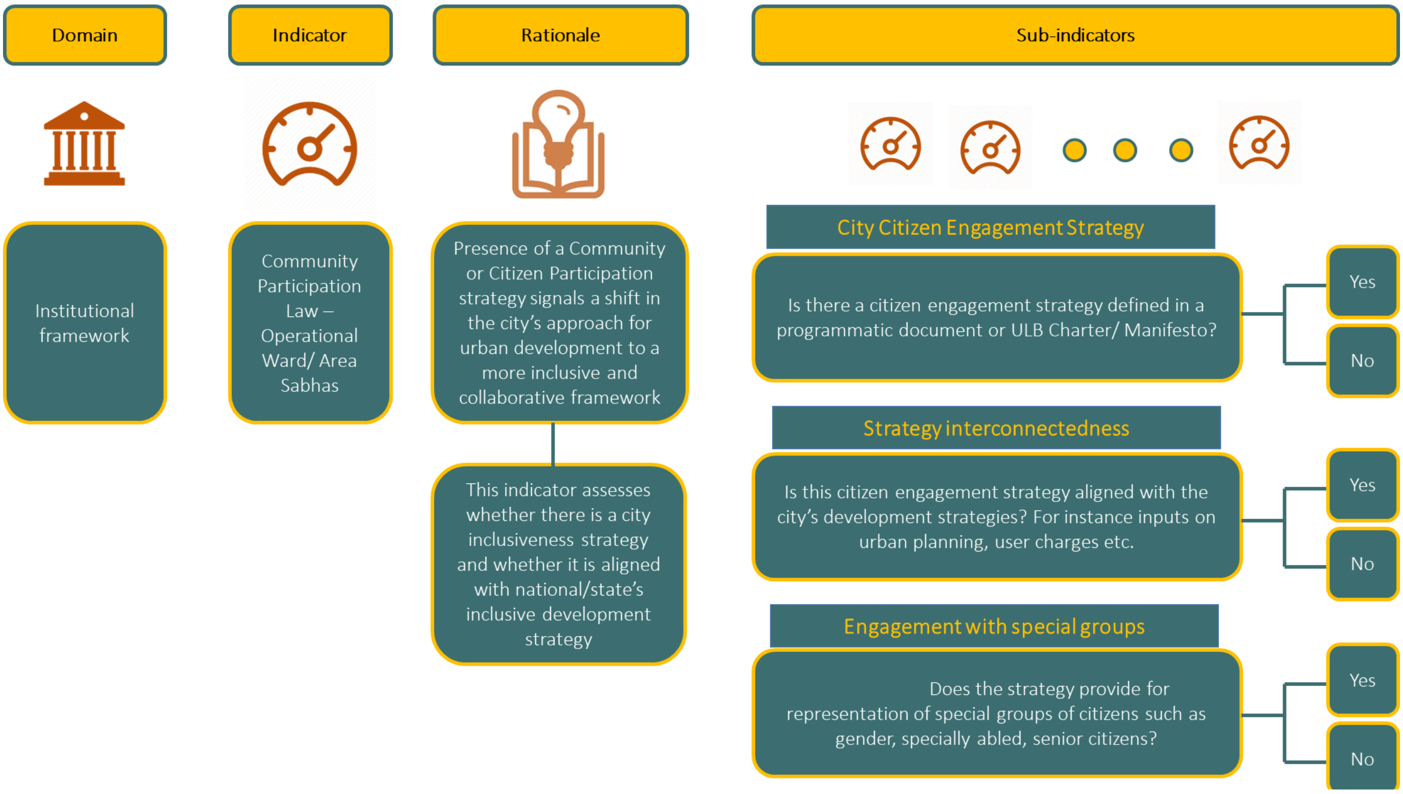
Process related information
Application/ query
Assessment tools
Document generation
Payment
Professional tax
Challans and fees
Service connections
Certificate/ license
Approvals (building plan)
Tenders
Grievance management
Tickets and passes
Disclosures
Mapping of input data points
Mapping of data source
Development of indicators
Development of a consistent set of criteria
Standardisation of definitional nomenclature
Standardisation of computational period (due to data gaps/ lags)
Secondary
Primary
Spatial
ULB
Non-ULB – utilities / parastatal/ line department
Citizens
E.g., method for estimating population, assessing water/air quality etc.
For instance, what could be accepted as a 'Command Centre', 'Smart Meter', Ecologically sensitive are etc.?
Determination of common base years and lags for each indicator

Figure 4: Indicator development approach

Our approach aims to minimise comparability issues – e.g., the definition of capital spending for indicator 1.7 under Category 1: Governance (such as what expenditure categories may fall into infrastructure and assets) or the definition of access to digital education under indicator 3.4 for Category 3: Education, which covers the type of digital infrastructure available as well as various ways to access digital learning networks.

A detailed guidance document capturing suggestive list of items/key words would be prepared based on secondary research as well as global best practices for key definitions and provided to Cities for reference. The draft detailed indicator list will subsequently be validated in Phase 2.

Scoring indicators requires a robust methodology. To add robustness and objectivity to the scoring, we propose developing bespoke guiding questions (in a manner consistent with local body nomenclature and jargon) for the indicator. This will greatly enhance the robustness of the framework. An example of our step by step approach is shown below, for an existing index namely percentage of population covered under Ward Committees/ Area Sabhas.



Institutional framework

Community Participation Law – Operational Ward/ Area Sabhas

Presence of a Community or Citizen Participation strategy signals a shift in the city's approach for urban development to a more inclusive and collaborative framework

This indicator assesses whether there is a city inclusiveness strategy and whether it is aligned with national/state's inclusive development strategy

City Citizen Engagement Strategy

Is there a citizen engagement strategy defined in a programmatic document or ULB Charter/ Manifesto?

Strategy interconnectedness

Is this citizen engagement strategy aligned with the city's development strategies? For instance inputs on urban planning, user charges etc.

Engagement with special groups

Does the strategy provide for representation of special groups of citizens such as gender, specially abled, senior citizens?

Figure 5: Approach for developing bespoke questions

Framework for Measuring City GDP

As part of this exercise, we are keen to explore the feasibility of estimating the economic output of the identified smart cities and explore if a baseline on the same can be created with publicly available data sets/information provided by cities. This is perhaps particularly credible given the kind of capex investments these cities are expected to attract. As part of this exercise we will develop and integrate the data requirements associated with the process of measuring the city's GDP in the overall data collection exercise and explore the quality of the data ecosystem to support such an exercise

EIU is currently carrying out a similar exercise in China.

Context

The prosperity and welfare of cities around depend on the capacity of cities to take advantage of opportunities for sustained employment growth and minimise the challenges of national and global economic integration and urban population growth. Therefore, the quality of economic development planning and city management is extremely important. Developing sound local economic development strategies at the city level is critical to both good city management and economic performance.

The purpose of the city economic rankings is to augur a health sense of competition between cities to attract investments and high-quality jobs. These rankings will also help smart city managers identify fast-growing economic opportunities in their cities and further propel their growth. As such, growth indicators, rather than those reflecting absolute size or wealth, will be chosen. However, to ensure that the ranked cities have a critical mass attractive to investors and new businesses, a minimum population cut-off point of will be determined and used. A nuanced methodology will be developed after a detailed review of the data ecosystem available. Ex: The metropolitan population will be a measured as the true urban population of a city; it includes the population only in the contiguously built city area.

Proposed Methodology

A comprehensive methodology for assessment of City level economic performance will be developed and tested for top twenty cities as part of the project. The methodology will be akin Economist Intelligence Unit's China Emerging city rankings is to identify where new business opportunities in urban China are likely to emerge because of rapid growth in population and incomes.

Growth over the next five-year period of 2018-2023 in infrastructure and property, economic output (GDP per head), consumption, job creation and population will form the core of the ranking framework. Consumer markets are included in the form of household incomes and spending. For population and GDP per head, five-year forecasts derived from the EIU's demographic and regional forecasting models will be used so that the index reflects expectations for the future.

We will supplement these indicators, wherever possible with historic city-level data that assess changes in infrastructure and property (fixed-asset investment and the urban built area), public finances (fiscal revenue) and the external environment (foreign direct investment and goods exports). Although these indicators are historic, the effects they bring to the real economy will be lagged and last for years. The CAGRs will be normalized and benchmarked to produce rankings across each indicator. The nine indicators are weighted equally in the overall index.

Disaggregation of data at the city level using a combination of official statistics and smart proxies will be attempted. Data parameters will be collected and studied at the city level. Inter alia, these include population, real estate market trends, tax receipts, infrastructure investments and demand, transportation, energy consumption, night-time light data (radiance and saturated light emissions) etc.,

Illustrations

These illustrations are largely drawn from the China Emerging City Rankings (2010-15) which has been developed in collaboration with the Chinese authorities to analyse and present a city level picture of economic resilience and performance. These Rankings are prepared and disseminated by EIU widely and are highly referenced by analysts and business leaders globally. Significant decisions on job-propelling investments are made with the help if unique and highly nuanced insights provided by this data.

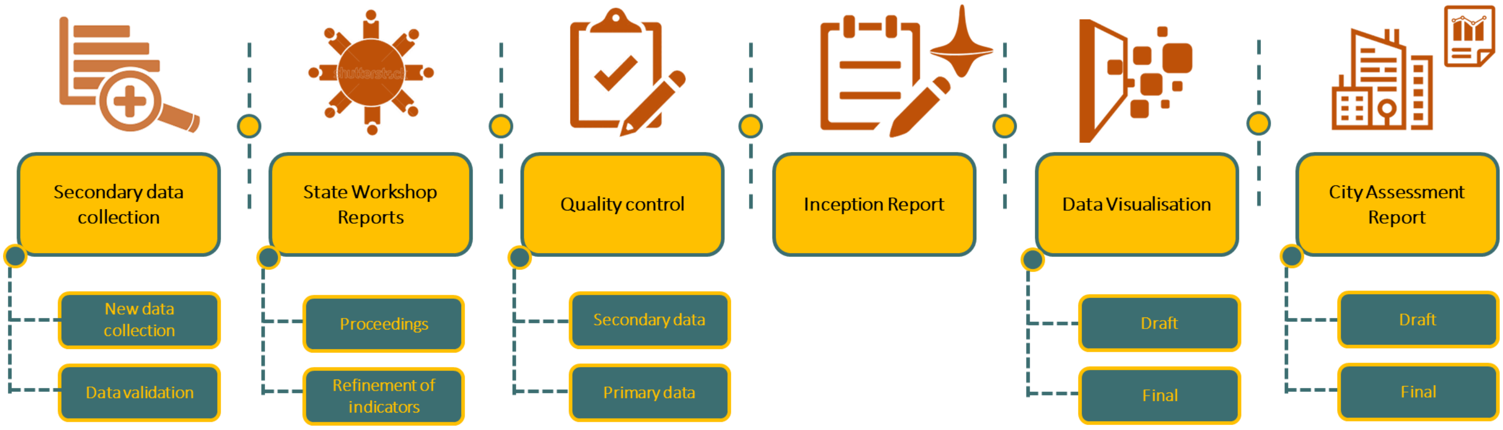
Project coordination
Indicator mapping and development
Template development
Tool development
State/UT Workshop and City Reconnaissance Rollouts
Dissemination Strategy

To ensure readiness for the subsequent phases, our team will develop templates ranging from secondary data collection to city assessment reports and collect inputs from the MoHUA early on. The following templates shall be prepared during the preparatory phase.

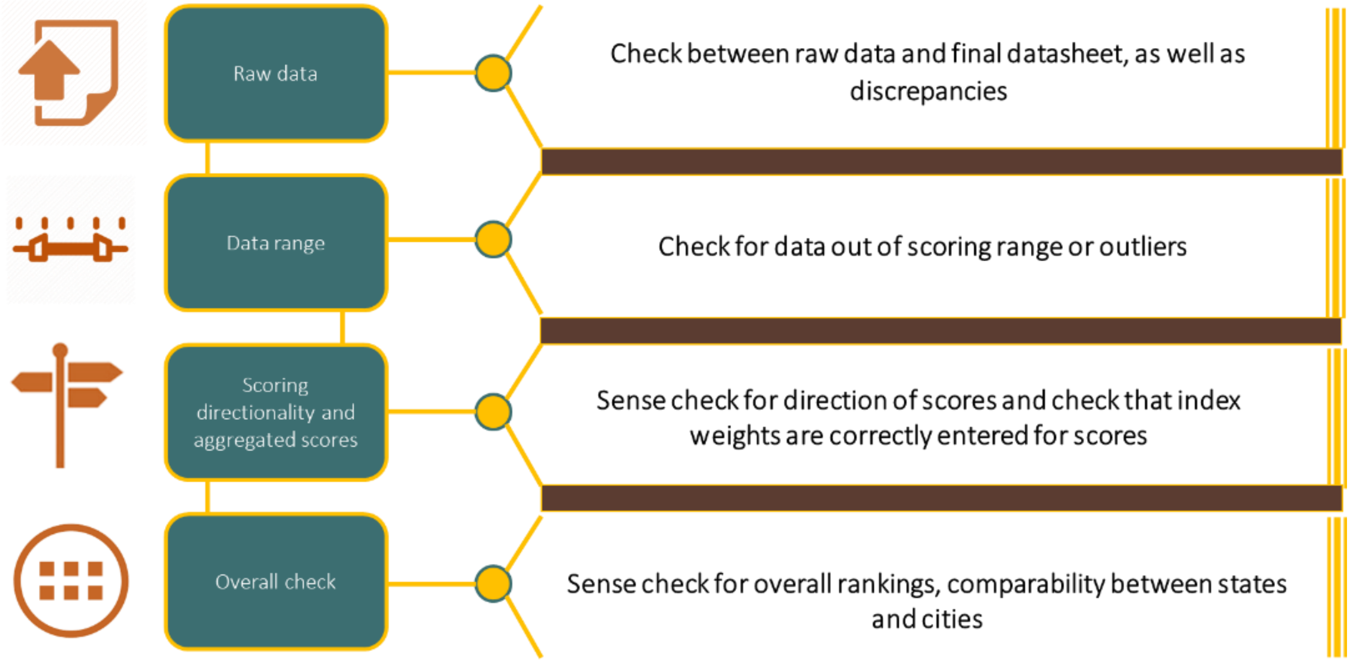


Secondary data collection
New data collection
Data validation
State Workshop Reports
Proceedings
Refinement of indicators
Quality control
Secondary data
Primary data
Inception Report
Data Visualisation
Draft
Final
City Assessment Report
Draft
Final

Customised secondary data template shall be prepared in advance for each city. The data template would comprise two categories of data fields, namely"

- New data fields
- Validation data fields

While the new data field will require cities to fill the data points afresh, the validation data field would comprise collation of real data from existing sources such as Census 2011, data.gov.in, *Swacch Bharat Mission* (Urban), Smart Cities Mission, *Swacch Sarvekshan*, HRIDAY, AMRUT and other programmes/schemes that could be either validated or revised by the cities. The data collection template will be an online tool e.g., *sharepoint* with in-built functions including drop-down menus for ease of access; this tool can be used without internet and cities could save draft versions and upload post finalisation. It is our standard practice to have a set of robust quality assurance procedures to be performed on every Excel index to minimise errors and oversight.



Raw data
Check between raw data and final datasheet, as well as discrepancies
Data range
Check for data out of scoring range or outliers
Scoring directionality and aggregated scores
Sense check for direction of scores and check that index weights are correctly entered for scores
Overall check
Sense check for overall rankings, comparability between states and cities

As stated earlier a simple and user-friendly online data entry portal will be developed on Sharepoint/VB and shared with the cities. Each city will be provided a customized login user name and password. Categories of data will be generated along the thematic heads identified under the Liveability programme guidelines and the user can easily navigate across pages and fill out those data points that are available at hand first. (an illustration of a sharepoint portal developed for Tamil Nadu is provided below)

ULB Name: Dharmapuri
Assessment Year: 2014
Quarter: October - December

Basic Information

		Not Applicable	Unavailable
Has the ULB witnessed expansion in the last 12 months	○ Yes ○ No	☐	☐

Commissioner/EO's Contact Details

		Not Applicable	Unavailable
Name of the Municipal Commissioner/Executive Officer		☐	☐
Municipal Commissioner/Executive Officer's Contact Address		☐	☐
Municipal Commissioner/Executive Officer's Mobile Number		☐	☐
Municipal Commissioner/Executive Officer's E-Mail ID		☐	☐
Name of the Chairman/Mayor		☐	☐

The user will be given an option to save their work mid-way and resume at any time. For every data indicator, options such as 'not available' and 'not applicable' (for example: some cities may not have a centralized treatment plant and thus the data may not be applicable at all to that city) will be provided.

Once completed, the city will submit the data, no changes can be made to the data that is filled in once the data file is submitted.

The cleaned and checked data will be fed into the model data analysis and visualisation template. Our consortium has the experience and expertise of building stunning data representation, interactive maps and digital story telling. For this assignment, we would develop a draft Excel model[2] which uses an interactive dashboard to visualise the data and benchmarking process; this can include:

- Interactive heat map
- Adjustable weightings to allow for customisation
- A list of city scores by category and/or indicator
- Custom scatterplots and correlation analysis
- Ability to compare multiple cities simultaneously
- Geography profile page with key data, along with strengths and weaknesses

The draft data visualisation template will be presented to the state and city officials during the state/UT-level engagements and shared with MoHUA for review and feedback. At the same time, the template will be revisited by our analysts as part of a quality-control procedure and to ensure city comparability. An example of the EIU's interactive workbooks and dashboards can be seen below

---

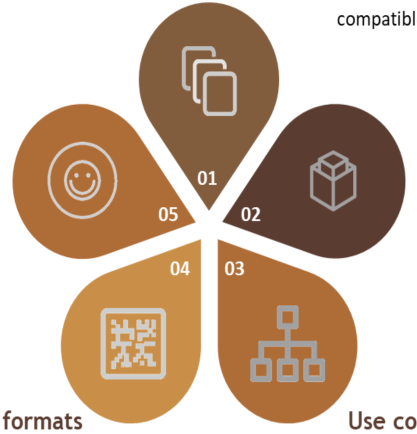
Data interoperability considerations

Global efforts are underway to integrate the increasing gamut of urban data for monitoring understanding, decision making, steering and control of urban landscape. However, the design of urban data is still on-going. with measures to standardise it can be seen even in India through game changing initiatives such as the Smart Cities Mission. We believe that the value of data multiplies when it is easily grasped by key stakeholders e.g., city administrators, citizens, etc. analysed and shared. The multiplicity of sources and formats poses a challenge to addressing queries raised by city stakeholders. These queries could be from city administrators or citizens, for instance, 'where is the greatest risk of mosquito-borne illness?' Or from citizens 'Which parts of the cities have the highest chances of receiving flash floods in the next few days?' The Smart Cities concept globally seeks to move towards this by addressing the issue of interoperability of urban data by defining an overarching framework of concepts and relationships that can be used to describe data from any sector and any source (BSI, 2016).

The liveability assessment exercise provides a platform to leverage the value of data by making it *interoperable*, open yet secure and *use case* applications. We see this assignment as opportunity to move the needle on data interoperability by developing a framework for urban data interoperability based on the principles of interoperability consolidated in the Cape Town Global Action Plan for Sustainable Development (2017). The key guiding principles are presented in figure below:



Use and re-use existing standards

- No new standards should be created in areas they already exist unless absolutely necessary.
- When new standards are created, they must be compatible with existing standards

Do not overlook metadata

- Metadata includes information on origin, authors/producers, date of production/version, etc.
- It is crucial for discoverability, accessibility and fostering trust and understanding of the context in which the data was produced.

Use common classifications wherever possible

- As more and more data is produced, we need to ensure that to the extent possible, the language used to define and classify that data is the same.

Publish data in machine-readable formats

- publishing data in machine readable formats is crucial to interoperability.
- It enables a computer to access, identify and filter data in an automated way.

Ensure that standards are user driven

- For data to be usable, it has to be driven by the needs of users themselves.
- The process of ensuring that data is usable can be complex and require trial and error, but is crucial to long-term success and impact.

Source: The frontiers of data interoperability for sustainable development, Development Initiatives, November 2017

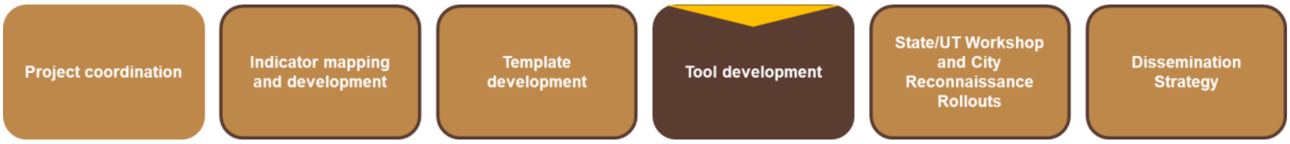
Our framework will also examine the political economy framework for urban data (Edwards et. Al., 2016) that calls for a shift the focus of data driven governance policies and practices from capacity and supply to incentivising service delivery, transparency and accountability. The recent initiative of the MoHUA to provide INR 10,000 crore for municipal reform ushers this spirit in governance of cities in India. The political economy framework calls for provisioning and usage of urban data should be about the solution to concrete problems in urban environments, not just about the pure quantities of urban data.

At the end, urban data is simply a means to do urban monitoring, steering and development more effectively, efficiently and reliably. We also propose to outline some of the use case applications based on the consultations with state/UTs and cities considering the data that will be generated from this assessment exercise. Some of the operation enhancing questions or use case applications could be the following:

- When citizens apply for / obtain multiple services, which service do they typically apply for first?
- Is there a correlation between energy consumption and tenement structures?

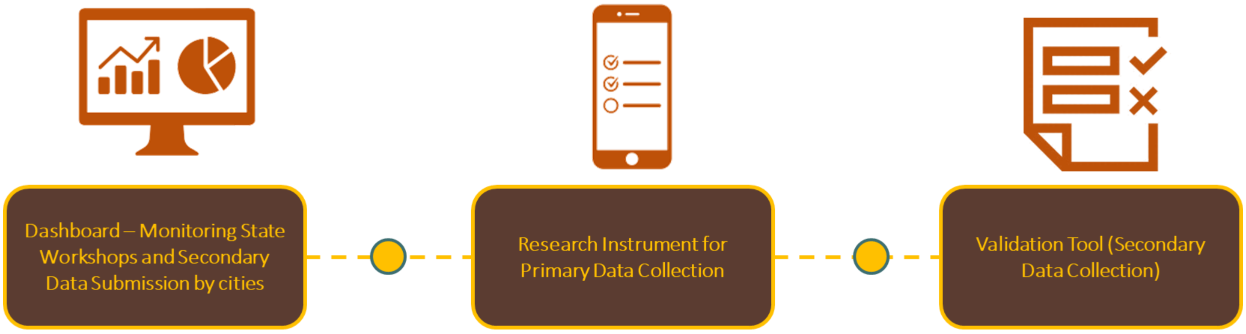
ILLUSTRATIVE

- Where is there the greatest risk of mosquito borne illness?
- Is there a correlation between service delivery efficiencies in SWM and settlement type?



Project coordination
Indicator mapping and development
Template development
Tool development
State/UT Workshop and City Reconnaissance Rollouts
Dissemination Strategy

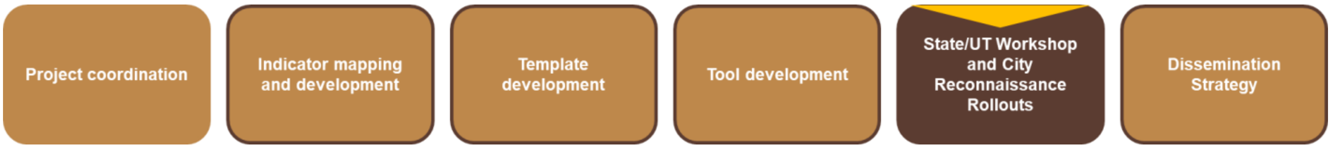
Three tools would be developed to assist with tracking consultations with state government and cities, primary data collection and for validation of secondary data points



Dashboard – Monitoring State Workshops and Secondary Data Submission by cities
Research Instrument for Primary Data Collection
Validation Tool (Secondary Data Collection)

The first tool i.e., for tracking State/UT/City level consultations will monitor the progress of 36 State/UT level workshops and 116 City Reconnaissance Meetings and provide updates on agreed data points, nodal contact person, timelines, mode of secondary data provision (online tool e.g., *sharepoint* vs. manual) among other aspects. This tool will be in the form of a dashboard that will also monitor the progress made by cities on secondary data submission.

We will develop a set of research instrument for primary data collection for an identified set of indicators. The research instrument will be coded into a mobile application and finalised post field test. Additionally, we will also develop draft template for validation of secondary data pertaining to some indicators such as number of schools having facilities for using digital content etc.



Project coordination
Indicator mapping and development
Template development
Tool development
State/UT Workshop and City Reconnaissance Rollouts
Dissemination Strategy

We see the state/UT level engagements as a platform for not only disseminating the objectives and rationale for undertaking the liveability assessment of cities within each state/UT but also as an opportunity to finalise our approach for arriving at the input data points for each of the 79 indicators and associated modalities. As a run-up to the state/UT workshops and city reconnaissance missions, the following preparatory activities would be undertaken:

Identification of City level Stakeholders

City level stakeholder would be identified with respect to key stakeholder with respect to each indicator. The Methodology Report states the agency/department from which data could be obtained for each of the indicator. For instance, data on cost recovery, online services would be provided by the ULB, data on restoration of historic buildings are to be provided by ASI and State ASI apart from ULB. Similarly, data on projects on ecologically sensitive areas would be provided by the local development authority. Consideration would be given to identify key officials within an organisation as well.

Preparation and dispatch of city wise Secondary data collection sheets

An important step in this phase is to prepare city level data sheets covering the input data points for the 79 indicators to all the cities through the State nodal officer. The data sheets would be populated from existing data sources such as Census 2011, Swachh Sarvekshan, AMRUT, SCM, HRIDAY and other programmes/schemes. Advance dispatch of the sheets would provide cities some time to review and understand the required data points so that issues/clarifications could be made at the workshops.

Scheduling of State-level workshops and City Reconnaissance Missions

Timelines for State-level workshops and City level reconnaissance missions would be scheduled in consultations with the State nodal officer for each State. The dates for the workshop would be reflected on the State Workshop Progress Monitoring Dashboard as and when the dates for each workshop gets finalised. This dashboard would help MoHUA and States to track the progress of State workshops and city reconnaissance missions, respectively. This dashboard would later be utilized to monitor progress of secondary data submission by cities.

Preparation of draft workshop agenda and discussion content

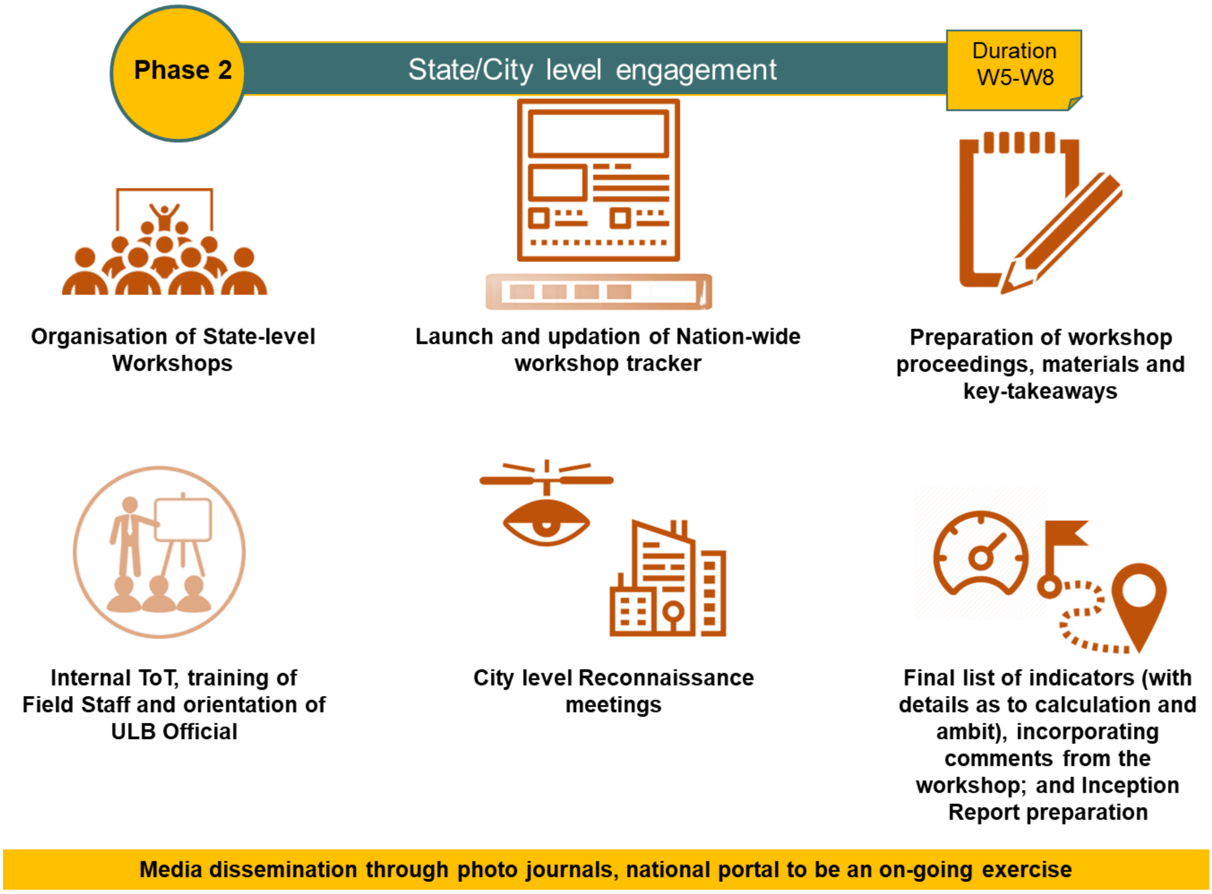
A draft workshop agenda would be prepared and finalised in consultation with the MoHUA and respective State Governments. The workshop would have structured discussions around the following thematic areas – Project Background and Methodology, Understanding the indicators (demystifying nomenclatures and data points), smart proxies, data collection template, standardization of reporting period, data lags, incentives for timely/early submissions, etc.

Project coordination | **Indicator mapping and development** | **Template development** | **Tool development** | **State/UT Workshop and City Reconnaissance Rollouts** | **Dissemination Strategy**

We will create a strategy for dissemination of the city liveability assessments at the international and national level. While a national workshop to share the city level rankings is planned towards the end of the study we plan to engage with international, national, state and local level on an on-going basis through a host of media dissemination activities such as photo journals, articles, blogs and a high decibel social media campaign. One key outreach event is the creation of a dissemination platform - 'The Hub' @ The Economist to connect and share progress with global audience. Our dissemination activities will conclude with the national level workshop to demonstrate use-case of evidence generated by this exercise for futuristic urban planning for Indian cities.

Phase 2: State/UT-level Engagements and City Reconnaissance Missions [Week 5- Week 8]

Phase two will commence with launch of state/UT level workshops. Overall a total of 36 workshops will be conducted over a period of two to three months. Our teams would coordinate with the state level nodal officers early on for tentative dates for scheduling workshops. The objective of the State level workshop will be to familiarize the state/UT government and city representatives about the overall concept of Liveability Index, assessment methodology, data requirements, data sources, data collection interface/application and validation methodology and associated processes and timelines for submission of complete data. Schedule for city level reconnaissance meetings will able to finalised during the state/UT workshops. The figure below summarises the key activities and milestones to be complete in this phase.



Phase 2 State/City level engagement

Duration
W5-W8

Organisation of State-level Workshops

Launch and updation of Nation-wide workshop tracker

Preparation of workshop proceedings, materials and key-takeaways

Internal ToT, training of Field Staff and orientation of ULB Official

City level Reconnaissance meetings

Final list of indicators (with details as to calculation and ambit), incorporating comments from the workshop; and Inception Report preparation

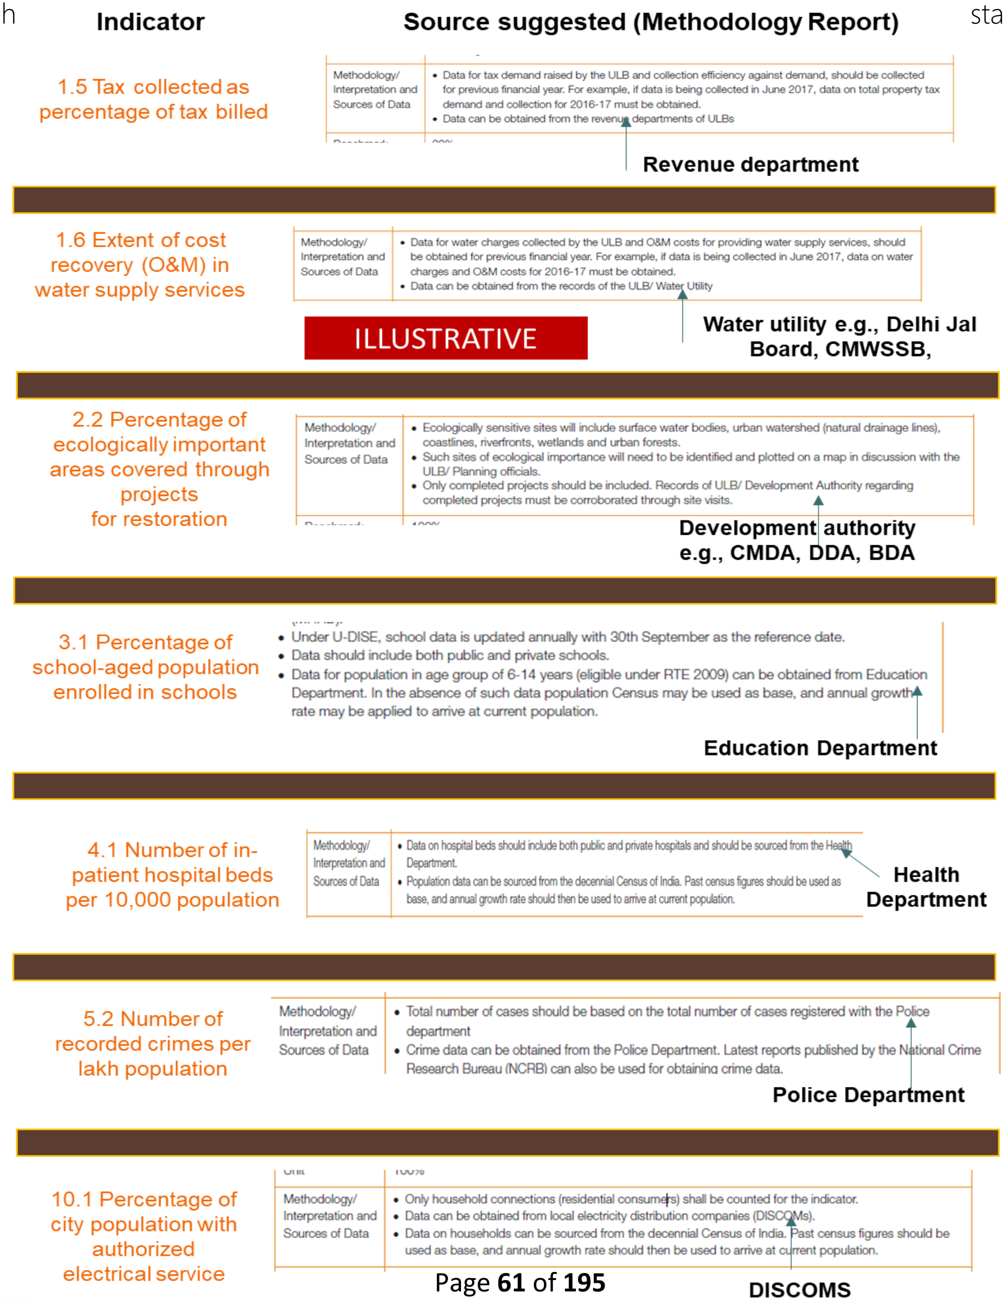
Media dissemination through photo journals, national portal to be an on-going exercise

It is expected that about 40-45 participants comprising city representatives, state nodal officer, representatives from relevant line department of the State government and other participants suggested by the State Government will attend the workshop. Key outcomes of the State level workshops will include the following:

- Timelines for city level reconnaissance meetings

- Identification of preferred mode of data collection interface
- Timelines for confirming availability/unavailability of required data
- Timeliness for submission of secondary data
- Timelines for review and agreement on data
- Protocols for escalation of issues relating to data nomenclature, submission delays etc.
- Incentive structure for timely submission of secondary data

An initial list of participants will be drawn based on the agency suggested for different data points in the 'Methodology Report. This list would be finalised in consultation with the nodal officers of each state.



Indicator **Source suggested (Methodology Report)**

1.5 Tax collected as percentage of tax billed

Methodology/ Interpretation and Sources of Data	• Data for tax demand raised by the ULB and collection efficiency against demand, should be collected for previous financial year. For example, if data is being collected in June 2017, data on total property tax demand and collection for 2016-17 must be obtained. • Data can be obtained from the revenue departments of ULBs

Revenue department

1.6 Extent of cost recovery (O&M) in water supply services

Methodology/ Interpretation and Sources of Data	• Data for water charges collected by the ULB and O&M costs for providing water supply services, should be obtained for previous financial year. For example, if data is being collected in June 2017, data on water charges and O&M costs for 2016-17 must be obtained. • Data can be obtained from the records of the ULB/ Water Utility

ILLUSTRATIVE

Water utility e.g., Delhi Jal Board, CMWSSB,

2.2 Percentage of ecologically important areas covered through projects for restoration

Methodology/ Interpretation and Sources of Data	• Ecologically sensitive sites will include surface water bodies, urban watershed (natural drainage lines), coastlines, riverfronts, wetlands and urban forests. • Such sites of ecological importance will need to be identified and plotted on a map in discussion with the ULB/ Planning officials. • Only completed projects should be included. Records of ULB/ Development Authority regarding completed projects must be corroborated through site visits.

Development authority e.g., CMDA, DDA, BDA

3.1 Percentage of school-aged population enrolled in schools

- Under U-DISE, school data is updated annually with 30th September as the reference date.
- Data should include both public and private schools.
- Data for population in age group of 6-14 years (eligible under RTE 2009) can be obtained from Education Department. In the absence of such data population Census may be used as base, and annual growth rate may be applied to arrive at current population.

Education Department

4.1 Number of in-patient hospital beds per 10,000 population

Methodology/ Interpretation and Sources of Data	• Data on hospital beds should include both public and private hospitals and should be sourced from the Health Department. • Population data can be sourced from the decennial Census of India. Past census figures should be used as base, and annual growth rate should then be used to arrive at current population.

Health Department

5.2 Number of recorded crimes per lakh population

Methodology/ Interpretation and Sources of Data	• Total number of cases should be based on the total number of cases registered with the Police department • Crime data can be obtained from the Police Department. Latest reports published by the National Crime Research Bureau (NCRB) can also be used for obtaining crime data.

Police Department

10.1 Percentage of city population with authorized electrical service

Methodology/ Interpretation and Sources of Data	• Only household connections (residential consumers) shall be counted for the indicator. • Data can be obtained from local electricity distribution companies (DISCOMs). • Data on households can be sourced from the decennial Census of India. Past census figures should be used as base, and annual growth rate should then be used to arrive at current population.

DISCOMS

Key ULB officials will participate in the state level workshops while the remaining officials may be encouraged to participate in city level reconnaissance discussions. An indicative programme structure is presented below:

Programme	Day 1	Day 2	Day 3	Day 4
Internal orientation to state/regional coordinators	√		ILLUSTRATIVE	
State/UT workshop		√		
City/ULB Reconnaissance discussions			√	

Post the State/UT workshops, our team will engage in city-level reconnaissance missions that would involve meeting relevant city-level stakeholders including utilities (DISCOMS, water supply, etc.) SPV for Smart Cities, different project heads, parastatals such as development authorities, district collector, concerned line departments such as health, education, police, tourism, among others. Special focus will be given to engage with key officials within ULBs such as revenue, accounts, solid waste management etc.

For effective coordination, smooth exchange of information flow and continuity, it is proposed that engagement with the cities will be undertaken through a nodal officer at the state/UT level. A critical milestone of this workshop will be designation of nodal officer for overall coordination by the respective state/UT government. The nodal officer will also serve as the State Data Ombudsman and troubleshoot issues relating to data.

Incentive structure for data submission

A key challenge envisaged in this study pertains to potential challenges related to timely submission of secondary data by the cities. We propose to formulate an innovative incentive structure in consultation with MoHUA and convey it at the state/UT workshops/city meetings to ensure their buy-in. Some of the ways in which cities could be incentivised could be 'appreciation of best performing cities on national portal and social media campaign,' with SMS alerts sent to all key city representatives, and exclusive coverage of best performing cities in photo journals etc.

Monitoring progress of state/UT workshops and City Reconnaissance Missions

The progress of the state/UT workshops and City Reconnaissance Missions will be monitored through a dashboard that will be updated near-real time. The dashboard will information on upcoming, on-going and completed workshops and reconnaissance missions. Associated documents such as workshop agenda, list of participants, discussion materials, workshop proceedings/minutes, photographs, etc. will be accessible through the dashboard.

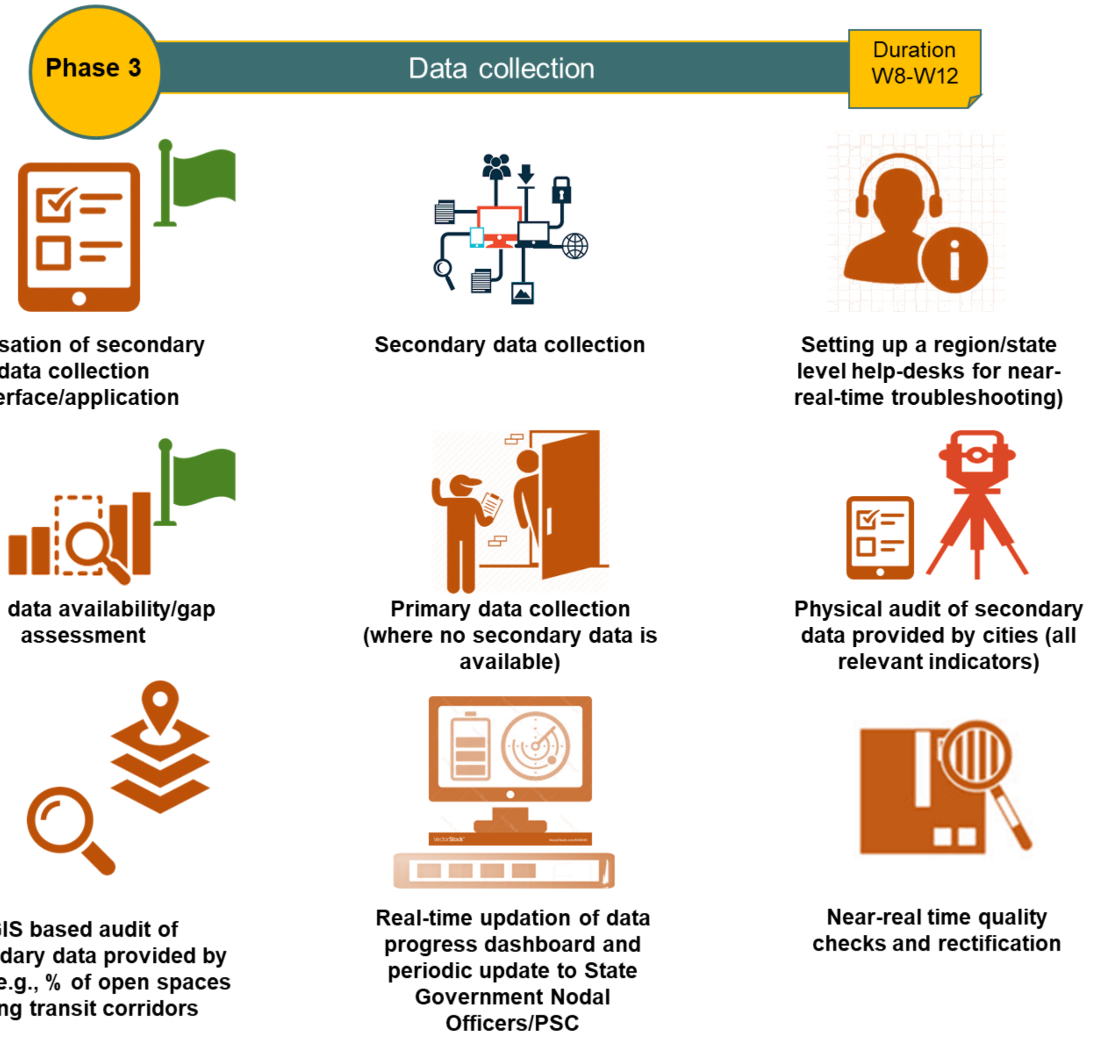
Phase 3: Data collection [Week 9 – Week 12]

This phase will involve the following activities:



Phase 3 Data collection

Duration W8-W12

Finalisation of secondary data collection interface/application

Secondary data collection

Setting up a region/state level help-desks for near-real-time troubleshooting)

Final data availability/gap assessment

Primary data collection (where no secondary data is available)

Physical audit of secondary data provided by cities (all relevant indicators)

GIS based audit of secondary data provided by cities e.g., % of open spaces along transit corridors

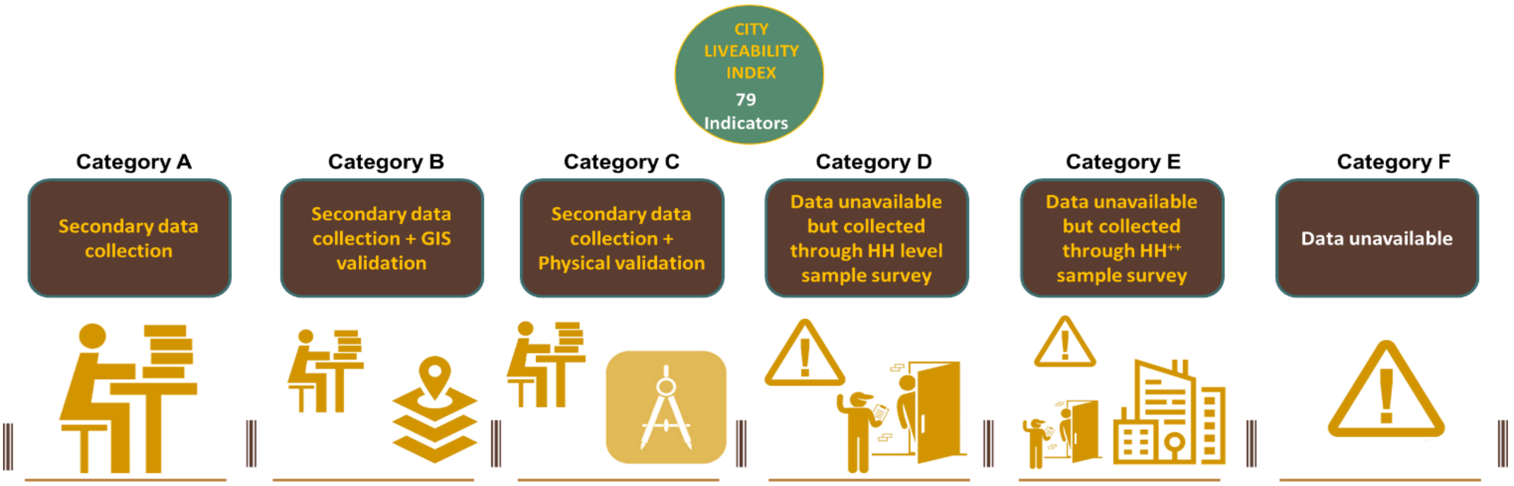
Real-time updation of data progress dashboard and periodic update to State Government Nodal Officers/PSC

Near-real time quality checks and rectification

Media dissemination through photo journals, national portal to be an on-going exercise

We propose collection of secondary data as an on-going exercise as our teams will start collating city level data from the preparatory phase itself and prepare data sheets with pre-filled data covering the 79 indicators to the extent possible. However, formal data collection will commence from week 9 as indicated in the ToR.

As presented in the section on preparatory phase, the 79 indicators could have six categories of data collection interface.



CITY LIVEABILITY INDEX
79 Indicators

Category A
Secondary data collection

Category B
Secondary data collection + GIS validation

Category C
Secondary data collection + Physical validation

Category D
Data unavailable but collected through HH level sample survey

Category E
Data unavailable but collected through HH++ sample survey

Category F
Data unavailable

While it is expected that input data associated with all the 79 indicators will be provided by the cities, there could be some data gaps and concerns regarding period of availability, reporting units and formats, reliability etc. In this section we outline our preliminary approach for addressing the issues for various indicator category. For Category A (Secondary data collection), pre-filled templates will be prepared for each city wherever possible and shared for validation/filling new data.

State level helpdesks will be set up for each State/UT to assist the cities on any aspect relating to filling secondary data templates. This helpdesk would be manned by respective State level coordinators with technical back stopping facility by the support team.

Category B involves indicators that merit spatial validation. Some of the indicators under this category are:

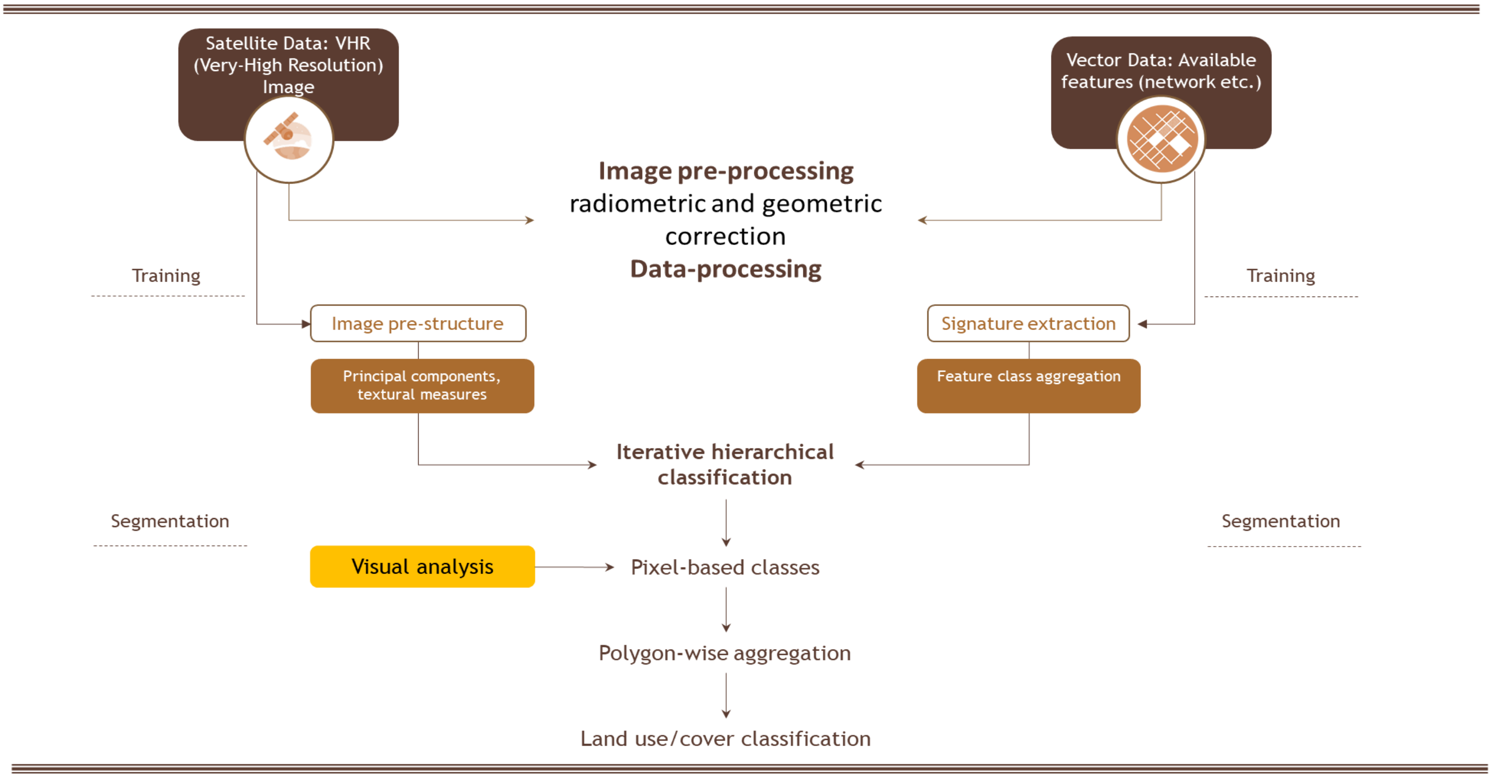
8.1 | Per capita availability of green spaces

5.1 | Number of streets, public places, junctions covered through surveillance systems

9.1 | Share of mixed land use area in overall city land use

9.2 | Net Density

For these indicators, we will be undertaking validation of the secondary data provided by cities through visual analysis using satellite and vector data. Figure below presents our approach:



Satellite Data: VHR (Very-High Resolution) Image
Vector Data: Available features (network etc.)
Image pre-processing
radiometric and geometric correction
Data-processing
Training
Training
Image pre-structure
Signature extraction
Principal components, textural measures
Feature class aggregation
Iterative hierarchical classification
Segmentation
Segmentation
Visual analysis
Pixel-based classes
Polygon-wise aggregation
Land use/cover classification

Indicators under Category C merit physical validation in the field to strengthen reliability of the indicators. Preliminary review of the indicators suggest that physical validation exercises would need to be carried out for 11 indicators. Figure below presents our sampling approach:

Indicator	Validation approach
2.3 | Hotel occupancy	Total 35 hotels; 5 star (5 hotels); 4 star (10 hotels), 3 star (10 hotels) less than 3 star (10 hotels) randomly in each city
3.4 | Percentage of schools with access to digital education	Randomly select 40 schools for validation in each city
5.1| Number of streets, public places, junctions covered through surveillance systems	Inspect 30 major public places and junctions in each city, randomly
6.5 | Percentage of vendors registered and provided formal spaces	Randomly select 30 street vendors in each city
11.7 | Availability of Passenger Information System	Select 30 interchange sites- bus depots/stations, metro or suburban rail stations and water transport terminals (e.g. ferry terminal), randomly
11.8 | Extent of signal synchronization	Randomly select 30 signalized intersections in each city
11.9 | Availability of paid parking spaces	Select 30 paid parking spaces, randomly in each city
11.10 | Percentage coverage of footpaths – wider than 1.2 m	Select 30 footpath sections across major roads, randomly in each city
11.11 | Percentage of traffic intersections with pedestrian crossing facilities	Select 30 intersections randomly in each city
11.12 | Extent to which universal accessibility is incorporated in public rights-of-way	Select 30 public right-of-way areas to represent areas such as Government buildings, sidewalks/ footpaths, subways/city
14.3 | Extent of municipal solid waste recovered through reuse	Random selection and visits of recovery/re-use sites in each city

Categories D and E call for collecting data from households and households plus institutional and commercial entities such as schools, public offices etc. Category D covers four indicators while Category E covers one indicator as presented below. We propose to undertake a survey of about 400 households in each of the 116 cities for both these categories. For Category C, 400 households will be spread across different socio-economic strata of respective cities and for Category D, 200 households will cover only low-income urban communities (notified slums) in each city.

Category D

Indicator	Validation approach
7.2 | Percentage of slum areas covered through basic services	Random sampling of 200 citizens across ten notified slums in each city
11.3 | Mode share of public transport	Random sampling of 400 citizens across different socio-economic strata in each city
11.6 | Mode share of non-motorized transport	Random sampling of 400 citizens across different socio-economic strata in each city
14.1 | Household level coverage of municipal solid waste collection	Random sampling of 400 citizens across different socio-economic strata in each city

Category E

13.1 | Coverage of toilets	Random sampling of 400 respondents It would cover households, schools, public institutions, commercial establishments, etc. per city

Indicators where data is not available will be excluded from computation from the liveability index in line with the suggested methodology

Methodology for sample determination

For arriving at the sample size for this study, we have treated the present research problem as a Case of Proportions, i.e., a problem involving the estimation of the proportion of respondents exhibiting a certain kind of behaviour (in our case, proportion of households who have access to safe drinking water). In a Case of Proportions, the sample size is determined as under:

Let the sample size be n. The various assumptions made in calculating n is as under:

p is the proportion of the households (our universe in the project area) having benefited from the various urban mission. This proportion p is called the population proportion. In the absence of any estimate of p, a figure of 50 per cent could be used for the anticipated population proportion.

π is the proportion of the sample having benefited from the urban missions. This proportion π is called the sample proportion. π is obviously a dichotomous variable (a dichotomous variable is one which has only two response choices, such as "Yes, benefited from the urban mission " and "No, did not benefit from the urban mission")

E is the allowable error, i.e., the allowable difference between p and π while drawing the sample. We have fixed this 5 percent say 0.05

Z is the number of standard errors associated with the confidence level. The confidence level is fixed at 95 per cent, i.e., the pre-assigned chance of finding the true population proportion p to be within the range of ($\pi \pm 1.96s$), where, s is the standard deviation of the sampling distribution.

At a confidence level of 95 percent, the value of Z is 1.96. The estimated sample size n is worked out based of the below formula.

$$n = \frac{\pi (1 - \pi)Z^2}{E^2}$$

$$n = \frac{0.5 (1 - 0.5)1.96^2}{0.05^2}$$

Thus, sample size n works out to 384. Considering the possibility of non-availability and non-consent of the beneficiaries, about 5 per cent additional sample is proposed. With this allowance, the sample size works out to 400 per city.

A total of about 400 respondents will be covered from each city. Given that there are 116 cities to be covered in 1st year, the total sample size works out to minimum 46,400 respondents. This is a minimum sample size needed if we want the observed proportions (π) to be within $\pm$5 percent of the unknown population proportion (p).

Approach for geospatial sampling:

We propose to select our survey respondents based on a geospatial sampling methodology after evaluating the spread of the city under multiple criteria. The table shown below is an illustration of our approach towards rating each of the wards in the city. It is to be noted that any ward is likely to receive the score based on the presence of the criterion mentioned in each of the question (for eg: Presence of park/playground in the ward = 4.5%, else = 0). The scores obtained against each of these questions will be summed to provide ward level total score. It is to be noted that "slums" have been given a special attention to ensure social inclusion in our geospatial sampling methodology.

Table 1: Sampling criteria

Questions	Answers	Score / Ward
List the wards having market area in your city?		4.5%
List the wards having tourist attraction places in your city?		5.0%
List the wards having schools in your city?		5.0%
List the wards having hospitals in your city?		5.0%
List the wards having parks / playgrounds in your city?		4.5%
List the wards having rivers, lakes and/or mountains in your city?		4.5%
List the wards having large commercial areas in your city?		4.5%
List the wards having proximity to industries in your city?		4.5%
List the wards having earthen roads in your city?		4.5%
List the wards having footpath in your city?		4.5%
List the wards having good road network connectivity in your city?		4.5%
List the wards having UGSS penetration in your city?		4.5%
List the wards having low incidence of crime in your city?		5.0%
List the wards having high population density in your city?		4.5%
Score (A)		65.0%

Questions	Answers	Score / Ward
List the wards having large slums in your city?		35.0%
Score (B)		35.0%

Based on the obtained total scores, wards will be shortlisted based on the following combination:

- Combo 1: Wards with larger slum population with higher livability characteristics
- Combo 2: Wards with fewer slum population with higher livability characteristics
- Combo 3: Wards with fewer slum population with lesser livability characteristics
- Combo 4: Wards with larger slum population with lesser livability characteristics

Within the shortlisted wards, about 33% of the primary survey (200 Surveys) will be conducted in wards having larger slum population. We would also ensure that the survey conducted within every ward will

be well spread within the ward boundary to ensure representativeness of the entire city and this will be constantly monitored by the field officer through a mobile application.

Score (A)	SCORE (B)	Sample
High	High	200 SURVEYS
Low	High	
Low	Low	400 SURVEYS
High	Low	

Sampling of Households

In each starting point 10 households(HH) will be covered for eliciting feedback about the various facilities available in the city. The first household shall be z^{th} number household from a starting point. The second household will be $(5+z)^{th}$ household. This process should be continued till the time we achieve the sample size (10 HHs) for that particular starting point. During selection of household serpentine Right Hand Rule will be followed.

Sampling of respondents

Adult members of the sampled household, who are aged 18 and above would be considered as eligible respondents for the survey. Where ever there are more than on eligible respondent in the household KISH grid will be used for unbiased selection of the eligible respondent. The usage of KISH grid will also ensure the fair representation of both the gender in the sample. For the Indicator 7.2, percentage of slum areas covered through basic services, we propose a sample of 200 per city across 10 slums (as per list available with slum rehabilitation board).

Kish Grid Selection - Illustration

Respondent No.	Gender	Age	Adult No.	Selected Respondent
1	M	57	1	
2	M	44	2	
3	M	35	3	
4	F	61	4	x
5	F	27	5	

The slums will be selected using a simple random sampling from the available list. We will overlay this selection to ascertain the geographical spread across wards / zones in the city. The same process as outlined above will be followed for selection of HHs and individuals in the selected HH.

Overall sample size

The total number of respondents to be covered as part of our primary data collection including physical audit across identified indicators is presented below:

Unit	Sample per city	No of cities	Total sample
HH survey/ Citizen (slum and non-slum)	600	116	69,600
Institutions- Hotels, Schools, Establishments	98	116	11,368
Physical validation through Observation	270	116	31,320
Total	968	116	1,12,288

Data collection team structure

Based on different categories of data to be collected/validated, three different teams will be working in tandem to collect the required data in time. First team comprises regional/state/UT coordinators who will be entrusted primarily with the responsibility of secondary data collection. Second team comprises field investigators and supervisors who will be involved in collection of primary data for indicators identified under Category D and Category E. The third team will include physical auditors who will be validate the reliability of secondary data provided by cities for indicators identified under Category C.

Team 1

Regional/State/UT Coordinators

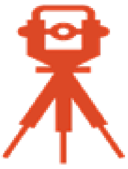
Responsible for secondary data collection, organising State/UT workshops and city reconnaissance meetings, follow-ups, help desk support, and local support to Team 2 and Team 3

Team 2

Field Investigators and Supervisors

Responsible for pilot testing, primary data collection for indicators identified under Category D and Category E

Team 3



Physical Auditors

Responsible for physical inspection and verification of secondary data provided for indicators identified under Category C

All these by a team will be supported pool of quality control, IT and analytical team. The state

All teams will be supported by a centralised quality control, IT and technical backstopping team

coordinators will serve as an additional layer of local support for guiding the field team on different aspects of primary data collection and physical validation.

Training of regional/state coordinators [secondary data collection]

We will conduct an internal brainstorming cum training session wherein the Regional/State Coordinators will participate and familiarise themselves with the assignment and modalities involved along with non-key staff/consultants. Subsequently, we will be conducting a three-day training programme for the Regional/State Coordinators and key city/ULB representative along the State/UT workshops. Training will cover secondary data collection interface/application, data formats including reporting period, reporting units, data collection process, escalation protocols, and ethical considerations among other modules. Subsequently, the Regional/State Coordinators with support from the PCC team will train field supervisors, investigators and physical auditors.

Research instrument development, pilot test and training [primary data collection]

The overall sampling strategy for categories indicated above will be finalised in consultation with MoHUA. Subsequently, the team will develop research instruments covering relevant indicators and target groups. Each of the research instrument will be pilot tested and finalised based on field level insights. Our consortium specialises in developing minimalistic instruments without losing coverage and rigour of data collection. To carry out the survey, the research instruments will be developed as mobile application such as ODK Collect or Kobo Tool Box that allows that cloud based storage of backend data and provides near analysis ready data.

We will explore using a computer-aided in-person interviewing (CAPI) methodology to collect data on Windows-based phones or tablets, which has numerous advantages over traditional pen-and-paper methods. The programmed instrument will have built-in logic that ensures the correct path through skip-patterns, doesn't allow interviewers to enter invalid responses to closed ended questions, and runs internal consistency checks.

Using CAPI enhances measurement quality, reduces error, and limits the need for editing and cleaning following data collection. For every interview, the exact GPS location is captured, which means that quality control departments can verify interviews are being performed at the correct locations. In addition, quotas are automatically tracked on the mobile device which reduces the need for manual tracking. We have invested significantly in enhancing our CAPI capacities both in terms of infrastructure and human capacity. Ipsos has a well-trained pool of interviewers that are familiar with quality processes for CAPI interviews and used to close scrutiny and rigor of monitoring. Our expert data team will program the survey, after which extensive quality checks will be carried out by the Ipsos team. We will then run sample cases through the survey to test for logic and skip patterns. Following the completion of programming in English, we will overlay the translated instruments and additional quality checks on

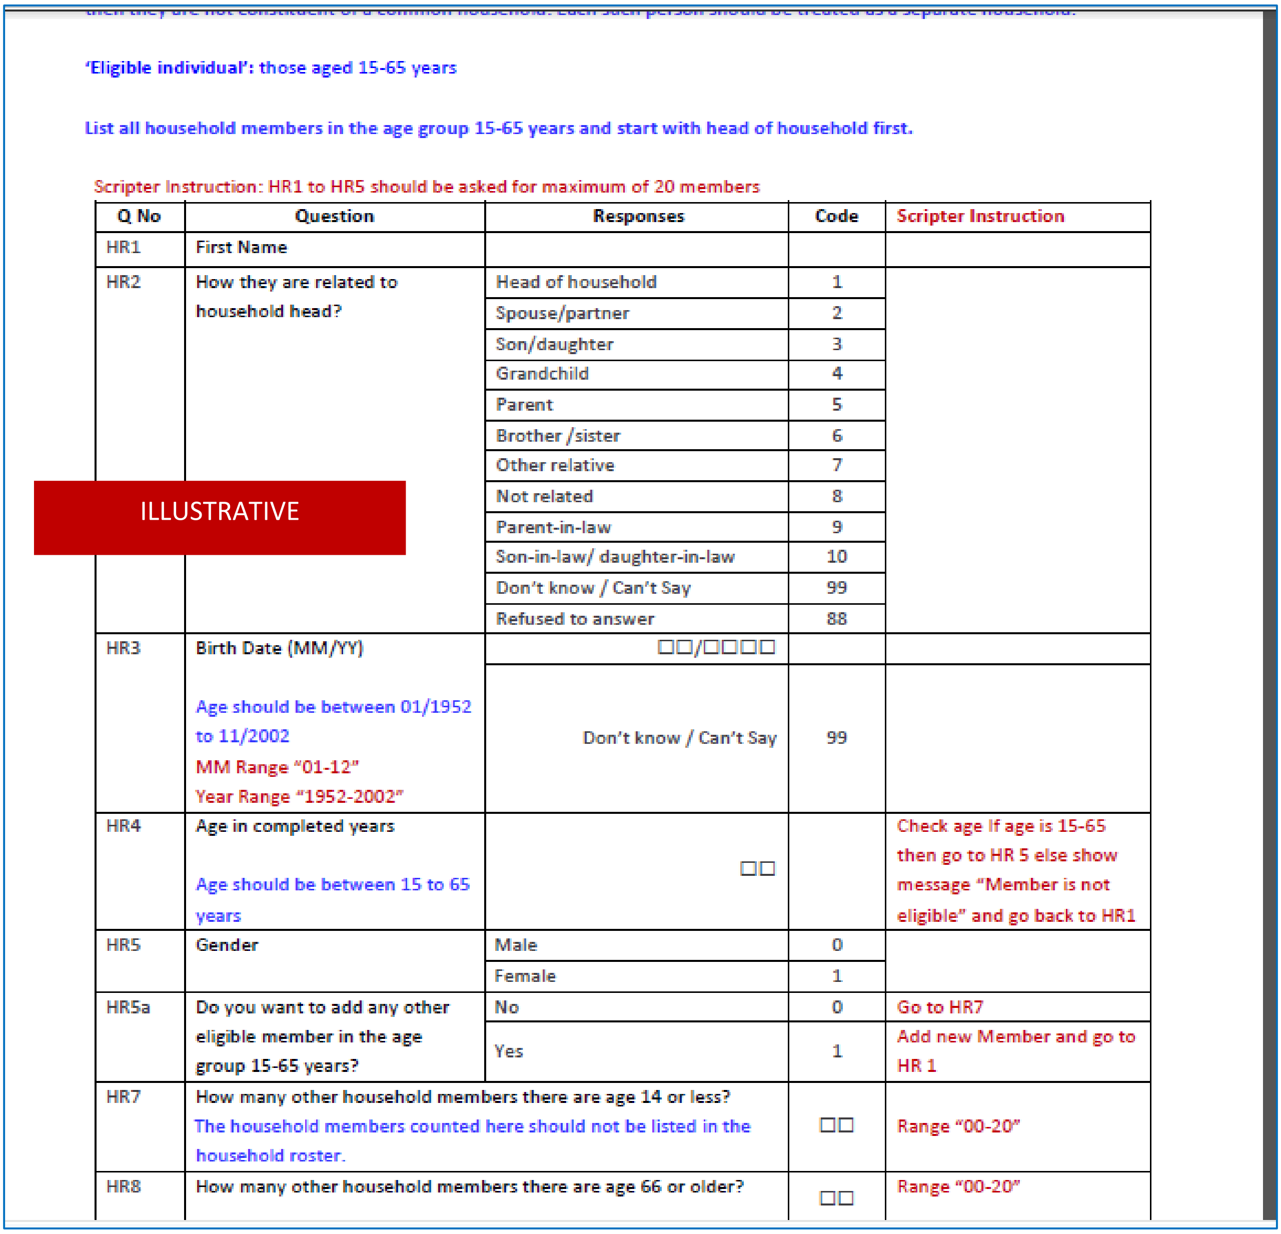
all translations will be done. The programmed instrument will be downloaded to the Phone/Tablet devices to be used by interviewers.

The research instruments will be **translated in all relevant regional languages** for all 116 cities. All translation will be checked by the researchers to ensure that the meaning of the questions has not

Our extensive experience conducting quantitative social research in a variety of fields has taught us that the questionnaire can be designed to maximise participation based on the following key principles:

Concise and well-structured survey design:	A short survey will get more responses than a long survey, and competing priorities can lead to very long questionnaires. It is important to focus on top priorities and understand key opinions while also being realistic both regarding length of survey but also respondent ability to report on certain items.
Questions are easy to answer:	Instruments that are difficult to complete lead to errors from the interviewer as well as the respondent. Although we provide extensive training to interviewers, complicated questions can be difficult to complete accurately. Additionally, we ensure that questions are drafted with as few clauses as possible, without double-negatives, and should include as comprehensive a range of answer options as possible.
Take into account the respondent's knowledge and sensitivities:	Sensitive questions, such financial questions or those about socially unacceptable behaviors (for instance open defecation), most often lead to inaccurate reporting and poor data because respondent over/under report or give the more socially acceptable answer.
Questions should allow respondents to not know:	Where respondents are forced to answer questions, they do not feel they know the answer to, they are likely to become frustrated and close the survey early. We therefore recommend that a "DK (Don't Know)/NA (Not Applicable)" option is always provided, particularly in sensitive environments.
Allow respondents to feel heard without burdening them unduly:	Limit open-ended questions to one to two and do not require respondents to fill them out. Additionally, a confusing screener or imprecise definitions of the target respondent can take a lot of time and lead to errors in data collection.

Additionally, we will ensure that questions used are tested and used as a standard. We will also have all survey instruments undergo a thorough review by sociologists and psychologists with expertise in instrument design, who will look to ensure the overall instrument and individual questions are structured in a way that is accessible to respondents (by, for instance, organizing the instrument logically and introducing new topics/question modules so that respondents are not confused about why they are being asked certain questions at a given point in the interview) and cognitively unambiguous (avoiding, for instance, questions where one question asks about multiple constructs).



ILLUSTRATIVE

then they are not constituent of a common household. Each such person should be treated as a separate household.

'Eligible individual': those aged 15-65 years

List all household members in the age group 15-65 years and start with head of household first.

Scripter Instruction: HR1 to HR5 should be asked for maximum of 20 members

Q No	Question	Responses	Code	Scripter Instruction
HR1	First Name			
HR2	How they are related to household head?	Head of household	1	
		Spouse/partner	2	
		Son/daughter	3	
		Grandchild	4	
		Parent	5	
		Brother /sister	6	
		Other relative	7	
		Not related	8	
		Parent-in-law	9	
		Son-in-law/ daughter-in-law	10	
		Don't know / Can't Say	99	
		Refused to answer	88	
HR3	Birth Date (MM/YY) Age should be between 01/1952 to 11/2002 MM Range "01-12" Year Range "1952-2002"	☐☐/☐☐☐☐		
		Don't know / Can't Say	99	
HR4	Age in completed years Age should be between 15 to 65 years	☐☐		Check age If age is 15-65 then go to HR 5 else show message "Member is not eligible" and go back to HR1
HR5	Gender	Male	0	
		Female	1	
HR5a	Do you want to add any other eligible member in the age group 15-65 years?	No	0	Go to HR7
		Yes	1	Add new Member and go to HR 1
HR7	How many other household members there are age 14 or less? The household members counted here should not be listed in the household roster.		☐☐	Range "00-20"
HR8	How many other household members there are age 66 or older?		☐☐	Range "00-20"

changed while translating into regional languages. We propose to pre-test the questionnaire in two non-sampled areas in any two selected cities. The pre-testing of the questionnaires will be undertaken on the translated questionnaires. The pretesting will ensure the following aspects:

- Whether all the questions are comprehensible to the enumerator
- Whether the respondents have any difficulty in understanding the questions
- Whether the length of the questionnaire is optimum?
- Whether the questions ordered properly
- Whether any change is required in the questionnaire

Finally, it will help in fine tuning the questionnaire and to determine the flow of questions, to make life easy for the investigator as well as the respondent.

The final tool will be scripted and uploaded in all regional languages for the main survey. Ipsos internal platform i-field will be used for HH survey that brings in the advantage of GPS capture and audio recording as well as real time tracking of field work completion status

Approach to data collection:

Secondary data collection for cities will start immediately after culmination of State/UT workshop and subsequent training of key city/ULB representative through city level reconnaissance meetings. The launch date for cities will vary depending upon the workshop schedule and fixing of appointment for city level meetings in each State. In the mean-time we will update secondary data collection interface/application based on the inputs and suggestions provided by the State and city representative at the workshop. Progress of data collection will be monitored through an integrated dashboard (refer prototype presented in the section on preparatory phase activities). We propose to deploy a team of four field investigators, four physical auditors and one field supervisor per city to undertake primary data collection/audit exercise in each city. Overall 69 such teams will be deployed to complete primary data collection across 116 cities in 16 days' time. Our pool of enumerators is experienced in undertaking large surveys in the urban areas across different sectors and hand-held devices. We will be undertaking a three-day training programme at a regional level to familiarise our field team with project objectives, research instruments, sampling frame and survey ethics. We propose to involve the field team in pilot testing of the research instruments for field-based training and better understanding of the research instrument. Our experience in managing large-scale survey research assignments tells us that the successful organisation and management of an assignment such as this requires the following approach:

A national level presence: We will work through its own offices and teams in all states and Union Territories and will not outsource any part of the survey management or data collection task to any external supplier or vendor. This will ensure that data in each state is collected as per agreed protocols

and quality norms. All our offices are manned by local teams that have a panel of interviewers and supervisors from the state/ districts that are familiar with the geography and local dialects.

Zonal hubs: The core project management team based in Delhi will be supported by zonal hub managers who will be Ipsos permanent staff – field managers with experience of managing large scale projects. These hubs will help the core team in all phases of the research process. Their contributions are particularly important while team mobilisation, making the route plan, translation in local languages, and managing the fieldwork. They will also provide valuable support at time-intensive stages of the project, such as script checking, fieldwork monitoring, and data checking. These zonal coordinators will operate under the guidance Central Project Team.

Centralised Training of Trainers: We will conduct centralised TOT for Zonal and State Managers to plan and implement the fieldwork. The training will be for 4 days including field visits to ensure that field managers are familiar with the field situations, exposed to potential challenges, and have a thorough understanding of research subject. Emphasis will also be on imparting them facilitation and risk assessment skills required for managing the survey.

Multi-disciplinary expert teams, with resource at the right level to ensure value for money: The organisation and implementation requires expertise in sampling, scripting, and strong operations, but also proven skills in co-ordination, rigorous analysis of quantitative data, high quality reporting skills, as well as relevant experience in the states. Given the scale of this project, there are certain stages that are resource and time intensive, and we know that it is important to maximise the skills of resources to ensure value for money, with senior oversight. We propose a very strong core team together based on their multi-disciplinary skills. In addition, all offices will be supported through layers of reporting by the respective functions- operations, research, and IT for monitoring completion of the survey and reviewing completes.

Fieldwork monitoring procedures

This section details PCC Team monitoring responsibilities **prior to and during the survey implementation** to guarantee timely delivery of the project, while maintaining high quality. There will be several standard monitoring actions undertaken by the PCC-Team prior to and throughout the fieldwork:

- Providing state offices with **guidelines on managing fieldwork** and checking that these guidelines are correctly implemented;
- A dedicated fieldwork manager will be appointed in each state and will be responsible for receiving and reviewing the **weekly resource planning** of its state.
- Project executives from the PCC Team will also review **daily progress and sample reports** (and outcomes) and share their observations with the state teams, following up where necessary.

The quality control plan envisages quality check mechanisms at the at the data collection level as discussed below.

Table 2: Structure for Quality Checks in the Field

Level of staff	Functions in quality check
Field Investigators	Data Collection
Field Supervisors	100% scrutiny & accompaniments
Core and research support team	25% scrutiny, overall field monitoring and quality checks

1. Spot check and observation

In a spot check, the supervisor will attend an interview along with the investigator, to see if the investigator is comfortable with the flow of the questionnaire, is explaining the questions as they should be and is recording the responses correctly. The following forms a part of the spot checks and observation process to be adhered by the Supervisor:

- Observe some of the interviews, to ensure that the interviewers are conducting themselves well, asking the questions in the right manner, and interpreting the answers correctly
- Spot check some of the addresses selected for interviewing to be sure the interviewers interviewed the right household
- Review the questionnaire to be sure it is complete and is internally consistent
- Meet with each member of the team on a daily basis to discuss performance
- Help to solve any problems that interviewer might have with finding assigned households, understanding the concepts in the questionnaire or with difficult respondents.

2. Back checks

Field supervisors shall ensure that for all sampled areas wherein completion rate is found to be low or seems to be a problem, back checks shall be done by himself/supervisor of other team.

3. Inbuilt Quality Control

The manually filled in questionnaires have a risk of manual errors which would be eliminated completely at the software development process. The following checks would be inbuilt within the questionnaire design:

- Range Checks: To make sure that an entered number is within the right range. For example; a field indicating month cannot be more than 12.
- Consistency Checks: To make sure that the information entered is consistent and there are no errors. These checks are important for open ended questions.

- Validation Checks: To check that the data type entered is valid as per the design of the questionnaire. For example, age cannot be entered as an alphabetical value.
- Skip Checks: To make sure that the question is chosen logically correctly based on a previously answered question.

Ethical Considerations

Following three categories of ethical norms advocated by our consortium will be adhered to by all project staff:

Integrity

- The staff on payroll or contract always demonstrates honesty, integrity, and professionalism at all times.
- The team understands and appreciates that, while primary data represents attributes of real people, the actual person is not described in the reports.
- The staff is aware of applicable statutes, regulations, practices, and ethical standards governing data collection and reporting.
- The team reports information accurately and without bias.
- The team is accountable, and holds others accountable, for ethical use of data.

Data Quality

- The team promotes data quality by adhering to best practices and operating standards.
- The team provides all relevant data, definitions, and documentation to promote comprehensive understanding and accurate analysis when releasing information.

Security

- The team treats data systems as valuable organizational assets and hence data backup is a mandatory affair.
- The team safeguards sensitive data to guarantee privacy and confidentiality as our servers are accessible to limited staff only.

Within the ambit of the above ethical norms, the team for this assignment would ensure that no violations like collecting data not pertaining to this assignment, accessing areas within the institution premises for which approval has not been taken etc. are committed during the data procurement from various institutions.

The team would also ensure that any data which may have been classified as confidential is not disclosed intentionally or unintentionally. Any other issues that may emerge during the course of the assignment, will be informed to the client and as per the advice given, necessary safeguards would be undertaken by the consultants.

Real time access to status of fieldwork/ online monitoring: Efficient and fast communication is a pre-requisite for any survey these days to identify problems early on and introduce mid-course corrections. Ipsos globally and in India is transitioning away from PAPI to use of CAPI which helps addresses some of the inherent challenges of PAPI survey in terms of quality and reporting. CAPI will allow the core team to get daily updates across all centres. A dedicated project management team will monitor completes and review trends in data to review that the interviews are being conducted as planned and the quality of interviews is good. CAPI allows us to capture GPS coordinates that is useful in tracking spread of locations for the interviews and ascertain that the sampling protocols are followed, facility to record part of interviews, and capture photograph with consent of respondents provide additional levels of quality checks.

The research team will assess the minimum quality check requirements that can be drawn from CAPI and implement for the survey. We will also schedule regular hub conference calls at key stages of the project can help disseminate essential information, and that hub managers and junior members of the core coordination team are in daily written/telephone contact with field managers.

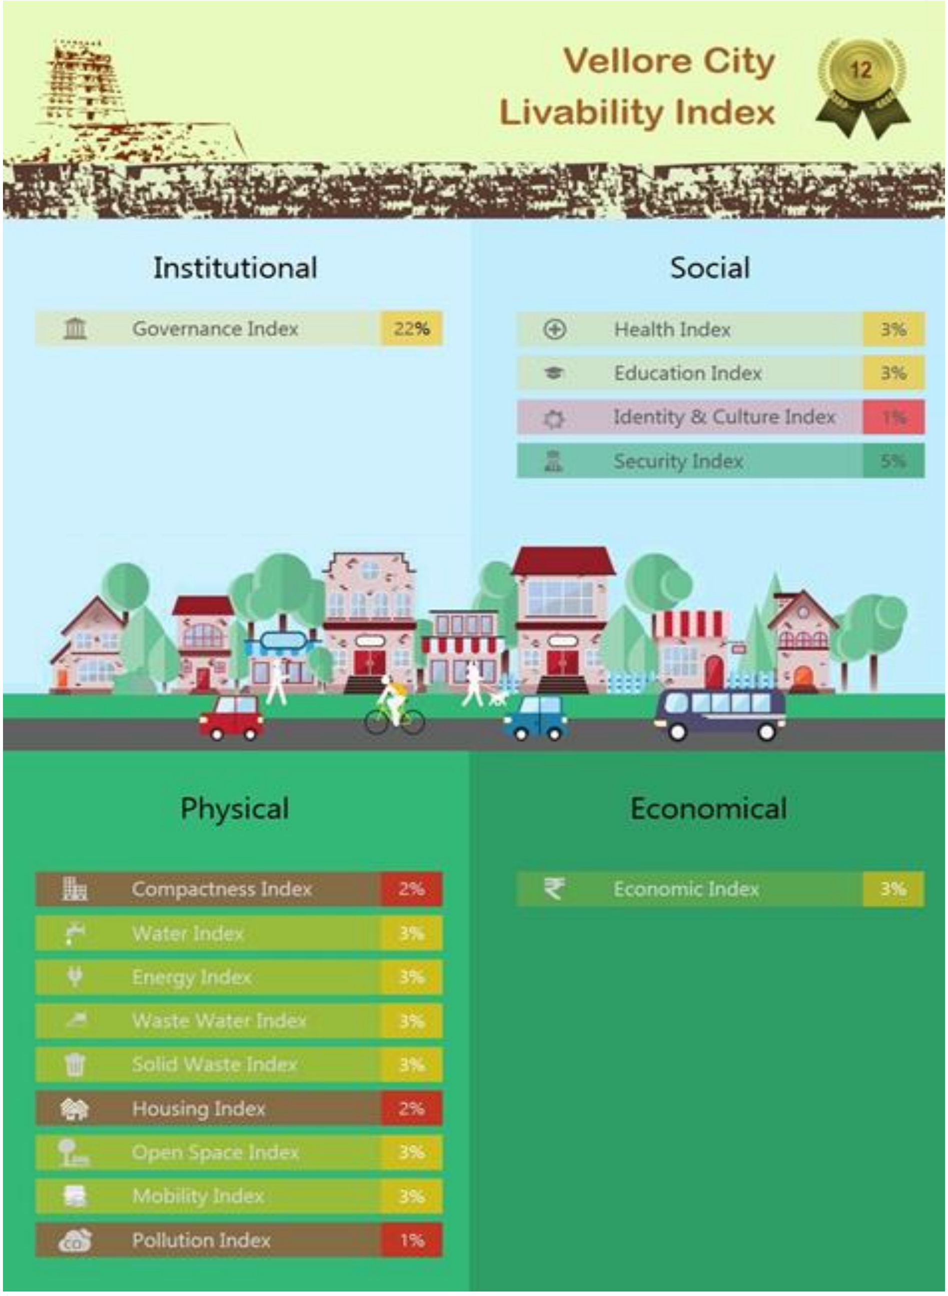
Phase 4: Data collation, sign-off and finalisation [Week13 – Week 14]

Once we receive secondary data, validated secondary data and primary data we will collate these into a single format and share them back with the cities post detailed scrutiny and review with proper citation. It is possible that there could be some variation in the secondary data provided by cities vis-à-vis data validated for some of the indicators identified under Category C. For instance, data from City A may report 80% of the schools to have facilities for using digital content but physical validation exercise could report 70%. Such variations are possible even after due consideration of aspects such as sampling only from sub-set of schools reported to have such facilities, random selection of schools etc. We will be developing protocols for addressing such issues during the preparatory phase itself and will work closely with the State Nodal Officer who will also serve as the data ombudsman to help reconcile such deviations.

Overall, each city will have a window of two weeks to review the final data sets and indices and revise/modify and sign-off on their datasets. Post sign-off, we will finalise the datasets (considering receipt of new data from cities during the two-week review window) and develop final indices for report preparation and visualisation.

Phase 5: City Assessment Reports, Media and dissemination [Week 15 – Week 20]

This phase involves preparation and submission of city wise final assessment reports and dissemination of the assessment through a national workshop. The structure and content of the report will be standardised across different city typologies and finalised in consultation with the MoHUA on an iterative basis. An illustrative report template is presented below for reference.



Vellore City
Livability Index

Data availability and quality assessment framework

Cities typically lack the ability and the institutional mechanisms to reliably collect data. Datasets which have internal decision-making linkages are usually better reported than datasets reported solely for compliance purposes. Hence, both criticality and reliability of datasets is not homogenous, but specific to each indicator, and possibly jurisdiction. In this context, we present a rubric to help assess quality and reliability of datasets below:

Table 3: Rubric for Data Quality Assessment

No.	Indicator	Notes
Data Quality and Reliability		Designed to provide an overview of the availability and quality of the dataset in discussion. Calculated as a combination of five sub parameters below
A	Availability	Measure of whether the dataset is available at all. A multiplicative factor (in case data on the indicator is not available, the data quality/availability is given a score of zero, without any further investigation into other sub areas)
B	Open access	Measure of the open availability of the dataset in question. Incorporates both user access (which user groups is the data made available to), nature of access (open access, or access upon request), and the format of availability (paper vs. machine readable formats)
C	Representativeness	In case the collected data is through a sample, this captures the representativeness of the same. A measure of robustness of the sampling and estimation methodology
D	Frequency	Measures the gap between the desired frequency of reporting for the dataset (based on global standards and best practices) with the available frequency. It is important to note that the frequency of datasets is a function of their mutability (e.g. topographic information can be decadal, but toilet usage behaviours warrant more frequent data)
E	Granularity	Measures disaggregation at two levels – by spatial characteristics and user characteristics
F	Reliability	Measure of mechanisms available to audit the data, and the results of such audits. A proxy to the level of confidence which users typically have for the dataset, third party validation etc.

Based on the insights from the data collection exercise pertaining to sectoral and city level data ecosystems, we will develop a data availability and quality assessment framework considering the above parameters.

We propose a multi-pronged platform for dissemination of the assessment of the liveability status of the cities. Apart from a national level workshop proposed by the MoHUA to share the findings from the study and set the stage for a futuristic vision wherein the information generated as part of this country wide exercise could inform urban planning, we propose to disseminate the findings to a larger global audience by leveraging our outreach capacities. Overall our media and dissemination channels include the following:

The Economist FILMS
THE Hub
National workshop
The Hub @ The Economist
Policy Briefs
Blogs/Articles

The National workshop could be structured as a panel discussion comprising international and national experts from academia, industries, public authorities, media, civil societies to discuss and debate the concept and measurement of urban liveability and its role in urban and infrastructure planning. City level liveability assessment could be presented on the sidelines of the workshop while the focus would be to help understand how people (and special groups thereof such as women, transgenders, children, specially-abled, senior citizens etc.) assess quality of life, wellbeing and citizen aspirations, and translate and scale them to inform how cities and regional centres can be better designed and managed.

Specific focus could be on defining conditions under which scientific models can encapsulate adaptive and heterogeneous social responses in a meaningful way.

Agenda of National Workshop

- *To drive new knowledge development into the interaction of assets, people and networks across critical aspects of the infrastructure system.*
- *To invite activity and creativity in knowledge development on infrastructure and infrastructure planning and management in the future*

We propose to keep the dissemination as an ongoing activity through a series of engaging and interactive content assets designed for marketing and dissemination such as infographics, photo journals covering State/UT workshops, city reconnaissance missions and data visualisation tools under the Ministry's name both before and after the National workshop.

It is proposed that the liveability assessment results could be housed on 'The Hub' – a prestigious online knowledge dissemination platform of the Economist Group that has global outreach. Our team would design the hub and finalise the design in consultation with MoHUA. The Liveability Index Hub would

host policy briefs, two interviews from senior officials/policy makers from the MoHUA, infographics and an interactive digital data map of India containing assessment results. Each of the 116 cities will contain the liveability index for that city, its ranking, as well as the rankings for the four underlying pillars of liveability for each city.

Quality Assurance

We provide high quality of services are committed to continuously improving what we do. Our integrated quality, compliance and information security management system, along with our quality assurance guidelines ensures all our projects are delivered to quality standards that we are committed to. Ipsos is ISO 20252 certified company for both research and field (Enclosed Certification) that requires that all processes are carried out in accordance with standards laid out in ISI 20252:2012. Athena and EIU serve reputed clients globally.

Our Quality Objectives

Our most important quality objectives are:

- To *provide assurance* to Ipsos's clients that we will deliver reliable and robust research findings by, among other measures, meeting the requirements of the international quality standard for market research, ISO 20252.
- To support the business in meeting its overall objectives, including client retention and new business development – by having effective policies, procedures and practices in place to ensure that we all work to the same quality standards.
- To minimise risk to the business by focussing on quality and continuous improvement.

We achieve these objectives by having in place a Quality Assurance System which is continually reviewed for effectiveness and improvement in a number of ways:

At every step of the project, we will ensure the compliance with the standard working procedures and quality assurance methods that have been designed for the success of the project. Online data input and collection platforms will be very powerful tools that will enable the PCC (Project Command Centre) Team to have tighter control over research process, accurate and up-to date information about state teams' performance and more efficient fieldwork monitoring and quality control. In addition to this, many standard procedures, such as training, supervision and back checking, will be put in place to ensure quality standards are adhered to (and exceeded where appropriate).

Throughout this proposal we discuss the measures we will take to ensure high quality deliverables which will meet the objectives of the study. They are summarised here in brief:

- Carefully resourced and structured Coordination Team with the relevant skills and experience to design and deliver international studies of this nature including regional social research experts;
- Internal field teams that are part of Ipsos State offices who are familiar with the geography, local dialect, nuances, and experienced in working to expected quality standard.
- Cascading training approach starting with ToT for core team, Centralised State Coordinators training and state level face to face trainings for validation and primary survey
- Direct observation of interviewer training and the early stages of fieldwork in each zone;
- Using Ipsos Dimensions/ Dooblo platform to closely monitor progress and quality indicators across all states allowing any issues to be identified early (daily updates from the field);
- Weekly conference calls with all local teams to discuss the current situation and with MoUHA to assess actual progress and make key decisions for the next steps;
- A detailed risk register updated on a weekly basis;
- At least 15% of back-checks in states;
- A dedicated Quality Director assigned to the project team.

Our approach to minimising problems

As outlined above, we are keen to properly set up this study to minimise problems and risks during execution. In addition, effective project management using an experienced PCC Team with the correct balance of technical expertise and project management expertise means that problems are avoided through clear instruction, regular and open communication, and careful monitoring and review during the project set-up and throughout project implementation. However, we know that even with the best teams in place the complexities of large-scale projects mean that problems do arise, and sometimes quick and effective intervention is needed. We are determined to be proactive and set up the process in a way it will enable us to detect any problem in an early phase and solve it before it escalates.

As a consortium responsible for implementing the project, we regard risk management as a key part of project management. We will put in place **a risk management process** because we know from experience that management of a survey such as this involves dealing with many logistical challenges, complexities and risks.

We are keen to discuss with you all potential risks in the inception meeting and to register all issues we might experience during the process. This will be a 'live' document, reviewed weekly throughout the project both internally and with you. As Project Co-ordinators, Ankit and Tripti, will retain overall responsibility for risk management, will work with the Technical Team and functional to find solutions if any aspect of the project is deemed at risk.

We would provide a full assessment of what we believe to be the most important risks to the successful completion of the project. This would constitute a starting point for further discussion with MoHUA. Below we have provided an initial assessment of what we believe to be the most important risks to the successful completion of the project.

Key risks and mitigation plan

Risk description	Probability	Impact	Mitigation Plan
Delays in finalizing the schedule for state workshops	Low	High	An intense preparatory phase has been outlined wherein co-ordination with the state mission directorates is expected to begin within the first week of the inception kick-off meeting at MoHUA. A detailed workshop schedule will be developed within the first week of project commencement and a discussion will be initiated early on to fix the dates and finalize and publish the workshop calendar.
Inconsistency in the way data is interpreted and entered by cities	High	High	There is a possibility that the city representatives might interpret the data entry requirement in a manner inconsistent with the required protocol. In addition, to an intensive training session, where cities will be apprised of the data requirements, data sources and entry protocols, the regional and state co-ordinators will be responsible for both auditing the way in which the presented data is being sourced and troubleshooting if there are discrepancies
Delays in data entry by the city	Medium	High	Given the very short timelines of the exercise, any delays in data entry by the city can have serious cascading effects on the overall timelines of the programme. In addition to close follow up that the consulting team will undertake with every city, we hope to co-ordinate closely with the state nodal officer (appointed in every state) to ensure that cities comply with the stated timelines
Challenges in reconciling physical audit data with secondary data	High	High	There is a possibility of discrepancy between the audited data outcomes and the self-reported data. To seamlessly resolve and respond to such instances, we hope to jointly set up a process in place in consultation with MoHUA representatives and the state missions right at the outset and inform cities of the same during the training workshop
Challenge securing	Medium	High	Ipsos' has local teams who has experience of working in the project cities so they are familiar with the process for

Risk description	Probability	Impact	Mitigation Plan
permissions for research			seeking consent for interviewing. As per our experience of seeking permission for interviews in different officials , a formal letter from client side will be issued to the local office. A senior team member will visit the offices with the letter for prior consent. assuring confidentiality and seek their inputs on timings, accessibility to respondents.
Poor administration of questionnaire by the data collection team	Medium	High	Qualified and experienced field investigators will be recruited. The training programme (face to face) will be intensive and focus on all aspects of the study, sensitisation for self on issues of gender, being aware of implicit biases, and tips on being aware and to counter this bias during data collection. Levels of monitoring in form of accompaniment by supervisors will also facilitate identifying interviewers demonstrating any bias and take corrective measures.
Fieldwork delays- Citizen Surveys and Physical Validation	Medium	Low	At the planning stage, Ipsos local team will review the list of selected clusters for the survey and their geographical spread. Number of teams will be recruited based on the geographical spread of sample locations. The field movement plan will be developed to ensure that a team covers contiguous clusters minimizing travel. The plan will also include off days and travel days with buffer days that allows timely completion.
Challenges in physical validation and primary data collection	Low	High	Quality Assurance plan developed at the onset of fieldwork preparation will detail out the measures and process at each stage of planning and fieldwork to ensure quality. Beginning with training, field plan, and field monitoring detailed parameters of quality and process to monitor the same will be detailed. Each team working will be accompanied by a supervisor and will be monitored daily. Additional layers of

Risk description	Probability	Impact	Mitigation Plan
			monitoring in form of state coordinators will be deployed who will manage all the cities of a particular state. More over the state coordinators will be in continuous coordination with zonal coordinators. Formats for monitoring will be developed that will focus on reviewing the interviews and interviewers' performance. Regular debriefs and feedback sessions will be led by field coordinator and state coordinators during fieldwork
Inconsistency in data collected	Medium	High	Field investigators when administering paper survey are prone to making mistakes in following the flow and may not check responses that seem inconsistent. To counter this, we propose using CAPI for administration. The scripting process will take care of the logic and consistency check and improve the quality of interviews.
Refusal of respondents to take part / high non-response rate	Low	High	All interviewers will be fully briefed on how to deal with refusal. They will be trained to reassure the respondent that the research is independent, that all information provided is confidential, and to emphasize the survey's short length and the importance of the topics it covers. Interviewer training will stress the importance of confidentiality, safety and ethical aspects of the survey. Reasons for refusal will be recorded so any potential issues can be identified early and resolved.
Issues related to data quality and storage	Low	High	The Ipsos Team adheres to the highest possible standards for market research set by European Society for Opinion and Market Research (ESOMAR) and has been awarded numerous certifications for quality in market research, ensuring data security, confidentiality, and participant safety. Ipsos data storage is audited annually as part of our ISO 27001 and 20252 accreditations.
Issues related to IT security	Low	Medium	We are proud of the reliability and security of the Ipsos data storage systems, at the forefront of best practice in information security. Ipsos has a comprehensive backup

Risk description	Probability	Impact	Mitigation Plan
	🟩	🟨	system to ensure that we can retrieve data files from that day or, if necessary, even months beforehand. This system consists of incremental, daily, weekly, and monthly full system backups. All emails, files, and internet content are swept regularly for viruses, and our servers have protection software.

B. Work Plan

Our approach to this assignment seeks to fully leverage the first 5 weeks of the project as a phase of intensive preparation where all the key templates, tools and formats for secondary and primary data collection will be developed and submitted for inputs and approval to MoHUA. This will allow us time to deliberate on the data collection instruments as well as the interface design and ensure that we pilot test the prototypes to ensure that the entire data entry process is hassle free for the city. Efforts will also be made to mine and integrate the secondary data sets collected through different programmes (Smart City Mission, AMRUT, HRIDAY etc.) and already available with the ministry to create 'pre-filled' instruments (with the source indicated) that may be validated by the cities.

Developing the indicators (defining specific data points to be collected) and ensuring that there are bespoke data collection protocols and sources will be lead by the team by drawing on international benchmarks and national standards.

This phase will also see us commence engagements with state mission directorates to ensure that the scheduling of workshops is in line with the stated timelines. A draft structure for every workshop, with the list of participants required/desired, will be circulated within a week of the inception kick off with MoHUA to give the state mission directorates enough time to plan and mobilize resources. The training material with supporting reading material will be circulated at least 1 week before the training commences to provide participants with enough preparation time. State level discussions will also serve as a channel to do a first level reconnaissance on data availability and map the current sources and the need for proxies. Draft frameworks for documenting the workshop proceedings and the city level assessment reports will also be developed during this phase, along with an internal training workshop for the core staff.

Another unique value proposition that this team brings to the table is an effective global and national media and dissemination strategy and real-time tracking system to closely monitor the progress of the assignment. The blueprint for the media strategy and the tracking system will also be developed and submitted for inputs with the MoHUA in the preparatory phase.

Phase 1: Deliverables

This phase will culminate with the following deliverables at end of 5 weeks from project commencement:

1) Indicator development
2) Data collection instruments (primary and secondary)
3) Data entry portal (secondary)- Beta version
4) Blueprint for media strategy and project progress tracking
5) Workshop structure, content and participant list
6) Draft templates for workshop proceedings and city reports
7) Training of core staff (Key Consultants, Regional Co-ordinators and State Co-ordinators)
8) Framework for city GDP measurement

Phase 2, which is expected to last 3 weeks, will commence with the launch of the 'Liveability Tracker' and will see the roll out of the state workshops and city reconnaissance visit, led by a team of 20 trained

professionals. The training of the field staff (field supervisors and enumerators) will also be conducted during this phase. The key outcomes/deliverables envisaged under this phase include:

Phase 2: Deliverables

1. State workshop and city-reconnaissance reports
2. Finalization of data entry interface and collection protocols based on feedback from cities
3. Updation of the Liveability Tracker
4. Dissemination of the workshop interactions and outcomes through social media

Much of the actual data collection is expected to be undertaken in phase 3, which will be for a period of 4 weeks, and will be backed by a team of market research professionals and analysts who will perform real time QC checks on the quality of data that is generated and aggregated at the back-end. The core consulting staff alongside the network of state and regional coordinators will work closely with the cities and the field staff to trouble shoot on questions/clarifications through a network of help-desks and work towards encouraging cities to complete data collection over a period of 10 days. This phase will also see the commencement of the primary surveys and physical validation, which will be closely supervised with strong QC checks. Unique geo-spatial sampling methods will be deployed to ensure that we capture citizen feedback in the context of different geo-spatial incident conditions and 600 citizens (with 33% of the sample concentrated in slums) will be interviewed in every city. Open data that is spatial will also be leveraged to validate certain data sets in combination with physical audits of a random set of units. The key deliverables in this phase include:

Phase 3: Deliverables

1. Sampling plan for citizen surveys
2. Raw data sets

Each city will be given an opportunity to review the final data sets in detail and sign off on the same in phase 4. Reconciliation between self-reported and audited data if any will commence in this phase and the index will be developed and the cities will be ranked based on the formula. The draft and final city assessment reports will also be prepared in this phase over an 8-week period and submitted for approval to MoHUA.

Phase 4: Deliverables

1. Ranking List
2. Draft and final city assessment reports
3. Updated online tracker/portal
4. Social media dissemination

Phase 5, which is likely to last 4 weeks, will involve creating a dedicated economist portal with the findings of the study to be disseminated to a global audience and will culminate with a national workshop where the experience and the findings of the exercise are shared with all the cities and other key stakeholders. Special focus on the use-case applications of this process and alignment with national and global programs and specific opportunities to strengthen data interoperability and quality will be discussed.

Phase 5: Deliverables

1. Economist Hub Portal
2. National workshop
3. White paper on use-case applications, interoperability and levers

C. Organization and Staffing

We propose a four-tier project planning, governance and execution team for timely completion of the overall project and sub-tasks thereof. For continuous updation and monitoring of the overall project progress we propose to constitute a Project Steering Committee with representatives from the MoHUA, NIUA, World Bank, Full-time Core/Key Experts and Project Director to conceptualise, plan, guide and troubleshoot during the 20-week period. The Core/Key Experts, Project Director, National Project Coordinators, and Senior members from the Support/Analytical Team will constitute the Project Command Centre Team. We have structured the Project Command Centre (PCC) Team to ensure that the appropriate level of skills, experience and resource is available to carry out the tasks involved in a timely and cost-effective manner. The PCC will coordinate and manage all activities for the Assessment of Liveability Indices and provide a central point of contact for both MoHUA and the Technical Team, State Specific teams. The PCC will ensure compliance of with the working procedures and quality assurance measures that have been designed for the success of this project.

Two national level project coordinators along with five regional coordinators and 30 state/UT level coordinators will manage information exchange across the core team, field team and support/analytics team. A 15 to 18 member support team comprising senior economists, policy expert, statisticians, data scientists, visualisation experts, senior analysts, urban planner, IT expert and content editor will provide research, analytical and technical support to the core and field teams. Figure below presents our organisation and staff of key and non-key experts on this assignment. The Core Team, Project Director, Project Coordinators, and regional and functional teams illustrated in our team structure will be responsible for the overall design and delivery of the central tasks as well as monitoring quality on each. They are supported by an experienced senior director of the consortium

The core team will be supported by 5 regional coordinators all senior permanent staff of Ipsos who will coordinate all activities for the project for the states in their region. The Regional Coordinators will support the State Facilitators in scheduling and conduct of state level workshops, support facilitation of city level kick-off meetings, oversee the translation of the questionnaire and other materials into the relevant languages, provide feedback on the pilot and oversee all data collection activities. The Regional Coordinators will attend a project briefing in Phase 1 before delivering the training to their team members. They will contribute to the interim and technical reports and be responsible for reviewing and approving the datasets for the states and cities in their region. At the State level, the State Coordinators/Facilitators will be responsible and the POC for State Mission Director's office and allied departments. They will be supported by city specific teams for carrying out the tasks outlined such as scheduling and conduct of state level workshops (supported by Regional Coordinator) and PCC team, city reconnaissance studies, coordinating and facilitating submission of secondary data, training the city teams for primary validation, and HH surveys.

Adequacy for the Assignment:

Detailed Tasks Assigned on Consultant's Team of Experts:	Reference to Prior Work/Assignments that Best Illustrates Capability to Handle the Assigned Tasks:
• Lead the state level and national workshops • Lead the design and implementation plan in conducting Reconnaissance Study of all cities • Survey Design and Indicator Finalization • Analysis Review	Project Name: Reconceptualising Smart Cities: A Reference Framework for India Client: NITI Aayog Year: 2015 Position Held: Project Lead Activities Performed: — Project lead involved in the development and dissemination of a reference framework based on the sustainability principles — Application of the reference framework for analysis of the smart city proposal for Indian cities

• Database Wireframe Design • Review and submission of reports • Client Engagement and Governance Stakeholder Liasoning	— Published a report titled "Reconceptualising Smart Cities: A Reference Framework for India, NITI Aayog,"
	Project Name: Understanding the dynamic changes in India's peri-urban regions and building capacity and resilience in the context of urbanisation and climate change Client: IDRC Opportunity Fund Year: 2015 Position Held: Project Lead Activities Performed: — Contributor to the research on governance, specifically focusing on land and water — Guided and reviewed participatory scenario development and primary surveys.
	Project Name: Engagement with the Planning Commission (for the 12th Plan) to develop a systems analysis of the important forces and their inter-linkages that may direct different future development scenarios for India. Client: Planning Commission Year: 2013 Position Held: Principal Research Scientist Activities Performed: — Participatory consultation, — Analysis Review — Client Engagement and Governance Stakeholder Liasoning — Developing analytical systems approach — scenario development and documentation — Reviewed and submitted reports

	Project Name: Saving Cities, Building Towns-Spatial Reorganization of urban regions India, a research project of CSTEP Client: IDRC Think Tank Initiative Year: 2010- 2013 Position Held: Principal Research Scientist Activities Performed: — Principal Investigator for the project, developed methodology, conducted data collection, reporting — Lead the project and managed the implementation team — Lead the state level and national workshops — Analysis Review — Client Engagement and Governance Stakeholder Liasoning — Reviewed and submitted reports
	Project Name: Capacity Building for Sustainable Urban Transport Planning- India Client: DFID-World Bank, Ministry of Urban Development, Government of India Year: 2008 Position Held: Activities Performed: — Gap Analysis of the urban transport planning scenario for the cities of Kolkata, Guwahati, Pune and Bangalore — Development of Alternative Analysis Toolkit and Training Material — Have been involved in capacity building for transportation professional all over India where I imparted training to over 100 officials as part of the "Training the Trainers" program for the Ministry of Urban Development.
	Project Name: Independent contributor for the Urban Transport Planning Module, as part of UMTC mandate from UNDP and IUT development of -Subject Modules in the field of urban

	transportation, towards the Ministry of Urban Development's sustainable urban transport planning initiative scenarios for India. Client: UMTC, GiZ for Ministry of Urban Development Year: 2012 Position Held: Principal Research Scientist Activities Performed: — Independently developed the module — Lead the project and managed the implementation team — Lead the state level and national workshops — Analysis Review — Client Engagement and Governance Stakeholder Liasoning — Reviewed and submitted reports
	Project Name: Mobility Indicators for Bangalore, India Client: Directorate of Urban Land Transport, Govt. of Karnataka Year: 2008 Position Held: Project Lead and Project Manager Activities Performed: — Development of indicators that can be measured regularly — Development of the methodology and templates to be replicated — Year-long dissemination with different stakeholders including the government and the citizens
	Project Name: Traffic and Transportation policies and strategies for urban areas in India Client: Ministry of Urban Development, Government of India Year: 2007 Position Held: Transport Project Manager Activities Performed: — Stakeholder engagement and project management — Data analysis

	— contribution to final recommendations and report.
	Project Name: Review of Urban Transport in India Client: Institute of Urban Transport (IUT), India and Center for Study of Science Technology and Policy, Bangalore. Year: 2014 Position Held: Project Lead Activities Performed: — Project lead involved in the development of urban transport review conceptual and working model which focuses on travel demand, energy consumption and emissions from various categories of cities in India.
	Project Name: Electric Vehicles: Technology, Policies and Benefits, Client Global Green Growth Institute (GGGI) and Center for Study of Science Technology and Policy, Bangalore Year: 2015-16 Position Held: Team Leader Activities Performed: — Involved in the preparation of report to highlight the need for looking at green growth strategies for public transport and identification of policy gaps associated with the adoption of battery electric buses at National, State and City levels
	Project Name: Market Assessment for Adoption of electric vehicles in India, in collaboration with Deloittee and Touche Client: International Finance Corporation Year: May 2017 – October 2017 Position Held: Team Leader Activities Performed: — Stakeholder engagements with the cities of Bhubaneshwar, Bangalore, Chennai and Thane — Coordination with the team — Review of policies, guidelines for EVs in India

	— Study of schemes and policies used globally for promoting EV adoption — Identification of gaps in existing EV schemes/ policies in India — Recommending supply and demand - side incentives to promote investments in EV manufacturing and related infrastructure
	Project Name: Need for Government support for public transport – BMTC Client: BMTC Year: 2015 Position Held: Principal Research Scientist, Project Lead Activities Performed: — Involved in the preparation of report to highlight the need for funding bus system in Bangalore city and recommended the need for alternative funding mechanisms for sustainable public transport in Bangalore
	Project Name: Comprehensive Traffic and Transportation Study for Bangalore Metropolitan Area Client: BMTC Year: 2009-10 Position Held: Transport Project Manager Activities Performed: — Development of the integrated land use and transport strategy for the area — Co-ordination with Consultant doing Structure Plan for the area –working in tandem to ensure consistency with structure plan and the transport plan scenarios — Formulated long term Metropolitan Regional Transportation Strategies for BMR-203
	Project Name: Guwahati Comprehensive Mobility Plan Client: Transport Project Manager and Lead Year: 2008-09

	Position Held: Activities Performed: — Project management and stake holder engagement — Development of strategic mobility plan — Development of Indicators and benchmarks — Plan recommendations — Report writing and presentation at the citizens/public forum
	Project Name: Jaipur Comprehensive Mobility Plan Client: Jaipur Development Authority Year: 2009 Position Held: Transport Project Manager Activities Performed: Data analysis, reviewing modeling outputs and options for mobility — Project management and stake holder engagement — Development of strategic mobility plan — Development of Indicators and benchmarks — Plan recommendations — Report writing and presentation at the citizens/public forum
	Project Name: Chennai Comprehensive Traffic and Transportation Study Client: Chennai Metropolitan Development Authority Year: 2008 Position Held: Transport Project Manager Activities Performed: Land use and transport integration, developing transport strategies — Project management and stake holder engagement — Development of strategic mobility plan — Development of Indicators and benchmarks — Plan recommendations — Report writing and presentation at the citizens/public forum
	Project Name: Techno-Economic Feasibility for Light Rail Transit, Kolkata

	Client: Kolkata Mass Rapid Transit Pvt. Ltd Year: 2009 -2010 Position Held: Transport Project Manager, Project Lead Activities Performed: Methodology design, conducting primary surveys in Kolkata, review transport modeling, suggest technology options, client engagement
	Project Name: Parking Demand Assessment Studies for Development of Multilevel Parking Facilities in Greater Mumbai area, Mumbai, India-2008 Client: Urban Mass Transit Corporation Year: 2008 Position Held: Transport Project Manager, Lead Analyst Activities Performed: Methodology design, reviewed primary data collection methods and survey plan, analysis, recommendations and final documentation

Adequacy for the Assignment:

Detailed Tasks Assigned on Consultant's Team of Experts:	Reference to Prior Work/Assignments that Best Illustrates Capability to Handle the Assigned Tasks:
• Urban indicators assessment and finalization • Ground-level urban data collection, analysis • Benchmarking (Ranking) and comparative analysis • Organising urban citizen level engagements	Name of Assignment or Project: Revisioning JnNURM Year: 2014 Location: NA Client: Habitat Forum (INHAF) Positions held: PROJECT COORDINATOR Activities performed: Conducted a secondary literature, **urban data collection and analysis of 65 JnNURM cities** under the JnNURM, the money spent, projects completed and citizens' review of the mission. **Used this to prepare an approach paper, an information brochure to advocate for a need for re-visioning, and several grant proposals to be submitted to the TATA Trust, Ford Foundation and other funding agencies.** This Project outlines the goals and criteria for **assessment that aim for principles of good governance - accountability and transparency**
	Name of Assignment or Project: Draft report on data assessment for 65 JNNURM cities (work in progress) Year: Ongoing Location: NA Client: Habitat Forum (INHAF) Positions held: PROJECT COORDINATOR Activities performed: • Assess role of ULBs in JNNURM and impact of the Mission on performance of ULBs; • Highlight the role of the public or lack of it in the process of implementing JNNURM; - • Assess if intended outcomes were achieved; • Assess ULB performance with respect to reforms achievement, funds utilization, and project implementation; • Identify, from the analysis of data, criteria for city selection and key questions that need to be investigated through on-ground consultations and interactions with participating ULBs; and • identify factors for recommending a revised framework for a re-visioned strategy for urban development

	• Review of data from JNNURM, HUPA, MoUD, and other official websites for UIG as well as UIDSSMT towns. Data concerning Additional Central Assistance (ACA) funds released; funds utilized; project completion rates including BSUP housing completion status with occupancy rates; reforms performance; credit ratings of ULBs; and best practices and awards are considered for this review. Most data accessed is 2013-14 data, except in some instances data for 2010-11 is used. • Employed gathering data through empirical work, including public consultations, surveys, and interviews with ULBs, among other tasks.
	Name of Assignment or Project: Green Logistics Project – Gandhi Bazaar Market Street, An inclusive re-design. Year: 2017-18 (on-going) Location: Bengaluru Client: GIZ and the Government of Karnataka (DULT and BBMP) Positions held: Team Leader, Urban Designer and Planner Activities performed: Preparation of a spatial plan for the re-design of the traditional Gandhi Bazaar Street market in Bengaluru. Conducting spatial planning analysis of sectors such as traffic and transport, Heritage, solid waste management, social amenities; preparing a participatory plan; developing alternative design scenarios; and conducting participatory events with all stakeholders (Government and citizens groups) to prepare a design for the market. Key project indicators include gender sensitivity, hygiene, safety and inclusiveness.
	Name of Assignment or Project: Saving cities, building towns - A case of spatial reorganisation Year: 2014 Location: Bengaluru Client: Center for Study of Science, Technology and Policy (CSTEP), Bengaluru Main project features: Review of small town growth and development dynamics Positions held: PLANNING CONSULTANT Activities performed: • Reviewed the report: Saving cities, building towns - A case of spatial re-organisation, prepared by CSTEP and provided technical and methodological advice in written form for changes and improvements.

	• Assessed the indicators and framework assigned for urban data collection
	Name of Assignment or Project: An assessment of the role of NGOs in CSR Activities Year: 2017-18 (on-going) Location: Bengaluru Client: Habitat Forum (INHAF) Positions held: Project Coordinator, Principal Researcher Activities performed: Preparing a framework for data collection on 20 private sectors and 20 Public sector enterprises participating in CSR activities, to assess the role of NGOs. Developing criteria for assessment and making recommendations for policy advocacy.
	Project name: Preparation of development controls for the Indiranagar Metro Station area Location: 2013 Client: EMBARQ (WRI), Bengaluru Position: SENIOR URBAN DESIGN AND PLANNING CONSULTANT Activities performed: • Co-authored with other team members the draft document prepared for the Department of Land and Urban Transport, Government of Karnakata (DULT) and EMBARQ India, Bengaluru • Prepared a city-wide assessment of station area typologies. Developed a work plan and conducted ground surveys of the Metro station area to prepare a land use, ground-level urban data collection & analysis and urban design plan, with development control proposals using a hybrid of form based codes and land use regulations. Also, prepared methodologies to be applicable to other station areas for plan preparation and plan implementation.
	Name of Assignment or Project: Revision of the Structure Plan for the Bangalore Metropolitan Region Year: 2008-10 Location: Bengaluru Client: Bangalore Metropolitan Region Development Authority (BMRDA) Positions held: SENIOR URBAN PLANNING CONSULTANT Activities performed:

	• Reviewed and analyzed land use planning policies and land management instruments, planned the implementation and consultative / participatory approach; conducted existing situation analysis, used trend analysis and population projections for development analysis, SWOT analysis, and preparing development scenarios and visions; prepared sector specific vision and policy guidelines, provided. • Lead extensive urban data collection for assessment of the existing conditions of the Bengaluru Metroplitan region and the proposals for future planning of the region. • Also involved in the land use analysis, spatial transportation proposals, the economic strategy of cluster and nodes, and the preparation of the zonal regulation • Link: http://www.bmrda.kar.nic.in/rsp_report.pdf

Dear Sir:

Selection of Consulting Firms for Assessment of Liveability Indices for 116 cities in India in accordance with your Request for Proposals dated 27th November 2017 and our Technical Proposal.

Our attached Financial Proposal is for **INR 10,94,28,200 (INR Ten Crores Ninety-Four Lakhs Twenty-Eight Thousand and Two Hundred Only)**, excluding of all indirect local taxes in accordance with Clause 25.1 in the Data Sheet. The estimated amount of local indirect taxes is INR 1,96,97,076 (INR One Crore Ninety-Six Lakhs Ninety-Seven Thousand & Seventy-Six Only) which shall be confirmed or adjusted, if needed, during negotiations.

Our Financial Proposal shall be binding upon us subject to the modifications resulting from Contract negotiations, up to expiration of the validity period of the Proposal, i.e. before the date indicated in Clause 12.1 of the Data Sheet.

No commissions or gratuities have been or are to be paid by us to agents or any third party relating to this Proposal and Contract execution
We understand you are not bound to accept any Proposal you receive.

We remain,
Yours sincerely,

I. Form of Contract

LUMP-SUM

This CONTRACT (hereinafter called the "Contract") is made the ……………….. day of the month of *February, 2018*, between, on the one hand, *Ministry of Housing and Urban Affairs* (hereinafter called the "Client") and, on the other hand, M/s IPSOS Research Private Limited (Lead) in consortium with M/s Athena Infonomics India Private Limited. and The Economist Group Limited. (hereinafter called the "Consultant").

WHEREAS

(a) the Client has requested the Consultant to provide certain consulting services as defined in this Contract (hereinafter called the "Services");

(b) the Consultant, having represented to the Client that it has the required professional skills, expertise and technical resources, has agreed to provide the Services on the terms and conditions set forth in this Contract;

(c) the Client has received a credit from the *International Development Association (IDA)]:* toward the cost of the Services and intends to apply a portion of the proceeds of credit to eligible payments under this Contract, it being understood that (i) payments by the Bank will be made only at the request of the Client and upon approval by the Bank; (ii) such payments will be subject, in all respects, to the terms and conditions of the loan agreement, including prohibitions of withdrawal from the credit account for the purpose of any payment to persons or entities, or for any import of goods, if such payment or import, to the knowledge of the Bank, is prohibited by the decision of the United Nations Security council taken under Chapter VII of the Charter of the United Nations; and (iii) no party other than the Client shall derive any rights from the [loan agreement or have any claim to the credit proceeds;

NOW THEREFORE the parties hereto hereby agree as follows:

1. The following documents attached hereto shall be deemed to form an integral part of this Contract:

   (a) The General Conditions of Contract (including Attachment 1 "Bank Policy – Corrupt and Fraudulent Practices);
   (b) The Special Conditions of Contract;
   (c) Appendices:

   Appendix A: Terms of Reference

Appendix B: Key Experts
Appendix C: Breakdown of Contract Price

In the event of any inconsistency between the documents, the following order of precedence shall prevail: the Special Conditions of Contract; the General Conditions of Contract, including Attachment 1; Appendix A; Appendix B; Appendix C. Any reference to this Contract shall include, where the context permits, a reference to its Appendices.

2. The mutual rights and obligations of the Client and the Consultant shall be as set forth in the Contract, in particular:

(a) the Consultant shall carry out the Services in accordance with the provisions of the Contract; and
(b) the Client shall make payments to the Consultant in accordance with the provisions of the Contract.

IN WITNESS WHEREOF, the Parties hereto have caused this Contract to be signed in their respective names as of the day and year first above written.

For and on behalf of
Ministry of Housing and Urban Affairs

Mr. G.Vijay Kumar
Under Secretary to the Government of India, Ministry of Housing and Urban Affairs

and

For and on behalf of
M/s IPSOS Research Private Limited (Lead) in consortium M/s Athena Infonomics India Private Limited. and The Economist Group Limited.

Mr. Parijat Chakraborty,
Executive Director and Head of Public Affairs and Loyalty
M/s IPSOS Research Private Limited (Lead),

II. General Conditions of Contract

A. GENERAL PROVISIONS

1. Definitions

1.1. Unless the context otherwise requires, the following terms whenever used in this Contract have the following meanings:

(a) "Applicable Guidelines" means Guidelines for Selection and Employment of Consultants under IBRD Loans and IDA Credits & Grants by World Bank Borrowers, dated January 2011.

(b) "Applicable Law" means the laws and any other instruments having the force of law in the Client's country, or in such other country as may be specified in the **Special Conditions of Contract (SCC)**, as they may be issued and in force from time to time.

(c) "Bank" means the International Bank for Reconstruction and Development (IBRD) or the International Development Association (IDA).

(d) "Borrower" means the Government, Government agency or other entity that signs the financing agreement with the Bank.

(e) "Client" means the implementing agency that signs the Contract for the Services with the Selected Consultant.

(f) "Consultant" means a legally-established professional consulting firm or entity selected by the Client to provide the Services under the signed Contract.

(g) "Contract" means the legally binding written agreement signed between the Client and the Consultant and which includes all the attached documents listed in its paragraph 1 of the Form of Contract (the General Conditions (GCC), the Special Conditions (SCC), and the Appendices).

(h) "Day" means a working day unless indicated otherwise.

(i) "Effective Date" means the date on which this Contract comes into force and effect pursuant to Clause GCC 11.

(j) "Experts" means, collectively, Key Experts, Non-Key Experts, or any other personnel of the Consultant, Sub-consultant or JV member(s) assigned by the Consultant to perform the Services or any part thereof under the Contract.

(k) "Foreign Currency" means any currency other than the currency of the Client's country.

(l) "GCC" means these General Conditions of Contract.

(m) "Government" means the government of the Client's country.

(n) "Joint Venture (JV)" means an association with or without a legal personality distinct from that of its members, of more than one entity where one member has the authority to conduct all businesses for and on behalf of any and all the members of the JV, and where the members of the JV are jointly and severally liable to the Client for the performance of the Contract.

(o) "Key Expert(s)" means an individual professional whose skills, qualifications, knowledge and experience are critical to the performance of the Services under the Contract and whose Curricula Vitae (CV) was taken into account in the technical evaluation of the Consultant's proposal.

(p) "Local Currency" means the currency of the Client's country.

(q) "Non-Key Expert(s)" means an individual professional provided by the Consultant or its Sub-consultant to perform the Services or any part thereof under the Contract.

(r) "Party" means the Client or the Consultant, as the case may be, and "Parties" means both of them.

(s) "SCC" means the Special Conditions of Contract by which the GCC may be amended or supplemented but not over-written.

(t) "Services" means the work to be performed by the Consultant pursuant to this Contract, as described in Appendix A hereto.

(u) "Sub-consultants" means an entity to whom/which the Consultant subcontracts any part of the Services while remaining solely liable for the execution of the Contract.

(v) "Third Party" means any person or entity other than the Government, the Client, the Consultant or a Sub-consultant.

2. Relationship between the Parties

2.1. Nothing contained herein shall be construed as establishing a relationship of master and servant or of principal and agent as between the Client and the Consultant. The Consultant, subject to this Contract, has complete charge of the Experts and Sub-consultants, if any, performing the Services and shall be fully responsible for the Services performed by them or on their behalf hereunder.

3. Law Governing Contract

3.1. This Contract, its meaning and interpretation, and the relation between the Parties shall be governed by the Applicable Law.

4. Language

4.1. This Contract has been executed in the language specified in the **SCC**, which shall be the binding and controlling language for all matters relating to the meaning or interpretation of this Contract.

5. Headings

5.1. The headings shall not limit, alter or affect the meaning of this Contract.

6. Communications

6.1. Any communication required or permitted to be given or made pursuant to this Contract shall be in writing in the language specified in Clause GCC 4. Any such notice, request or consent shall be deemed to have been given or made when delivered in person to an authorized representative of the Party to whom the communication is addressed, or when sent to such Party at the address specified in the **SCC**.

6.2. A Party may change its address for notice hereunder by giving the other Party any communication of such change to the address specified in the **SCC**.

7. Location

7.1. The Services shall be performed at such locations as are specified in **Appendix A** hereto and, where the location of a particular task is not so specified, at such locations, whether in the Government's country or elsewhere, as the Client may approve.

8. Authority of Member in Charge

8.1. In case the Consultant is a Joint Venture, the members hereby authorize the member specified in the **SCC** to act on their behalf in exercising all the Consultant's rights and obligations towards the Client under this Contract, including without limitation the receiving of instructions and payments from the Client.

9. Authorized Representatives

9.1. Any action required or permitted to be taken, and any document required or permitted to be executed under this Contract by the Client or the Consultant may be taken or executed by the officials specified in the **SCC.**

10. Corrupt and Fraudulent Practices

10.1. The Bank requires compliance with its policy in regard to corrupt and fraudulent practices as set forth in **Attachment 1** to the GCC.

a. Commissions and Fees

10.2. The Client requires the Consultant to disclose any commissions, gratuities or fees that may have been paid or are to be paid to agents or any other party with respect to the selection process or execution of the Contract. The information disclosed must include at least the name and address of the agent or other party, the amount and currency, and the purpose of the commission, gratuity or fee.

Failure to disclose such commissions, gratuities or fees may result in termination of the Contract and/or sanctions by the Bank.

B. COMMENCEMENT, COMPLETION, MODIFICATION AND TERMINATION OF CONTRACT

11. Effectiveness of Contract

11.1. This Contract shall come into force and effect on the date (the "Effective Date") of the Client's notice to the Consultant instructing the Consultant to begin carrying out the Services. This notice shall confirm that the effectiveness conditions, if any, listed in the **SCC** have been met.

12. Termination of Contract for Failure to Become Effective

12.1. If this Contract has not become effective within such time period after the date of Contract signature as specified in the **SCC**, either Party may, by not less than twenty two (22) days written notice to the other Party, declare this Contract to be null and void, and in the event of such a declaration by either Party, neither Party shall have any claim against the other Party with respect hereto.

13. Commencement of Services

13.1. The Consultant shall confirm availability of Key Experts and begin carrying out the Services not later than the number of days after the Effective Date specified in the **SCC**.

14. Expiration of Contract

14.1. Unless terminated earlier pursuant to Clause GCC 19 hereof, this Contract shall expire at the end of such time period after the Effective Date as specified in the **SCC**.

15. Entire Agreement

15.1. This Contract contains all covenants, stipulations and provisions agreed by the Parties. No agent or representative of either Party has authority to make, and the Parties shall not be bound by or be liable for, any statement, representation, promise or agreement not set forth herein.

16. Modifications or Variations

16.1. Any modification or variation of the terms and conditions of this Contract, including any modification or variation of the scope of the Services, may only be made by written agreement between the Parties. However, each Party shall give due consideration to any proposals for modification or variation made by the other Party.

16.2. In cases of substantial modifications or variations, the prior written consent of the Bank is required.

17. Force Majeure

a. Definition

17.1. For the purposes of this Contract, "Force Majeure" means an event which is beyond the reasonable control of a Party, is not foreseeable, is unavoidable, and makes a Party's performance of its obligations hereunder impossible or so impractical as reasonably to

be considered impossible under the circumstances, and subject to those requirements, includes, but is not limited to, war, riots, civil disorder, earthquake, fire, explosion, storm, flood or other adverse weather conditions, strikes, lockouts or other industrial action confiscation or any other action by Government agencies.

17.2. Force Majeure shall not include (i) any event which is caused by the negligence or intentional action of a Party or such Party's Experts, Sub-consultants or agents or employees, nor (ii) any event which a diligent Party could reasonably have been expected to both take into account at the time of the conclusion of this Contract, and avoid or overcome in the carrying out of its obligations hereunder.

17.3. Force Majeure shall not include insufficiency of funds or failure to make any payment required hereunder.

b. No Breach of Contract

17.4. The failure of a Party to fulfill any of its obligations hereunder shall not be considered to be a breach of, or default under, this Contract insofar as such inability arises from an event of Force Majeure, provided that the Party affected by such an event has taken all reasonable precautions, due care and reasonable alternative measures, all with the objective of carrying out the terms and conditions of this Contract.

c. Measures to be Taken

17.5. A Party affected by an event of Force Majeure shall continue to perform its obligations under the Contract as far as is reasonably practical, and shall take all reasonable measures to minimize the consequences of any event of Force Majeure.

17.6. A Party affected by an event of Force Majeure shall notify the other Party of such event as soon as possible, and in any case not later than fourteen (14) calendar days following the occurrence of such event, providing evidence of the nature and cause of such event, and shall similarly give written notice of the restoration of normal conditions as soon as possible.

17.7. Any period within which a Party shall, pursuant to this Contract, complete any action or task, shall be extended for a period equal to the time during which such Party was unable to perform such action as a result of Force Majeure.

17.8. During the period of their inability to perform the Services as a result of an event of Force Majeure, the Consultant, upon instructions by the Client, shall either:

(a) demobilize, in which case the Consultant shall be reimbursed for additional costs they reasonably and

necessarily incurred, and, if required by the Client, in reactivating the Services; or

(b) continue with the Services to the extent reasonably possible, in which case the Consultant shall continue to be paid under the terms of this Contract and be reimbursed for additional costs reasonably and necessarily incurred.

17.9. In the case of disagreement between the Parties as to the existence or extent of Force Majeure, the matter shall be settled according to Clauses GCC 44 & 45.

18. Suspension

18.1. The Client may, by written notice of suspension to the Consultant, suspend all payments to the Consultant hereunder if the Consultant fails to perform any of its obligations under this Contract, including the carrying out of the Services, provided that such notice of suspension (i) shall specify the nature of the failure, and (ii) shall request the Consultant to remedy such failure within a period not exceeding thirty (30) calendar days after receipt by the Consultant of such notice of suspension.

19. Termination

19.1. This Contract may be terminated by either Party as per provisions set up below:

a. By the Client

19.1.1. The Client may terminate this Contract in case of the occurrence of any of the events specified in paragraphs (a) through (f) of this Clause. In such an occurrence the Client shall give at least thirty (30) calendar days' written notice of termination to the Consultant in case of the events referred to in (a) through (d); at least sixty (60) calendar days' written notice in case of the event referred to in (e); and at least five (5) calendar days' written notice in case of the event referred to in (f):

(a) If the Consultant fails to remedy a failure in the performance of its obligations hereunder, as specified in a notice of suspension pursuant to Clause GCC 18;

(b) If the Consultant becomes (or, if the Consultant consists of more than one entity, if any of its members becomes) insolvent or bankrupt or enter into any agreements with their creditors for relief of debt or take advantage of any law for the benefit of debtors or go into liquidation or receivership whether compulsory or voluntary;

(c) If the Consultant fails to comply with any final decision reached as a result of arbitration proceedings pursuant to Clause GCC 45.1;

(d) If, as the result of Force Majeure, the Consultant is unable to perform a material portion of the Services for a period of not less than sixty (60) calendar days;

(e) If the Client, in its sole discretion and for any reason whatsoever, decides to terminate this Contract;

(f) If the Consultant fails to confirm availability of Key Experts as required in Clause GCC 13.

19.1.2. Furthermore, if the Client determines that the Consultant has engaged in corrupt, fraudulent, collusive, coercive or obstructive practices, in competing for or in executing the Contract, then the Client may, after giving fourteen (14) calendar days written notice to the Consultant, terminate the Consultant's employment under the Contract.

b. By the Consultant

19.1.3. The Consultant may terminate this Contract, by not less than thirty (30) calendar days’ written notice to the Client, in case of the occurrence of any of the events specified in paragraphs (a) through (d) of this Clause.

(a) If the Client fails to pay any money due to the Consultant pursuant to this Contract and not subject to dispute pursuant to Clause GCC 45.1 within forty-five (45) calendar days after receiving written notice from the Consultant that such payment is overdue.

(b) If, as the result of Force Majeure, the Consultant is unable to perform a material portion of the Services for a period of not less than sixty (60) calendar days.

(c) If the Client fails to comply with any final decision reached as a result of arbitration pursuant to Clause GCC 45.1.

(d) If the Client is in material breach of its obligations pursuant to this Contract and has not remedied the same within forty-five (45) days (or such longer period as the Consultant may have subsequently approved in writing) following the receipt by the Client of the Consultant’s notice specifying such breach.

c. Cessation of Rights and Obligations

19.1.4. Upon termination of this Contract pursuant to Clauses GCC 12 or GCC 19 hereof, or upon expiration of this Contract pursuant to Clause GCC 14, all rights and obligations of the Parties hereunder shall cease, except (i) such rights and obligations as may have accrued on the date of termination or expiration, (ii) the obligation of confidentiality set forth in Clause GCC 22, (iii) the Consultant’s obligation to permit

inspection, copying and auditing of their accounts and records set forth in Clause GCC 25, and (iv) any right which a Party may have under the Applicable Law.

d. Cessation of Services

19.1.5. Upon termination of this Contract by notice of either Party to the other pursuant to Clauses GCC 19a or GCC 19b, the Consultant shall, immediately upon dispatch or receipt of such notice, take all necessary steps to bring the Services to a close in a prompt and orderly manner and shall make every reasonable effort to keep expenditures for this purpose to a minimum. With respect to documents prepared by the Consultant and equipment and materials furnished by the Client, the Consultant shall proceed as provided, respectively, by Clauses GCC 27 or GCC 28.

e. Payment upon Termination

19.1.6. Upon termination of this Contract, the Client shall make the following payments to the Consultant:

(a) payment for Services satisfactorily performed prior to the effective date of termination; and

(b) in the case of termination pursuant to paragraphs (d) and (e) of Clause GCC 19.1.1, reimbursement of any reasonable cost incidental to the prompt and orderly termination of this Contract, including the cost of the return travel of the Experts.

C. OBLIGATIONS OF THE CONSULTANT

20. General

a. Standard of Performance

20.1 The Consultant shall perform the Services and carry out the Services with all due diligence, efficiency and economy, in accordance with generally accepted professional standards and practices, and shall observe sound management practices, and employ appropriate technology and safe and effective equipment, machinery, materials and methods. The Consultant shall always act, in respect of any matter relating to this Contract or to the Services, as a faithful adviser to the Client, and shall at all times support and safeguard the Client’s legitimate interests in any dealings with the third parties.

20.2. The Consultant shall employ and provide such qualified and experienced Experts and Sub-consultants as are required to carry out the Services.

20.3. The Consultant may subcontract part of the Services to an extent and with such Key Experts and Sub-consultants as may be

approved in advance by the Client. Notwithstanding such approval, the Consultant shall retain full responsibility for the Services.

b. Law Applicable to Services

20.4. The Consultant shall perform the Services in accordance with the Contract and the Applicable Law and shall take all practicable steps to ensure that any of its Experts and Sub-consultants, comply with the Applicable Law.

20.5. Throughout the execution of the Contract, the Consultant shall comply with the import of goods and services prohibitions in the Client's country when

(a) as a matter of law or official regulations, the Borrower's country prohibits commercial relations with that country; or

(b) by an act of compliance with a decision of the United Nations Security Council taken under Chapter VII of the Charter of the United Nations, the Borrower's Country prohibits any import of goods from that country or any payments to any country, person, or entity in that country.

20.6. The Client shall notify the Consultant in writing of relevant local customs, and the Consultant shall, after such notification, respect such customs.

21. Conflict of Interests

21.1. The Consultant shall hold the Client's interests paramount, without any consideration for future work, and strictly avoid conflict with other assignments or their own corporate interests.

a. Consultant Not to Benefit from Commissions, Discounts, etc.

21.1.1 The payment of the Consultant pursuant to GCC F (Clauses GCC 38 through 42) shall constitute the Consultant's only payment in connection with this Contract and, subject to Clause GCC 21.1.3, the Consultant shall not accept for its own benefit any trade commission, discount or similar payment in connection with activities pursuant to this Contract or in the discharge of its obligations hereunder, and the Consultant shall use its best efforts to ensure that any Sub-consultants, as well as the Experts and agents of either of them, similarly shall not receive any such additional payment.

21.1.2 Furthermore, if the Consultant, as part of the Services, has the responsibility of advising the Client on the procurement of goods, works or services, the Consultant shall comply with the Bank's Applicable Guidelines, and shall at all times exercise such responsibility in the best interest of the Client. Any discounts or commissions obtained by the Consultant in the exercise of such procurement responsibility shall be for the account of the Client.

b. Consultant and Affiliates Not to Engage in Certain Activities

21.1.3 The Consultant agrees that, during the term of this Contract and after its termination, the Consultant and any entity affiliated with the Consultant, as well as any Sub-consultants and any entity affiliated with such Sub-consultants, shall be disqualified from providing goods, works or non-consulting services resulting from or directly related to the Consultant's Services for the preparation or implementation of the project, unless otherwise indicated in the **SCC**.

c. Prohibition of Conflicting Activities

21.1.4 The Consultant shall not engage, and shall cause its Experts as well as its Sub-consultants not to engage, either directly or indirectly, in any business or professional activities that would conflict with the activities assigned to them under this Contract.

d. Strict Duty to Disclose Conflicting Activities

21.1.5 The Consultant has an obligation and shall ensure that its Experts and Sub-consultants shall have an obligation to disclose any situation of actual or potential conflict that impacts their capacity to serve the best interest of their Client, or that may reasonably be perceived as having this effect. Failure to disclose said situations may lead to the disqualification of the Consultant or the termination of its Contract.

22. Confidentiality

22.1 Except with the prior written consent of the Client, the Consultant and the Experts shall not at any time communicate to any person or entity any confidential information acquired in the course of the Services, nor shall the Consultant and the Experts make public the recommendations formulated in the course of, or as a result of, the Services.

23. Liability of the Consultant

23.1 Subject to additional provisions, if any, set forth in the **SCC**, the Consultant's liability under this Contract shall be provided by the Applicable Law.

24. Insurance to be Taken out by the Consultant

24.1 The Consultant (i) shall take out and maintain, and shall cause any Sub-consultants to take out and maintain, at its (or the Sub-consultants', as the case may be) own cost but on terms and conditions approved by the Client, insurance against the risks, and for the coverage specified in the **SCC,** and (ii) at the Client's request, shall provide evidence to the Client showing that such insurance has been taken out and maintained and that the current premiums therefore have been paid. The Consultant shall ensure that such insurance is in place prior to commencing the Services as stated in Clause GCC 13.

25. Accounting, Inspection and Auditing

25.1 The Consultant shall keep, and shall make all reasonable efforts to cause its Sub-consultants to keep, accurate and systematic accounts and records in respect of the Services and in such form and detail as will clearly identify relevant time changes and costs.

25.2 The Consultant shall permit and shall cause its Sub-consultants to permit, the Bank and/or persons appointed by the Bank to inspect the Site and/or all accounts and records relating to the performance of the Contract and the submission of the Proposal to provide the Services, and to have such accounts and records audited by auditors appointed by the Bank if requested by the Bank. The Consultant's attention is drawn to Clause GCC 10 which provides, inter alia, that acts intended to materially impede the exercise of the Bank's inspection and audit rights provided for under this Clause GCC25.2 constitute a prohibited practice subject to contract termination (as well as to a determination of ineligibility under the Bank's prevailing sanctions procedures.)

26. Reporting Obligations

26.1 The Consultant shall submit to the Client the reports and documents specified in **Appendix A**, in the form, in the numbers and within the time periods set forth in the said Appendix.

27. Proprietary Rights of the Client in Reports and Records

27.1 Unless otherwise indicated in the **SCC**, all reports and relevant data and information such as maps, diagrams, plans, databases, other documents and software, supporting records or material compiled or prepared by the Consultant for the Client in the course of the Services shall be confidential and become and remain the absolute property of the Client. The Consultant shall, not later than upon termination or expiration of this Contract, deliver all such documents to the Client, together with a detailed inventory thereof. The Consultant may retain a copy of such documents, data and/or software but shall not use the same for purposes unrelated to this Contract without prior written approval of the Client.

27.2 If license agreements are necessary or appropriate between the Consultant and third parties for purposes of development of the plans, drawings, specifications, designs, databases, other documents and software, the Consultant shall obtain the Client's prior written approval to such agreements, and the Client shall be entitled at its discretion to require recovering the expenses related to the development of the program(s) concerned. Other restrictions about the future use of these documents and software, if any, shall be specified in the **SCC**.

28. Equipment, Vehicles and Materials

28.1 Equipment, vehicles and materials made available to the Consultant by the Client, or purchased by the Consultant wholly or partly with funds provided by the Client, shall be the property of the Client and shall be marked accordingly. Upon termination or expiration of this Contract, the Consultant shall make available to the

Client an inventory of such equipment, vehicles and materials and shall dispose of such equipment, vehicles and materials in accordance with the Client's instructions. While in possession of such equipment, vehicles and materials, the Consultant, unless otherwise instructed by the Client in writing, shall insure them at the expense of the Client in an amount equal to their full replacement value.

28.2 Any equipment or materials brought by the Consultant or its Experts into the Client's country for the use either for the project or personal use shall remain the property of the Consultant or the Experts concerned, as applicable.

D. CONSULTANT'S EXPERTS AND SUB-CONSULTANTS

29. Description of Key Experts

29.1 The title, agreed job description, minimum qualification and estimated period of engagement to carry out the Services of each of the Consultant's Key Experts are described in **Appendix B.**

30. Replacement of Key Experts

30.1 Except as the Client may otherwise agree in writing, no changes shall be made in the Key Experts.

30.2 Notwithstanding the above, the substitution of Key Experts during Contract execution may be considered only based on the Consultant's written request and due to circumstances outside the reasonable control of the Consultant, including but not limited to death or medical incapacity. In such case, the Consultant shall forthwith provide as a replacement, a person of equivalent or better qualifications and experience, and at the same rate of remuneration.

31. Removal of Experts or Sub-consultants

31.1 If the Client finds that any of the Experts or Sub-consultant has committed serious misconduct or has been charged with having committed a criminal action, or shall the Client determine that Consultant's Expert of Sub-consultant have engaged in corrupt, fraudulent, collusive, coercive or obstructive practice while performing the Services, the Consultant shall, at the Client's written request, provide a replacement.

31.2 In the event that any of Key Experts, Non-Key Experts or Sub-consultants is found by the Client to be incompetent or incapable in discharging assigned duties, the Client, specifying the grounds therefore, may request the Consultant to provide a replacement.

31.3 Any replacement of the removed Experts or Sub-consultants shall possess better qualifications and experience and shall be acceptable to the Client.

31.4 The Consultant shall bear all costs arising out of or incidental to any removal and/or replacement of such Experts.

E. OBLIGATIONS OF THE CLIENT

32. Assistance and Exemptions

32.1 Unless otherwise specified in the **SCC**, the Client shall use its best efforts to:

(a) Assist the Consultant with obtaining work permits and such other documents as shall be necessary to enable the Consultant to perform the Services.

(b) Assist the Consultant with promptly obtaining, for the Experts and, if appropriate, their eligible dependents, all necessary entry and exit visas, residence permits, exchange permits and any other documents required for their stay in the Client's country while carrying out the Services under the Contract.

(c) Facilitate prompt clearance through customs of any property required for the Services and of the personal effects of the Experts and their eligible dependents.

(c) Issue to officials, agents and representatives of the Government all such instructions and information as may be necessary or appropriate for the prompt and effective implementation of the Services.

(d) Assist the Consultant and the Experts and any Sub-consultants employed by the Consultant for the Services with obtaining exemption from any requirement to register or obtain any permit to practice their profession or to establish themselves either individually or as a corporate entity in the Client's country according to the applicable law in the Client's country.

(e) Assist the Consultant, any Sub-consultants and the Experts of either of them with obtaining the privilege, pursuant to the applicable law in the Client's country, of bringing into the Client's country reasonable amounts of foreign currency for the purposes of the Services or for the personal use of the Experts and of withdrawing any such amounts as may be earned therein by the Experts in the execution of the Services.

(f) Provide to the Consultant any such other assistance as may be specified in the **SCC**.

33. Access to Project Site

33.1 The Client warrants that the Consultant shall have, free of charge, unimpeded access to the project site in respect of which access is required for the performance of the Services. The Client will be

responsible for any damage to the project site or any property thereon resulting from such access and will indemnify the Consultant and each of the experts in respect of liability for any such damage, unless such damage is caused by the willful default or negligence of the Consultant or any Sub-consultants or the Experts of either of them.

34. Change in the Applicable Law Related to Taxes and Duties

34.1 If, after the date of this Contract, there is any change in the applicable law in the Client’s country with respect to taxes and duties which increases or decreases the cost incurred by the Consultant in performing the Services, then the remuneration and reimbursable expenses otherwise payable to the Consultant under this Contract shall be increased or decreased accordingly by agreement between the Parties hereto, and corresponding adjustments shall be made to the Contract price amount specified in Clause GCC 38.1

35. Services, Facilities and Property of the Client

35.1 The Client shall make available to the Consultant and the Experts, for the purposes of the Services and free of any charge, the services, facilities and property described in the Terms of Reference (**Appendix A)** at the times and in the manner specified in said **Appendix A.**

36. Counterpart Personnel

36.1 The Client shall make available to the Consultant free of charge such professional and support counterpart personnel, to be nominated by the Client with the Consultant’s advice, if specified in **Appendix A**.

36.2 Professional and support counterpart personnel, excluding Client’s liaison personnel, shall work under the exclusive direction of the Consultant. If any member of the counterpart personnel fails to perform adequately any work assigned to such member by the Consultant that is consistent with the position occupied by such member, the Consultant may request the replacement of such member, and the Client shall not unreasonably refuse to act upon such request.

37. Payment Obligation

37.1 In consideration of the Services performed by the Consultant under this Contract, the Client shall make such payments to the Consultant for the deliverables specified in **Appendix A** and in such manner as is provided by GCC F below.

F. PAYMENTS TO THE CONSULTANT

38. Contract Price

38.1 The Contract price is fixed and is set forth in the **SCC.** The Contract price breakdown is provided in **Appendix C**.

38.2 Any change to the Contract price specified in Clause 38.1 can be made only if the Parties have agreed to the revised scope of Services

pursuant to Clause GCC 16 and have amended in writing the Terms of Reference in **Appendix A**.

39. Taxes and Duties

39.1 The Consultant, Sub-consultants and Experts are responsible for meeting any and all tax liabilities arising out of the Contract unless it is stated otherwise in the **SCC**.

39.2 As an exception to the above and as stated in the **SCC**, all local identifiable indirect taxes (itemized and finalized at Contract negotiations) are reimbursed to the Consultant or are paid by the Client on behalf of the Consultant.

40. Currency of Payment

40.1 Any payment under this Contract shall be made in the currency(ies) of the Contract.

41. Mode of Billing and Payment

41.1 The total payments under this Contract shall not exceed the Contract price set forth in Clause GCC 38.1.

41.2 The payments under this Contract shall be made in lump-sum installments against deliverables specified in **Appendix A**. The payments will be made according to the payment schedule stated in the **SCC**.

41.2.1 *Advance payment:* Unless otherwise indicated in the **SCC**, an advance payment shall be made against an advance payment bank guarantee acceptable to the Client in an amount (or amounts) and in a currency (or currencies) specified in the **SCC**. Such guarantee (i) is to remain effective until the advance payment has been fully set off, and (ii) is to be in the form set forth in **Appendix D**, or in such other form as the Client shall have approved in writing. The advance payments will be set off by the Client in equal portions against the lump-sum installments specified in the **SCC** until said advance payments have been fully set off.

41.2.2 *The Lump-Sum Installment Payments.* The Client shall pay the Consultant within sixty (60) days after the receipt by the Client of the deliverable(s) and the cover invoice for the related lump-sum installment payment. The payment can be withheld if the Client does not approve the submitted deliverable(s) as satisfactory in which case the Client shall provide comments to the Consultant within the same sixty (60) days period. The Consultant shall thereupon promptly make any necessary corrections, and thereafter the foregoing process shall be repeated.

41.2.3 *The Final Payment* .The final payment under this Clause shall be made only after the final report l have been submitted by the Consultant and approved as satisfactory by the Client. The

Services shall then be deemed completed and finally accepted by the Client. The last lump-sum installment shall be deemed approved for payment by the Client within ninety (90) calendar days after receipt of the final report by the Client unless the Client, within such ninety (90) calendar day period, gives written notice to the Consultant specifying in detail deficiencies in the Services, the final report. The Consultant shall thereupon promptly make any necessary corrections, and thereafter the foregoing process shall be repeated.

41.2.4 All payments under this Contract shall be made to the accounts of the Consultant specified in the **SCC**.

With the exception of the final payment under 41.2.3 above, payments do not constitute acceptance of the whole Services nor relieve the Consultant of any obligations hereunder.

42. Interest on Delayed Payments

42.1 If the Client had delayed payments beyond fifteen (15) days after the due date stated in Clause GCC 41.2.2 , interest shall be paid to the Consultant on any amount due by, not paid on, such due date for each day of delay at the annual rate stated in the **SCC.**

G. FAIRNESS AND GOOD FAITH

43. Good Faith

43.1 The Parties undertake to act in good faith with respect to each other's rights under this Contract and to adopt all reasonable measures to ensure the realization of the objectives of this Contract.

H. SETTLEMENT OF DISPUTES

44. Amicable Settlement

44.1 The Parties shall seek to resolve any dispute amicably by mutual consultation.

44.2 If either Party objects to any action or inaction of the other Party, the objecting Party may file a written Notice of Dispute to the other Party providing in detail the basis of the dispute. The Party receiving the Notice of Dispute will consider it and respond in writing within fourteen (14) days after receipt. If that Party fails to respond within fourteen (14) days, or the dispute cannot be amicably settled within fourteen (14) days following the response of that Party, Clause GCC 45.1 shall apply.

45. Dispute Resolution

45.1 Any dispute between the Parties arising under or related to this Contract that cannot be settled amicably may be referred to by either Party to the adjudication/arbitration in accordance with the provisions specified in the **SCC**.

II. General Conditions

Attachment 1: Bank's Policy – Corrupt and Fraudulent Practices

(the text in this Attachment 1 shall not be modified)

Guidelines for Selection and Employment of Consultants under IBRD Loans and IDA Credits & Grants by World Bank Borrowers, dated January 2011:

"**Fraud and Corruption**

1.23 It is the Bank's policy to require that Borrowers (including beneficiaries of Bank loans), consultants, and their agents (whether declared or not), sub-contractors, sub-consultants, service providers, or suppliers, and any personnel thereof, observe the highest standard of ethics during the selection and execution of Bank-financed contracts [footnote: In this context, any action taken by a consultant or any of its personnel, or its agents, or its sub-consultants, sub-contractors, services providers, suppliers, and/or their employees, to influence the selection process or contract execution for undue advantage is improper.]. In pursuance of this policy, the Bank:

(a) defines, for the purposes of this provision, the terms set forth below as follows:

  (i) "corrupt practice" is the offering, giving, receiving, or soliciting, directly or indirectly, of anything of value to influence improperly the actions of another party[1];

  (ii) "fraudulent practice" is any act or omission, including misrepresentation, that knowingly or recklessly misleads, or attempts to mislead, a party to obtain financial or other benefit or to avoid an obligation[2];

  (iii) "collusive practices" is an arrangement between two or more parties designed to achieve an improper purpose, including to influence improperly the actions of another party[3];

---

[1] For the purpose of this sub-paragraph, "another party" refers to a public official acting in relation to the selection process or contract execution. In this context "public official" includes World Bank staff and employees of other organizations taking or reviewing selection decisions.

[2] For the purpose of this sub-paragraph, "party" refers to a public official; the terms "benefit" and "obligation" relate to the selection process or contract execution; and the "act or omission" is intended to influence the selection process or contract execution.

[3] For the purpose of this sub-paragraph, "parties" refers to participants in the procurement or selection process (including public officials) attempting either themselves, or through another person or entity not participating in the procurement or selection process, to simulate competition or to establish prices at artificial, non-competitive levels, or are privy to each other's bid prices or other conditions.

(iv) "coercive practices" is impairing or harming, or threatening to impair or harm, directly or indirectly, any party or the property of the party to influence improperly the actions of a party[4];

(v) "obstructive practice" is

(aa) deliberately destroying, falsifying, altering, or concealing of evidence material to the investigation or making false statements to investigators in order to materially impede a Bank investigation into allegations of a corrupt, fraudulent, coercive, or collusive practice; and/or threatening, harassing, or intimidating any party to prevent it from disclosing its knowledge of matters relevant to the investigation or from pursuing the investigation, or

(bb) acts intended to materially impede the exercise of the Bank's inspection and audit rights;

(b) will reject a proposal for award if it determines that the consultant recommended for award or any of its personnel, or its agents, or its sub-consultants, sub-contractors, services providers, suppliers, and/or their employees, has, directly or indirectly, engaged in corrupt, fraudulent, collusive, coercive, or obstructive practices in competing for the contract in question;

(c) will declare mis procurement and cancel the portion of the Loan allocated to a contract if it determines at any time that representatives of the Borrower or of a recipient of any part of the proceeds of the Loan were engaged in corrupt, fraudulent, collusive, coercive, or obstructive practices during the selection process or the implementation of the contract in question, without the Borrower having taken timely and appropriate action satisfactory to the Bank to address such practices when they occur, including by failing to inform the Bank in a timely manner they knew of the practices;

(d) will sanction a firm or an individual at any time, in accordance with prevailing Bank's sanctions procedures[5], including by publicly declaring such firm or an ineligible, either indefinitely or for a stated period of time: (i) to be awarded a Bank-financed contract, and (ii) to be a nominated[6] sub-consultant, supplier, or service provider of an otherwise eligible firm being awarded a Bank-financed contract.

---

[4] For the purpose of this sub-paragraph, "party" refers to a participant in the selection process or contract execution.

[5] A firm or an individual may be declared ineligible to be awarded a Bank-financed contract upon (i) completion of the Bank's sanctions proceedings as per its sanctions procedures, including inter alia: cross-debarment as agreed with other International Financial Institutions, including Multilateral Development Banks, and through the application of the World Bank Group corporate administrative procurement sanctions procedures for fraud and corruption; and (ii) as a result of temporary suspension or early temporary suspension in connection with an ongoing sanctions proceedings. See footnote 12 and paragraph 8 of Appendix 1 of these Guidelines.

[6] A nominated sub-consultant, supplier, or service provider is one which has been either (i) included by the consultant in its proposal because it brings specific and critical experience and know-how that are accounted for in the technical evaluation of the consultant's proposal for the particular services; or (ii) appointed by the Borrower.

III. Special Conditions of Contract

Number of GC Clause	Amendments of, and Supplements to, Clauses in the General Conditions of Contract
1.1(b) and 3.1	**The Contract shall be construed in accordance with the law of *Republic of India*.**
4.1	**The language is: English**
6.1 and 6.2	**The addresses are:** **Client : Ministry of Housing and Urban Affairs (MoHUA)** Address: 202-C Nirman Bhawan, Maulana Azad Road, New Delhi. **Attention: Mr. G.Vijay Kumar** Under Secretary,Ministry of Housing and Urban Affairs **Facsimili:** Telephone: 011-23063217 **(E-mail):** g.vijaykumar@nic.in and g.vijaykumar.moud@gmail.com **Consultant : M/s IPSOS Research Private Limited(Lead),** Address: 801,8th Floor,Vipul Square, B-Block, Sushant Lok, Part-1, Gurgaon-122003, Haryana, India **Attention: Mr. Parijat Chakraborty**, Executive Director and Head of Public Affairs and Loyalty **Facsimile** :+91 9810496838, 0124 4692400, Fax 0124 4692401 **E-mail :** parijat.chakraborty@ipsos.com
8.1	M/s IPSOS Research Private Limited (Lead) in consortium M/s Athena Infonomics India Private Limited. and The Economist Group Limited. **The Lead Member on behalf of the consortium is** M/s IPSOS Research Pvt. Ltd.
9.1	**The Authorized Representatives are:** **For the Client:** *Mr. G.Vijay Kumar* *Under Secretary,* ***Ministry of Housing and Urban Affairs*** g.vijaykumar@nic.in and g.vijaykumar.moud@gmail.com **For the Consultant:** **Mr. Parijat Chakraborty**, Executive Director and Head of Public Affairs and Loyalty Email- parijat.chakraborty@ipsos.com
11.1	No additional provisions
12.1	**Termination of Contract for Failure to Become Effective:** **The time period shall be One Month**

13.1	**Commencement of Services:** **The number of days shall be 10 days** Confirmation of Key Experts' availability to start the Assignment shall be submitted to the Client in writing as a written statement signed by each Key Expert.
14.1	**Expiration of Contract:** **The time period shall be 20 Weeks**
21 b.	**The Client reserves the right to determine on a case-by-case basis whether the Consultant should be disqualified from providing goods, works or non-consulting services due to a conflict of a nature described in Clause GCC 21.1.3** Yes

27.2	**The Consultant shall not use any documents and software for purposes unrelated to this Contract without the prior written approval of the Client**.
32.1 **(a) through (e)**	**As defined in clause 7.8 of the Term of Reference**
38.1	**The Contract price is:** INR 10,94,28,200/- *[INR Ten Crores Ninety Four Lakhs Twenty Eight Thousand and Two Hundred only]* ***exclusive*** **of local indirect taxes.** **Any indirect local taxes chargeable in respect of this Contract for the Services provided by the Consultant shall be "reimbursed" by the Client to the Consultant.** **The amount of such taxes is INR 1,96,97,076 (GST @ 18%)on the basis of the estimates provided by the Consultant in Form FIN-2 of the Consultant's Financial Proposal.**
39.1 and 39.2	**Client shall reimburse the Consultant, all local identifiable indirect taxes (itemized and finalized at Contract negotiations) are reimbursed to the Consultant or are paid by the Client on behalf of the Consultant**.

41.2	**The payment schedule:** **For the Local Currency INR 10,94,28,200 exclusive of indirect taxes.** Payment of remuneration will be as follows: ➢ 1st payment: Inception Report: Twenty Percent (20%) will be paid on acceptance/approval of the inception report. ➢ Draft City Assessment Report: Fifty Percent (50%) will be paid on acceptance approval of Draft Final Report. ➢ Final City Assessment Report: Thirty percent (30%) will be paid on acceptance/approval of Final Report. Note: The Consulting firm will submit the invoice in the name of Project Director (CBUD), Ministry of housing and Urban Affairs, Nirman Bhawan, Maulana Azad Road, New Delhi-110011.
41.2.4	**The accounts are:** for local currency: Beneficiary Name-IPSOS Research Private Limited. Bank Name-HSBC Account No.-030-777080-001 IFSC Code-HSBC0400002
42.1	**The interest rate is**: **Equivalent to Inflation at the relevant time.** **Foreign currency: LIBOR+2%**
45.1	**Disputes shall be settled by arbitration in accordance with the following provisions:** 1. Selection of Arbitrators. Each dispute submitted by a Party to arbitration shall be heard by a sole arbitrator or an arbitration panel composed of three (3) arbitrators, in accordance with the following provisions: (a) Where the Parties agree that the dispute concerns a technical matter, they may agree to appoint a sole arbitrator or, failing agreement on the identity of such sole arbitrator within thirty (30) days after receipt by the other Party of the proposal of a name for such an appointment by the Party who initiated the proceedings, either Party may apply to *Council of Arbitrators*, *New Delhi* for a list of not fewer than five (5) nominees and, on receipt of such list, the Parties shall alternately strike names therefrom, and the last remaining nominee on the list shall be the sole arbitrator for the matter in dispute. If the last remaining nominee has not been determined in this manner within sixty (60) days of the date of the list, *Council of Arbitrator*, *New Delhi* shall appoint, upon the request of either Party and from such list or otherwise, a sole arbitrator for the matter in dispute. (b) Where the Parties do not agree that the dispute concerns a technical matter, the Client and the Consultant shall each

appoint one (1) arbitrator, and these two arbitrators shall jointly appoint a third arbitrator, who shall chair the arbitration panel. If the arbitrators named by the Parties do not succeed in appointing a third arbitrator within thirty (30) days after the latter of the two (2) arbitrators named by the Parties has been appointed, the third arbitrator shall, at the request of either Party, be appointed by *Secretary, Council of Arbitration, New Delhi*

(c) If, in a dispute subject to paragraph (b) above, one Party fails to appoint its arbitrator within thirty (30) days after the other Party has appointed its arbitrator, the Party which has named an arbitrator may apply to the *Secretary, Indian Council of Arbitration, New Delhi* to appoint a sole arbitrator for the matter in dispute, and the arbitrator appointed pursuant to such application shall be the sole arbitrator for that dispute.

Note: All disputes between domestic consultant the proceeding shall be in accordance with Indian Arbitration Act, 1996.

2. Rules of Procedure. Except as otherwise stated herein, arbitration proceedings shall be conducted in accordance with the rules of procedure for arbitration of the United Nations Commission on International Trade Law (UNCITRAL) as in force on the date of this Contract. For any dispute between a domestic consultant, the proceedings shall be in accordance with Indian Arbitration Act, 1996.

3. Substitute Arbitrators. If for any reason an arbitrator is unable to perform his/her function, a substitute shall be appointed in the same manner as the original arbitrator.

4. Nationality and Qualifications of Arbitrators. The sole arbitrator or the third arbitrator appointed pursuant to paragraphs 1(a) through 1(c) above shall be an internationally recognized legal or technical expert with extensive experience in relation to the matter in dispute and shall not be a national of the Consultant's home country *[If the Consultant consists of more than one entity, add:* or of the home country of any of their members or Parties*]* or of the Government's country. For the purposes of this Clause, "home country" means any of:

(a) the country of incorporation of the Consultant *[If the Consultant consists of more than one entity, add:* or of any of their members or Parties*]*; or

(b) the country in which the Consultant's [or any of their members' or Parties'] principal place of business is located; or

	(c) the country of nationality of a majority of the Consultant's [or of any members' or Parties'] shareholders; or (d) the country of nationality of the Sub-consultants concerned, where the dispute involves a subcontract.
	5. Miscellaneous. In any arbitration proceeding hereunder: (a) proceedings shall, unless otherwise agreed by the Parties, be held in a neutral venue or mutually agreed venue. (b) the English language shall be the official language for all purposes; and (c) the decision of the sole arbitrator or of a majority of the arbitrators (or of the third arbitrator if there is no such majority) shall be final and binding and shall be enforceable in any court of competent jurisdiction, and the Parties hereby waive any objections to or claims of immunity in respect of such enforcement.

IV. Appendices

APPENDIX A– TERMS OF REFERENCE

7.1 Background

i. The Government of India along with State and Local Governments is implementing several flagship Urban Missions for improving various aspects of urban development in Indian cities. An underlying goal of these initiatives is to make Indian cities more 'Liveable'. This will mean not only providing good quality core infrastructure and services, but also developing cities with ample opportunities for work, entertainment and cultural activities, improved social infrastructure and economic opportunity;

ii. In order to do this through a structured approach it is important to create a common minimum framework, which cities can use to assess their 'Liveability' and measure their progress over time. In this context, the Ministry of Housing and Urban Affairs has developed a set of 'Liveability Standards in Cities'. These will act as a guiding framework for cities to chart their pathway towards liveability and result in a systematic improvement in the quality of life of citizens in Indian cities. The draft 'Liveability Standards in Cities' as at http://smartcities.gov.in/upload/uploadfiles/files/LiveabilityStandards.pdf ;

iii. A total of 79 different Liveability Standards are proposed across 15 different categories. The Ministry proposes to conduct an 'Annual Assessment of Liveability in Cities' across the various standards and develop a 'City Liveability Index' – an annual index of the liveability standards in Indian cities. This is an ambitious national project requiring yearly compilation of a large number of datasets across the various Liveability Standards;

iv. A total of 116 cities will be covered in Year 1 (list of cities for Year 1 is provided at Annexure A), and the coverage of cities may be extended in subsequent years. The following classification of cities will be used for the purpose of the study

Classification*		**Population range**
1	Small Towns	Less than 50,000 population
2	Medium Towns	Population ≥ 50,000 < 5 lakh
3	Large Towns	Population ≥ 5 lakh < 1 million
4	Metropolitan Cities	Population ≥ 1 million < 5 million

5	Megapolis	Population ≥ 5 million

** Based on the Classification given in the URDPFI guidelines, 2014*

V. Given the magnitude of data collection and field surveys required, the MoHUA wishes to engage the services of a reputed national/international agency/institution for **Conducting a study and field survey of Liveability Standards** (the **'Assignment'**) across all cities included in the study. This will cover all relevant data required by the MoHUA for computing the 79 Liveability Standards. The data generated from the assignment will be used by the MoHUA for calculating the City Liveability Index of cities on an annual basis;

VI. The contract will be valid for activities in Year 1 (as defined in Clause 7.5) only.

7.2 *Objective of the Assignment*

i. Compile reliable and high quality data for all cities included in the study, as required by the MoHUA for the computation of Liveability Indexes and as prescribed in the 'Liveability Standards in Cities' document;

ii. Develop a robust electronic database of datasets that can be used to assess the progress of cities on an annual basis.

7.3 *Description of Tasks*

The Tasks to be performed and key activities under the assignment will include:

Initiation Activities

i. Conduct State-level workshops (1-day each) on behalf of MoHUA Cost for such workshops must be included in the proposal. The workshops shall achieve the following:

  a. Familiarise States and City governments regarding the overall programme, process that will be followed for data collection, and likely timelines;

  b. Provide State and City governments with a detailed list of data points needed, likely areas of support and information on how the cities should prepare for the surveys;

  c. Help in preparing a preliminary time-line for city meetings and field visits based on preferences indicated by states and cities;

ii. Conduct a Reconnaissance Study of all cities included in the project (as per Annexure A). The study shall inter-alia include:

  a. City-level kick-off meetings with key officials from City governments, Smart City SPVs, various departments and utilities, DISCOMs etc. for assessing data availability and sources, preferred timelines, key nodal officers etc.;
  b. Study of city demography, socio-economic stratification and geography that has a bearing on sample size and distribution;
  c. Study of existing reports, studies, alternative data sources etc.

iii. Prepare and submit to the MoHUA, an Inception Report (separate for all cities included in the study), including inter-alia the following:
  a. Detailed Plan of Action including likely sources of data, proposed field surveys, sample size and distribution, nodal officers etc.;
  b. Proposed timelines for city field visits as discussed and finalized with MoHUA and State/City governments;
  c. Specific survey and raw data collection formats for the 79 standards as finalized in discussion with MoHUA;

iv. Convey the finalized schedule and Plan of Action to cities allowing them to mobilise support for the activities. A Minimum of 15 days of preparation period must be given to cities before data collection and surveys;

Data Collection and Field Surveys

v. Mobilize Field Teams (with adequate and qualified manpower as indicated in Clause 7.6) for obtaining data required for all 79 Standards;
vi. Conduct field surveys for a statistically relevant sample as per nationally/internationally accepted standards for sampling size and distribution. The method for determining sample size and distribution should be as proposed in the bid during RfP stage and finalized in consultation with the MoHUA as part of the Inception Report;
vii. Maintain and submit all raw data and data collection forms to MoHUA without any editing and/or masking (including particulars such as names of respondents, exact address and contact details, date and time of survey, and GPS coordinates in case of samples taken for pollution etc.);
viii. Conduct analysis of the raw data through the Analytics Team ((with adequate and qualified manpower as indicated in Clause 7.6) and prepare aggregate data sets for all 79 standards for each of the cities adopting the methodology as prescribed in http://smartcities.gov.in/upload/uploadfiles/files/MethodologicalReportFinal.pdf

ix. Submit Draft City Assessment Report to the MoHUA (separate for each city), including inter-alia the following:
  a. Database of aggregate data in the format as mutually agreed
  b. All raw data and data sheets;
  c. Sources of data, assumptions (if any), record of discussions with key stakeholders, minutes of city kickoff meeting and other relevant documentation;

x. Submit Draft City Assessment Report to respective city and state governments for inviting comments and suggestions (if any). A period of 15 days shall be given to cities to submit their responses, after which the data will be deemed to be accepted by the city,

xi. Submit Final City Assessment Report to the MoHUA after including any recommendations of the MoHUA and after suitably incorporating any valid feedback received from cities/states with the approval of the MoHUA;

xii. Develop and maintain a digital database of all data sets collected every year for each city. The format should be finalized in consultation with the MoHUA and enable examination of raw data as well as aggregated numbers on a year-on-year basis;

Other support activities

xiii. Provide all necessary support to the NIUA or other reputed third-party agency(ies) appointed by the MoHUA for undertaking verification of the data submitted by the Consultant;

xiv. Provide any technical support as required by the MoHUA or its assigned team during the development of scoring sheets and city indexes for the various Standards;

xv. Conduct a National workshop (1-day) on behalf of MoHUA for disseminating the findings of the Ministry. Costs for the workshop must be included in the proposal.

7.4 *Results to be achieved*

The Assignment will result in the creation of a robust database (updated annually) of critical datasets across 79 different Liveability parameters in Indian Cities. This will form the basis for the Ministry to compute an annual City Liveability Index of cities. This can also act as a repository of critical data for encouraging research on cities in India.

7.5 *Timelines and Deliverables for Year 1**

Report	Time line	Documents	Deliverables and Contents
Inception Report	8 weeks from start date as per contract	Hard copies, and Electronic version	Separate for each city, including: a. Detailed Plan of Action, Minutes of state level workshops, , city meetings including likely sources of data, proposed field surveys, sample size and distribution, nodal officers etc.; b. Proposed timelines for city field visits as discussed and finalized with MoHUA and State/City governments; c. Specific survey and raw data collection formats for the 79 standards as finalized in discussion with MoHUA;
Draft City Assessment Report	12 weeks from start date as per contract	Hard Copies, and Electronic version	Separate for each city, including: a. Database of aggregate data in the format as mutually agreed. b. All raw data and data sheets; c. Sources of data, assumptions (if any), record of discussions with key stakeholders, minutes of city kickoff meeting and other
Final City Assessment Report	20 weeks from start date as per contract	Hard Copies, and Electronic version	Separate report for each city. The Reports should include all recommendations of the MoHUA on the Draft Reports. The Report should also incorporate any valid suggestions/feedback received from cities/states with the approval of the MoHUA.

***** Timelines for subsequent years will be as decided by MoHUA

7.6 *Team Composition and Qualification Requirement for key Experts*

a. **Team (full-time):** Given that the assignment requires a deep understanding of the urban sector, as well as of economics, statistics and field studies, the Team Leader and the Core Team of experts must have suitable skills for undertaking the assignment and successfully completing the tasks enumerated. The Team Leader should bring to the table a strong mix of academic accomplishments, urban sector experience and experience of leading similar national/international assignments.

b. **Analytics Team (full-time):** should be manned with experts capable of analysing large data sets, checking and correcting for errors and inconsistencies, development and management of digital databases and preparation of reports. The team should therefore include adequate number of IT specialist(s), database management/ MIS expert(s), urban economics/planning specialists for **Core** data analysis and verification.

c. **Field Teams per city:** should be manned with adequate number of persons (depending upon city size, stratification and geography) capable of conducting field surveys and extracting credible secondary data from various city/state departments and utilities. Each team should therefore include adequate number of qualified urban professionals for extracting secondary data from various sources, persons with market/field research experience and data processors/ data entry operators. Each team should be led by a suitably experienced Urban Specialist (Urban Planner/ Urban Economist) with at least 10 years of experience in the urban sector and at least 5 years of experience in secondary and primary data collection and analysis. The Core Team proposed should be able to demonstrate the qualifications and experience as prescribed in table below:

7.7 *Core Team (CV to be evaluated)*

Position	**Minimum Qualifications & skills**	**Minimum Experience**
Team Leader	Qualification - Bachelor's Degree in Engineering/Architecture/Planning/Economics/Management with post-graduate degree in Planning/Management or equivalent from a recognized University In-depth knowledge of all aspects of urban sector, including governance-related, socio-economic, environmental and engineering aspects Proven academic credibility in terms of published papers, articles etc. Experience of leading national level urban research assignments Experience of leading	At least 20 years of which at least last 10 years must have been for the Urban Sector
Urban Management Specialist/ Planning Expert	Bachelor's Degree in Engineering/Architecture/Planning with post-graduate degree in Management or equivalent from a recognized University Good knowledge of urban sector Experience of playing a core role in similar national/international data collection and ranking assignments	At least 15 years of experience in the Urban Sector
Market Research Specialist	Master's Degree in Management from a recognized University Good knowledge of mobilization and organization for market research Experience of leading national/international field research assignments	At least 15 years of which at least last 7 years must have been in the field of Market Research
Statistician	Master's Degree in Statistics from a recognized University Good knowledge of urban data sources and urban data analysis Experience of statistically designing and managing sample surveys	At least 15 years of which at least last 5 years must have been for the Urban Sector

7.8 *TA management and counterpart staff*

The assignment will be contracted by the MoHUA (erstwhile MOUD) for carrying out the assignment.

Items to be provided by the MoHUA

a. The MoHUA will set up a Coordinating Team at the national level for providing guidance and support to the Core Team for executing the assignment;
b. Provide support for organizing various State and city level workshops and meetings;.
c. Provide feedback from time to time for finalizing deliverables;
d. Set up a monitoring system for timely validation of data and finalization of aggregate data.

Items to be provided by the agency

In addition to the results and deliverables listed above, the Consultant will:

a. Provide for all manpower, materials and equipment necessary for carrying out the assignment;
b. Provide all resources for report production and necessary translations;
c. Provide all Computers and software required by the teams for carrying out the tasks;
d. Arrange for all transportation and travelling required for the teams including Investigations.

Annexure A: List of Cities

Sl. No.	Name of State	Name of City	Population
1	Andaman Nicobar	Portblair	1,40,572
2	Andhra Pradesh	Kakinada	3,12,538
3	Andhra Pradesh	Visakhapatnam	17,28,128
4	Andhra Pradesh	Tirupati	2,87,482
5	Andhra Pradesh	Amaravati	1,03,000
6	Andhra Pradesh	Vijayawada	10,34,358

F.No.K.14012/101(11)/2017-SCM-III(V)/CBUD
Government of India
Ministry of Housing and Urban Affairs
CBUD Division

Nirman Bhavan, New Delhi
Dated January 2018

To
Shri. Parijat Chakraborty,
Executive Director and Head of Public Affairs,
M/s IPSOS Research Private Limited, 801, 8th Floor, Vipul Square, B-Block,
Sushant Lok, Part-1, Gurgaon-122016, Haryana.

Subject: Selection of M/s IPSOS Research Pvt. Ltd (lead) in consortium with M/s Athena Infonomics Pvt. Ltd, and M/s The Economist Group Limited' for Selection of Consulting firm for the assignment of Liveability Indices for 116 Cities in India- Issue of Letter of Intent Reg.

Sir,

This has a reference to your applications for the Request for Expression of Interest (REOI) issued by the Ministry on 8th September 2017 and the Request for Proposal (RFP) issued by the Ministry on 27th November 2017 regarding "**Selection of Consulting firm for the assignment of Liveability Indicies for 116 Cities in India**" under Capacity Building for Urban Development project. On the basis of combined Technical and Financial evaluation of the bids, in consultation with the World Bank, this Ministry issues a **Letter of Intent** to the consortium led by M/s IPSOS to carry out the project activities mentioned in the RFP document. The total cost of the Financial Proposal is Rs. 10,94,28,200 (without applicable taxes).

2. You are requested to contact the concerned CBUD officials of the Ministry for technical negotiations on the project and further signing of the contract immediately.

3. You are also requested to send your acceptance to this Letter of Intent.

(Sanjay Kumar)

Joint Secretary to Government of India
